#### FEMININE FLOTSAM. Grumpiness.

If there is any one word more expressive than another in the whole English language that word is "grum-py," and yet it is so hard to define when you get down to the giving of synonyme. It appears to belong by right to that class of domestic help upon whom we depend absolutely for the happiness of our homes, yet who can by this selfsame grumpiness make the atmosphere so intolerable that the word home becomes a misnomer. There is not a housewife who has not at some time or other encountered this strabismus of disposition that as a rule at-tacks the cook when unexpected comany arrives. Hospitality, no matter how spontaneous, receives a rude check at the thought of the lowering brow

at the thought of the lowering brow and short answers awaiting a descent to the kitchen, where an announcement of the visitors must be made. The meal served may be absolutely perfect and the guests in raptures over the treasure of a cook that prepared it, but the hostess cannot truthfully con-cur with them, the remembrance of that brush with her grunpy majesty is too recent. Wash days are par-dicularly conducive to the attacks, and ticularly conducive toathe attacks, and the gloom that marks the countenance of the maid of all work on these oc-casions is reflected in the manner of every member of the household until it becomes a blue Monday in very truth. Grumpiness is but another word for the sulks. The person of a hasty temper who says what he or she has to say, no matter how disagreeable its nature, and gets the storm over, and allows the atmosphere to clear, is in-finitely preferable to the one who, like a lowering cloud, suggests the storm without any hint of sunshine appearing after it. A grumpy disposition is a genuine misfortune, not only to its a genuine misfortune, not only to its possessor, but to the persons who must suffer from its effect. It can be cured but rarely endured. Therefore it be-hooves any one thus afflicted to use will power to the utmost capacity, if there still lies in him or her a desite to be acceptable to the many, instead of merely tolerated by the few.—Phila-delukie Times

### The Hasty Word.

To think before you speak is so wise an axiom that one would hardly think it needful to emphasize it by repetition. And yet in how many cases the hasty temper flashes out in the hasty word and the latter does its work with the precision and the pain of the swift stiletto! Singularly enough, the hasty word oftenest wounds those who love one another dearly, and the very close-ness of their intimacy affords them op-portunity for the sudden thrust. We know the weak points in the armor of our kinsman and our friend; we are aware of his caprices, and ordinarily are tender and compassionate even of his vanities and his small fancies and whims; but there dawns a day when it is written in the book of fate that we shall be as cruel as we are loving. We are cold, or tired, or hungry. We

The reason why so few women ap-parently possess the grace of originality is that they are really afraid to branch is that they are really affaid to branch off from the beaten track, but frantical-ily follow directly in the footsteps of their neighbors. Therefore what Mrs. A. does Mrs. B., C. and D. do also. Mrs. B. may have individual sentiments on topics and dress, but because she is afraid of being considered queer or out of date she converts herself into a copy cet and so cross on resolving herself

Therefore the poor little hostess who feels it necessary to give an entertain-ment in return for social favors re-ceived does not dream of arranging it

according to her means, but sows the seeds of many a wakeful night simply

because she feels she must give an af-fair on the same gorgeous 'scale of someone else in her circle whose purse, however, is ten times as long. The aw-
