

## NEWS FROM FINLAND IS VERY STARTLING

It Was Accidentally Discovered  
That Arms and Ammunition  
Are Being Imported.

### IT PORTENDS REVOLUTION.

Taken to Indicate an Intention to Form  
A Regular Military Organ-  
ization.

St. Petersburg, Sept. 12, 8:45 a. m.—The news from Finland of the accidental discovery of the importation of arms and munitions in large quantities is the most serious disclosure regarding the revolutionary movement in Russia that has yet been made, as it indicates an intention to form a regular military organization. The importation of revolvers to Finland, Poland, the Baltic provinces and other districts of Russia has been an open secret for a long time. In fact the imported revolvers are sold in the open market, and are used in the purchase of small arms, but these are pocket weapons, intended only for use in street fighting and in attacks on the police. The importation of small caliber revolvers and carbines of a modern type, however, presupposes a design to organize formal resistance to the government, and the presence of bayonets in the equipment strengthens this supposition.

No information can be obtained here concerning the possible identity of the importer, but it is believed that the arms are being imported from Helsinki, and it is recalled that the investigation into the assassination of General Kuropkin, governor general of Finland, in June of last year, disclosed the existence of a society formed for the purpose of importing arms.

### KANSAS CITY SCHOOLS.

Negro Pupils Refused Admittance  
to White Ones.

Kansas City, Mo., Sept. 11.—Twenty negro pupils were refused admittance to the white schools at Kansas City, Mo., today, and it is said they will contest the case in the courts. The Kansas legislature last winter passed an act separating the races in the Kansas city high school. Bonds were voted for the erection of a school for the negroes, but the structure has not been erected yet. Until the negro school has been erected there will be two sessions of the white school. The white children will be permitted to attend in the morning and the negroes in the afternoon.

At Bonner Springs, Kan., near here, in negro pupils left the school building when the members of the board of education notified them that they would have to occupy the same rooms as the whites.

In both instances the negroes withdrew quietly and there was no show of a clash.

### FOREIGN MISSIONS BOARD.

Making Final Preparations for  
Meeting of Commissioners.

Seattle, Wash., Sept. 11.—Final preparations for the ninety-sixth annual meeting of the American board of commissioners for foreign missions which will convene in Plymouth Congregational church on Thursday morning, the new order way. The most important proceeding yesterday was the selection of the committee on the arrangements for the meeting of the special committee having the different branches of the work in charge. The committee is in charge. The committee is as follows:

General executive committee, Rev. Ed-

### ANGLO-CUBAN TREATY.

State Department Lodges Protest  
Against Its Consumption.

Washington, Sept. 11.—Inquiry at the state department into the status of the Anglo-Cuban treaty, which is now before the commercial bodies of Havana for an expression of opinion on its merits, has developed the fact that as far back as last June the state department lodged a most energetic protest with the authorities at Havana against the consummation of the treaty as it then stood.

The principal objection was that it might operate in the future to prevent the conclusion of another treaty between the United States and Cuba in the nature of reciprocal favors to the United States on the shipping of the two countries.

Minister Squires has been instructed that the treaty would not be objectionable if a provision were attached that it should not be invoked by the British government as a basis for demanding favored nation treatment, such as would be enjoyed by the United States in any treaty to be entered into in the future with Cuba.

### DISCUSSED THE CANAL.

President Entertains Consulting  
Engineer at Sagamore Hill.

Oyster Bay, Sept. 11.—Members of the board of consulting engineers of the Panama canal took luncheon with President Roosevelt at Sagamore Hill today. Canal matters were discussed, it being largely for this purpose that the luncheon was given.

The president received the members of the board in the handsome new trophy room, the presentations being made by Gen. Davis. During the luncheon, which followed immediately and which Mr. Albert Shaw, editor of the Review of Reviews, and John Barrett, United States minister to Colombia, also were guests, the discussion of canal matters was general, but informal.

At the conclusion of the luncheon the president made a brief but formal statement to the board, in which he outlined definitely the policy to be followed in the canal construction. That statement was not made public, it being deemed desirable that for the present it be for the information of the board only.

The engineers remained in conference until 5 o'clock, when they returned to the ship, which sailed for New York. The board will arrive in Washington tomorrow and resume its session there.

The call of Dr. Shaw and Mr. Barrett was largely personal. The latter will remain in this country until October, in order that he may confer with Secy. Root and Mr. Cortez of Colombia.

hia, who is now in London, before returning to his post.

### M. WITTE AT WEST POINT.

Received by Gen. Mills and Given  
A Salute of Nineteen Guns.

New York, Sept. 11.—M. Witte and Baron Rosen, the peace envoys, went to West Point military academy today, traveling as guests of J. P. Morgan, in his yacht corsair.

The Russian envoys were met at the West Point landing by Gen. Mills and his staff and a detachment of cavalry. There was a salute of 19 guns and a review of the corps of cadets. After being conducted through the various buildings the Russians again went aboard the yacht corsair and were conveyed to Mr. Morgan's country seat at Highland Falls, where they had dinner.

Commander Takahira and Col. Takahara of the Japanese navy and army, respectively, visited West Point earlier in the day.

### KOMURA MAY MEET WITH HOSTILE DEMONSTRATION

Such is Opinion of Rev. H. Kozaki, a  
Prominent Japanese Minister Just  
Arrived in Seattle.

Seattle, Wash., Sept. 12.—That Baron Komura, the Japanese peace plenipotentiary, and his party may be met with a hostile demonstration on his arrival in Japan is the opinion expressed last night by Rev. H. Kozaki, a prominent Japanese minister who arrived in this city yesterday to attend the missionary conference.

Rev. Kozaki says, however, that if this class of people who are responsible for the present uprising learn the true conditions of the peace settlement before the arrival of Baron Komura that they may not be molested.

Rev. Kozaki also states that it is the intention of his government to take up the work of enlightening the Chinese immediately, and that there are at present some 3,000 students in the best Chinese families attending educational institutions in Japan, some of them being young women.

The minister states that unless the Japanese receive the indemnity agreed upon as reimbursement for the expenses of taking care of Russian prisoners, that economic depression may result for a year or so, and that this is resolved within a short time, however, this danger will be averted.

### OLIVE OIL IMPORTATIONS.

Treasury Department Investigating  
Alleged Frauds.

New York, Sept. 12.—An investigation is being made under the direction of the treasury department of alleged fraudulent importations of olive oil. During the past week numerous cases are stated to have been found of importations of olive oil in violation of the law, receiving an inferior grade of olive oil under the guise of machine oil. In some cases several hundred barrels of this olive oil were brought over at a time. These importations are said to sell the oil to retailers who mix it with cotton seed oil and sell it as olive oil, or themselves so mix and sell it.

To discontinue the olive oil fraud, importers are stated to have had it shipped in rough, dirty barrels, and took no pains to rid it of its impurities or foreign qualities until it had passed the customs officials. As the pure olive oil is carefully filtered and put into nicely polished barrels surrounded with straw, the deception had passed muster many times under highly examination. Under the present rigid scrutiny of the official from Washington, the oil was found to be edible oil, and with proper treatment for ordinary consumption. As machine oil it comes in without payment of duty, but as edible olive oil a duty of 40 cents a gallon can be imposed.

Such an evasion of the customs laws is punishable with the seizure of the merchandise involved, besides fines not exceeding \$5,000 in each case and imprisonment for not more than two years.

Cases are said to have been discovered where the oil was consigned to a bank without the name of the real consignee appearing.

This will add somewhat to the difficulties of the government authorities in ferreting out the violators of the customs laws. They can, however, make the auditors of the bank in question responsible for such violations unless they give up the names of the perpetrators of the frauds.

Shilling's tea.

### THOMPSON MURDER CASE.

No Progress Made in Running  
Down the Murderer.

New York, Sept. 12.—Although half a dozen detectives have been continuously engaged on the case no progress has been made in running down the murderer of Jacob H. Thompson, a veteran exchange editor of this city, who met his death Thursday night. How a man without an enemy could be brutally assaulted and killed in a crowded hotel, one where Mr. Thompson lived and without attracting the slightest attention from occupants of rooms on both sides of the apartment in which the deadly encounter occurred, is something which puzzles the police.

Something in the nature of substantiation for the story that the murder was merely for the purpose of robbery, and that the deed was done by some one familiar with the inside of the house was learned last night that within the last six weeks two robberies occurred in the hotel.

### Armless Wonder Killed by Car.

Chicago, Sept. 12.—A one-armed man known in the downtown district as the "Armless wonder" was run over and killed early today by an electric car. The man, who was about 40 years of age, was walking across the street when he was struck by the car. He was taken to the hospital, but died shortly after.

### To Cure of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Seattle, is a sad one. He has been suffering from a persistent cough, resulting from the grip, for a year or so, and has been unable to do his work. He has been advised to take a cure for consumption, and has been advised to take a cure for consumption, and has been advised to take a cure for consumption.

### THE CHASE PHOTO STUDIO.

Has moved to 20 Main.

### SCHOOL OF ARTS AND SCIENCES.

The State School of Arts and Sciences offers college courses in arts and sciences, embracing the following subjects which are largely elective: English and American literature, art, history, physical education, ancient and modern languages, history, science, and philosophy, mathematics and astronomy, physics and chemistry, biology, geology and mineralogy, etc. The first two years of a medical course are offered.

Graduates from accredited high schools are admitted without examination.

The school of Arts and Sciences is the chief of the three state schools that comprise the University of Utah.

## SS.S. OUR RECORD

There is a familiar saying, and a true one, that "Time proves all things." When a medicine has stood this test for a period of forty years, and is then more in popular favor than ever, there is no doubt as to its merits. This is the standard by which S. S. S. has been measured, and its record of forty years of cures fully justifies its popularity as a blood medicine. For nearly half a century this great remedy has been used in the treatment of blood and skin diseases of every character, and so satisfactory have been the results that it is now the best known and most widely used blood medicine in the world. The success of S. S. S. is based upon the fact that it has always done everything claimed for it; it has maintained the confidence of the people because it deserved it. The constantly increasing demand for S. S. S. is the result of the good words spoken of it by those who have been cured of disease by its use, and, therefore, know from experience that it is the greatest of all blood purifiers. **ITS FORTY YEARS OF EXISTENCE HAVE BEEN FORTY YEARS OF CURES.** For Rheumatism, Catarrh, Scrofula, Chronic Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other diseases due to an impure or poisoned condition of the blood, there is nothing that equals S. S. S. It counteracts and drives out the germs and poisons, cleanses the system of all unhealthy matter, cures the disease permanently and restores strong, robust health. Where the blood is weak or anaemic and unable to nourish the body as it should, S. S. S. supplies it with the healthful properties needed, and being a bracing, invigorating tonic it builds up the entire system. It goes to the very bottom of all blood disorders and in this way reaches deep-seated and inherited cases on which the ordinary sarsaparillas and tonics have no effect. S. S. S. is also an ideal old people's remedy, relieving the diseases and discomforts of old age and giving strength and vigor to their declining constitutions. Not only is S. S. S. certain in its results, but it is safe. Being made entirely from roots, herbs and barks of the forests and fields, chosen for their healing, cleansing and building-up properties, it acts gently and pleasantly on the delicate members and tissues of the body. S. S. S. enjoys the distinction of being the only blood remedy on the market that does not contain a mineral ingredient of some kind. If you are in need of a blood remedy do not experiment with unproved medicines, but get S. S. S., the remedy that has the endorsement of millions of people, and one that has proved its worth by its forty years of cures. All sufferers from blood or skin diseases are invited to write to our Medical Department, stating their case, and our physicians will take pleasure in giving the medical advice needed, and will send our books on the different diseases. We make no charge for the advice or the books.

Some ten years ago I used your S. S. S. with the most satisfactory results. From childhood up I had been bothered with bad blood, characterized by skin eruptions and boils, especially bad in the summer. For five or six summers I had boils ranging from five to twenty in number each season. Our local physicians prescribed for me, but nothing they gave me did away with the annoying skin eruptions or prevented the boils from appearing. The burning accompanying the eruptions was terrible, and I had as high as six boils at one time. My condition was truly a pitiable one when I began S. S. S. It seemed to be just the medicine needed in my case. It drove out all impurities and bad blood and restored the circulation to its original strength and purity, giving me permanent relief from the skin eruption and boils. This has been ten years ago and I have never had a return of the disease. I would state also that my husband has taken it with good results.  
Newark, Ohio  
MRS. J. D. ATHERTON.
