OHIO DEMOCRATS IN CONVENTION.

Platform Demands Tariff Reform and Popular Election of Senators-No Mention of Kansas City Platform.

July 10 .- The Democratic state convention convened here today under peculiar circumstances. All the more conservative members had combined in the reliminaries against the friends of Mayor Tom L. Johnson, but the combination was not maintained after the committees were selected and during the all night session of the committee en resolutions it was claimed that the McLean and Kilbourne men were no longer co-operating against the propositions of the Johnson men on the platform and organization. The contest was in the committee on resolutions and on both national and state issues.

NO MENTION OF BRYAN.

The Johnson men won on their fa rite views on the state matters and the others on national issues. There is no re-affirmation of the Kansas City or any other platform. There is no mention of previous platforms, or of Bryan. The sub-committee of seven that drafted the platform stood 4 to 3 in favor of the conservatives but the full committee rejected both the maority and minority reports and then bicked out such parts of each as were oted in section by section. The full committee did not stand the same on all sections or planks. The three planks of the Johnson men on franchises steam and electric railways and cor-poration taxation, were adopted as amendments to the majority report of the sub-committe and then the resolu-tions as amended were adopted so that the minority report of the sub-committee practically became the majority report of the sub-committee and things were generally reversed from what had previousy been the course of the con-Previous to the assembling of the

The Democrats of Ohio re-affirm their belief in the equality of taxation and other public burdens; their advocacy of the equal rights to all people with special privileges to none; their hos-titlity to the monopolization of industry with a tendency on the one hand to crush out individual enterprise and on the other to promote a socialistic spirit among the people as the only refuge from oppression; and their faith in that theory and practice of constitutional

'When we canvassed the city in behalf of the half holiday we found but seven firms unwilling to close up. They consisted of three clothing, two dry goods, one grocery and one furniture, stores. Even they were partially favor-able but did not like to take the initiative. I have no doubt but next week they would have followed the lead of those who had signed, provided all of the latter had remained firm in their determination. We hope yet to estab-lish the haif holiday. When told of the action of other firms in conpetition with Z. C. M. I. Col. Webber stated that his closing order would stand. We appreciate the respite." Principal business houses were seen

to be closed, as were nearly all the smaller concerns. Those that remained open did not do much business on account of the downpour of rain. The

A MILK CAN EPISODE.

Exciting Runaway%Spreads Confusion Along South Temple Street.

A team attached to an Elgin dairy wagon took fright on East South Temple street yesterday and spread confusion and milk cans along the highway. The flying animals were making their way westward when a half a dozen men got in the street and frightened them with waving hats and handker-chiefs. The team went to turn in the tithing office lane when one of the hors-es slipped and fell up against a telephone pole.

There was none of the lacteal fluid in the cans and consequently the efforts Sydney Jones, Kansts City, terribly scalded about head and all over the of the horses to convert South Temple into a milky way were futile, but they

the Kilbourne and McLean men having differences but it became evident later on that the Johnson men had on on the taxation issues without any other changes.

The convention was not called to order until about 11 o'clock by Chairman Brucker, when prayer was offered by Rev. John Hewitt.

Hon. Charles P. Salen was greeted with an ovation on being introduced as temporary chairman.

CHEERS FOR JOHNSON.

Before Salen could proceed, the Cuyshoga delegation gave three cheers for "Tom Johnson and Charlie Salen," and the demonstrations followed.

The closing part of Salen's speech on railway taxation was loudly applauded-After the adoption of the rules and order of business report on credentials was submitted seating the Dowling delegates from Montgomery, the McCloud delegates from Union, the Buckley delegates from Portage and the Mason delegates from Butler county.

A MINORITY REPORT.

E. H. Moore presented a minority reort signed by seven of the twenty-one mbers of the committee to seat the anti-Dowling delegates from Montgom. ery and an animated scene followed over this contest, which involved the lo cal power of J. H. Dowling and which has been precipitated into the state

mventions for several years. Thomas Galvin moved as a substitute for both records, that both dele-gations be seated with half votes each and that next year the state committee take charge of the Democratic prim-aries in Montgomery county, ignoring both local factions.

THE LIE PASSED.

Joseph H. Dowling opened the arguments in a most animated statement. He was requested by the chair to use The was requested by the chair to use more parliamentary language when "the life" was passed. He accused his opponents of defeating N. S. Bickley for Congress and other Democratic can-didates and being in league with the Republican secretary of state. While E. H. Moore was replying to Dowling there were heated demonstra-tions in the audience and they contin-

tions in the audience and they contin-aed while J. P. Seward replied to Mr. Moore, especially when L. A. Russell nterrupted Seward with questions. Judge B. F. McCain of Duyton charged Dowling with attempting to defeat him and other Democratic candiludge.

The motion of Galvin to seat both delegations, with half votes was defeated. The chair declared the motion. to substitute the minority report for the majority report carried on a viva oce vote. There was great excitement until Chairman Salen recognized those demanding a call of the counties ordered a ballot. There was much disturbance in the

Cuyahoga delegation on the floor over the enforcement of the unit rule, but the chair recognized those who an nounced its 58 votes solid against Dowline. Dowling.

After the 85 votes of Cuyahoga county had been recorded, it was challenged and the delegation was polled, amid much confusion. The poll was 56 ayes to 29 mays, whereupon Chairman Salen ordered Secretary Cochran to record

the Cuyahoga vote as \$5 ayes. Chairman Salen refused to recognize many points of order and appeals from the decision of the chair and directed Secretary Cochran to proceed with the call while he was ordering those ap pealing from his rulings to sit down. Hamilton county voted 74 ayes and 6 nays and this caused applause from the anti-Dowling men, who were greatly surprised at the McLean men voting Johnson men from Cleveland, as

ing had been considered one of the 1 103.07-58. The ballot resulted, 556 ayes and 257.

the history of the state. Benevolent and penal institutions should be conducted upon a non-partisan and business basis.
