to require it from all others. By this law, the soldier who fought and bled for to require it from all others. By this law, the soldier who fought and bied for his country is to swear to his loyalty before assuming official functions, while gentlemen who commanded hosts for the overthrow of the government is admitted to office without it. I cannot affix my name to a law which so discriminates. I believe, however, that it is an unwise policy to keep from office, by an oath, those who are not disqualided by the Constitution and who are the choice of legal voters; but while relieving them from an oath which they cannot take, I recommend the relief cannot take, I recommend the relief also of those to whom the oath has been applied."

The "Tenmessee" amxiety. CHICAGO. - The Tribune's Washingthe naval department, appeared for a time to allay the fears so generally felt. To-night the doubts are as strong as ever. Judge Orth, of Indiana, states positively, that the President told him, ister of war has received a telegram several days ago, that instructions were given to report their arrival at once, and that it was time to begin expecting news in two weeks. The opinion ex-pressed outside of official circles is, that the vessel seen by Capt. Drum-mond, laboring in a gale, off Hatteras, more likely to have been the Tenne SPECIAL TO THE DESERBY JEWS.

See than the vessel seen in the windward passage, especially as Captain Drummond now says he does not know that she was bark-rigged. Some surprise is beginning to be full that the President or the Secretary of the navy, in view of the conflicting rumors and painful uncertainty prevailing, do not make public the precise instructions to the commissioners and commander of the vessel, and the Admiral in those waters, touching the course to be pursued with reference to communicating with the Government at home. DRUMS.—Bly and Little Bass and Snarr Drums have arrived in good supply, and can be see than the vessel seen in the windwith the Government at home. It has been said that the reason that no news of the arrival of the commissioners has been sent to Havana, may be that the commission found no vessel there which they could send to Havana; but Admiral Lee, in a dispatch to the navy department, dated January 11th, announcing his own department in the Severe cing his own departure in the Severa, from San Domingo, says: "I have ordered the Numbered for any service which the commissioners may require." This dispatch is among the papers sent to the Senate, in reply to Sumner's resolution. While persons are hopeful that the expedition is safe, there is, nevertheless, great anxiety on the sub-

Naw York, 15 -Corbyn's Galety troupe, of eighteen performers, for Maguire's opera house, started overland to-day.

A Tribune's Washington correspondent telegraphs that Secretary Boutwell, in a conversation recently with gentlemen from New York, who disagree with him as to the policy of retaining in the Treasury a currency balance of about twenty-five millions, replied to their criticisms, that this unusually large balance was necessary in order to provide for the redemption of forty-five millions worth of three per cent. certificates and the Navy to communicate to the sect of July 12th, 1870 These certificates are liable, he says, to be presented at any time, and the Government, of the Navy to communicate to the senate a copy of the instructions to the commander of the ship Temessee, on her present cruise; also the names of the U. S. ships in the waters off St. Domingo since the commencement of the recent negotiations with Dominica, together with the armaments of such ships.

The joint resolution of the indiana Legislature, withdrawing that State's alleged ratification of the fifteenth amendment, was then taken up for the purpose of sliowing Morton to address the Senate upon the question therein, the norning hour being awarded him for that purpose.

Resolutions were offered and agreed to, by Mr. Corbett, directing the Secretary of the Treasury to furnish the Senate at the next session with a list of the unsettled Oregon and Washington ludias war disims on file is the Third Auditor's office.

Sherman introduced a bill, granting special says, to be presented at any time, and the Government, like any other debtor who has liabilities out, payable at sight, must keep femds available for the purpose. As the currency recaipts are much diminished, the only way which the payment of these can be provided for, is by helding a large balance, or by selling gold to raise the money as it is needed. Secretary Boutwell adds, that this large balance injures no one but the Government, and that only by the loss of interest. Any other plan, he thinks, would, by the derangement of the fluancial machinery of the country, result in a far greater loss.

The people of Brooklyn are excited over the prospects of a water famine. There should be, at the present time, twenty feet of water in the reservoir; but, yesterday evening, it had lowered to eleven feet, and last night was entirely drawn off. It will be turned on again this morning. The water is lower.

Sherman introduced a bill, granting to the State Southern Railroad Co. the right of way through the public bands. Referred to the committee on Pavide R. R.

POREIGN NEWS.

House of Representatives: "I have this day transmitted to the Senate the announcement, that Senate bill, No. 218. An act prescribing an eath of office to be taken by persons who participated in the late rebellion, but who are not disqualified from holding office by the lith amendment to the Constitution of the United States, has become a law in the manner prescribed for by the Constitution, without the signature of the President. If this was a bill for the repeal of the test oath required of persons elected or appointed to offices of honor or trust, it would meet my approval. The effect of the law, however, is to relieve from taking a prescribed cath all those persons whom it was intended to exclude from such offices and to require it from all others. By this
