Dr. E. L. Plant's reputation is increasing all over the Territory as certain destroyer of worms in the human body, and a curer of fits, rancers, tumors, scrofula, etc. One case, that of Mr. John Skidmore's daughter, at Sait Lake, should be mentioned among others. The girl had been afflicted for years with lits. She was placed under Dr. Plant's care, and in a short time she was entirely cured, and has not had a single fit for twelve months. Anothor daughter of the same gentleman was affected with a hugh wen. Dr. Plant made a perfect cure without the use of the knife. He does all he claims, and his charges are reasonable. Itls office is in Market Row, Sait Lake City.

Testimony from Mr. Hunter, of Payson, son of Bishop Hunter:

DEAR DOCTOR PLANT: - Gratitude and

thanks are comparatively very poor words to use inconveying my feelings for the very astonishing cure you have performed on my son. He was troubled with those fearful fits from his birth, from which he was deprived of both the use of his right arm and right foot, from which, under God's

blessing and your superior skill, he is now intirely recovered.

About six weeks ago I was perfectly cured

About six weeks ago I was perfectly cured of a cancer in my tongue. The suffering through which I passed previous to its removal, cannot be described. The cire was effected without any surgical operation, and I gradually experienced great relief from the commencement of Dr. Piant's skillful treatment. The entire cure was performed in six weeks. I am sixty-one years old, and am prepared to answer any or all inquiries in relation to the matter. But the case, to myself, seems so wonderful that I think it my duty to take the present means of communicating the fact for the benefit of others.

and for tin or iron has no equal, as it expands by heat, contracts by coid, and never cracks nor scales. Roofs covered with Tar Sheathing Felt can be made water tight at a small expense, and preserved for This Slate Paint is

#### EXTREMELY CHEAP. Two gallons will cover a hundred square cet of shingle roof, while on tin, iron, felt,

matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although he Paint has a heavy body it is casily as ited with a brush. No Tar is used in this Composition

therefore it neither cracks in Winter, nor runs in summer.
On decayed shingles it fills up the holes and pores, and gives a new substantial roof that will last for years. CURLED or warpen shingles it brings to their places, and keeps them there. It fills up all holes in Felt roofs, stops the loaks—and although a slow dryer, rain does not affect it a few hours after applying. As nearly all paints that are black contains and accounts that are black contain TAR, be sure you ob-tain our GENUINE article, which (for shingle
