

THAT SEWER NUISANCE.

The Brewery Washings Call Forth Another Protest.

FRAGMENTS.

"STORM BEATEN" to-morrow night. ONLY TWO DAYS MORE FOR REGISTRATION.

WARD E. PACK is in from Summit County.

THREE more arrests by the police last night.

The grand jury was in full running order to-day.

Bids are asked for the building of the new Salt Lake County Jail.

JOHN W. SKELLS is shipping large quantities of Utah potatoes to Denver.

Races are going on at the Agricultural Park track this afternoon.

The probabilities now are that the Fourth of July will be an unusually quiet day here.

The Utah Loan and Building Association was organized last night by the Chamber of Commerce.

Mrs. LANGTRY appears at the Theatre on Monday and Tuesday evenings and Tuesday afternoon.

PRESENT prospects are that wheat and flour will advance a still higher price within a short time.

Efforts are still being made to get up a Fourth of July celebration, but with comparatively little success.

ZION'S Benefit Building Society will hold its regular meeting on Thursday, the 30th inst. The society this year will make a splendid showing.

The young ladies' association of the Twentieth Ward give their annual strawberry festival to-morrow night at the schoolhouse.

"BELSHAZZAR" is under preparation for a rendition in Ogden. Prof. E. D. Edwards, the talented musician of the Junction City, has the matter in charge.

The demolition of the old and unsightly buildings which so long have stood on Mr. Charles Auer's premises on First South Street, is about complete, and the erection of a fine two-story brick on this site will be commenced at once.

The box office opened this morning for the sale of seats to the Home Dramatic Club's third performance of "Storm Beaten," which will be given in the Theatre to-morrow evening.

The plot of the piece is an exceedingly interesting one and is well carried out.

COMPLAINT is made by Andersson Brothers, that handsome and expensive show bills put up by them are sometimes wantonly destroyed soon after being posted. This is both unlawful and inexcusable, and those who are guilty of such vandalism are liable to punishment.

In the Probate Court yesterday in the matter of the guardianship of John B. and William B. Erickson, an order was made fixing June 22 as the date for hearing report of guardian; in the estate of W. H. Newman, deceased, order appointing June 14th as day for hearing report of sale of real estate.

A Star Member.

By reference to our dispatches to-day, it will be seen that Willard G. Snow, Utah's cadet at the Naval Academy at Annapolis, has graduated as a star member. There were but two others, both from Minnesota.

Teachers' Institute.

The Teachers' Association meets next Saturday at 11 a.m., and the members will find it to their advantage to be present, as Superintendent Stewart has something to say in regard to the coming examination of teachers. The programme for the summer institute will be read and a discussion of text books will be resumed.

Obstructing Registration.

Erasmus Sorenson is deputy registrar for Kamas precinct, Summit County. During the present week he has violated the instructions of his superior officers and some of the law to prevent "McMormon" registration. He insisted that all should take the Loyalty League oath or their names would not appear on the registry lists. In five instances demands were made on him to register under the regular oath as prescribed by law, but he positively refused. This matter should be prosecuted vigorously to the end.

Concerning the Old Folks.

The Old Folks committee, having extended an invitation to all persons over 70 living in settlements south, east or west in this State only, wish it distinctly understood that they cannot possibly assume any responsibility towards having them brought to this city in time for the excursion on the 23rd of June, which leaves at 8 a.m. for their return home, on the arrival of the evening train at 7:30. The committee would respectfully suggest that some leading citizen in each settlement be appointed to take labor of love, and where the distance is too great for them to be brought in on the morning of the excursion, to bring them the day before and stay with some friend over night.

The names and ages of all who intend to accompany us must be sent in by the 15th at the latest to John Kirkman, Tinsmith, Ogden, who was at the time of distribution.

Liquor Brings Them Trouble.

On Monday Charles Rimmell, of Providence, was arrested on the charge of petty larceny. He was accused of stealing a gallon of alcohol from a person of that settlement, on the 29th of May. He was taken before Justice Stewart and was bound over in the sum of \$300 to await the action of the grand jury.

There grew out of this case another that is unpleasant to relate because of the youth and character of the boys concerned. It seems that the alcohol above referred to was freely partaken of by several boys, who, under the influence of the liquor, became very unruly and noisy, and were causing great trouble to the settlement. The boys were taken into custody and are now in the hands of the authorities.

Mysterious Disappearance.

A young man, a stranger, name unknown, who had a few hundred dollars, and who drove six mules, mysteriously disappeared in the vicinity of Coyote Hole, Lincoln Co. He passed through the Big Muddy country about six weeks ago and recklessly displayed his large wad of wealth. He left the mules to get out to a point in a desert trail intersected near the Hole. Here the tracks of many animals were observed. The tracks of the traveler. These tracks were evidently made by highwaymen. All was enveloped in mystery. — *Rock Record.*

People will remember that a few months ago the residents of the First and Tenth Wards raised serious objections to the washings from the Salt Lake Brewery being permitted to run down the water ditch and cross a narrow, unpaved street, dangerous to health as it was offensive to the smell, in that district. The matter was referred to the City Council, and the brewery people, in conformity to the Council's decision, put in a sewer, and it was hoped and thought by some that the nuisance was permanently abated.

Now from another part comes a vigorous complaint which will probably bring about another sewer. It comes from the residents of the vicinity of Ninth South Street, west of Third East. A visit to the neighborhood referred to will quickly discover the cause of the trouble. On approaching within a block of the corner of Third East and Ninth South, the corner atmosphere is charged with a small stream of clear water enters, but when it emerges it is discolored and thickened with decayed substances. Under this bridge, the mouth of a sewer, the other end of which is connected with the brewery, and out of this is pouring a stream of 15 or 20 gallons per minute of as nasty smelling stuff as can well be imagined. This is the cause of the trouble. The water, which is poured into the street, flows so sluggishly that for several blocks the stench is so offensive as to be considerable of a nuisance.

Under this bridge, the mouth of a sewer, the other end of which is connected with the brewery, and out of this is pouring a stream of 15 or 20 gallons per minute of as nasty smelling stuff as can well be imagined. This is the cause of the trouble. The water, which is poured into the street, flows so sluggishly that for several blocks the stench is so offensive as to be considerable of a nuisance.

Under this bridge, the mouth of a sewer, the other end of which is connected with the brewery, and out of this is pouring a stream of 15 or 20 gallons per minute of as nasty smelling stuff as can well be imagined. This is the cause of the trouble. The water, which is poured into the street, flows so sluggishly that for several blocks the stench is so offensive as to be considerable of a nuisance.

Under this bridge, the mouth of a sewer, the other end of which is connected with the brewery, and out of this is pouring a stream of 15 or 20 gallons per minute of as nasty smelling stuff as can well be imagined. This is the cause of the trouble. The water, which is poured into the street, flows so sluggishly that for several blocks the stench is so offensive as to be considerable of a nuisance.

ARRIVED.

The Immigrants Reach Utah in Two Parties.

The company of immigrants that arrived in Utah yesterday left Liverpool on the Nevada, May 21st, and reached New York after an eleven days' voyage on June 1st. The whole company was 2nd left New York on the steamer *Rossmore*, and went by water to Norfolk, Va., and thence westward by the Old Dominion railroad, arriving in Ogden on the 28th. The company was divided into two divisions, one for Spanish Fork and one for the other. The latter were in charge of Elder Lowe who expresses warm appreciation of the kind treatment received from railroad officials and employees. In Elder Lowe's opinion, the health of the company was excellent, and no accident occurred. Eleven persons left it at Granger for points in Idaho.

On account of lack of time at Kansas City, the baggage of the company was not all properly divided. The members of the company need not feel uneasy, as it will all reach its destination over either one road or the other, and the owners will be able to recover it.

Elder Edward Davis, of Paris, Bear Lake County, Idaho, had charge of the entire company as far as Kansas City. He left Utah for England April 4, 1885, and arrived in Liverpool on the 28th. During the whole period of his mission he labored in the London conference, of which he was president since last October. In that conference the work has been making fair progress, two new branches, the South London and West London, having been organized in it since Elder Davis became the president. The West London branch, in particular, is in a thriving condition. Elder Davis expresses himself much pleased with the experience afforded by his mission.

Both divisions of
