

SPECIAL TO THE DESERET NEWS.

By Telegraph.

FOREIGN.

LONDON.—A correspondent of the city papers who has interviewed the great heads of the anti-infallibility movement, Dollinger, Huber and Frederick, writing from Munich, August 1st, represent that Dollinger's cause was gaining strength and that its leaders believe it will result in the inauguration of a general reform of the Catholic church throughout Germany. The movement must spread to other countries, to Austria, Switzerland and Italy, where there are already violent political struggles against the ultra mountanists. The opinion that Bismarck is moving against the Catholic church is confirmed, and it was believed that Germany would not maintain the infallibility dogma, to which, and the syllabus or Encyclical letter of the pope, of 1864, condemning and rejecting modern liberties, there was strong opposition manifested. Dr. Dollinger again disclaimed any intention of establishing a new religion or departing from the Catholic church. What was necessary was a general ecclesiastical reformation and a turning away of errors which have crept into the church, and the establishment of a religion in conformity more with modern demands and national characteristics of the German race.

PARIS.—In the Assembly, to-day, a stormy discussion was aroused by the irreligious expressions of some of the deputies in their speeches on the distribution of prizes in the school at Lyons. Jules Simon made a speech, in which he declared that he should ever uphold the principles of morality.

The Assembly committee on the budget have agreed to fix the salary of Thiers at five hundred thousand francs, with credit in addition for ordinary expenses and presents.

A bill providing for the dissolution of the present Assembly will soon be brought forward. The deputies of the left are preparing a manifesto, denouncing the restoration of the constitution of 1847.

BERLIN.—The carpenters of this city, have struck for an increase of 25 per cent in wages and the reduction of a day's labor to nine hours and a half.

LONDON, 22.—Persian news is contradictory. The Levant Herald declares that the famine and pestilence are worse than ever; there have been 27,000 victims in Isphahan; in Crossea a third of the population is annihilated. The details are sickening.

The Prince of Wales, bound from Hong Kong to Bangkok, Siam, has foundered at sea; fifty persons were lost.

The introduction of seventy-five millions of dollars of the U. S. five per cent loan to-day, by Jay Cooke, McCulloch & Co., was a marked success, the subscriptions exceeding in a single day the whole amount. The continental subscriptions are reported large.

Italy takes precautionary measures against cholera.

BERLIN.—The ravages of the cholera are steadily increasing at Konigsburg; the disease has also appeared at Dantzic, but no cases have yet occurred in Stetten, and the South of Prussia is still free from the disease.

VIENNA, 22.—It is semi-officially stated that the Emperor Francis Joseph will not, at present, go to Bodegastin, but will meet the Emperor William of Germany, at Fruton.

MADRID.—The Crown Prince Humbert of Italy, has arrived in Madrid, on a visit to his brother, King Amadeus.

The budget is ready for submission to the Cortes. The expenditures of the year are estimated at six hundred millions of piastres, and the revenue at five hundred and eighty-nine millions. The minister of finance anticipates that the deficit can easily be carried and he considers that measures in regard to the public debt at present are unnecessary.

It is announced that the Ministry will establish Consuls General in all the Spanish American republics.

MONTREAL, 22.—The Mayor has ordered stringent regulations for clearing the streets, in view of the approach of cholera; lime and other disinfectants will be supplied gratuitously to the inhabitants.

ST. JOHN, 22.—The crews have finished training and are resting to-day; both are in capital condition, and a splendid race is anticipated. The city is crowded with visitors. There is very little betting, but the odds are still in favor of the Tyne crew.

HALIFAX, 22.—The second Tyne crew are very confident, and anticipate

that the only contest will be between them and the Renforth crew. There are five entries for a single scull race, which excites equal attention almost with the oared match.

ST. JOHNS, N. B.—The great scull race for the championship of the world came off this morning. The boats started at 7.25 and led alternately for five minutes. At 7.33 St. John was ahead; at 7.40 the St. John was the only crew rowing, the Tyne crew having gone to the shore in consequence of Renforth being taken with a fit. The St. John crew rowed over the course, and were the winners of the race in forty minutes and eleven seconds.

Later—Renforth is dead; he died in an hour after the race.

VERSAILLES, 23.—The prolongation of the power of Thiers as President of the republic is now assured. Another installment of three hundred million francs of the war indemnity has been paid to Germany.

At a meeting of the deputies of the Left a counter bill was adopted for the disarmament of the national guard. It is asserted that Thiers accepts the bill as a government measure. It is thought that all parties in Paris will agree upon the gradual disarmament of the national guard when the bill for the re-organization of the army becomes law.

VERSAILLES, 23.—The Assembly, to-day, approved the new additional taxes, and decided to proceed to the immediate discussion of the question of the disarmament of the national guards.

Gambetta proposes the dissolution of the Republican Union of Deputies to the Assembly on the first of May next.

The evidence given before the court martial establishes the fact that these federals, disguised as firemen, fed the flames in Paris with petroleum. Collet the prison director under the commune deposed that he received Firres' order to shoot the hostages, and declined.

ST. JOHN.—After Renforth was brought ashore his recovery was but temporary; and he had not been in the Claremont house twenty minutes when he died. It is admitted now that the race was fairly lost to the Tyne crew before Renforth was attacked. They reached the turning stake in eighteen minutes, and made the entire race in thirty-nine minutes.

LONDON, 24.—The Times has a special dispatch from Paris, to the effect that the discussions upon the question of the dissolution of the Assembly, are exciting, and that a conflict is apprehended, and grave consequences are probable.

The Echo has a dispatch from Vienna stating that Bismarck's overtures aim at more than the settlement of the Roman difficulty, and the English foreign office has been warned to watch his proceedings.

Fearful misery prevails in Southern Hungary. At Banat one third of the country is under water. In consequence of bad administration, dams were suffered to fall into ruin, and thus became flooded extensive tracts of land reclaimed during the reign of Marie Therese and made fruitful with grain fields. Added to this, are unusual storms this season, and the excessive severity of the government in collecting arrears of taxes. The government is seizing for taxes the cattle of the peasants. Some villages owe an amount of arrears greater than the value of their whole property. Agriculture, trade, and industry in general are ruined, and famine is impending.

The lightning struck a church at Bologna, killing and injuring 32 inmates.

The Amnesty Association of Dublin has decided to hold a meeting in Phoenix Park on the 3d of September on petition the Queen to liberate political prisoners.

The yacht Lavina starts on the thirty-first for New York.

There is a strike of 15,000 workmen at Leeds.

The disturbances at Newcastle are unrenewed; the new workmen are simply hissed.

Queen Victoria is better.

ST. JOHNS.—It is said that his crew says that Renforth should not have rowed as he was subject to fainting fits under excitement. The programme is disarranged for the present, and no further entries have been made.

VERSAILLES, 24.—The bill of Gambetta proposes the dissolution of the Assembly, as its discussions are fruitless; the election of a constituent Assembly and the resignation of Thiers, when the Constituent Assembly is elected.

A large mass of error is easily embalmed and perpetuated by a little truth.

BUSINESS IN COURT.—Sometime early in the present month the citizens of Coalville, Summit Co., were holding a meeting in the school house for the purpose of considering the expediency of assessing a tax for school purposes; and during their deliberations a person named Spriggs, a resident of the place who has gained some notoriety of late for his intemperate habits, entered the building, and soon after arose to speak, making offensive and abusive remarks. The Chairman called him to order, but he persisted in his conduct, and seemed determined to create a row. Two policemen were edging toward him with the intention of enforcing quiet, when Thomas Copley, irritated beyond endurance at Spriggs' insolence and seeing that the "order" of the chairman had no effect seized a chair, and went for him, determined if he would not regard the chairman, he should the chair. The result was that Spriggs got a blow which induced him for the time to hold his tongue. In consequence of this he sued out a writ against Copley and he was summoned to appear in the United States Third District Court, to answer a charge of "Assault, with intent to commit bodily injury."

The investigation took place yesterday before Judge Strickland, and Copley was bound over in \$1,000 bonds to appear for trial at a future day.

This done the prosecutor stepped up to the judge and informed him that he wanted Bishop W. W. Cluff who was present as a witness, to be put under bonds to keep the peace towards him. Judge Strickland said that it would be necessary for him to swear that Bishop Cluff had attempted or threatened to take his life, and that he would also have to produce witnesses whose testimony would substantiate his statement.

The Bishop, being in the Court-room and hearing the remarks referring to him, instantly informed Judge Strickland that, as it was a busy time and difficult for witnesses to come to the city, he would save that trouble by giving any amount of bond required,—from ten to thirty thousand dollars, ensuring the personal safety of Spriggs if he would only keep sober and not trample upon the laws of the Territory, the ordinances of the city of Coalville or interfere with the rights of his neighbors. Judge Strickland, to his praise be it said, administered excellent reproof and advice to Spriggs, telling him to go home, keep sober and mind his own business, and he felt confident he would not be molested by the people of Coalville.

According to Dr. Scherzer, the Chinese are in the habit of making use of a composition called Schioicao, which has the property of rendering wood and other substances perfectly water tight. This is stated to be composed of three parts of blood, deprived of its fibrin, four of lime and a little alum. A cardboard covered with this is said to become as hard as wood, and it is constantly used in coating wooden buildings in Pekin, so as to render them water proof.

DIED.

In this City, Aug 23rd, of Canker, aged seventeen days, SUSAN FANNY, daughter of John and Emma Miller.

At Coalville, August 9th, of inflammation of the lungs, WILLIAM HUNTER, son of William and Margaret Salmon, aged 6 months and 4 days. Mill Star, please copy.
