# THE ASSESSMENT OF THE PROPERTY MINING, BUSINESS AND STOCKS.

# **WEEK'S BUSINESS** ON THE EXCHANGE

Stock Transactions Involved 536, 350 Shares and \$274,885.

MARKET WAS FEVERISH.

Short Interests are Very Heavy and Market Tendency is to Beceme Unwieldy.

On the exchange this week transactions involving 536,350 shares and \$274,-885.33 were recorded. The condition of the market at the close of the week remains unchanged. There is still little or no outside element in the trading except in a few stocks and the market is very largely oversold. Just what the effect is going to be can not be foretold, but it is certain that the "shorts" are going to be squeezed in an attempt to cover. An unnatural condition prevails at the present time which could not exist if any outsiders were dealing in stocks. Notwithstanding the very large transactions that have been recorded it is reported that in comparatively few instances have actual transfers of stock been made on the books of the various companies. As the week closes there is a tendency among some outside people with money to buy some of the stock of the various companies. This has already been done by some and there is little doubt that next week trading will be more active. The week closes with the market in a bad condi-tion and all stocks lower and feverish.

Today's business was light in com-parison to yesterday and at lower figures. Ajax with the assessment announced, dropped from about 29 yesterday to 27½, but recovered to 28. It is thought that the assessment will have a tendency to strengthen rather than depress the stock as reports from the property are of a very favorable activation. property are of a very favorable nature property are of a very favorable nature. Carisa closed the week with light trading and Daly-West loosened up to the extent of only 50 shares, which sold for \$25.75. Lower Mammoth opened at 75, almost 10 cents off from yesterday, and closed lower, while May Day from 51 advanced to 52, almost 3 cents lower than Monday's figures. than Monday's figures.

Sunshine showed some strength and activity at figures above 27. The mill on the property will probably be put in commission next week. Uncle Sam Con. from 51 advanced to 52% and closed

at 52%. California again furnished the excitement and was the most active stock on the board. Sales were made at the opening at 28 and the stock was then hammered to 25. It is said that nearly all the stock of the California is held closely and that board transactions are between brokers anxious to keep fig-ures down until short contracts may be filled. Regarding the deal it is pro-nounced a "sure thing" but even see there are many sorry to have the present management retired. Yankee Con. took another tumble and sales at \$2.00 even were recorded. The following quotations were put up at the close this

21 Walker Bros. Bank B'ld'g, Tel, 1257z. AJAX ASSESSMENT LEVIED.

Shareholders Called On for Five Cents a Share or \$15,000.

rectors of the Ajax Mining company met, as it was announced in yesterday's 'News." they would probably do, and levied an assessment of 5c a share or the capital stock of the company. The \$15,000 so obtained will be used to lift the floating indebtedness of the com-pany amounting to \$12,000. During last year Manager Weir paid \$10,000 on the bonded indebtedness of the company, amounting to \$45,000, and carried on development work which is beginning to show results. The \$12,000 floating in debtedness was for money advanced to the company for the purchase of new Manager Weir said yester day that the mine is looking well and that at present it is better equipped

### SHEBA MINE DEVELOPMENT. Owners Expect Much from the Ne vada Property.

than ever before.

The Sheba mine is giving many indi cations of developing into a very profitable undertaking for the Salt Lakers When President Bartch returned from

the property about a month ago he left a small force at work clearing the old tunnels, and removing waste which has accumulated in the drifts and stopes during the years it has been worked by leasers. Only one man was started to work on development of ore, and a point was chosen for that just under the hanging wall, about 40 feet from the cross fissure and some 30 feet highthe cross lissure and some 30 feet high-er than the floor from which the mil-lions of former product had been taken. A small streak was visible which soon begun to widen, and the last news from the mine was to effect that in advanc-ing some ten feet and widening to about ten feet the ore body has grown to a thickness of two feet and a width of eight feet. The ore taken out is characteristic of that usually found in the corresponding position in the great ore shoot, and is estimated to average \$75 to \$100 per ton for about three tons that have been extracted.

Another man has been ordered to that stope to work a second shift. Then in the old tunnel which has been cleared to a distance of 500 feet from the entrance, the location has been chosen for a stope where seams of very rich ore are showing in the roof of the tunnel. Two shifts are to be put of there. A third place where a double shift will be started of once is in a tunnel high on the Line, under the hanging wall where a great body of iron carrying much broken quartz was

opened long ago, but never sunk on.

The whole force is to be increased to The whole force is to be increased to ten men, and with such a force there ought to be a showing of values within a brief time. It is particularly noticable that the distances between ore bodies has not been very great, and most of the gaps on the great "floor" from which more than two millions and a half was taken the whole mass is streaked with quartz seams, a pure white, and carrying values enough to justify mining in a large way for con-

with work at the Sheba group, but up at the Mammoth group, nearly 1,500 feet higher in the basin, there is as much as three feet of snow on the level.

The showing that is made in that group of claims will justify extensive development as soon as the season wil permit of working there.

# Shipments from Tintic.

Eureka, Feb. 15 .- During the week 51 cars of ore, five cars of concentrates and one bar of bullion were shipped from the district. Shipments were as

Claim Jumping in Utah. Utah was not altogether free from claim jumpers on the night of Dec. 31, 1961, and some very interesting stories have reached the city regarding operations on that night. It is a fact that claim-jumping, while perfectly lawful, is a decided unpopular thing to do and yet when one considers the very eral mining laws of this country it does seem as if a man who does not comply with the requirements should be dis-possessed of his claims to mineral bearing or other lands. Uncle Sam permits any citizen to locate on land not already settled on with the provision that certain development work should be done every year. If that work is not done before Jan. 1 of each year the moment after 12 midnight on the night of Dec. 31, any person may relocate the claims. Claim jumping is some times planned months ahead of time and in thus been lost to the original claimants

# Location Notices Filed.

[Special to the "News."] . Provo, Feb. 15.—Spicer Lewson et al have filed notices of location of the Gray Eagle Nos, 1 to 10 mining claims in Camp Floyd mining district situated in the vincinity of the North Star lode. Transfers by quit claim deed have been made by E. Shelly of Mount Ne-ho to Charles Q. Albertson of Chicago

nd seventoen other springs near Mount Nebo; consideration, \$500.

Lands in section 9 of township 10.

south, range I west, and vicinity; consideration, \$2,000. The Hillside Tunnel and five other mining claims in Tintic district, consideration, \$501. President M. C. Leetham and Secretary W. H. Dusenberry have filed with change in the articles of incorporation is \$100,000, divided into 400,000 shares of the par value of 25 cents each. The par

## value of the shares of the company was formerly \$10 each. MINING NOTES.

Wayne Choate, the mining expert, leaves for the East today. Col. Ellis has gone to California on

legal business for Capt. De Lamar. The Conklin sampler was in receipt today of 4 cars from Tintic and 1 from

Superintendent McCree of the Yankee Con, is in the city on a visit of a few

Managing Director Bert Holden of the United States company has gone

Simon Bamberger, manager of the Lower Mammoth, will return home either tomorrow or Monday. President Holbrook and Manager Loose of the Grand Central visited

Loose of the Grand Central Salt Lake yesterday on business. The consumption of copper by the General Electric company averages 2,500,000 pounds mouthly or 1,250 tons. The Daly-West annual meeting is set for Monday and some very interesting

reports will be given to the stockhold-Manager C. E. Allen of the Centen to that property and the Uncle Sam at

Ore and bullion settlements in this my yesterday amounted to \$58,000; T. es & Co., \$46,400; McCornick & Co. \$11,600.

President Franklin of the Yankee and other companies has returned from his visit to the Blackbird and Bluebird groups in Beaver county. Ad ices from Denver state that Sam-

uel Newhouse is now there and that in all probability he will extend his trip to Utah within the next few weeks. Ben T. Lloyd has received two very interesting samples of copper ore from the 275 foot level of the shaft of the Copper Mountain group near Milford.

On the Boston exchange yesterday Daly-West was traded in around \$25.50 Bingham at \$23; Utah at \$24; and Unit-ed States at \$16,27%. Boston Con. was quoted at \$3.50 bid and \$3.75 asked. Don C. Robbins left last night for

property near Green river. Drilling ecommenced today from the 640 foot General Manager Geo. H. Dern of the Con. Mercur has returned from a visit to the mine. He states that in the Sil-ver Incline 300 feet from the Luiu In-

the California-Utah Oil company's

line, a full face of \$6.00 ore has been encountered. "Great advantages could be gained for the mineral industry of the country by concerted action on the part of the men most interested therein," prominent operator today, "" "and not the least would be the establishment of a department of mines among the national bureaus represented by a secretary in the president's cabinet. A Francisco; R. McCutcheon, Idano Falis; proposition is on foot to establish a of commerce and have mines included in it. Such a proposal could be justly put down by a united movement on the part of the mining

Articles of incorporation of the Utah Copper and Gold Mining company have been filed with the county clerk. The capital stock of the company is \$500, 000 in \$1 shares and it owns the North Greenback group of claims, comprisin, the North Greenback and the North Greenback Nos. 1, 2 and 3, and a lease and bond on the Leon Jack, Isabella, American Eagle, Mountain Chief, Anaconda, Black Hawk, Anderson and Nettie Nos. 1 and 2, situated in Hickman and Dry canyons, on the east side of Skull valley. Tooele county. officers are: J. T. Hammond, president W. J. Robinson, vice president; D. H. Hammond, secretary and treasurer,

### BUSINESS NOTES.

Salt Lake owners of Logan realty have been much interested of late to notice the growing activity in real estate in the beautiful capital of Cache made since the purchase of the old Z. C. M. I. corner by a Logan syndicate they have been mostly confined to Second street, the sidewalks of which are now handsomely paved. The new Consolidated Wagon & Machine company has just bought a piece of ground adjoining its premises on this street, having a frontage of 68% feet and a depth of 297 feet. The price paid was \$5,500, and they will build at once. Across the street next to Thatcher Bros.' bank on the west, the Home Fire Insurance company has disposed of 50 feet for \$52.50 per foot front and 12 feet further west for \$45 per foot. The buyers were the Co-op Grocery & Drug company, who will at once build on their property and remove their flourishing business from the old Z. C. M. I. corner to Second street. General business is also reported as being quite prosperous in Logan.

Local stocks during the past week have shown considerable activity, the feeling that easier money is close at hand having induced quite an inquiry for the favorites in the list. While the hew stock of the Consolidated Wagon & Machine company is not yet out, deals have been made in the preferred on the basis of \$100, \$101 and \$102. Suloved up to \$262, after the payment of Local insurance men are receiving

copies of the Coast Review extra for Feb. 11, covering the Patterson, N. J., conflagration. One hundred and two companies are involved, with \$2,989,165 to pay insurance, while the net losses amount to \$2,958,225. The heaviest insurance is \$200,000 paid by the Germania of New York. It is the remark here that insurance companies will shortly be forced to take drastic action in protecting themselves, even to withdraw-ing from certain states entirely, unless municipal authorities do something in the way of improvement of fire protec-

SCANDINAVIAN SINGERS ATTENTION!

The attention of Scandinavian sing ers and choirs is directed to the Latterday Saints' "Koralbok" (psalmody), for sale at this office. It has been in print for several years, gotten up by Mr. Olof Nilsson, for many years and until recently leader of the Danish-Norwegian choir, "Harmonien." It is now used by the two Scandinavian choirs, "Svea" and "Harmonien" of Salt Lake City, also by Scandinavian choirs in Ogden, Logan, Provo, Brig-ham City and other towns. Copies have also been furnished to choirs in Copenhagen, Stockholm and Christiania. It is printed in clear type, on fin white paper, contains 58 pieces of music, with the hymns printed both it Swedish and Danish-Norwegian lan guages. All Scandinavian choirs and organizations should obtain this work. gar stocks have been about the same as in recent weeks, Ogden showing a slight falling off; La Grande sugar is Salt Lake City, Utah. Special discounts Price, in paper cover, 50 cents per copy quoted at \$100. Deseret National Bank to agents, dealers and choirs,

# MARKET WAS VERY WEAK ONE

No Feature at Opening Except Advance in Met. St. Railway.

Caused a General Weakening - Bally Followed, Closing Being Active And Firm.

New York, Feb. 15 .- Metropolitan Etreet railway advanced by fractional steps to 1% over last night and Manhattan gained 11/4. Brooklyn Transit geelined a fraction. There were no other features of note at the opening. Metropolitan's advance brought out large offerings and the price broke to 21/2 under yesterday's close. Other prominent stocks relapsed quite generally below last night, St. Paul, Union Pacific and Pennsylvania losing large fractions. Manhattan lost its rise and there also was a point decline in Brooklyn Transit, New York Central, Baltimore & Ohio and Colorado & Southern first preferred fell 24. Shortly before II o'clock Amalgamated spurted up 1% to 69% without benefitting the general market. After some further acclines the market railfed under the influence of a recovery to 170% in Metropolitan. The bank statement weakened the market again. Metropolifan resisted the reaction and rose again strongly to 171%. Amalgamated Copper advanced to 70%. Shorts covered and rallied the market. Burlington, Cedar Rapids & Northern rose 5 points on three sales. The closing was active and firm at the rally.

# BUSINESS IN **COOD CONDITION**

Heavy Losses.

The Elements Have Caused Some

LABOR SITUATION BETTER.

Slight Decrease in February Railway Earnings-Steel Trade Shows There May be Too Much Prosperity.

New York, Feb. 14 .- R. G. Dunn & Co.'s Weekly Review of Trade tomorrow will say: "Business continues to progress satisfactorily, notwithstanding heavy losses through the elements. The new year has been unusually handicapped in this way, floods and snow blockades being closely followed by fires and explosions, destroying much property and retarding traffic. It is only another evidence of the solid basis upon which the Nation's industries are established that in each case plans for rebuilding on a grander scale were made before the shock of the catastro-

phe had fully passed. "The labor situation has distinctly improved during the past week. Disputes at woolen mills were adjusted, except as to the weavers, threatened disturbances in coal mines were averted, while street railway employes received voluntary advances in wages. A slight decrease of 3.5 percent in railway earnings for the first week in February, as compared with the same week of last year, was not surprising, in view of the many severe storms and the diminished

rate, but Texas jobbers will no longer be at a disadvantage of 10 cents as against New York and they will have 60 miles additional of mileage territory ovement in grain.
"In the iron and steel industry it is now being demonstrated that there is such a thing as too much prosperity. During the last few years there has been such a marvelous expansion in domestic business, that the capacity of the furnaces and mills, as well as transportation facilities, has failed to keep pace

"Interruption to movement by deep snow and the holiday were not sufficient explanation for the decrease of West-ern receipts of wheat to 2,292,992 bush-els, against 2,940,368 bushels last year. or of corn to 1.351.600 bushels, compared with 4.402.539 bushels a year ago. If present high figures are not attractive enough to bring out a more liberal movement, there is evidence of light supplies and prospect of continued strength. On the other hand, some neu-tralizing influence must be recognized in exports of wheat (flour included) from all parts of the United States, aggregating only 3,429,820 bushels, while Atlantic ports sent out but 396,075 bushels of corn, compared with 3,926,692 bushels a year ago.

"Failures for the week numbered 246 in the United States, as against 257 last year, and in Canada 33, against 40 last

Refused to Ke-open Poulett vs Poulett

London, Feb. 15 .- The lord chief justice, Baron Alverston, refused today to re-open the case of Poulett vs Poulett, in which Viscount Hinton, who at one time played an organ in the streets of London, sought to oust his step-brother, the youthful Earl Poulett, from the family estates. The lord chief justice thus confirmed the previous judgment in the case whereby it was declared that Viscount Hinton, under a family settlement, entered into in 1853, was deharred from claiming the property. barred from claiming the property in
