Orden, Feb. 28 - The differences that have arisen between J. M. McCammant proprietor of the Lone Star barbershop on Twenty-fifth street, over his send ing out 1,000 cards to citizens of Og-"good for one shave," as a mediun of advertising, is causing no end of trouble, and will now be submitted to the Supreme Order of Journeymen Barber, for final decision as to whether the conduct of the local shop was in violation of the union regulations or not. An appeal to the governing body o barbers is being circulated among the local barbers and is being signed by most of them, denotioning the action of the shop as unprofessional and asking that its union card be withdrawn In the meantime McCammant continues to do business under the protection of the union, and is getting still more good advertising out of the novel schame to advance his business, which he claims was within the ethics of the union. Had he cut the price of shaves he would have been a violator of the rules, but claims that in giving the 1.000 shaves free he did not violate any of the union regulations.

"GUARDIANSHIP ALL HUMBUG"

Herrick Holds the Foraker Attitude is Temperamental---Col. Bryan's Position on Race Issue.

Special Correspondence

Washington, Feb. 23 .- Senator Tillman believes that the present system of control over Indians in Indian territory makes them the prey of lobbyists and grafters. Parasites hang about the Indian reservations and cheat the red men out of their lands. Mr. Tilman asserts, while the capitol is thronged with lobbyists who are atempting to influence legislation which on its face purports to be in the interests of the Indiaus, but which is really designed to make it possible for sharp ers to secure control of their property The South Carolina senator insists that the Indians are capable of self government and declares that the ide of having the government exercise guardianship over them is all humbug The reason for the policy of the government, he says, is that some one in the Indian bureau here in Washington is anxious to hold on to a good salary The commissioner of Indian affairs is Francis E. Leupp, a former newspaper correspondent, who is a close friend of the president and the author of a book about him. Mr. Leupp has made a spcial study of matters pertaining to Indians for years and is unusually well informed.

HERRICK ON FORAKER.

Ex-Governor Myron T. Herrick of Ohio has added to the gayety of the political game in that state by giving out in Washington an interview scor-ing Scenator Foraker. "Mr. Foraker's course in the Brownsville affair has not surprised Ohio," said Mr. Herrick. "We have not regarded it so much of an evidence of his love for the colored brother as of his constitutional tend-ency to oppose a Republican adminisan evidence of his love for the colored brother as of his constitutional tend-ency to oppose a Republican adminis-tration. Senator Foraker may not be 'ag'in the government.' but he has an unbroken record of being 'ag'in' the administrations of his party, whether national or state. Were it not for this fact we of Ohio might take the sena-tor's opposition to President Roosevelt in the matter of the negro troops more seriously. Such opposition seems to be temperamental on the part of the sen-ator." The presence of Mr. Herrick and other Ohioans in Washington has been accepted as an indication that ac-tive work in behalf of Secretary Taft's tentative candidacy for the Republican presidential nomination has com-menced. nenced

Southern Democrats are evincing much interest in the matter of William J. Bryan's probable attitude on the race question in the forthcoming mag-azine debate in which Mr. Bryan is to engage with Senator Beveridge. Mr. views on the bijits views of the south, and, it is pointed out, there is at least a possi-bility that the brilliant Nebraskan will bility that the brilliant Nebraskan will not please his southern supporters by what he has to say on that subject. There is a decided tendency among southern lawmakers to take up the plan of Senator Morgan of Alabama, who insists that one of the principal issues of the next campaign should be as to whether this is to be a white man's country or otherwise. They say that such an issue would not be popu-lar to the south alone but on the Palar in the south alone, but on the Pa-cific coast, where the attitude toward orientals is almost precisely the same as that of the south toward negroes. If Mr. Bryan adopts a pro-negro, pro-Japanese attitude in his forthcoming articles, he will tread on the toes of many of his followers who are already irritated by his advocacy of govern-ment ownership in his Madison Square garden speech.

HOW HE GOT HIS START.

HOW HE GOT HIS START. Representative McKinley of Illinois, one of the wealthiest members of con-gress, was telling some of his col-leagues how he made his start in life. "It was on a little tract of land in the town of Clinton." he said. "When I was about teo years of age, that tract of land was planted in notatoes, and the owner hired me to pick potato bugs off the plants. Our arransement called for the paymentof 5 cents per 100 insects, and it immediately occurred to me that I could make more money at less exertion by sub-letting my con-tract. So I emoloved Jim Trevott, now a banker in Champaisn, Ill., to pick bugs for me at 10 cents per hour, and in that way I made as much money as he did and didn't work at all. I was fast accumulating a fortune, or at least it seemed a fortune to me then, when a very sad thing happened and the whole deal was off. What was the sad thing? Oh, the bugs gave out! Trevott worked so industriously that he cleaned up the field." GENERAL GROSVENOR'S LOAD.
