THE CANNON CAMPBELL CON-TEST.

THE Sacramento Record-Union which is generally clear-headed on before him and the powers that be, public questions, has the following at Washington. editorial under the above esption:

"The indications are that Congress will refuse to almit either Cannon or Campbell, and this, as we have before said, seems to be the most logical and generally sound position to be taken, though it would be still more just if the fact of Cannon's in eligibility was ascertained. Of course it is allowable to reject him on the ground that he has no certificate, though that position savors too much of sharp practice. For it certainly is not Cannon's fault that Government, in the Territory of he has no certificate. He was unquestionably the recipient of the majority of the votes. In truth he received nineteen-twentieths of all tion with the Moulton mine, in the votes that were cast. It was the which the names of the editor of plain duty of the Governor of Utah to give Cannon a certificate. The Governor violated tis duty, and committed a flatly illegal act in giving spiracy were mixel up with his own, the certificate to Campbell who had adds further odor to the unsavory equal folly and presumption, in it, inform us that the Moulton is incompetent official. It gained by the sale of shares, and s would, however, be scarcely dignified in Congress to oust Cannon on a technicality. If he is not aciti zen, that fact will furnish a perfectly good and sufficient ground for de-claring that there has been no election; but to refuse him a seat on the score of his lack of a certificate is. His punishing a man for having had his pocket picked."

This is the view that Members of Congress will take whose minds are There is one thing, however, that Congress will take whose minds are not confused by the popular outery against polygamy, or are not them.

There is one thing, however, that we have generally found out, after a ders conveyed in my telegram, the inhabitants of the shores of the gov. against polygamy, or are not themselves so prejudiced against the

It will be placed beyond doubt to the committee on elections that A G. Campbell was not elected, and therefore, that he is not sntitled to a seat in Congress. It will be also clearly established that Hon. Geo. Q. Cannon was elected by an overwhelming majority. What then will stand in the way of his being declared entitled to the seat? > Our statement that polygamic reations are no bar to a seat in Con gress, may be disputed by those not familiar with the bearings of the law. But it is correct, nevertheless, as a little reflection will disclose. If Mr. Cannon had been or could be convicted of bigamy or polygamy, that could be urged against his admission. But as it cannot be shown that he has broken the law of '62, that objection is not in the way. But he has admitted, and his admission has been published, that he has married plural wives and now lives with them. Very true; and there is no law against his living with his wives; that is no offence against any law of Congress or of this Territory. The law of '62 makes it a crime to marry plural wives; it has never been in evidence in any way that Mr. Can-

non has violated that law. It is not at all improbable that the matter will be referred back to the Perritory for a new election, as intimate I by the Record-Union, and in the press dispatches from Washing-Congressmen are too much afraid of public opinion to act according to man from knowing that what he law and equity. Guittenu's Trial. WASHINGTON, 12 .- As soon as the claimer of any intention to make a set speech, but expressed the simple desire to render the jury what aid he could in their present selemn duty. He said the time had now come in this trial when the jury were to become factors, and what-ever disorder or levity might have characterized the trial, there was but one sentiment in respect to the conduct of the jary. All commend-ed their dignified deportment and close and patient attention to the evidence, and he could not doubt that as they had received the commendation of all in the past, that they would continue to deserve it in the future by their decision of the question before them.

"In the beginning," said Davidge, "it was soug it to show that the prithe court tells you to look for that was doing was wrong.
