

PAT MORAN GETS ON THE BIG JOB

Council Makes Award at Last Night's Session and Work Begins This Morning.

NOW FOR SECRET SERVICE.

Chief of Police Asks and Receives Appropriation to Add Bureau to the Department.

P. J. Moran, the official contractor, began work at 8 o'clock this morning on the resurfacing of Main street between South Temple and Fourth South streets. In an effort to complete the work before the G. A. R. encampment in August, Moran will work two shifts, night and day. His gang commenced work at Fourth South street this morning on the west side of the street. In making the improvement he will complete one side of the street on a block and then turn around and complete the other side of the street. By doing the work in this manner Moran believes that he will be able to accomplish more and make less trouble to the business men and merchants.

The contract with Moran to do this work was approved last night by the council. The price is approximately \$55,000 and attached to the contract is a penalty clause of \$100 a day for failing to complete the work by Aug. 1.

The board of public works was authorized by the council last night to advertise for bids on sidewalk extensions 12 ft. and 12 ft. The first extension is in the Second ward and calls for 22.5 miles of sidewalks. It is estimated that it will cost \$101,249.33. The other is in the Third ward and calls for 10.5 miles of sidewalk, at an estimated cost of \$84,933.92. The protest made in these extensions were not sufficient to defeat them. The contracts will be let this year and the work completed next year.

SECRET SERVICE BUREAU.

Chief of Police Barlow was given an appropriation of \$200 for the continuing fund for the maintaining of a secret service bureau.

O. H. Sampson's protest against the paving of east Third South street for a width of 92 feet instead of 80 feet went to the engineering committee. He says that by increasing the width of the street that it will damage his property.

Fire Chief W. H. Glor's request to remove E. C. Smith, a fireman, for the good of the service was granted. The appointment of Thomas O'Rourke to fill the vacancy was approved.

Chief of Police Barlow reported favorably on the petition of Heath Bros. for a liquor license on grounds adjoining the Salt Palace. The application was granted but Councilman Martin gave notice of reconsideration. W. W. Butler and J. L. Weller were appointed special policemen for Liberty Park. W. R. Thomas was made a special officer for Pioneer Park and J. W. Berryman a special officer for a special area for the city and county building grounds. R. H. Radke was appointed a special policeman for Second and Third South streets between Third and Fifth West streets.

When Chief Barlow recommended the appointment of eight special policemen to protect the grounds of the Minneapolis Steel and Machine company on the Commercial club building where a strike has been called, the council objected, and the request denied. The councilmen held that the chief of police ought to be able to quell any disturbance which might be made by the strikers. The last legislature passed two laws which deal severely with strikers who interfere with non-union men or destroy any property. A representative of the company was present and said that the strikers stayed about the building and threatened the men who desire to work.

HOBDAV'S JUNKET.

Thomas Hobday, superintendent of waterworks, was granted a two weeks' leave of absence and appropriated \$200 to attend the American Waterworks association, which will be held in Milwaukee, June 8 to 12. City Engineer Louis C. Kelsey was given \$250 to attend the meeting of the American Society of Civil Engineers in New Hampshire on July 5.

L. J. Bowers was granted permission to establish a city market at the old Continental Hay market at West Temple and First South streets. He will furnish the farmers with a stall for their horses for 25 cents per day and a stall from which to sell their produce free. The chief of police was instructed to keep all wagons which back up against the curbing to sell produce off the streets. If the place is not kept in a sanitary condition the health authorities were authorized to close it up.

Twelfth East street will be paved and the center parked from South Temple to Second South street. The contract amounting to \$33,379.51 which was awarded to P. J. Moran by the board of public works was approved.

The contract with Mrs. Mary Bero for feeding the city prisoners for 10 cents a meal was approved last night. Her former contract of 9 cents a meal was rescinded and this contract was drawn by the city attorney.

The meat ordinance went over until next Monday night, when it will be made a special order of business. The ordinance reducing the poll tax from \$3 to \$2 will also come up next Monday night. It was drawn to comply with the law passed by the last legislature.

The council took a recess until next Thursday night. At that time the payrolls will be presented and approved.

AMUSEMENTS

Engagement Cancelled—When the hour for raising the curtain on the lecture by Montaville Flowers on the subject of "Ben Hur" arrived last evening, only about 50 people occupied seats in the Salt Lake theater. Half an hour later the number had not been augmented to any considerable extent. W. H. Glor, who promoted the entertainment, then stepped to the stage and announced that the engagement had been cancelled for lack of patronage. Those present were given their money back at the box office. Mr. Flowers is acknowledged to be one of the foremost lecturers of the day, and those who did assemble to hear the reading of Wallace's popular story were distinctly disappointed. Strong counter attractions and unseasonable dates are given as the reasons for the failure of the public to respond to the opportunity of hearing Mr. Flowers. He may return to Salt Lake, however, later in the season.

The management of the Salt Lake theater announces the engagement of Miss Marie Doris next week for three nights and matinee in "The Mists of Marcus," a four-act play by William J. Locke.

Orpheum—The last performance of the B. Y. U. opera company production, "The Beggar Student," will be given at the Orpheum tonight. There is a heavy advance sale, with chances in favor of capacity business. The matinee was a big success. A large number of box and parquette parties have been arranged for tonight in honor of Miss Fay Loose, daughter of Col. C. E. Loose, and other members of the cast.

Grand—The Grand was again packed to the doors last night on the occasion of Mrs. Fiske's second appearance in "Salvation Nell," and the enthusiasm was just as spontaneous as on the opening night. This afternoon's matinee witnessed another big turnout, and indications are that the house will be sold out again tomorrow night.

Colonial—"The Christian," one of the best offerings yet given by Ralph Stuart, Miss Mary Hall and associate players at the Colonial, is playing to good business despite strong counter attractions.

Bungalow—"Yankee Doodle Boy," a musical comedy presented by Kennedy's comedians, is the bill at the Bungalow this week.

"The Sub" at the Bungalow—"The Sub" which is to be given Saturday at the Bungalow has in addition to its attractive story some notable musical numbers which keep the audience demanding and redemanding for the first. The football scene in act 3 is working up a professional degree. Miss Whitney apparently has developed not only the knack of composing good music, but is a charming vocalist and an unusually clever comedian.

A REBELLION

Food Demanded.

The human body will stand a lot of abuse but something it will not rebel and demand the proper food in place of the pasty, starchy, greasy stuffs on which it has been made sick. The time is the time for Grape-Nuts, the most scientific and perfect food in the world.

A lady of Washington says: "Three years ago I was very ill with catarrh of the stomach and was given up to die by one doctor. I laid in bed four months and my stomach was so weak that I could not keep down medicine or hardly any kind of food and was so weak and emaciated after four months of this starvation that my daughter could easily lift me from bed and put me in my chair."

"But weak as my stomach was, it accepted and relished and digested Grape-Nuts without any difficulty the first time that wonderful food was tried."

"My doctor told me to eat Grape-Nuts, which were predigested, and although I felt certain I could not keep the food on my stomach I made the trial and it was a most complete success."

"I am now strong and in better health than for a great many years, and am gradually growing still stronger. I rely on Grape-Nuts for most of the nourishment that I get. The results have certainly been wonderful in my case and prove that no stomach is so weak it will not digest Grape-Nuts."

"My baby got so fat from feeding on Grape-Nuts I was afraid I would have to stop giving the food to him, but I guess it is a healthy fat for his health is just perfect."

WILL JOIN HANDS TO FIGHT DISEASE

(Special Correspondence.)

Washington, May 26.—During the grazing season of 1909, the forest service will again co-operate with the bureau of animal industry and the state officials, in efforts to stamp out the disease known as scab which exists among the sheep in a number of the western states and territories. This work has been carried on by the bureau of animal industry for several years past. The forest service has endeavored to assist the bureau, as well as the state authorities, in enforcing the law by refusing to admit any sheep on a national forest, within the prescribed states, that were not accompanied by a certificate of inspection, signed by an inspector of the bureau of animal industry, to the effect that they were free from the disease or had been dipped in accordance with the regulations of the bureau.

In nearly all the western sheep-raising states, the state boards, charged with protecting the health of the live stock, have been very active in suppressing this disease, and between the bureau of animal industry, the state authorities, and the forest service, it has practically been wiped out of many of the states and greatly reduced in the others.

During the season of 1909 the work will be continued in the states of Colorado, Utah, Nevada, California, and the territories of New Mexico and Arizona, and it is hoped that at the close of this present year the results will be so satisfactory that considerable parts of this area may also be pronounced free from the disease and relieved from quarantine restrictions. Wherever it has been found necessary to burn the corals, counting-chutes and other improvements on a range which were possibly infested with this disease, the material for new ones has been furnished to the stockmen free of charge by the forest service.

Her technique is highly developed and her touch is light and elastic, so that the greatest technical difficulties are mastered with ease."

NEW YORK MUSIC LEADER AND CONCERT GOER—"She has a highly developed rhythmic sense, a tone of good carrying quality and a surprising amount of tonal volume. In a program so heroic in its proportions as to include the Tchaikowsky Concerto, the Cesar Franck 'Variations Symphoniques' and the Liszt E flat Major Concerto, her work increased in effectiveness, which proves marvelous powers of endurance and muscular control.
