CAMPAICN IS WARMING UP

County Conventions Are Making Things More Interesting.

WHEN THEY WILL BE HELD

Candidates Galore For Places on the County Tickets-A Few of Those Who Are Mentioned.

In the course of a day or two the campaign will be on in greater earnest than ever. Tonight Republican primaries will be held in all the districts of the city and county for the purpose of electing delegates to the county convention. This convenes in the Salt Lake theater on Monday and Tuesday next, and will be made up of 552 delegates, whose business it is to name and place in the field a full county ticket, including nominees for two state senators and 10 representatives to the legisla-ture. The convention will also elect a county committee consisting of 15 mem-bers.

The Democratic county convention, for which the call has just been issued, will be held in Christensen's hall on Will be held in Christensen's hall on Monday, the 29th. This will be made up of 539 delegates, the apportionment be-ing on a basis of one to every 25 votes cast for William H. King in 1900. The primaries at which these delegates will be named will be held in all the dis-tricts of the county on Wednesday, the 24th. This convention will also name 24th. This convention will also name a county and legislative ticket and make all necessary preparations for an active and vigorous campaign. Candidates for places on these tick-

ets are as numerous, almost, as the sands on the seashore. In fact, if there were double the number of nominations to be made there would still be those who would be seeking such recogni-tion. This being so it is well nigh the names of leading so it is well high impossible to present them all, though the names of leading candidates are about as follows: On the Republican tloket it is an open secret that all the present county officers are candidates for re-election. Besides these there there there are the E E bick and are others, among them E. E. Rich and Henry N. Standish for Commissioners, Walter Meeks and A. C. Sadler for re-corder, W. O. Carbis for treasurer, W. M. Elliott for sheriff, John C. Cutler, Jacob Moritz, and W. N. Williams for te senate, and Lewis M. Cannon and H. L. Nelson for the lower house. These are just a few. Of course, there are still others.

On the Democratic side W. H. Dale is mentioned for treasurer to succeed him. self, while George H. Wood and Eugene Traughber are spoken of for audi-tor, Thomas Alston for recorder, G. H. Tor, Thomas Alston for recorder, G. H. Naylor, Sam Dowse, John Howell and John Montgomery for sheriff, and Com-missioner Horne, John Clark, Arthur F. Barnes and Heber Sanders for the county board. For the legislature the names of Rulon S. Wells, John Dern and Orson F. Whitney are mentioned for the upper house while for the low. for the upper house, while for the low-er house D. R. Allen, Mahonri Spencer, C. P. Overfield and Joe Bywater are freely spoken of. As stated above, o, are only a few of the many in the field for nomination. It can be stated with a moderate de-gree of safety that both parties will place their very best timber on the tickets and that they will go before the people with a platform that will have a tendency to win votes. What these platforms will contain is not known, but that they will deal largely with the much mooted liquor question with the much mosted liquor question, and the proper government of saloons, is already pretty well conceded by those most directly concerned.

den. W. H. Dale, treasurer of the state committee, was re-elected and also made an ex-officio momber of the executive, while P. J. Daly was named as secretary of the state committee. AS A ROAD ACENT The executive committee will hold meetings in parlor A of the Knutsford hotel every morning from 9:30 to 12:30 and the state committee will get to gether whenever it is deemed neces Last night's meeting was attended by Last night's meeting was attended by C. Dr. Laborde, of Paris, has carried many experiments, both on human lings and on animals, in recalling to l those "apparently drowned" by ryhm cally drawing out the tongue of th subject. He records several cases which, when all outward signs of h ceased, there still remained latent v tality. In order to allow this latent v tallty the opportunity to develop. respiratory organs must be set in me tion, and the best means of doing th is by tongue traction, he thinks. In case tongue traction on an asphyxia buildog was rewarded with success two and a half hours after all signs life had ceased. Two hours of tract were productive of no result, but the tra half hour produced a slight resp tory cough, and in three hours the was on its legs. It occurred to Dr. I borde that it would be a good idea substitute an automatic apparatus the cloth covered hand. The first a paratus made was driven by clockwo An improved instrument is operated an electric motor, and by means of the tongue can be subjected to contin uous traction for three hours. ABSTRACTS.
