Three Michigan boys who went to Montana last week to grow up with the country were relieved of their money by the three-and monte men. The boys are now looking for work of some kind.

· It is something to have a committee of the Senate of the United States report in favor of woman suffrage, even if the proposed constitutional amendment should be defeated. The time was, and not very long ago either, when this despised movement could not even gain a respectful hearing.

The Omaha Herald remarks, "I is said that the Union Pacific will soon build shops either at Granger or Ogden, to take the place of the shops recently burned at Evanston." The U. P. would do well to build its shops at Ogden and also to put up there a decent station or "depot" as it is generally called.

A few weeks ago the Chicago gambling dens were raided by the poll e and all the owners arrested. After long and expensive trials, flues varying from \$200 to \$500 were imposed upon them, but this punishment seems to have failed of the desired effect. All the houses are now in full blast again, and the business seems to be heavier than ever.

A strange disease has appeared among the horses in the vicinity of Warsaw, Ind., and several have died. It is supposed to be an affection of the kidneys. When the horses are taken sick and are uncared for death generally results within twenty-four hours. If attention is given them before they fall down, disease paralyzes completely the hind parts of the animals.

THE ELECTION.

FROM advices received it appears that a large vote was polled all over the Territory on Monday in favor of Statehood for Utah and the ratification of the Constitution of 1882. When the returns are in we will give the statistic?

In view of the probability that Utah will be treated at the present juncture as on former occasions when applying for admission into the Union, the vote was larger than we anticipated, and we are assured that if the likelihoods were that the rights of the people of this THE ASSASSINATION OF PREST. boring under a misunderstanding in relation to them. The first is, "Did the Governor sign the liquor law published in the DESERRY NEWS?" The second is, "Can a man have more than three witnesses in any case, or can he summon a larger number, and when he has proved the point by three, decline calling any more?

We answer "Yea" to the first nestion. The Governor did sign the liquor bill, and it has become law. We should not have published it if it had not been algued by the Governor, without notifying the publie to that effect, and if our friends In Rockwille will take the trouble to look, they will find the certificate of lature, passed through her Legislook, they will find the certificate of lature, passed through here having in custody Bill McDonald and Jim bury as Inspector General of the Martin, who robbed the Texas &

[The doctrine is that Congress can do anything with the Territories. Therefore Congress may pass a law to make sour grapes, or sweet grapes grow on any kind of a tree in the Territories but not in the States. As to precedents, they form no guide to wounded. There are fears of mob the present Congress, and as Mr. Horr declared, "Constitution or no Constitution, law or no law," a certain object was to be attained and the majority would "not stop to puzzle their brains over legal or constitutional considerations." But while it is easy enough to pass laws against nature and common sense it is not generally so easy to enforce them,-ED.7

Since the death of Jesse James travel through the State has increased very perceptibly and I consider it due to the fact that the band of outlaws is broken up. People felt no security in the State before, they feel confidence now and as a result, not only traveling men from large business houses but persons desirous of looking at the country are coming unto us. Just to show how strong the feeling of insecurity was let me tell you that a gentleman met me and said: Now, Crittenden, since you have cleaned your State I shall not be
