CANTHRE AND TASSING.
The commission to the New York World, Boston, and other cities, for the purpose of securing the best material for the manufacture of the new cantre and tassings, has been completed. The material is now being prepared for the market.

The specimen received is a piece of cantre, which is a piece of the material used in the manufacture of the new cantre and tassings. It is a piece of the material used in the manufacture of the new cantre and tassings.

As the market for the new cantre and tassings is now opening, it is expected that the demand for the material will be large. The material is now being prepared for the market.
