LOCAL NEWS.

THE Tramway.—The Alta Tramway will open for freight and passenger business to-morrow. Trains will leave the D. & R. G. depot in this city daily for Alta at 7:25 a. m., and returning, arrive here at 9 p. m.

DELINQUENT Tax-payers.—Chas. O. Whitmore, attorney for the bondsmen of ex-Assessor and Collector Clemons, is preparing to enter suits against parties who are delinquent with their County School and Territorial taxes, a list of whose names was published in the News some time ago. Some fifty suits will be commenced by May 30, if the parties do not come forward and settle their taxes before that date.

POLICE Court.—Mrs. Charles, for being drunk and noisy, was fined \$5.

Nate Grose and Peter Dawson paid \$5 each for getting drunk.

Win. Sifton was drunk and profane, and was assessed \$10.

Charles Peterson, who held the door against the officers on the rail on the gamblers, was fined \$10.

Of those arrested for gambling, Lee Little was fined \$10; Andrews, \$40; Alonzo Randall, \$50; E. D. Ellis, \$50; Win. Benites, \$50; the latter will have to work on the streets for 50 days.

ARRESTS in Ogden.—Yesterday Mr. James Taylor, Deputy City Recorder, of Ogden, was arrested on a complaint charging him with unlawful cohabitation, and examined before Commissioner McKay. Several members and relatives of his family were subpoenaed and testified, after which he was placed under \$1,500 bonds to await the action of the grand jury.

Just before going to press this afternoon we learn that Officer Moroni Brown, of Ogden, has to-day been arrested on the charge of unlawful cohabitation under the Edmunds law.

THE "Mammoth" Case.—The suit of Elias Morris, Esq., against the Mammoth Mining Co., commenced in the District Court this morning. The amount involved in this case is about \$13,000, for work done at the Mammoth mine. The defendants claim that they cannot be held responsible for the contracts made by their manager, and on this ground are seeking to place the responsibility of payment upon H. B. Johnstone. Taxpayers for the other half of the sum owing to the plaintiff will be tried in the First District, Mr. Morris having a mechanic's lien on the buildings.

A Terrible Arrangement.—We have received from Mr. James Dwyer's book store a volume entitled "A Man of Destiny," consisting of letters written to a President-elect over the name of "Siva." The author has preserved his incognito, and various conjectures have been offered as to his identity. The work has attracted much attention owing to the scathing character of its comments. In that respect it is surpassed by but few productions in the English language. Its exhortations of the subject at which its satires are aimed infatuate the reader even when he disagrees with its strictures.

TERRITORIAL ITEMS.

CULLED FROM LATEST EXCHANGES.

—In Mant, potatoes are selling for 20 cents, butter 15 cents and eggs 8 cents.

—Last week the output of bar silver from the mines in and near Butte averaged \$161,000.

—The Miner says that nearly 400 new buildings are under course of construction at Butte.

—One night last week Mr. Southard had his left leg dislocated while at work in the Ontario mine near Park City.

—A \$60,000 fire occurred in the town of Billings, Montana, the fore part of last week, which is supposed to have been the work of incendiaries.

—It is estimated that three tons of arsenic and ten tons of sulphur go out into the atmosphere each day from the four large smelter stacks at Anaconda, Montana.

—Last week Jack Spinnett, a laborer living at Seattle, W. T., committed suicide by shooting himself through the head. The cause was attributed to drink and debt.

—On Thursday evening, Jonathan Macdonald, of Provo, received a kick from a horse, which broke his collar bone. The injury received proper attention from Dr. Simmons.

—Harry Rivers, now local editor on the Butte Miner, is about to start a small evening paper in that city called The Town Talk, devoted chiefly to the Gilbert and sporting matters.

—Gilbert Parker, aged nineteen years, son of G. W. Parker, a prominent South Park, Colorado, stockman, shot and killed himself at Como, one day last week. Unrequited love was the cause.

—A young woman named Lottie Cole was arrested in Deer Lodge, Montana, last Thursday, charged with passing counterfeit money. The officers found a quantity of bad bills on her person at the time of her arrest. She was lodged in jail.

—Follett and Farmer have been arrested at Monroe, Sevier County, on a charge of horse stealing. Don Nebeker and Asa Hawley, Jr., are the complaining witnesses, and it is claimed that the theft occurred prior to their arrest for the Mant murder.

—A count named Johnson, who attempted to escape from the Idaho penitentiary one night last week, hung himself in his cell with a rope improvised from his shirt on Thursday afternoon last. One of the wardens cut him down in time to save his life.

—A new city charter has been adopted by the citizens of Dillon, Montana. The voting for its adoption occurred on the 4th inst, and was an exceedingly close contest. The total number of votes cast was 207, 104 of which was in favor and 103 against adopting the new charter.

—A Frenchman who was convicted of grand larceny at Hailey, nearly a year ago, and sentenced to one year in the Idaho penitentiary, attempted suicide last week by cutting his throat with a case knife. The attempt was unsuccessful and resulted only in an ugly gash. His time will be out in a few days.

—One day last week a young "reelin" of Park City turned burglar and entered the private room of one of the employees at the concentrating works, and stole \$10 in cash. He purchased a \$8 watch and then proceeded with a companion to have a game of billiards. He was caught and most of the money recovered.

—Last Thursday afternoon a man named Bessie was victimized to the extent of \$50 in a Butte saloon. He engaged in throwing dice with a number of confidence sharps, who succeeded in getting all his cash. The officers were informed of the affair, and after a vigorous hunt found and arrested the gambling sharps.

—Last Wednesday Sheriff Turner arrested Win. Monk at Spanish Fork for grand larceny, and took him to Provo where he was released on bail. The next day he arrested Frank Jones at Clear Creek on the same charge. Being unable to get bail the latter was committed to await an examination before Commissioner Sano.

—The plastering of the new Theatre at Provo is now completed, and the carpenters and painters are hard at work. Mr. Samuel Jensen is assisting as scenic artist. The house will seat about 700 people, and the chairs have been ordered. The "Streets of New York" is selected as the opening piece, to be played on the evening of the Fourth of July by the Home Company.

—Mr. Eliza Cook, of Deer Lodge, Montana, was sent to New Chicago to buy some stock for Mr. J. M. Bailey the other day. While in the corral of Mr. H. M. Thomas, of the latter town, selecting the animals, a large mare, in attempting to pass, ran against him, knocking him several feet. He fell prostrate on the ground and several horses ran over him, trampling him so badly that he died from his injuries after three days of suffering.

—On the 2d inst. John Taylor of Rabbit Valley, had the thumb and three fingers of his right hand amputated, which was caused by a patent rifle accident that happened to him while out hunting a few days before. He was carrying a Winchester rifle, which was in some way accidentally discharged, the ball passing through his hand, shattering it in a frightful manner.

—A man named Abe Allenberg, formerly in business in Ogden, attempted suicide at Ketchum, Idaho, the other day by cutting his throat. He succeeded in completely severing the windpipe, but missed the jugular vein. The doctor who was called to attend him up to the wound but thinks his recovery is very doubtful. He has been considered insane for some time.

—Mr. Lewis Stewart, of Provo, while engaged in killing the worms in his orchard one day last week, met with a painful accident. The implement used in cutting off the twigs containing the worms was a sickle tied to the end of a pole. Mr. Stewart had climbed one of the trees and was in the act of severing a limb, when the sickle became detached and fell, striking him on the foot, and cutting a gash about four inches long, exposing the bone. He was taken to the hospital, where two of the phalangeal bones and the muscles of the foot had been severed. The injury was properly dressed and is doing well.

—D. P. Hughes, ex-clerk of Carbon County, Wyoming, disappeared from his home at Ravalli about five weeks ago under suspicious circumstances. Inquiries developed the fact that he had "overdrawn" his bank account, borrowed money of several individuals and had written to his wife on his departure that he had left her for good, and she would never see or hear of him again. An examination of his official accounts showed discrepancies of considerable magnitude. Detectives were immediately placed on his track, who finally succeeded in capturing him, and last Saturday Sheriff Rankin of Carbon County met and took charge of the prisoner at Denver. Hughes had visited Chicago, New York, Boston; had gone as far north as Michigan and as far south as Texas, eluding the vigilance of the detectives in pursuit. To officers claim to have sufficient evidence to send Hughes to the penitentiary.

—A half-witted miner came near wrecking a train at Helena, Montana, on the 1st inst. He had been working some placer ground near the track, and found it necessary to dig a ditch across the railroad. It is presumed that he had been drinking, and he piled up a lot of ties on the track as a signal to approaching trains, and proceeded to dig a ditch about eight feet wide under the rails, a short distance from the ties. As the night train came along, the engineer stopped it and had the pile removed from the track, and then proceeded, not expecting another cause of danger. He did not see the ditch until too late to stop the train again, and held his breath in a awful suspense until the last car passed over it safely. It is fortunate the rails were very strong or the entire train would have been derailed.

—A young man named Joseph Harding, who is a student at the Central School at Ogden, was attacked and severely beaten by two strangers on Tuesday night while returning home from the Co-op. His assailants were not after money, as they refused what the young man had, but seemed to be simply gratifying a grudge of some kind. He was known to be a good boy and finally fell, unconscious, but his injuries did not prove to be very serious. He is almost an entire stranger in the city and thinks he was mistaken in the darkness for another person for whom his assailants were lying in wait.

—On Monday evening a dastardly attempt was made to set fire to the residence of Mr. W. S. Lewis, of Ogden. A small room on the west side has a hole made through the wall about four or five feet from the ground, through which to pass a stove pipe. Through this hole the person or persons poured coal oil and then dropped inside a rag saturated with the same inflammable fluid; they must then have dropped a lighted match on the whole, which took fire. Fortunately the flames were discovered and extinguished before much damage was done. No clue has been obtained to the perpetrators of the deed.

SEVERE ACCIDENT.

A YOUNG MAN HAS HIS SKULL CRUSHED IN WITH A CLUB.

Yesterday afternoon a number of young men were playing a game of base ball in the street in front of the D. & R. G. W. ice house, in the Fifteenth Ward. One of them aimed a heavy blow at the ball, but missed, and swinging around, the bat slipped from his hands and went flying through the air, the thick end striking Joseph Perry a terrible blow above the right eye, breaking the skull. Dr. Benedict was summoned and attended the injured boy, who is about 16 years of age. The surgeon found that the superior bone, over the eye, had been crushed in, but no injury to the brain had resulted. The wound was properly dressed and cared for, and to-day the patient is feeling much better.

It has been a matter of surprise that, in view of the manner in which boys crowd around the striker during a game of ball, and the liability of the bat being "thrown," that so few misadventures of the kind have occurred. It is to be hoped that this will have some effect as a warning, and that those who engage in ball-playing will learn to have some regard for the personal safety of themselves and others.

BEAVER COURT ITEMS.

Received by Deseret Telegraph.
BEAVER, May 15, 1886.

Editor Deseret News:
The case of the United States against W. Fotheringham is still progressing. Yesterday afternoon and this forenoon have been occupied in examining jurors. A good deal of bias has been manifested by the jury in the obtaining of proper jurors, occasional preaching having been indulged in as to civility, to wit: "You are a damned polyan," and the latter being contrary to the law of God, nature and of civilized society. The panel as completed stands twelve odd numbers.

The indictment was read and the prosecution made a statement of the case to the jury. John W. Fotheringham was the first witness called. The defendant has two sons of the same name and the prosecution found that the Marshal had subpoenaed the wrong John, and consequently got a wrong jury.

An adjournment was accordingly taken until two o'clock, that the other witnesses, who were in the western part of the county, might be found. MOONSHINE.

Pleasant Grove Items.—Frank Beers, of Pleasant Grove, is building a hotel at that place for the accommodation of the traveling public, which will be finished and ready for occupation in July. It will present a very neat and comfortable appearance.

But little building besides this is going on there at present.

That settlement, which has been noted in the past for the fine quality of its fruit, is now suffering a serious incursion from insect pests. Not only are the caterpillars, such as prevail in this country, very numerous, but there are also, there are myriads of small, green lice infesting certain varieties of trees, which so far have baffled all efforts to destroy them. The people are adopting various methods of getting rid of the caterpillars, such as clipping off limbs, shooting them with powder, sweeping them off, etc. When once removed from the tree, they have an effectual way of preventing them from regaining their former position by smearing wagon grease in a band around the trunk of the tree, which they will not climb, but will attempt to cross, and when they accumulate there they can easily be crushed and killed.

The lucern last year in that region was considerably damaged by a species of small green worm, but so far this year that pest has not made its appearance, and there is a prospect for a big yield of lucern, as also of cereals.

Substantial Sympathy.—We mentioned a few days since that a subscription was being taken up in Mant for the benefit of Parley P. Pratt, one of those now in the Penitentiary, for having cohabited with his wife. We learn from a gentleman just up from Sanpete, that this action was quite spontaneous on the part of the Mant citizens, and was equally the result of their admiration for the firm stand he had taken in refusing to make the promises which the prosecution demanded, and their sympathy for his family, who were deprived of their only means of support by the persecutory penalty inflicted upon him. Within an hour from the time the subscription was started, a considerable quantity of flour and bacon had been donated—sufficient probably to supply his family in that line during the term of his imprisonment. These provisions were shipped to this city in connection with freight for S. P. Teasdale, who, with his usual generosity, paid the freight, and they will have the same delivered at their destination. This is a substantial kind of sympathy, a little of which is worth more than all the tears that could be shed over the humiliation and suffering to which our brethren and their families are being subjected at the hands of vile oppressors.
