OGDEN, UTAH, - JUNE 19, 1903.

SACRED HEART ACADEMY

Twenty-Fifth Anniversary and Commencement -Grand Alumni Banquet.

Death of Promising Ferron Youth, John P. Ralphs - District Court -Weddings.

One of the finest graduating programs that has ever been rendered at the Sacred Heart academy took place yesterday at the academy auditorium, which was crowded with friends of the academy. Yesterday was also the twenty-fifth jubilee year of the academy and that event added much to the celebration and graduation.

Rev. Lawrence Scanlan, bishop of this diocese, was in attendance and de-This diocese, was in attendance and de-livered an eloquent address on the founding of the institution a quarter of a century ago, under his supervision when he was priest in Ogden. The bishop spoke feelingly of those days and the many difficulties encountered in the opening of the academy.

Miss Harcombe rendered the class poem, "Veritas Vincet," composed by herself, which was full of beautiful thought and was rendered in a most reditable manner. Miss Anna Maguire of Boulder.Mont. gave the class Valedictory, which was a fine literary composition, delivered in

a clear voice with force. The presentation of diplomas and medals was made by Rev. Father Cush-

nahan, who gave much good advice to the graduates and lovers of education. the graduates and lovers of education. The remainder of the program con-sisted of beautiful musical selections on the violin, plano, harp and other in-struments, also poses, marches and physical culture drills. The graduates were Miss Harcombe and Miss Ma-mutes

guire. At the banquet of the alumni held last evening at the acedemy the follow-last evening at the acedemy Mrs. McGurley ing toasts were given, Mrs. McGurley acting as toustmistress:

scribed by A. A. Fauvel. It was long ago discovered that the irritation of foreign bodies produces pearls in malluses, and for several centuries pearls have been cultivated on this principle. In two vil-lages of Tebe-Klang province. The molast across the San Juan river from is) is now covered with a heavy growth us) is now covered with a heavy growth of grass and wild flowers. On May 28, a fine baby girl came to the home of Mr, and Mrs. Joseph H. Dean. Last week a boy came to bless the home of William C. Evans and wife. Tor several centuries pearls have been cultivated on this principle in two vil-lages of Tehe-Klang province. The mol-bases, brought from a lake a considerable distance away, are left in reservoirs for a few days to become arclimated. The shells are then opened, lead figures of Buddha or bits of mother-of-pearl are in-troduced, with a little past of ground scales, and the mollises are returned to the reservoirs. A food of feral matter is regularly supplied. After a year of more the nuclei become covered with mother-of-pearl of thickness varying with the time, and the shells or the detached pearly are marketed. A season's product is estimated at 50,660 shells, giving support to 5,060 families. baby boys and girls are quite the fashion in this thriving berg, some 15 having arrived within the last half having arrived within the last half year. During the past winter and spring our population has also been increased by the addition of some 15 families, most of whom have come from Tuba, Ariz., and for the last eight months not a death has occurred in our midst. If any ward can beat that record let them show the figures and we will reloke with them

The development of rapid traveling seems to have brought its disease, affect ing chiefly individuals of degenerate type. French physicians find high speeds at-tended by a kind of intexication in certain automobilists, the effects resembling the morphine desirium, and the victims be-roming quite unable to control their reck-less passion for sipid motion. Like the morphine and alcohol habits, the speed habit seems to develop gradually, entire loss of restraint being reached only in ad-vanced cases.

Promise of Good Crops of Hay, Grain and Fruit.

Special Correspondence.

Holden, Millard Co., June 17 .- A fine program for the 4th of July celebration has been prepared by committees ap-pointed last Sunday for that purpose, and we expect to have a jolly good time

hat occasion. Haying has commenced, with prosects of a fair crop, though it is shorter than common on account of so much cold, stormy weather. We have a great deal more water than for several years at this season, consequently the second crop of hay will be heavier than coma. It is very hard to find help in the field on account of so many men having left earlier in the season when was no work to be had here.

teaching in the future.

Our cheese factory is still running and will continue through the summer. We have never been able to do this before.

Toole courthouse Sheriff R. N. Shields brought them in last night from an old y well, about four miles northeast town, where they were discovered

n a peculiar manner. The supposed purloiners of the sugar are known and will be arrested as soon as they can be located. The officers of he county, together with Detective Releigh of Salt Lake, are now on their

rall It is thought that the sugar and a large quantity of bacon and cove oys-ters which were stolen at the same ime, were cached in a dwellinghouse in Lake View. Last night the sheriff learned of this and proceeded there this morning to get the goods, but found that they had been spirited away. He either direction, without extra found some wagon tracks leading from the place, and after following for sevcharge., No excess fare charged on any eral hours discovered the stolen goods in the old dry well as previously related.

Supposed Body of Fred Nauerth

Found.

Boise, Idaho, June 18 .- The body of a

man was found this morning in a slough about five miles up the river. The remains are supposed to be the

body of Fred Nauerth who lost his life while attempting to cross the upper Boise on horseback on May 28. The

body was pulled out on the bank and the sheriff's office in this city was noti-

fied. The remains were badly decom-posed. An inquest will be held tomor-

W. H. EARLY SHOT. Deplorable Accident Happens at Camas Dipping Vats. Special Correspondence. Halley, Idaho, June 18 .- A deplorable

shooting accident happened at the sheep vats near Camas last evening. W. H. Early, a prominent woolgrower, went out to the vats taking his dog with him. A herder at the vats mistook Early's dog for a coyote and shot at it, hitting Early, who was not in sight, in the back,

inflicting a serious wound that is feared may be fatal. Warning.

If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for re-sults, as it positively cures all forms of kidney and bladder diseases. Sold by Johnson-Pratt Drug Co.

FRUITLAND, NEW MEXICO. BENEFICENT RAINS.

Growing and Thriving Community-New Sunday School at Jewett. Special Correspondence,

Fruitland, New Mexico, June 12 .- We are having an unusually cool and wet spring. Rain has fallen every day for the last week. The cold weather is holding back alfalfa and garden truck but the moisture is causing the grasses to grow on the range thus furnishing good feed for the stock. This is a luxury that the people here have not had

for several years. One pleasing result of the widespread rains over this region is the benefit it will be to the Navajo tribe of Indians. who have been in great distress for th past year on account of the drouth, their sheep, goats and horses died in great numbers for want of food. The principal revenue of the Navajo Indian is derived from the sale of the cele-brated Navajo blanket. They raise

their own sheep, shear, card and spin the wool, and weave the blankets. The sheep and goats are their only meat supply also, under normal conditions, but during the last winter they have had to kill their ponies for food. It will be readily seen that the destruc-

SCIENTIFIC MISCELLANY.

A harmless match-making process hav-ing been favored by the German reich-stag, the use of phosphorus is to be pro-biblied after Jan. 1. 193. The discussion of the present industry brought out the statement that the necrosis set up in the bones of the phosphorus users may make its appearance three or four years after the workman has left the factory, and so insidious is the disease that victims have had bones fractured without knowing anything was wrong. The effects may ex-tend to whole families through heredity.

While urging that the proposed biologi-cal survey of the North Sea should seek means of favoring fishes and their food supply, Prof. W. C. McIntosh declares means of favoring names and then toos supply, Prof. W. C. Melntosh declares-that no important species is in danger of becoming extinct. The fishes were not exterminated by the swarms of gigantic destroyers of reptillan times, when the destruction must at least have equaled that of today by man, and future extinc-tion need not be feared.

Exhaustive tests for years have con-vinced Joseph L. Ferrell that sulphate of aluminum is the best fire-papofing for wood. Unlike sulphate or pförephate of ammonia, which check flames by emit-ting ammonia gas, the aluminum com-pound forms an infusible and non-con-ducting costing.

specifications may be seen at the society's office. Certified check for 5 per cent must accompany each bid. The society reserves the right to reject any and all bids. NELSON A. EMPEY, President, W. J. Bateman, Secretary.
