

that the petitioners were personally responsible.

Horn spoke two or three times in favor of the adoption of the report of the committee. It was finally adopted and the city will have to bear the expenses of the contest.

ELECTRIC LIGHTS ORDERED.

The committee on improvements reported favorably on the petition for the establishment of electric lights at the intersections of Eleventh East and Fourth and Fifth South streets. Adopted.

EXTENSION OF WATERMAINS.

The committee on waterworks reported favorably on the petition of E. J. Jenkins for an extension of water-mains on West Temple for three blocks beyond Ninth South street. Adopted.

TO SELL THE CITY GAS STOCK.

Folland offered a resolution authorizing the sale of the city gas stock for \$100,000. The amount per share was \$127.07.

Karrick wanted to know why the committee was willing to accept \$127.07 per share when \$135 per share could be obtained.

Beardsley did not think it was correct. The committee had investigated the question carefully.

Karrick said he knew that \$180 per share was being offered by certain parties for a portion of the two-thirds of the property the city did not own.

Horn moved to refer to a special committee.

Folland said intimations had been made that a better offer could be procured. If that could be done he was willing, but he believed it was rumor and surface talk.

Beardsley moved to amend by referring it to a special committee and the committee on ways and means associated.

Lawson moved as a substitute that the city recorder be instructed to advertise the stock for sale for a period of twenty days. Carried.

TO DRAIN OFF STAGNANT WATER.

Evans offered a resolution instructing the watermaster to have the ditch on the north side of Second South, between Fifth and Sixth West streets, put in proper condition to carry off the water that now remains stagnant. Adopted.

AFTER THE PEDDLERS.

Beardsley introduced an ordinance prohibiting fruit peddlers from selling their products in the business part of the city. Committee on municipal laws.

SPECIAL MEETING.

Beardsley introduced a resolution providing that the Council hold a special meeting on Friday evening, September 30th, to discuss various sanitary measures. Adopted.

APPROPRIATIONS.

The following appropriations were made:

Neder & Cleland.....	\$ 83 90

REVISION OF ORDINANCES.

Rich moved that the Council meet tonight to continue the work of revising the city ordinances. Carried.

The City Council held an adjourned session last night. Order was called by President Looibourou at 8:05 o'clock. The members present were: Rich, Folland, Hardy, Karrick, Horn, Lawson, Simondi, Beardsley, Heiss, Moran, Wantland—11.

Absent—Bell, Evans—2.

In the absence of Recorder Stanton, Deputy Ellsworth performed the duties of chief clerk.

The minutes of Tuesday night's session were read, amended and approved.

The Proceedings.

The chair stated that there were two matters to be considered by the Council. First, the proposed sanitary measures; second, the differences between the street car and Rocky Mountain Bell Telephone companies.

SANITARY MEASURES.

The following was then read by the assistant recorder:

We, the undersigned members of the board of health, respectfully recommend the passage of the following measure: The ordinances relating respectively to the regulation of well construction, privy vault and cesspool construction, the sale of unwholesome food and drink; also the appointment of a sanitary inspector for each precinct, whose duty it shall be to at once make a house to house inspection regarding the plan already presented and thereafter to be employed permanently as inspectors for the precinct. We appear before you this evening prepared to give reasons if called upon recommending the adoption of the above measures and trust they will meet with your approval.

F. B. BEATTY,
F. A. MEACHAM,
E. V. SILVER.

ADDITIONAL SIGNATURES.

Dr. Beatty stated that Engineer C. P. Brooks, a member of the board of health, and Mayor Baskin intended to sign the above paper before its presentation to the Council, but that they could not be found in time to do so. He stated that they would attach their signatures to it today.

VAULTS AND CESSPOOLS.

An ordinance regulating the construction of privy vaults and cesspools within the garbage districts was taken up, amended and discussed at length. The measure was published in the DESERET NEWS on Thursday of this week.

DR. BEATTY SPEAKS.

Health Commissioner Beatty said that after reading ordinances prepared and in vogue in other cities he became more and more convinced that special conditions existed here and therefore required special action. The ordinance as presented, he believed, met every possible emergency. He was strongly in favor of its immediate passage.

Hardy stated that the measure conflicted with the sewer ordinance; one of the two must be amended.

The chair saw much in it that was faulty. If it was passed it would work a hardship to residents in all parts of the city. It required the abandonment of all unlined cesspools. He did not think that cesspools were injurious to health providing they were not too close to surface wells.

Lawson took issue with the chair and said he knew where cesspools were not lined with cement they were detrimental to health and would greatly increase the mortality of the city.

On motion the ordinance was referred back to the board of health for revision.

TO PROTECT FOOD AND DRINK.

The following was read the first, second and third times without amendment:

A Bill for an ordinance prohibiting the keeping or sale of unwholesome food and drink, and regulating the sale of milk and other food products.

SECTION 1. Be it ordained by the City Council of Salt Lake City: That no meat, fish, birds, fowl or vegetables, not being then healthy, fresh, sound, wholesome and safe for human food, nor any meat or fish that died from disease or accident shall be brought within said city, or offered or held for sale in any public or private market as such food anywhere in said city.

Sec. 2. That no calf, pig or lamb, or the meat thereof shall be brought, held or offered for sale as such food in Salt Lake City, which at the date of its death being a calf less than four weeks old, or being a pig, was when killed less than five weeks old, or being a lamb was when killed less than eight weeks old.

Sec. 3. That no cattle shall be killed for human food while in an overheated, feverish or diseased condition, and all such diseased cattle in the City of Salt Lake and the place where found and their disease shall be at once reported to the commissioner of health by the owner or custodian thereof, that the proper order may be made relative thereto.

Sec. 4. That no person being the manager or keeper of any saloon, boarding house or lodging house, or being employed as a clerk, servant or agent thereat, shall therein or thereat offer or have for food or drink, or to be eaten or drunk, any deleterious or unwholesome substance, nor allow anything therein to be done prejudicial to health.

Sec. 5. That no cased, blown, plaited, stuffed, putrid, impure or unwholesome meat or fish, bird or fowl shall be held, bought for food or sold or offered for sale for human food, or held or kept in any market, public or private, or in any public place in Salt Lake city.
