WIZARD'S WARDS MEET.

First Steps Taken in Preparation for Next Summer's Jollification.

The first active steps which will have to do with the summer celebrations given by the Wizards of the Wasatch were taken Monday night at a meeting at the Commercial club, when a large number of the wards of the order were present. The meeting was addressed by H. Vance Lane, who has been connected with the Ak-Sar-Ben of Omaha, and who furnished a number of valuable suggestions to the Wizards.

The committee on resolutions reported that progress was being made and it was continued with instructions to prepare a resolution on the death of the late Fisher Harris. Some changes to be made in the incorporation were discussed and finally referred to a committee which is to report at a later date. H. J. Penfold, secretary of the Ak-Sar-Ben of Omaha, and Gus Rens, a leading member, will be invited to address a meeting of the Wizards to be held in a short time. The next meeting of the wards will be held Monday, Jan. 3.

The Only Right Way

adopted by the

Carstensen & Anson Co.

HAVING now become permanently located in our new store at the old stand, with every appointment of a complete and up-to-date temple of music, we have a word to say to our friends, and to others whom we hope to make our friends, which ought to be interesting.

The largest and most reliable houses in all prominent lines of business, in nearly all the larger cities of the country, have adopted the one-price system in dealing with their customers. As the leading music house in the intermountain territory, and disposed at all times to deal fairly and frankly with any who may favor us with patronage, we have likewise adopted the policy of holding firmly to one price on all our pianos, according to their value and merit.

We realize how important—indeed, how imperative—it is, in making uniform prices on pianos, to have those prices as low as good business judgment will permit; and, in accord with our purpose to make ours the most popular and trustworthy piano-house in the intermountain region, we have carefully revised our whole price schedule, and every piano in our extensive warerooms will be marked in plain and reasonable figures, so that "a child can buy as safely as a man."

To make our position still secure and attractive, we have decided to handle only such pianos as are made by manufacturers of long standing and thoroughly proven reliability. In this way we relieve intending purchasers of all doubt as to the real merit of pianos offered for sale by us, according to the relative prices placed upon them. In addition to such assurances, buyers will have the strong moral guarantee of our well-known and responsible company.

For several years we have been exclusive agents in Utah, Idaho and Nevada for the Pianolas and Pianola-Pianos, embracing under one name, control and ownership the Weber, Steck, Wheelock, Stuyvesant and Chilton Pianola-Pianos, all equipped with the best, and the best known inside player, the Pianola.

Recently, after carefully considering the character, possibilities and effectiveness of all mechanical players, the Steinway company decided upon the Pianola as the one player worthy to be associated with their fine pianos, and the Aeolian company will be in absolute control, in their American and foreign factories and agencies, of the Steinway Pianola-Pianos, and this arrangement places in our hands, as agents, the two great leaders among pianos, Weber and Steinway, fitted with Pianolas, and four others of scarcely less merit. There are several good, "Not Quites," made by various concerns, and known as "inside players," but only ONE Pianola, invented, developed, patented and owned by the Aeolian company of New York, and sold by them and their agents all over the world at ONE PRICE, according to the grade of piano in which they are placed.

It is a favorable fortune that enables us exclusively to represent this great institution, and it is our purpose to have at all times, in our Pianola department, a complete line of these world-famous instruments. They contain the best and most effective devices yet worked out for automatic playing, and the three most ingenious, most effective, most human attachments are found ONLY in Pianola-Pianos. It is these wonderful devices, together with the consummate perfection in detail in other respects, which makes the Pianola the absolute and acknowledged LEADER of all automatic players.

Buying a Pianola-Piano is like taking gold dollars; everybody KNOWS the gold
