

ANOTHER WRECK ON THE ROCK ISLAND

Passenger Train Running at High Rate of Speed. Dashes Into An Open Switch.

FIVE PERSONS WERE KILLED.

This is Train That Was in Wreck Jan. 2, When 32 People, Mostly Mexicans, Lost Their Lives.

El Paso, Tex., Jan. 13.—Running at a high rate of speed, Rock Island passenger train No. 49, which left here at 6:30 yesterday evening for Chicago, dashed into an open switch at Barney, N. M., 120 miles north of El Paso, early this morning. Five persons were killed and 11 injured.

DEAD.

H. F. Ackley, Alamogordo, N. M., engineer.

E. J. Redfield, Alamogordo, N. M., fireman.

Harley Spence, Corona, N. M., sheepman.

Andrew Herron, Bisbee, Ariz. Mexican child, 3 years old.

The injured are two Arabs who went from El Paso, and nine members of a Mexican family.

When the train dashed into the switch the engine left the track and turned over, running the engineer and fireman underneath, killing them instantly. The express car, dining car, and a Pullman were thrown from the track. Eight passengers were hurt, none seriously.

The train wrecked today was in collision on Jan. 2 at Volland, Kan., with No. 23, on the same road, and 22 persons, mostly Mexican laborers on their way to El Paso, were killed, and over 20 persons were injured.

GRAFTING CHARGED AGAINST BUTTE POLICE.

Butte, Mont., Jan. 13.—A sensation has been created here by testimony presented late Saturday night to the council committee which is investigating charges of grafting among the police force. Two police officers charged that Capt. McGrath, sergeant of police, had invited them to join in a conspiracy to rob a delivery wagon of the Northern Pacific Express company, between the depot and the express office.

The robbery, it was stated, was to have occurred on the night of Nov. 11 last, when it was expected a large amount of currency would be secured. Someone tipped the police off to the manager of the express company, who immediately telegraphed the headquarters of St. Paul. A force of armed guards was sent to the depot with instructions to kill, if necessary, to protect the company's property. This precaution, it is alleged, frustrated the plans of the conspirators.

W. T. STEAD TRYING TO INTEREST THE POPE.

Rome, Jan. 13.—W. T. Stead, in connection with his efforts to interest Pope Pius in an international peace movement, wrote Cardinal Merry del Val, papal secretary of state, enclosing a letter to the pope in which he described his ideas as to the action the Vatican should take, and holding out the enormous moral influence such action by the pope would create. It is reported that Mr. Stead's desire is that Pope Pius issue an encyclical in favor of peace and the limitation of armaments.

FRANK BUCKLES DEAD.

On His Testimony Five Outlaws at Tombstone Were Hanged.

Douglas, Ariz., Jan. 13.—Frank Buckles, aged 47 years, a hotel proprietor of Panguitch, Utah, and one of the men on whose testimony five outlaws were hanged at Tombstone in 1885, was seized with heart failure while bathing at Douglas, and fell upon the instantaneous gas heater in such a manner as to asphyxiate him.

The coroner's jury found \$1,000 in his trunk.

Buckles was one of the founders of Bisbee, Ariz., 23 years ago, and was one of the first men ever to have homesteaded ranch land in this territory. He is survived by a wife and five children at his Colorado home.

TO EXTEND COMMERCE.

Washington, Jan. 13.—An important national convention for the extension of foreign commerce will be held in Washington this week. President Roosevelt is expected to address the convention on Wednesday evening and Secretary Root is probably will take part in the proceedings.

The opening session will be Monday morning. The movement is under the direction of the New York board of trade and transportation, which sent invitations to the governors of the various states and to numerous commercial bodies.

KEEP COMMISSION REPORTS ON KEEPING ACCOUNTS.

Washington, Jan. 13.—President Roosevelt today made public a report on "cost keeping in the government service," prepared by the Keep Commission. A cost system properly devised and operated, the report says, will furnish information enabling the responsible head of the organization to estimate more intelligently the probable cost of future operations along similar lines and to fix proper selling prices on products transferred to other government organizations or sold to foreign governments or to private individuals.

FEARFUL ITCHING BURNING SORES

Boy in Misery 12 Years—Eczema Spread Over Body in Rough Scales, Cracked, Inflamed, and Swollen—Case Pronounced Incurable, but Completely Cured by Two Sets of Cuticura Remedies.

HIS SKIN NOW FINE AND SMOOTH AS SILK

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed and had swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep.

"One doctor told me that my son's eczema was incurable, and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial. "I tell you that Cuticura Ointment is worth its weight in gold, and when I had used the first box of Ointment there was a great improvement. At this time I had used the second set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent my child was cured. He is now twelve years old and his skin is as fine and smooth as silk. Michael Steinman, 7 Summer Avenue, Brooklyn, N. Y., April 16, 1905."

viduals. The recommendations have the cordial endorsement of Secy. Shaw. Cost keeping as a branch of accounting is a comparatively modern development, the report says, and has not been introduced to any considerable extent in the government service. In this matter the government has much to learn from the private business. In work of this character the institution of a thorough cost keeping system was possible and would tend to bring the less effectively conducted establishments up to the standard of the best.

The report recommends that cost keeping systems be installed in all branches of the government service where it is possible to do so.

THE PENGWERN GROUNDS. TWENTY-FOUR MEN DROWN.

Cuxhaven, Germany, Jan. 12.—The British ship, the brigantine, Capt. Williams, from Talait, Chile, Oct. 6, for Falmouth, with a cargo of saltpeetre, grounded off Nishopon, 10 miles north-west of Falmouth, today. Twenty-four men comprising the crew, were drowned, and her cargo is a total loss. The tug Vulkan went to the assistance of the Pengwern and the crew of the Pengwern disregarded the appeals to jump into the water so that they might be rescued. The Vulkan made repeated attempts to reach the Pengwern, but a heavy sea prevented.

Washington, Jan. 13.—James Wadsworth, Jr., speaker of the New York assembly, had a conference tonight with President Roosevelt, in which the New York political situation was thoroughly discussed for two hours. He said anything further on the subject or any news of the conference would have to be given out from the White House.

FRENCH CHURCH CRISIS.

Plenary Council of French Bishops Will Discuss It.

Paris, Jan. 13.—A plenary council of the French bishops to discuss the situation of the church in France will be summoned to meet Jan. 15 at the Chateau de la Motte in Paris. It is expected that the bishops will simply register the pope's decision, as expressed in the encyclical issued by his holiness Jan. 10, but the moderates put an end to the hopes of the moderates that the church would eventually accommodate itself to the new conditions in France.

SENATOR SMOOT TO ADDRESS SENATE

He Will Speak in His Own Behalf. Being Preceded by Sutherland and Dillingham.

FORAKER CLOSES DISCUSSION.

A Number of Speeches Will be Made On Resolution for Investigation Of Brownsville Riots.

Washington, Jan. 13.—The senate probably will return to the discussion of the Smoot case on Friday, when Senators Sutherland and Dillingham will speak in opposition to the unseating resolutions. Later Mr. Smoot will address the senate in his own behalf, and the discussion will be closed by Senator Foraker. Some of the time of the senate and most of the time of the house during the present week will be devoted to discussion of appropriation bills. The senate will conclude its consideration of the legislative, executive and judicial appropriation bill, and may reach the Indian bill. The house will finish its work on the fortifications bill and will in turn take up the bill making appropriations for the District of Columbia and the diplomatic and consular service.

Before proceeding with appropriation bills, the house will devote Monday to miscellaneous bills in the interest of the District of Columbia. It is also possible that the appropriation bill before the senate will be temporarily displaced Monday by the Foraker resolution providing for an investigation of the Brownsville riot. Senator Cullom, who has charge of the appropriation bill, announces his intention not to yield the floor again until this measure is disposed of, and if he persists in his determination, consideration of the Brownsville matter will necessarily be deferred. The prospect of receiving Asst. Atty. Gen. Purdy's report on that subject on Monday adds to what already holds a keen interest, and a large attendance may be expected in the senate when it is under consideration.

Speeches are yet to be made by Senators Spooner, Carmack and Stone, and it is not expected that Senator Foraker will permit the closing of the debate without further remarks. The present prospect is for the practically unanimous adoption of a compromise resolution simply directing an investigation into the circumstances of the riot, and remaining silent on the legal phases of the question.

In the senate there will be an effort to incorporate a provision in the legislative appropriation bill increasing the salaries of senators and representatives from \$5,000 to \$7,500, and unless this proposition causes debate the legislative bill probably will be passed with little discussion. There will also be an attempt to restore the house provision for an increase of the salaries of the vice president, the speaker of the house and the members of the cabinet.

Some of the members of the house committee on appropriations will try to secure the incorporation in the fortifications bill of an amendment looking to the creation of an island for the purpose of defense at the mouth of Chesapeake bay and increasing for that purpose about \$5,000,000 when the bill comes up in the house. Gen. Keizer and Judge Walter Smith differed sharply over this point in committee, and when Mr. Smith, who opposed the provisions, prevailed there, the Ohio member announced his determination to appeal to the house.

The house is looking forward with great expectancy to the decision of the committee on merchant marine on the subject of the ship subsidy bill. The committee will meet on Tuesday, and members say that the question will be finally decided on that day. Representative Watson of Indiana, who has consistently opposed the senate bill, now announces his willingness to accept both Atlantic and Pacific mail subsidies to South American ports and for an increase of the subsidy to the Australian line, in exchange for assistance to a new line from the Pacific coast to China and Japan. It is now asserted by the advocates of compromise that only the opposition of

STATE OF ILLINOIS ASKS AN ACCOUNTING.

Springfield, Ill., Jan. 13.—The suit of Illinois against the Illinois Central railroad will be filed in the supreme court tomorrow or Tuesday.

The court will be asked to order an accounting. The state cannot ascertain, by reason of the complicated records of the road, just how much it takes to claim, but this will be settled during the litigation.

The company is required to pay the state 5 per cent of its charter fees' gross receipts, and must supply the state auditor with an annual statement of all its property for the purpose of taxation. The taxes and the 5 per cent must equal at least 7 per cent of the company's gross receipts.

From 1859 to 1886, says the petition, the company refused to list with the auditor its stock, property and assets for the purpose of state taxation, and refused to pay into the treasury an amount equal to at least 7 per cent of the gross receipts or income derived from the charter lines.

Among other alleged practices of the road whereby the state loses its share of proceeds follows:

Giving mileage books to newspapers valued at \$4,883.36; paying freight for branch lines without charging for terminal facilities for branch lines; allowing rebates to shippers; collecting large sums from foreign roads as rental for rolling stock, failing to credit the same to charter lines.

Since 1877 the company has presented false statements to the governor, says the bill, and has refused the governor permission to examine the road's books to ascertain the true condition of its affairs.

The bill asks that the road be compelled to make a full accounting of its gross proceeds, receipts and income.

POPE RECEIVES AM. STUDENTS.

Rome, Jan. 13.—Pope Pius today received the students of the American college in Rome. They were presented by Monsignor Kennedy, rector of the college, who said the American students were more numerous than those of any other nationality here. Pope Pius spoke to them about France, saying:

"The war that is being waged between the clergy and hell, the expressions of unity and sympathy from Catholics throughout the world are the greatest consolation. America especially has distinguished herself in this way. Indeed, America is a great credit to us. When you return to your glorious country follow with the clergy and the people this luminous example of solidarity in the tremendous conflict against the church."

BLIZZARD IN MONTANA.

Helena, Mont., Jan. 13.—The worst spell of winter weather experienced in Montana for many years now prevails. Unusually heavy snow, especially in the northern part of the state, and extremely cold weather is stopping the operation of trains, endangering lives of cattle and sheep, and even menacing human life in remote districts. Old stockmen say the outlook is more serious for their herds than at any time since the memorable winter of 1887-88, when the losses were extremely heavy.

EMPEROR NICHOLAS THANKS PREMIER STOLYPIN

St. Petersburg, Jan. 13.—Premier Stolypin and Minister of Justice Chichikov have been appointed ministers of the council of the empire. They retain their present posts, however. An imperial rescript addressed to M. Stolypin expresses the hope that the ministry will be at its post after the convocation of the new parliament. It refers to the premier's difficult task of restoring public order, and praises his energetic action which effected a distinct improvement "despite foehdly efforts and continual crimes by revolutionaries."

The emperor then refers to bills which his majesty considered so absolutely necessary that they have been put into force before the meeting of parliament. Emperor Nicholas thanks Premier Stolypin and the members of his ministry for their services, and says that only in the co-operation of the new legislative bodies with the government can be seen a guarantee for law and order and the strengthening of the force of the state in accordance with the necessities of the new life to which Russia is called.

UNITED MINE WORKERS.

Will Meet in Eighteenth Annual Convention at Indianapolis Tuesday.

Indianapolis, Jan. 13.—The eighteenth annual convention of the United Mine Workers of America will convene here next Tuesday. Six hundred delegates are expected.

W. B. Wilson of the mine workers said: "Never in the history of the body have things been so quiet as now. Though there are a few strikes on in the country, none of them is of much more than local importance and none will require much of the time of the convention to discuss. Upon the whole, the miners are prosperous and we anticipate no discussions of a sensational nature in the coming convention."

RUSSIAN BUDGET.

St. Petersburg, Jan. 13.—Owing to the dissolution of parliament and the adjournment of the council of the empire until March 4, the budget proposals will not be submitted until that date. The total ordinary and extraordinary expenditure for the current year was fixed roughly at \$1,250,000. The total expenditure is increased by \$32,550,000, representing an obligatory expenditure of the exchequer in carrying out the laws passed after the adoption of the 1906 budget. The total extraordinary expenditures for the 1907 are estimated at \$140,300,000, to meet which a loan is contemplated.

Copies of the resolutions will be forwarded as soon as formulated to Pope Pius at Rome, President Fallieres of France, the French ambassador at Washington, D. C., and to the American ambassador at Paris.

Bishop John Patrick Carroll of the Helena diocese made the principal address, his denunciation of the French government being vigorously applauded.

THE UNITED STATES IS WEALTHIEST OF NATIONS.

Chicago, Jan. 14.—A dispatch to the Tribune from Washington says: "The United States is the wealthiest nation in the world," said a close friend of President Roosevelt yesterday, who has just gone over a remarkable report, which is soon to be made public. He added:

"In a brief span of young life this infant nation has broken all records relating to the accumulation of riches. We are beginning to think in billions, instead of millions. Take it any way you like, our affluence outstrips anything ever known before."

"Our country has more actual money, more gold, a larger volume of exports, greater banking facilities, richer farms, more productive mines, more railroads, more internal commerce, more millionaires, more well-to-do tradesmen, more independent farmers, more highly paid laborers, and a greater distribution of luxuries than any other has enjoyed since time began."

To say that the total valuation of the wealth of the United States is \$107,000,000,000 is not unduly extravagant, as a hundred billion dollars is such a pile of money that the mind simply cannot grasp its meaning on the instant.

Probably the best way of illustrating the actual extent of Uncle Sam's riches is to state if he could convert all the assets into money he would have nearly four times as much as is required to pay off the entire national debt of all the world, including his own. Last year there was more than \$3,000,000 in excess of expenditures.
