

THE EVENING NEWS.

GEORGE Q. CANNON,
EDITOR AND PUBLISHER.

Thursday, July 25, 1872.

GENERAL ELECTION FOR 1872.

MONDAY, AUGUST 5TH.

PEOPLE'S TICKET.

FOR DELEGATE TO CONGRESS.

GEORGE Q. CANNON.

COMMISSIONERS TO LOCATE UNION TERRITORY LANDS.

JOHN VAN COOT,
LEWIS S. HILLS,
JOHN ROWERBY.

REPRESENTATIVES FOR SALT LAKE CITY.

ORSON PRATT,
JOHN TAYLOR,
A. P. ROCKWOOD,
B. YOUNG, JR.,
JOSEPH F. SMITH.

SELECTMAN:

ISAAC M. STEWART.

TREASURER:

THEODORE MCKEAN.

SHERIFF:

ROBT. T. BURTON.

CORONER:

HAMPDEN S. BEATIE.

SURVEYOR:

CHARLES W. HARDY.

RECOOER:

EDWIN D. WOOLLEY.

SUPERINTENDENT OF COMMON SCHOOLS:

ROBERT L. CAMPBELL.

JUSTICES OF THE PEACE.

First Precinct, Salt Lake City.

J. P.—ADAM SPURS.

CONSTABLE—R. W. MCALLISTER.

Second Precinct, Salt Lake City.

J. P.—SAMUEL W. RICHARDS.

CONSTABLE—E. Y. HAMPTON.

Third Precinct, Salt Lake City.

J. P.—E. B. TRIPP.

CONSTABLE—GIDEON H. C. GIBBS.

Fourth Precinct, Salt Lake City.

J. P.—JETER CLINTON.

CONSTABLE—JOHN READING.

Fifth Precinct, Salt Lake City.

J. P.—JACOB GIBSON.

CONSTABLE—CHARLES I. ROBISON.

Mill Creek Ward:

J. P.—JOHN F. SNEDAKER.

CONSTABLE—E. M. GUEST.

Big Cottonwood:

J. P.—B. B. BITNER.

CONSTABLE—D. B. BRINTON.

South Jordan:

J. P.—WILLIAM WINDWARD.

CONSTABLE—HENRY BECKSTEAD.

Fort Herriman:

CONSTABLE—W. W. FREEMAN.

Brighton:

CONSTABLE—THEODORE LETZEN.

North Jordan:

J. P.—SAMUEL BENNION.

CONSTABLE—GEO. M. SPENCER.

We conclude our abstract of Stanley's report of his meeting with Dr. Livingstone.

In these journeys, northeast from Cabomba, the Dr. found a lake called by the natives Liemba, or Luwumba, from a country on the southeast, but the Dr. discovered it to be a head of foot of the Tanganyika, the extremity of which lake reaches to 8 deg. 22 sec. south latitude, making that lake 320 geographical miles long, or 73 longer than Capetown Burton and Speke considered it.

From this lake, the Dr. crossed Marangu to Lake Moero, about 60 miles long, which he traced to its southern extremity, where a river, the Lupula, entered it. Following the Lupula north, he found it issued from Lake Bangweolo, as large as the Tanganyika. The Chamber is the most important feeder of the Bangweolo, and cannot be the Zambezi.

The Dr. returned to King Cazembe, and thence to Ujiji, whence he wrote letters to the London Geographical Society. Says Stanley:

The way in which Mosele left the Dr. and what the Dr. was doing at the time the world thought him dead, has now been told as Dr. Livingstone told his correspondent. But his experience of tribulations, his sufferings in mind, body and estate—how Arabs conspired against him, his men robbed him, false Moslems betrayed him—how he was detained by inundations, by scanty means to cross rivers and lagoons, was between Arabs and natives from the beginning of May to the middle of March, 1860, when he arrived at Ujiji—no one will be better able to relate than himself.

After resting at Ujiji, the Dr. wished to explore the head of the Tanganyika, to ascertain whether it had any connection, or whether the river Ruzizi was an affluent or an affluent; but the Wajiji coveted most of his cloth and prevented him.

At the end of June, 1860, he started by way of Ughuna. In fifteen days' march he arrived at Manyema, a virgin country, only faintly known even to the Arabs. There he was laid up six months from disease in his feet. Then going northward found a lacustrine river, called Lualaba, one to three miles broad, flowing northward, westward, and in some places southward. Following the river, northwardly, he came to Lake Kamolondo, in latitude 6 deg. 30 min. south. He traced the river southward to Lake Mbomo which flows through a deep chasm in the mountains. He was satisfied that the Lualaba, the Chamber, and the Lupsula were one river, and he returned to Lake Kamolondo. He turned to a river flowing from the west, called the Lualaba, or Lomami, which issues from a large lake called Chibanga, south-southwest from Kamolondo. Lake Chibanga the Dr. named Lake Lualaba.

In the face of many difficulties the Dr. worked his way uninterruptedly along the crooked Lualaba to 4 deg. 20 sec. He heard of another lake northward in the same central line of drainage as the other lakes, but his men mutinied

and he was compelled to turn back, though with great reluctance, to Ujiji, baffled, sick, weary and destitute.

Eighteen days after the Dr.'s return, Stanley met him. He had carefully examined six hundred miles of water-shed, and at the beginning of the seventh hundred the Zanzibar slave escort refused to go further.

The Dr. was convinced that the Lualaba and the Nile were one river. He had followed the Lualaba from eleven to four degrees south, or 420 geographical miles. The yet undiscovered link, 180 miles, is expected to demonstrate the truth of the Dr.'s conviction. Says Stanley:

According to Livingstone two things yet remain before the Nile sources can be said to have been located. First—He has heard of the existence of four fountains, two of which give birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago. He has heard of a river flowing south, which gives birth to a river flowing north, which is the Lualaba, and two to a river flowing south into inner Ethiopia, which is the Zambezi, thus verifying the statement which the Secretary of the Goddess Minerva at Sais made to Herodotus over two thousand years ago.
