

## EVERYBODY IS FEELING GLAD.

Anticipation of Strike Settlement  
Puts Good Nature Into All.

## OFFICIALS ARE RETICENT.

Will Not Speak of Probable Conditions of the Wind-up of the Big Strike.

Pittsburg, July 29.—Pittsburgers generally express their delight in the anticipation of a settlement of the strike and no one seems to have the slightest doubt that the negotiations for peace will result in a cessation of hostilities. So far neither of the contending forces has suffered greatly. The weather has been exceedingly hot, and the men look upon the last month as a vacation during the heated term. Working under the severe strain of the oppressive heat lately would have been an unusual hardship and the men think that on this account, perhaps many lives have been saved by the strike. So far as the companies are concerned they are also in better position for work now than they were before the strike. Many of their mills have been repaired and the condensed steam increased output are greatly improved. It is true that a computation of cold figures foot up a total loss of \$5,000,000 on account of the strike, of which the immense sum \$3,000,000 is charged to the combine and \$2,000,000 to the strikers, but this loss will soon be made up owing to the better prices which are now prevailing and the improved operating conditions as well as the better feeling between the employer and employee.

President Shaffer and Secy. Williams were both at the Amalgamated headquarters early this morning. They still maintained their position of secrecy, however, and beyond admitting that a call had been sent out to the members of the executive board for a meeting to be held in this city tomorrow morning refused to give any information as to the probable result of the strike. To all questions Secretary Shaffer replied that he had nothing to say, but in a friendly talk of some length he pointed out the fact that newspaper men would little longer be following him and watching his movements. From this it is believed that President Shaffer is satisfied that the executive committee will agree to the proposition that he will present. With the approval of his recommendations, a joint meeting could be held and a settlement effected. The moment that the common ground for negotiating such a question as this one is found, it is believed, there will be little difficulty in getting the terms of an agreement which will bring peace with it.

Secretary Joseph Bishop of the Ohio board of arbitration, reached the Amalgamated headquarters about 10 o'clock and the newspaper men were requested to leave the room. Behind closed doors a conference between President Shaffer and Secretary Bishop is now being held. There remains little doubt but that officials of the United States Steel corporation are now as anxious to have the big strike ended as are the strikers. During the last week a number of contracts intended for and practically left to mills of the combine were shifted to independent mills, with rush clauses attached.

Terms of the prospective settlement are being carefully guarded by all parties concerned, but from a source believed to be reliable, it is stated that Mr. Morgan proposes to permit the Amalgamated association to continue its union lodges in the mills that were non-union prior to the strike, but which went out on President Shaffer's strike order.

The United States Steel corporation is to be permitted to operate the big mills of the Carnegie company as they are now operated, as well as the big sheet mills at Apollo, Vandergrift and Salisbury, provided the wages paid shall be on the same basis as the mills where the union scale is signed. There is considerable speculation as to who will take part in the joint peace conference, projected by the Amalgamated association and the United States Steel corporation. This board is composed of nine district vice presidents, the chief of the Amalgamated association, Secretary Williams, Assistant Secretary Tighe and B. L. Davis, manager of the Amalgamated association. The American Tin Plate company will probably be represented by Vice President Warner Arms and W. M. Leeds, his assistant; W. J. Preston, former president of the American Steel Hoop company; J. W. Jones, chief engineer of the American Tin Plate company; J. R. Phillips, district manager of the same company, and P. E. Donner, manager of the Monessen Tin Plate company, may probably be called in.

**Iowa Relieved.**  
Burlington, Iowa, July 29.—Reports show that the drought in southeastern Iowa has been effectively broken by a heavy rain which lasted all night. It is believed that the rain arrived in time to largely save the corn crop in this section of the state.

**Trouble Fared.**  
McKeesport, Pa., July 29.—The action of the American Tin Plate company at McKeesport in notifying the pipe fitters and millwrights to take a vacation was evidently a ruse, as one set of rolls and one furnace was put in operation. Ten or twelve men are sufficient to run the one furnace and set of rolls, and that is all the men supposed to be at work. The indignation among the strikers is at fever heat and trouble is feared when the men attempt to leave the plant tonight.

**Federation Will Help.**  
New York, July 29.—The Tribune says that the Amalgamated association of Iron and Steel workers, being affiliated with the American Federation of Labor, the officers of the latter, it is learned, are paying particular attention to the strike of the steel workers. A circular has been sent by the federation to all its affiliated unions informing them to be ready to take action regarding the strike if it is considered expedient to do so. Should no settlement be reached and the strike be extended it is expected that an appeal will be made to the federation for financial aid when, it is said, the executive council of the federation will meet and may levy an assessment in favor of the strikers.

**Big Defense Fund.**  
New York, July 29.—The World says: Resolutions advocating the raising of a half million dollar defense fund, and other things bearing on the steel and other strikes, were discussed at a recent meeting of the Central Federated Un-

ion of New York. The resolutions will be voted on next Sunday. They advocate also the retention of a lawyer who shall be paid "a sufficient fee to be above the reach of temptation," and who shall be called upon to attend to all cases in the courts in behalf of organized labor throughout the country.

**Teamsters on Strike.**  
San Francisco, July 29.—The teamsters' strike situation remains unchanged this morning. None of the allied unions have gone out, but it is expected that the porters and packers will go out this afternoon. A great many non-union teams are at work and business seems to be moving readily.

**French and Germans Will Stay.**  
London, July 29.—The Shanghai correspondent of the Globe, cabling to-day, says:

"The assurances given in the house of commons (July 23), by Lord Cranborne, the under foreign secretary, that the French and German troops are only temporarily here, are refuted by the fact that both nationalities are erecting massive, permanent barracks, which will take two years to complete, indicating that many years' occupation are contemplated."

**Must Keep Quiet.**  
Washington, July 29.—Secretary Long this morning issued the following general order: "All persons in the naval service are strictly enjoined to refrain from any public statement concerning the subject matter of the court of inquiry requested by Rear Admiral W. S. Schley."

JOHN D. LONG, Secretary.

**Sent to San Quentin.**  
San Francisco, Cal., July 29.—John Flannigan, sentenced to life imprisonment for the murder of George W. Lake at Seoul, Korea, has been brought here on the transport Meade and lodged in San Quentin. Lake was Flannigan's partner in the saloon business and was sentenced to San Quentin on circumstantial evidence.

## CHIEF OF CONSTABULARY.

Captain Spellman Sentenced to Imprisonment for Two Years.

Gen. Chaffee Issues Orders Governing the Dressing of Soldiers—The Santa Cruz Robbery.

Manila, July 29.—Major Henry Allen, of the Forty-third volunteers, who was some time since appointed governor of the island of Leyte, has been chosen chief of the insular constabulary, and will proceed with the organization of that force.

Capt. Spellman of the Forty-third has been sentenced to two years' imprisonment for encouraging trading at the closed ports.

General Chaffee has issued an order that the troops shall wear their coats buttoned everywhere outside of barracks. The order diagnoses with the use of flannel shirts, which have heretofore been the customary outer garment. Officers are ordered to wear khaki for all duty and avoirdupois when actively commanding. White or dress suits are permitted to be worn on social occasions.

Upon visiting the posts unexpectedly, Gen. Chaffee found an astonishing variety in the uniforms and a great laxness regarding the clothing of the troops.

Two native policemen have been killed in the suburbs of Cebu. During the town continues. Proved Davis is conducting an investigation.

The detectives employed in investigating the Santa Cruz robbery have found no definite clue, nor have they learned the amount the thieves secured. It appears that the sergeant of the guard was intoxicated and that one sentry was detected to guard the five entrances to the guard house.

Gen. Martin Delgado, governor of the island of Panay, has asked for aid in consequence of the ravages of locusts and the reinder pest.

Spanish residents of Manila are urging the Philippine commission to tax real property upon the basis of the income derived instead of upon its value.

The discussion of the Manila charter continues.

An investigation is pending in the case of Lieut. McCarthy of the Thirty-fifth regiment, because of the loss of \$1,000 public money while being conveyed from Aparri to Manila.

## LYTTLETON THE MAN.

He is Generally Thought to be the Successor of Kitchener.

New York, July 29.—A dispatch to the Tribune from London says: It is freely rumored that Gen. Lyttleton will succeed Lord Kitchener as commander in chief of the British forces in South Africa.

Gen. Lyttleton, who is now in command of the British forces in South Africa, is generally thought to be the successor of Kitchener. He is a man of the war, and is at least actually in sight, so Lyttleton's task will be more passive than Kitchener's.

Gen. Lyttleton was born in 1845, and served in the Crimean war, and in the early days of the war, but General Forester-Walker and Methuen are both senior to him. Neither of these men is, however, likely to be appointed, and it must be said in favor of the choice of Lyttleton that he has distinguished himself in civil life.

## Crispi Sinking.

Naples, July 29.—12:30 p. m.—Signor Crispi at this hour is sinking. His condition is most grave.

## Nearly Six Million.

New York, July 29.—That Jacob S. Rogers, who left almost all of his immense estate to the Metropolitan Museum of Art, himself valued the estimate of his property at \$5,443,000, has been discovered by the appraisers. This estimate was made by the millionaire a week before his death and the appraisers say it will not be very far from the true value.

**Difficult Digestion.**  
That is dyspepsia  
It makes life miserable.  
It suffers eat not because they want to—but simply because they MUST.

They complain of a bad taste in the mouth, a tenderness at the pit of the stomach, a feeling of puffy fullness, headache, heartburn and what not.

Hood's Sarsaparilla cured Joseph F. Laine, Flanagan, Ky., who writes: "I was troubled with dyspepsia for a number of years and took medicine that did me no good. I was advised by friends to try Hood's Sarsaparilla which I did and it put my bowels in perfect condition, gave me strength and energy and made me feel like a new person."

**Hood's Sarsaparilla**  
Promises to cure and keeps the promise. Beware of substitutes. Buy Hood's and only Hood's.

## NORTH SALT LAKE SHOPS AND YARDS

Oregon Short Line Commences  
Condemnation Proceedings.

## SAN PEDRO AFTER A SITE.

Will In All Probability Purchase Ninety Acres and Copper Plant for \$100,000—Railroad News.

From present indications the shops and mechanical plants of the Oregon Short Line, San Pedro, Los Angeles and Salt Lake and the Southern Pacific are to be located at North Salt Lake. It is practically assured that the first two named systems will establish plants between the Jordan river and a couple of blocks west of the Warm springs; should the construction of the roundabout cut-off be decided upon, the Southern Pacific will undoubtedly fall into line and put in its plant in the same vicinity.

The first move on the part of the Short Line will be taken possibly this afternoon, when the company will file through its attorney, Parley L. Williams and George H. Smith, a condemnation suit in the Third district court against Abraham Hanauer, R. G. Legg, Oscar Greibert, Charles E. Adamson, Neill C. Adamson, Alfred A. Walters, Jesse W. Fox, Jessie M. Fox, Utah Commercial and Savings Bank, M. C. Moon, George D. Sweetser, J. Howard Sweetser, George L. Putnam, Joseph H. Burnstead, Howard F. Sweetser, Theodore F. Sweetser, Pembroke & Co., First National Bank of Park City, McCormick & Co., Wells, Fargo & Co., W. B. Lawler, E. A. Whitaker, W. W. Tamm, Salt Lake City corporation and Arthur Brown.

The papers filed set forth that Salt Lake is the principal station and place of business on the Short Line system, and that business has increased to such an extent that it has become necessary to increase the size of the machine shops, roundhouse, car shops and other facilities.

The petition sets forth that it is necessary for the purpose of erecting buildings to secure all of block 136, plat 2, east of the main line, all of blocks 153, 154 and 171, plat 1, and all of block 109, plat 1.

The papers filed in addition state that the company has already purchased the eastern half of block 136, plat 2, all of 153, all of 154 except part of lot 8, all of 171 except part subdivided into block 16, Lake View subdivision and designated as lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

The action taken by the Oregon Short Line in securing a site for extensive shops, it is said, has been pushed on account of the fact that the San Pedro road has been under construction for some time, and the result that they have decided upon North Salt Lake as the location for their mechanical plant.

Some five months ago the company secured an option on the ninety-acre tract of land and buildings thereon purchased with a few as it scratches. Attorney C. O. Whittemore this morning stated that the proposition had been submitted to the directors of the road, but as far as he knew no action had as yet been taken in the matter.

If the San Pedro company decide to purchase the place, it is not likely they will become possessed of a valuable piece of property which is in every way adapted to the requirements of the company. With the exception of a round house, there will be practically no new structures to be erected, as the buildings already standing can be used for the purpose of machine shops, car shops and blacksmith shops. There is also a never failing source of water supply on the property.

With the Southern Pacific also coming to the city North Salt Lake promises to be the site of the yards of the three big systems.

## PAUL SMITH IS INJURED.

Thrown From a Wagon Which Falls on Top of Him.

Paul Smith the proprietor of the Salt Lake Cleaning works is lying seriously injured at St. Mark's hospital. His condition is the result of a runaway which occurred this afternoon. He was in his delivery wagon delivering clothes on Fifth South, when the horse became frightened and ran. Smith, who was seated in the seat with Mr. Smith, was thrown out of the wagon and fell on top of him. Albert Bull, a small boy, was in the seat with Mr. Smith, but he escaped unhurt.

After getting the vehicle from off him it was seen that Mr. Smith was severely hurt, being unable to rise. The St. Mark's ambulance was called and he was taken to the hospital where he was found to be hurt in the back. It is not known at this time how serious his condition is.

## LATE LOCALS.

George A. Snow came down from Moscow, Idaho, today and registered at the Colton.

Marriage licenses were issued today to Gustaf Oscar Rosendal, 29, of Salt Lake City, and Jennie E. Sundstrom, 17, of Union; Richard J. Bews, 27, of Toano, Nev., and Joale Donald, 21, of Toano, Nev.

P. H. Hansen, road supervisor of district thirty-three, appeared before the county board today and made the statement that certain parties were obstructing the Big Cottonwood canyon road at Brighton by placing a gate across the road, which was kept padlocked, thus obstructing and injuring a public highway. The supervisor was directed to remove the obstructions and to cause a cessation of the injuries complained of.

**CLOSING STOCKS.**  
New York, July 29.—Closing stocks: Atchison, 75; Southern Railway, 30; do pfd, 64; C. & N. 28 1/2; Southern Pacific, 64 1/2; N. & W. 102 1/2; W. U. 92 1/2; Sugar, 42 1/2; Steel, 45; do pfd, 56; E. R. T., 77; Manhattan, 119 1/2; M. & K. T., 54 1/2; Rock Island, 149; Reading, 42 1/2; Wash. 55 1/2; N. Y. Central, 151; Copper, 118 1/2; People's Gas, 115; Missouri Pacific, 101; Anaconda, 44 1/2; C. C. W., 20; Reading, 101 pfd, 77 1/2; St. Paul, 103 1/2; Union Pacific, 100; T. & C. 1, 63; B. O., 97 1/2; Metropolitan, 160 1/2; North American, 102; Northwest, 49 1/2.

## COMMITTEE ON RIVERS & HARBORS

Body of Congressmen and Their  
Wives Visit Salt Lake.

## SPEND AN ENJOYABLE DAY.

Organ Recital at Tabernacle, Visit with President Snow and a Plunge at Salsit.

Salt Lake was favored today with having number of distinguished guests. The important visitors are the members of the House committee on rivers and harbors and are returning from an extended inspection of the Pacific coast. Their visit to California is of unusual interest to the people of Utah as they took occasion to inspect the San Pedro harbor, which they pronounced to be an excellent one. This harbor is the terminus of the Salt Lake Los Angeles and San Pedro road. The congressional party, of which there are about fifty, arrived in the city this morning over the Oregon Short Line, and will leave in a coach this evening over the Rio Grande Western. Their stay here has been used to the best possible advantage. This morning a special organ recital was given in their honor, which they seemed to appreciate very much. They called on President Snow and had a very pleasant visit. This afternoon they went out to Salsit and Salsit, where they are spending the night. The party has been out for several weeks and is now making its way back to Washington.

The members of the party are T. E. Burton, of Ohio, Walter Reeves and wife, Illinois, Blackburn B. Dovenor, West Virginia, Roosevelt P. Doherty, Michigan, Ernest P. Acheson, Pennsylvania, Page Morris, Minnesota, D. A. Alexander, and wife, New York, Thomas H. Touque, Oregon, George P. Lawrence and wife, Massachusetts, James H. Davidson and wife, Wisconsin, Thomas C. Catchings, Mississippi, Rufus E. Lester and wife, Georgia, John H. Bankhead, Alabama, Philip D. McComb, Iowa, J. P. Stevens Jr., Miss Ethel Smith, Miss Berta Stevens, Mrs. N. P. McPherson, and Miss Addie Farnell of Jackson, Mississippi, and J. F. Priestow of Ohio.

## CITY IS BLAMED.

Death of Little Ernest Bench Johnson Due to Negligence.

The great field museum, the art institute and great public libraries have also claimed a portion of our time and thought. One Saturday was spent in a very pleasant manner on an excursion to Starvation Rock, the highest cliff perhaps in this state, but one which our smallest school boys have seen surveyed in any of our mountain scenery. The excursion was greatly enjoyed and thought to be very grand by most of the people from this and other states who went on the excursion. The members of the party, who were all of our experiences thus far in Chicago, were our celebration of Pioneer day, last evening.

The club had engaged Haskell hall, one of the university buildings, which was appropriately decorated with flags and flowers; refreshments were provided, and a program of exercises presented to the party. The party was very large, and many of the students and faculty were present, and thoroughly enjoyed themselves.

## PAWN SHOP CAPTURE.

Officer Eddington Has a Lively Time Arresting a Suspect.

At a late hour this afternoon Officer "Dick" Eddington made an important capture at Cline's pawn shop on east First South street.

The officer observed a fellow in the pawn shop, who was about 100 valuable pocket knives, and he concluded to investigate.

When asked by the officer where he got the knives, he said a man gave them to him, and later claimed he found a bundle containing the knives down the street. Officer Eddington, finding him under arrest, and as he was taking him to the police station, he was accompanied by P. Pratt, the fellow broke away and ran down the street. Eddington drew his revolver and gave chase. When the officer got within reach of him he hit him a blow on the head with his club, knocking him senseless to the ground. He put up a struggle all the way, and was later taken to the police station. It is believed he is the police roundly. It is believed he is the man wanted at Provo for burglarizing a store there. Sheriff Storrs telephoned the police of the burglary and gave a description of the man wanted, and the officer captured this afternoon answers the description. He gave his name as John E. Eddington. He was held pending the arrival of Sheriff Storrs.

## AT THE RESORTS.

The Twenty-first ward M. I. A. is at Lagoon today where a general program is in order. This evening the novelties, under the leadership of Benjamin Goddard will go out to the Farmington resort in a body.

The Primary associations are gathered at Salsit today. A large crowd is in attendance, consequently it is expected that the exchequer of the Women's building fund will be materially augmented.

The Women's Democratic club has arranged an interesting program for their day out at Salsit tomorrow.

Big preparations are being made at Salsit for the Pacific Islander's day on Wednesday.

The Westminster Sunday school will migrate to the cool bowers at Lagoon tomorrow.

A new sailing boat, the "Louisa," will be placed on the bosom of Great Salt Lake within a few days. The ship is at present under course of construction at Black Rock, and when completed, will be twenty-six feet in length, with six-foot beam, to draw about twenty inches of water. In addition to mast and sails the boat will be fitted with a propeller and naphtha engine of fourteen horse power capable of eight knots. The boat is owned by P. W. Madson and others and is named in honor of Mrs. P. W. Madson.

A mistake of the press in Saturday's "News" made it appear that a "misrepresentation" was responsible for the comparatively small attendance at the resort on Republican day whereas "misapprehension" was the word used.

## PIONEER DAY CHICAGO.

Utah Students at the University and  
Missionaries Give Entertainment.

## A VERY ENJOYABLE TIME.

An Interesting Program, in Which Miss Babcock, N. T. Porter and Others Take Part.

Special Correspondence.  
Chicago, July 26.—The number of teachers and students from Utah who are doing educational work are mostly attending the University of Chicago summer school. It seems this is the largest representation from any state equally distant, and is very gratifying to the faculty of the University here. If other centers of learning are as well patronized by representatives from Utah, surely our educational work cannot long be behind the very best.

But here in Chicago our source of learning is not confined to the university alone. This is a great city, and many problems in social economy are encountered here that do not occur in smaller municipalities. An endless number of interesting conditions, affording most profitable study may be met on every hand, and the Utah people, with a view to a system of social and economic work with some of these problems have organized themselves into The Utah Club, and have taken a number of trips for pleasure and learning.

Among the places of interest they have visited, sometimes in connection with the summer school, may be mentioned DuSable Park, where the lake breeze is constantly moving immense bodies of sand, covering tops of growing plants on one side and carrying away the sand from the tops of plants on the other side, and showing a wonderful struggle for existence in the plants that manage to live in that locality. A trip on the lake to the waterworks, and a subsequent visit to one of the great pumping stations, gave us an insight as to how the water problem for Chicago has been solved. Another boat trip up the Chicago river, and past the numerous great swinging bridges was a magnificent sight of human achievement. Immense iron bridges spanning this river, one by one, are being built, and based on a circular foundation built in the center of the river, that they are easily turned from across the stream to a position parallel to it while boats pass.

We have also visited the "slums" where the poor and the wife are congregate, as well as the Hull house and the settlement, where the women are doing a noble work in trying to reclaim the fallen and educate the street Arabs.

The Field museum, the art institute and great public libraries have also claimed a portion of our time and thought. One Saturday was spent in a very pleasant manner on an excursion to Starvation Rock, the highest cliff perhaps in this state, but one which our smallest school boys have seen surveyed in any of our mountain scenery. The excursion was greatly enjoyed and thought to be very grand by most of the people from this and other states who went on the excursion.

The members of the party, who were all of our experiences thus far in Chicago, were our celebration of Pioneer day, last evening.

The club had engaged Haskell hall, one of the university buildings, which was appropriately decorated with flags and flowers; refreshments were provided, and a program of exercises presented to the party. The party was very large, and many of the students and faculty were present, and thoroughly enjoyed themselves.

President Harper of the Chicago University sent a note in reply to an invitation to be present, expressing great pleasure and surprise that Utah had a representative on the program, and that a celebration possible, but regretting that that other engagement prevented his attendance. Col. Parker and other members of the faculty were present, and thoroughly enjoyed themselves.

Among the enjoyable features of the program may be mentioned the song, "Utah we love thee," by the whole company; a recitation by Miss Maud May Babcock, a short address upon Utah schools by Miss Ruth; a recitation by Miss Alexander; two male quartets by our missionaries, and an oration "For Pioneer day," by Mr. J. Porter, which was particularly fine.

Col. Parker in a very happy mood, described his labors in Utah nine years ago, and closed a most complimentary address by thanking the whole company for their hospitality and eloquent prophecy, that the descendants of those pioneers, whose exploits we were commemorating, would yet occupy heights in intelligence and moral superiority in the world, far greater than the altitude of their mountain homes might symbolize.

We were deeply impressed with the sturdy virtues of the people, whose contact with him quickly brushed away his former prejudice and planted in his heart a deep and abiding love and respect for the pioneer.

He was followed by Miss Zona Babcock and Miss Flora J. Cooke, both of whom had labored in Utah at summer school for teachers. The many Utah teachers who listened to them, when there will be pleased to know that the most pleasant and vivid impressions were made upon their minds while in Utah, and Miss Babcock related at length to the writer the delightful time she had while in Utah.

She lived with Aunt Zina Young during her sojourn there, and learned much of the domestic life of the Latter-day Saints, which impressed her favorably in the highest degree. She mentioned with the greatest admiration the children of men who had more than one wife, as admirable types physically and intellectually, and freely admitted that Mormon domestic relations had been greatly misrepresented and misunderstood.

At a late hour the company dispersed in the midst of a much needed, but for us, an inopportune shower. All seemed to have thoroughly enjoyed the entertainment and no doubt that interest in us aroused, and a feeling of friendship promoted.

## TWO POSITIONS TO FILL.

[Special to the "News"]  
Washington, D. C., July 29.—Civil service examination will be held in Cheyenne, Wyoming, on August 4th, for the position of clerk and letter carrier in the post office of that city.

## CARD OF THANKS.

We desire to express to our earnest friends and the order of Woodmen our heartfelt thanks for the help extended and sympathy shown during the illness and death of our husband and father.

MRS. PATRICK CONDON AND FAMILY.

**The Finest Lot of Oriental Rugs**

Ever brought to this city has just been received by us. They are simply elegant and the assortment is immense. All kinds and grades. They were selected personally by our buyer who has great experience in this line. The prices are very low considering quality. Look in at our show window for a few samples.

## H. DINWOODEY FURNITURE CO.

## HUSBAND IS THE VICTOR.

After a lapse of several months during which the case has been under advisement Judge Hall today rendered a decision in the celebrated Vail divorce suit. A decree of divorce is granted to the husband, Elmer Vail, and the wife, Edna Vail, is not allowed any alimony. In his cross complaint Vail accused his wife of adultery, said to have been committed in the Bowly house, a West Temple street rooming house. Mrs. Vail testified at the trial that she was only in the Bowly house drinking beer with some friends. The court finds that the Bowly house incident did not constitute adultery. The custody of the child is awarded to the husband with the limitation that it be not removed from the state except by court order. The child is to be given over to the charge of Mr. and Mrs. W. Geo. and to be supported by Vail. Both he and his wife have permission to visit the child at all reasonable times.

## Didn't Support Her.

Mary Ann C. Huey has commenced divorce proceedings against her husband, Leonard Huey. Mrs. Huey complains that for the last seven years her husband has failed to provide her with the common necessities of life although he has been earning \$100 a month during this period.

## On Ground of Desertion.

Deputy Clerk Armstrong heard testimony this morning in the divorce suit brought by T. E. F. Comstock against his wife, Emma E. Comstock, and recommended that the decree be granted on the ground of desertion. The parties were married at Portland, Oregon, in August, 1886, and the wife left her husband January 9, 1890. There are no children. Mr. Comstock's testimony was corroborated by John Brogan and Henry Helms.

## Buckeye Mine Case.

Trial was commenced before Judge Hall today of the case of J. W. Green vs. Buckeye Mining company. Almost the entire day was taken up in taking testimony for the plaintiff. The case is an order to show cause and a petition for possession and is brought by the recorder, James Alarno, of the Buckeye Mining company, against J. E. Mitchell, Jesse W. Fox, Elmer E. Hyde, Samuel Porter and Charles Farnsworth for the purpose of showing why they are not in contempt in refusing to allow the plaintiff to take possession of the mining property in question. The defendants claim that the property claimed by the Buckeye Mining company was never patented, and that they re-located the claims under other names.

## Divorce Case Referred.

The divorce cases of Emilie Minor vs. John L. Minor, and H. E. Menough vs. Ellen Menough were today referred to Deputy Clerk J. U. Eldredge to take testimony and report to the court.
