A medicine which has outsold all others for women in the past third of a century and being recommended by all those who have used it, is a good remedy to tie to. Dr. Pierce's Favorite Prescrip-tion is purely vegetable and does not contain a particle of alcohol to destroy the blood corpuscies and weaken the system.

It is in the shape of a barrel of wine with a stout old Dutchman sitting astride. His cap serves for a lid, and a gold tap lets out the cheering beverage. There is a little story about her majesty which if not true is at any rate new. A lady asked Princess Maud when she was still quite a little girl if it was true that the queen once boxed the ears of a boy whom she saw ill treating a dog. "No," said Princess Maud, "it is not true, but I am sure mamma would like to bare done it."

POSITION OF RUSSIAN WOMEN. "About ten years ago," writes an American woman, "I met a Russian lady of rank and wealth who congratulated me on being a citizen of a republic. As my allegiance to my sex is greater than it is to any theory ever established by men I replied that I could not see that being a citizen of a republic was a matter for any woman to be congratulated on. She was amazed at this and asked me for an explanation, whereupon I asserted that I was confident that our sex had not fared so badly, either politically or legally, at the hands of the Russian government as at the hands of the United States republic. Each of us wagered that the other was wrong, and to settle the question we agreed to gather certain data concerning women in our respective countries. We found that while in America millions of wives had no individual control over their property for about two centuries every wife in Russia had been the legal mistress of her own fortune; that while every woman householder in Russia had had the right to vote on all municipal matters for several centuries, millions of women in the American republie had no such rights; that 9,000 wives were deserted by husbands in the republic to 500 in Russia; that thousands of tiny girls were employed in facto-

Detroit, Mich., Jan. 31 .- About 2,000 persons were present in the light guard armory today at a mass-meeting that marked the close of the semi-annual meeting of the advisory board and executive board of the American Fed-eration of Catholic societies. Speaking of the aims of the federation, Bishop McFall of Trenton, N. J., said it would accomplish much in the direction of doing away with two great deficiencies of the Catholic church. One of these he said, was the lack of organized Catholic opinion, the other being the lack of an organ to disseminate such

But let the state examine our schools and if on ex-amination it is found that we are giving the children an education which comes up to the requirements of the state then let the state pay for it."
