

four men found guilty on Saturday of being implicated in the murder conspiracy. Tanzy is sentenced to fourteen years' penal servitude, Rogers to twelve, Houghton to eight, and Kelly to two.

Toulouse, 9.—A destructive fire occurred at Lycee, near here yesterday. Many of the buildings, including the chapel, were burned.

Vienna, 9.—Chambord passed a sleepless night and was slightly feverish. He is extremely weak this morning.

The Roumanian government has dispatched a note to Austria which declares that Roumania fully recognizes her obligations not to allow any agitations to disturb the existing neighborly relations between the two countries. The Austrian government accepts the note as a satisfactory evidence that the pending frontier difficulty will not become serious.

Alexandria, 9.—Provisions have given out at Damietta, and the people are starving. A number of European residents made an attempt to break the cordon around town, and several were wounded.

According to advices from Behera the cattle plague has ended with the death of the cattle in that district. The cotton worm is now doing great damage there.

ALEXANDRIA, 10.—At Mansurah yesterday 87 deaths occurred from cholera, at Samanoud seven, and Shibrin two. Fifty Europeans have died at Damietta from cholera since the outbreak of the disease.

London, 10.—The joint committee of the House of Lords and Commons, which has had the English Channel tunnel scheme under consideration, has rejected it by a vote of 6 to 4.

Paris, 10.—Achird has introduced a bill in the Chamber of Deputies authorizing the taking of soundings for piers for a railway bridge from Cape Girardeau, on the French coast, across the Strait of Dover, to Folkestone in England.

Constantinople, 10.—The Porte proposes to impose a tariff of 15 per cent. on all articles imported for consumption, and a tariff of from 8 to 20 per cent. on other importations.

Paris, 10.—Intelligence from the capital of Anam says: The French consul at that place has been insulted and attacked on the public streets.

London, 10.—The Standard this afternoon says: The score made by the American rifle team beats the best score they ever made at Creedmoor. The coaching of Col Howard is perfect, and the men work abnormally together. The Englishmen will not have a walk-over in the forthcoming contest.

LONDON, 10.—The Right Hon. Hugh C. Childers, Chancellor of the Exchequer, announced in the House of Commons this evening that the government hoped a provisional agreement respecting a second Suez Canal would be reached to-night.

Henry Chaplain, Conservative member for Mid-Lincolnshire, moved that in view of the prevalence of the foot and mouth disease, the importation of live cattle should in future not be permitted from countries whose prevention laws or the sanitary condition of whose cattle did not afford reasonable security against the extension of the disease. He argued that the disease did not prevail in Scandinavia and British North America, and those countries afforded a large supply.

The member from Sheffield, Mr. Mundella, opposed the motion. He said one-sixth of the cattle and meat supplied to Great Britain was of foreign importation. The motion would, he contended, cause enormous loss to the consumer.

Mr. J. G. Dawson, member for Scarborough, said the motion meant a total prohibition of the importation of live stock. The government was unable to agree thereto, but would assent to the appointment of a select committee to inquire into the question of the foot and mouth disease. An amendment in favor of such select committee was, however, negatived, and Mr. Chaplain's motion was subsequently carried by a vote of 200 to 192, members of the government voting in the minority.

The Morning Post states that M. Challemeil Lacour, French minister of foreign affairs, informed Lord Lyons, British Ambassador in Paris, that quarantine regulations will be enforced at all French ports against vessels from England unless the British Government takes precautions to avoid spreading the cholera from Egypt.

An agreement is arrived at between M. de Lesseps and the government of Great Britain, which

provides for a new Suez canal parallel to the one now in existence, for the reduction of canal duties, for the appointment of an English surveyor of the traffic.

Five of the American riflemen made a total of 126 at 900 yards, five higher than the total of the best American shots at Creedmoor.

The Standard's correspondent at Paris says in order to secure influence over the canal, the British government will find the capital for the new canal, the company to pay only a small interest.

Dublin, 10.—James Carey, informer, has been declared bankrupt owing to his failure to pay his rents.

Tralee, 10.—Sentence upon Edwd. Harrington, brother of a member of Parliament, Timothy Harrington, and the publisher of the Kerry Sentinel, for printing a notice inviting people to join the Invincibles, was confirmed to-day, Harrington having appealed against the sentence. Broonian, foreman printer at the Sentinel office, where the notice was printed, was discharged from custody.

In the Chamber of Deputies, M. Challemeil Lacour, Minister of Foreign Affairs, replying to questions, said that the French force in Tonquin was sufficient for any opposition it was likely to encounter. In the event of unexpected difficulties during the parliamentary recess, the government would immediately convene the Chambers.

M. Calmet Lacour continued: "It is now evident that Tuduc is France's enemy; there is no longer any question of negotiating with him. France must now resort to fighting."

M. Harmand, French Civil Commissioner in Tonquin, will recommend treating as soon as possible after the opposition to France has been subdued. France will occupy only the Tonquin Delta. She has no intention of conquering Anam. Reports of Chinese aggression are unfounded. I can alike state that pacific relations will be maintained with China. France's policy is to ensure respect for her treaties. China at first objected to the occupation of Tonquin, but after the Hanoi affair she recognized France's right to chastise Tuduc.

The Marquis Tseng, Chinese ambassador, did not deny the possibility of an understanding between France and China. In the last interviews between M. Tricorne, French Ambassador at Shanghai, and Li Hung Chang, Chinese Ambassador, the latter adopted a conciliatory attitude. Li Hung Chang left Shanghai July 4th, for Tientsin; but China's objection will not stop the course of France, who is powerful enough to execute her projects in regard to Tonquin. Without waging war with China, France demands that China shall not embarrass her action. She proposes subsequently to conclude a convention with China, with a view of ensuring respect for their respective frontiers. If China, contrary to indications, should follow disastrous advice, the chamber will not hesitate energetically to defend the interests of the company.

M. Paul de Cassagnac made a violent attack upon the government. He called Prime Minister Ferry the worst of cowards and a liar.

M. de Cassagnac was censured for his language, and ordered to be excluded from the House for a fortnight.

An order of the day expressing confidence in the firm and prudent policy of the government was adopted by a vote of 371 to 82.

Vienna, 10.—Chambord passed a sleepless night, and is still extremely weak.

Madrid, 10.—In the Chamber of Deputies, a debate raised by democrats on the policy of the government began. Domiguez, among other speakers, attacked the government as not being liberal enough.

Saigon, 10.—The Regent of Anam, Tubuo, has been taken seriously ill.

Four thousand "black flags" are menacing Namding; 10,000 are concentrated at Tontal, where they are entrenching.

The French transport Anamite started for Haiphong Sunday; the Mytho will sail to-morrow.

Capt. Kergardec has been appointed French Consul at Bangkok.

Tunis, 11.—The French recently imprisoned a Maltese because he engaged in a fracas with an officer and court martialled him. The arrest is the cause of much ill feeling in the British Colony, who demanded the release of the prisoner. The French refused to hand him over to the British Consul. The matter has been referred to the French and British governments.

BROWN'S IRON BITTERS

will cure dyspepsia, heartburn, malaria, kidney disease, liver complaint, and other wasting diseases.

BROWN'S IRON BITTERS

enriches the blood and purifies the system; cures weakness, lack of energy, etc. Try a bottle.

BROWN'S IRON BITTERS

THE BEST OF ALL LINIMENTS FOR MAN AND BEAST.

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external pain the

MEXICAN

Mustang Liniment is without an equal. It penetrates flesh and muscle to the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

MUSTANG

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn, of rheumatic martyrs restored, or a valuable horse or ox saved by the healing power of this

LINIMENT

which speedily cures such ailments of the HUMAN FLESH as

Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.

For the BRUTE CREATION it cures Sprains, Swellings, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Sore Wound, Scabs, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable.

The Mexican Mustang Liniment always cures and never disappoints; and it is, positively,

THE BEST OF ALL LINIMENTS FOR MAN OR BEAST.
