

FIFTY-SECOND YEAR

PRESIDENT MAKES A SPEECH AT BUFFALO

Felicitates the Nations of This Continent Upon the Closeness of Their Friendship and Extends Hand of Fellowship.

Buffalo, Sept. 5.—What was probably the greatest crowd that ever gathered on the esplanade at the Pan-American grounds greeted the president with cheering cheers as he entered the stand at 11 o'clock this morning.

President's Speech. President Milburn, Director General Buchanan, commissioners, ladies and gentlemen:

"I am glad to be again in the city of Buffalo and exchange greetings with her people, to whose generous hospitality I am not a stranger and with whose good will I have been repeatedly and equally honored.

RAILROAD PROGRESS.

"At the beginning of the nineteenth century there was not a mile of steam railroad on the globe. Now there are enough miles to make its circuit many times. There was not a line of electric telegraph; now we have a vast mileage traversing all lands and all seas.

GREAT PROSPERITY.

"My fellow citizens, trade statistics indicate that this country is in a state of unexampled prosperity. The figures are almost startling. They show that we are utilizing our fields and forests and mines, and that we are furnishing profitable employment to the millions of workmen throughout the United States, bringing comfort and happiness to the millions of our people.

WILL EXTEND.

"By sensible trade arrangements which will not interrupt our home production we shall extend the outlets for our increasing surplus. In a system of reciprocal trade we can use with our neighbors our surplus and produce commodities, a mutual exchange is manifestly essential to the continued healthful growth of our export trade.

DISTANCES LESSENED.

"After all, how near one to the other every part of the world. Modern inventions have brought into close relation widely separated peoples and made them better acquainted. Geographic and political divisions will continue to exist but distances have been effaced. Swift ships and fast trains are becoming commonplace.

AS TO TARIFFS.

"If, perchance, some of our tariffs are no longer needed for revenue or to encourage and protect our industries at home, why should they not be employed to extend and promote our new lines abroad? Then, too, we have inadequate steamship service. New lines of steamers have already been put in commission between the Pacific coast ports of the United States and those on the western coasts of Mexico and Central and South America.

VISITORS INVADE MONTICAMP.

Soldier Boys Receive Crowds of Friends at Lagoon.

THE PRIZE DRILL TONIGHT.

Trains Going to Farmington Carried Many People to Visit the Men in Blue - Bugle Calls.

The trains going out to Lagoon today carried many people from the city, who went out to see the soldiers. Their numbers were materially enhanced by the people from neighboring towns who are taking a lively interest in the doings at Camp Lawton. The boys went through the usual routine today with the exception of the ball game that stirred up more life than the camp has felt since the tents were pitched.

HOW DAY IS PASSED.

What Makes Up Soldier's Life at Camp Lawton - Camp Notes.

Camp Lawton exists either in a state of strenuous activity or extreme lassitude, but the former generally prevails. The camp begins to take on life at 6 o'clock in the morning and from then on things are stirring until ten o'clock. There is a hasty preparation for breakfast, then a rush for the tables. For breakfast, the men diet on mush, potatoes, meat, boiled eggs, and coffee.

SOME TURKISH AUDACITY.

Turbanned Ruler Attempts to Call Great Britain to Some Account.

Constantinople, Sept. 5.—The Turkish ambassador in London, Costaki Anthopoulos Pasha, has been instructed to inform Great Britain that the action of a commander of a British warship in the Peraian gulf, in preventing the Turkish Corvette Sehob from entering Koveyt, is incompatible with friendly relations.

WILLIAM ADVISES.

Constantinople, Sept. 5.—The German ambassador on Monday communicated to the porte the kaiser's declaration to intervene, advising the palace to come to an understanding with France.

THREE DROWNED.

Bottineau, N. D., Sept. 5.—Harry Sims, Marie Cook and Ruth Saner, all of Willow City, were drowned near here yesterday, while on a fishing party.

POISONING IN ARMY.

Atlanta, Ga., Sept. 5.—Two hundred and twenty-six enlisted men of the Twenty-seventh Infantry, stationed at Fort McPherson, are in the post hospital, made ill by ptomaine poisoning.

METHODISTS LIKE BOER WAR.

London, Sept. 5.—The ecumenical Methodist conference today unanimously declined to hear the secretary read the message of the archbishop of Canterbury, in which he expressed a hope that some day the Methodists would be united with the Episcopalians, and on similar import the message of the bishop of London, on the ground that they had been addressed to the editor of a religious newspaper and not to the conference.

CALLISON VS. SHARP.

John Sharp, who won the championship of the state and the Champion Brothers cup from Cal Callison in a shoot which took place about two months ago, has received a challenge from Callison for another contest.

SHOOT ON MONDAY FOR STATE CHAMPIONSHIP.

John Sharp, who won the championship of the state and the Champion Brothers cup from Cal Callison in a shoot which took place about two months ago, has received a challenge from Callison for another contest.

THIRD NORTH STATION.

(Special to the "News.") Washington, D. C., Sept. 5.—Postmaster general has ordered established, on October 1st, Substation No. 10, at 900 west Third North street, Salt Lake.

CHARLES DUNLOP'S VIOLENT DEATH

Master Machinist Blown Up on a Dredge Boat.

WELL KNOWN IN SALT LAKE

Hurting of a Boiler Causes the Fatality - His Family Living in This City.

Word was received in this city yesterday afternoon of the death of Charles Dunlop at McNitt, Montana, on Wednesday evening. The telegram came to James Kirk, superintendent of the Salt Lake and Ogden Railway company from his brother, George Kirk. Dunlop was the superintendent of the Pacific dredge boat on Moose Creek and was engaged in dredging for gold when the boiler exploded and he was killed. Four other members of the crew were seriously hurt and some of them may die.

ABE MAJORS ON TRIAL AGAIN

Taken to Brigham City to be Given Another Chance.

TO STAND SECOND TRIAL.

Over Two Years Since It is Alleged He Shot Captain Brown - Jurors Said to Have Been Prejudiced.

Abe Major's new trial for murder in the first degree will commence at Logan tomorrow morning. Sheriff Geo. C. Rigby, of Cache county, and H. H. Cardon, of Box Elder left with the prisoner for that city on the early train this morning.

What the result of the new trial will be is a matter of much varied speculation. The recent shooting of Deputy Sheriff Thompson about two months ago at Brigham City, while in the act of entering the yard of his home, created a wave of feeling against Majors, as there was a current belief that the shooting had been done by friends of Majors in order to get Thompson out of the way as his testimony at the new trial would be damaging to Majors.

CLOSE LAKE BREEZE SCHOOL

Board of Education Decides to Abandon It.

The school board committee on teachers and school work has decided to abandon the Lake Breeze school. The building is not deemed unfit for the children, but there are only fifteen pupils in the school. To keep it up would entail an expense of about \$70 a month, so that it was thought better and cheaper to close the school and provide means to convey the children to and from the Riverside or Lincoln schools.

CITIZENS AROUSED.

Want Ordinance Against Driving Stock Through Parley's Canyon Abolished.

Charles Stillwell, representing a number of stockmen of Big Cottonwood and Mill Creek, called on the county commissioners this morning and asked them to declare the city ordinance prohibiting the driving of cattle up Parley's canyon road a public obstruction. It was decided in the courts quite recently that Parley's canyon must not be used for the purpose of driving stock, which now is being driven through Parley's canyon, which takes a day longer. Judge King and H. A. Smith appeared before the commissioners this afternoon in the same cause. The commissioners are, however, powerless to act in the matter.

SALT LAKE IMPROVEMENTS.

Louis Saroni Here - Speaks of Strike Situation in San Francisco.

Louis Saroni, president of the Salt Lake Candy company, is in the city from San Francisco, and is a guest at the Kenyon. He is here now to arrange for the building of a new engine and boiler room to his candy factory, and said today that the addition would be a one-story building, 26x30 feet, in the rear of the present building. New machinery will be installed and the plant will be much improved thereby.

CALLISON VS. SHARP.

John Sharp, who won the championship of the state and the Champion Brothers cup from Cal Callison in a shoot which took place about two months ago, has received a challenge from Callison for another contest.

THIRD NORTH STATION.

COLUMBIA IS TO BE THE CUP DEFENDER

Committee Says the Constitution is Too Erratic to be Pitted Against Sir Lipton's New Racer, Shamrock II.

Newport, Sept. 5.—The yacht Columbia, champion of 1899, has been chosen to race against the Shamrock II in defense of the America's cup. This decision was reached today after a conference lasting two hours between the members of the challenge committee. All the committee were present. Commodore Lewis Cass Ledyard presided. It was held that while the decision might be disappointing to the syndicate which owns the Constitution the committee was compelled to choose the Columbia, whose races have not shown the erratic form manifested by her rival.

The formal notice announcing the selection of the Columbia was posted at the yacht club station shortly after 12 o'clock. It read as follows: "At a meeting of the committee on challenge of the Royal Ulster Yacht club, held on the flagstaff at 11:30 a. m. the Columbia was selected to represent the New York Yacht club.

"J. V. S. ODDIE, Secretary."

W. Butler Duncan, Jr., manager of the Constitution, expressed disappointment that his boat had not been selected as the cup defender. He said everything possible had been done to get the best speed out of her, and he had no fault to find with officers or crew. Mr. Duncan laid much blame on the sails of the boat for her erratic racing. He said that it was a mistake to change the first main sail with which she was doing such good work in her early performances.

LOOKS BAD FOR STEEL STRIKERS

Hundreds of Men Went Back to The Mills This Morning.

CONCESSIONS MUST BE MADE

President Schwab's Terms Imposed Loss of Plants to the Amalgamated Association.

Pittsburg, Sept. 5.—Further breaks in the ranks of the striking steel workers occurred at McKeesport today. Five hundred men, or one hundred more than yesterday, went to work at the National Tube company's plant. Nearly 100 men reported for duty at the Denzler tin plate works. A start was not made during the early hours of the day, but fires were lighted in the furnaces and a start was expected before the close of the day. The mill was surrounded by a large force of deputy sheriffs, but there was no disorder, although quite a crowd of strikers were loitering in the vicinity of the plant. At the Boston rolling mill a force of men were cleaning up and preparing the plant for work.

Probable early peace is again being discussed here as the result of yesterday's conference in New York between President Schwab of the United States Steel corporation and members of the National Civic Federation.

The proposition from Mr. Schwab, said to have been submitted to President Shaffer of the Amalgamated association, through President Gomper of the American Federation of Labor, virtually demands a concession of the Clark, Painter, Lindsay & McCutcheon and Monesson hop mills. These plants are non-union when the strike started and all are now running partially or in full. The association would also lose by the acceptance of the proposition the Crescent Tin Plate plant at Cleveland, the Star Tin Plate works in this city, the Canal Dover mills and the works at Denzler. These have been union for a long time. The tin plants at McKeesport, in this city and at Benwood, W. Va., would also be exempted.

The accepted terms, it is said, would reduce the strength of the Amalgamated association nearly 50 per cent.

Five members of the advisory board of the Amalgamated association went into session this morning. It is said, for the purpose of discussing the proposition received from New York, regarding a speedy settlement seems rather cloudy but much pressure is being brought to bear on the situation, and it is hoped that the strikers will soon go back to work. The tie-up is being broken to some extent already.

CALLISON VS. SHARP.

John Sharp, who won the championship of the state and the Champion Brothers cup from Cal Callison in a shoot which took place about two months ago, has received a challenge from Callison for another contest.

THIRD NORTH STATION.

(Special to the "News.") Washington, D. C., Sept. 5.—Postmaster general has ordered established, on October 1st, Substation No. 10, at 900 west Third North street, Salt Lake.

The announcement of the selection of Columbia, has had a great deal to contend with. It is the opinion of many of his friends that if Nat Herreshoff had not been confined to his room by illness he could have remedied the faults of Constitution and brought her out a winner.

After the challenge committee's meeting today it was learned that there would be no more racing of the ninety-footers at Newport. The time between now and the international cup race at Sandy Hook on September 21st will be spent in putting Columbia in the best possible condition to defend the cup.

WAS A FAKE.

New York, Sept. 5.—The Evening World prints an interview with Walter A. Kingsley, the alleged agent for an English betting syndicate, to the effect that the story of a wager between him and Pittsburgh crook, aggregating \$400,000 was a purely American invention. Kingsley, according to the Evening World, said that he merely acted the part of a press agent, for which service he was paid.
