

## PRICE OF GOLD.

San Francisco, August 29, 1872.  
 BULLION AT 100 Selling at \$112.

WEATHER ITEM.—The highest point reached by the thermometer to-day was 92.

PUBLIC MARKETS.—The entire people of this city will, doubtless, be gratified at the action lately taken by the City Council in relation to the establishing and conducting of public markets in the different wards.

The want of such places has, with the rapid increase of population, been greatly felt of late. The meat, vegetable and fruit markets being entirely confined to East

Fourth street and vicinity has been a matter of great inconvenience to the people living in the outskirts of town, compelling many of them to make almost daily trips of from five to ten miles. There are reasons besides this, however, which will combine to make the inauguration of public market

places in the various districts to the community. There will be a greater compactness in the vending of meat, and market prices, which will have a tendency to regulate those articles. We do not speak thus because we think those engaged in business of this kind have been exorbitant in their charges, for they have probably done as well by the public as they could under the circumstances; but this is no reason why progressive steps should not be inaugurated. With regard to fruits and vegetables, etc., for instance, when those products are placed within easy reach of the people, so far as distance is concerned, the consumption will undoubtedly become much greater than at present, which will open up a better market for those who raise them. Considerable quantities of the produce of vegetables in this territory we think, as a general rule, they are sold at very high rates. The produce which will be received by the improved demand and consequently improved market for such things will cause many to go to the trouble of producing them, and when combined with the increased competition in the trade, must tend to cheapen them, and nobody will be hurt by the result, but, on the contrary, all will be benefited.

Wellsville, Cacho Co., has taken the initiative in the extensive raising of garden truck and we hope other settlements will follow suit in such a way as to enable Utah to export produce of the kind instead of importing it from California.

It is time, we think, that a movement was made to secure to the public a good article of butter at something like a moderate price. It is indeed surprising that indifferent butter should be sold in the principal city of an agricultural community at this season of the year, at the high rate of fifty cents per pound.

Some of the wards have desired, for some time, to establish butchers' shops on the co-operative plan and the privilege is given, it is probable they will do so.

MAN SHOT AT COALVILLE.—The following telegram was received by Deseret Telegraph line this morning:

COALVILLE, Aug. 28.—Deseret News.—Wm. Hutchins, was shot and killed by John Allen, yesterday evening. Particulars by mail to-night.

W. W. CLEGG.

ON THE RETURN.—M. Ramsey and Harry Comstock, Esqrs., the former of the firm of L. M. Ramsey & Co., manufacturers of Pumps, Pipes, Belting, etc., 311 North Main Street, St. Louis, and the latter of the Bay State Valve and Fitting Company, Chicago Falls, Mass., called on us when on their way home from a business and pleasure trip to different parts of California and Oregon. They were highly delighted with their trip, it not only proving beneficial as a pleasure excursion but both were fortunate enough to greatly extend the business relations of the firms respectively represented by them.

PERIODICALS.—The London "Graphic," for August 18th, is a magnificent number, containing the history of Sir Walter Scott, with splendid illustrations from his works. This for sale at Dwyer's News Depot, East Temple Street, where may also be obtained the "Overland Monthly" for September, in which will be found an article entitled "The Mahomet of the West" written by Mrs. Fitch, of this city. Mr. Dwyer has also on sale next Saturday's number of "Harper's Bazar," "Harper's Weekly," "Frank Leslie's Illustrated News," "Once a Week," the "Lady's Own Journal," and "Every Saturday," which contains a full page portrait of Lord John Russell, and many other good things. If you want the earliest and best in the book and periodical line, go to Dwyer's and you can get it.

NOCKSFUL.—H. B. Hawkins, Esq., who left here a few weeks ago for the East for the purpose of disposing of mining interests which he had acquired here, has returned, having succeeded to the extent of his expectations. He contemplated going to Europe when he left here, but meeting English capitalists at New York he accomplished his sales there.

TO KEEPERS, READ THIS!—Everybody knows how unpleasant it is to live near an unclean pig pen, where nothing emits a more abominable smell, and nothing is more inimical to health, such a place being the prolific parent of typhoid fever and other fatal and contagious diseases. Such things exist in this city, and the wonder is that those who own and live near them can endure them, and that they keep well while breathing the air infected by them; and the fact that some of them do so, furnish a very strong proof of nature's power of adaptability to surrounding circumstances. But anyway, a foul hog pen and the stench which arises from it is a nuisance wherever found, and ought to be abated. If that should be accomplished, a something that could not possibly be avoided, there would be a shadow of excuse for them; but no such excuse exists, and for the health and comfort of those living in or near, and passing through, neighborhoods which contain them, those who own them should promptly adopt some disinfecting process.

An account of several of the most effective methods of disinfection, known, was published in the News a few days since; they are comparatively inexpensive, and very little trouble. Below we republish from the Chemistry of Disinfection, a method for disinfecting pig pens, adopted by a correspondent to that paper, which he found most effective, and which is as simple as all, and very little trouble. He says he procured "a large quantity of well dried triolein and placed it under cover where it would keep dry. At the farthest corner of each sty sufficient straw was placed to make a comfortable bed for the pig. Over the rest of the sty, and especially near the sliding troughs, dry earth was spread over the boarded floor. At first it was thought necessary to clean out the sties every day and put in a fresh supply of dry earth, but it was soon found that a shower of dry earth thrown every morning and night over what was in the sty, entirely disinfects it of all odors, and obviates the necessity of cleaning out often than once a week." Since adopting this practice his pigs, he says, have kept perfectly sweet, and he has had no complaints from his neighbors. In a pen containing a number of young pigs several inches of dry earth were placed on the floor, and the pigs kept perfectly healthy, and seemed to delight in rolling among and rolling on it.

We recommend the above to the notice of all who have unclean pig pens, or stables, such a cheap and easy method of removing bad smells is within the reach of all, and when anything so inimical to health can be so easily removed and prevented there is no shadow of excuse for not observing the practice recommended.

TWO LADS.—We are under obligations to our correspondent "A. C." for the details of the economy of buying ground on the Utah Northern Railway, at Brigham city, on the 25th inst.; but as the account of the event was immediately sent by telegraph, and published in the News, on the following day, our correspondent will see that it would be superfluous to print his communication.

## HONEY EXTRACTOR.—Bro. John Morgan

of Mill Creek has left at our office a specimen of honey, produced at his apiary, gathered from honey dew and extracted from the comb by Peabody's Honey Extractor. From the appearance and taste of the honey we should imagine this extractor is a great success, and for those beekeepers who have large apiaries, indispensably necessary, as it must relieve the bees from the necessity of manufacturing honey comb, and leave them to devote all their energies to the production of honey.

GOT HIM.—We have been informed that the son of Bill Hickman and Bill Flick were lately arrested, at Camp Floyd, and brought to Camp Douglas, Hickman, if we recollect aright, was indicted, about a year ago, for the murder of a Spaniard somewhere out west, and we presume it was upon this charge that he was arrested.

SHOT DEAD.—The Virginia Enterprise, of last Saturday, says that on the evening before, in Gold Hill, a man named James Murray, a miner, shot through the heart, a man named Jabez Spencer, an engineer. There had been some trouble existing between Spencer and his wife, for which Spencer blamed Murray. On Friday evening the two men met, with this result, Murray gave himself into the custody of the sheriff.

SEVERE COUNTY.—William Morrison writing from Richfield, on the 21st instant, says:

"To-day I proceed to locate two new townships, with fields adjoining, in order that good citizens may have an opportunity of building themselves permanent and comfortable homes from the foundation. This county is being quickly settled, and the prospects for its development and growth are good."

A DESPERADO KILLED.—Bill Wilson, of "Wild Bill" Barber, a well known desperado character, with whom the police have had frequent trouble at times, was shot dead at the mouth of Little Cottonwood Canyon, on Saturday. It appears that there is a drinking saloon kept there by a man named Ceaser, and that "Wild Bill," being drunk, attempted to break into the place, throw rocks at the door, smashed the windows, etc., when Ceaser fired at him with a shotgun, killing him instantly. We understand Ceaser is in town, having come to give himself up to the U. S. Marshal, Wilson was an unmitigated bad character, and few will regret the summary termination of his career.

The above was in type yesterday but, by an oversight, was left over. We have since learned that Ceaser underwent an examination before Judge Strickland and was discharged.

(Special to the News per L. T. L.)

MINING DISTRICT ORGANIZED.

NEPHI, Aug. 28.—A mining company was organized at Levan, on the 25th inst., to develop the mineral leads discovered at that place.

Samuel Pitchforth has been appointed, by the county court, county recorder, to fill the vacancy caused by the death of E. Oakey, Esq.

COAL BED DISCOVERED.

NEPHI, Aug. 28.—A coal bed has been discovered within ten miles of Nephi, by W. Zabrickie. The vein is situated in the north fork of Salt Lake canyon, and is considered very extensive and of good quality.

The grain crops of the county are very light.

PETERS' MUSICAL MONTHLY for September is a splendid number. It would seem almost impossible to improve this excellent work, and yet each succeeding number seems better than the last. This number opens with a beautiful ballad by H. W. Parley, entitled "Barney Allen's," and follows a charming song by Tucker, "My Mother's Wedding Ring," after which comes Thomas's sacred song, "The Cross and Crown," "My Sister in Heaven," song and chorus, and "The Home of the Swallows," duet, are also gems of great value. These are followed by five Quartets, three easy Piano pieces, and two elegant Transcriptions by Leonie Tonal, making a total of fifteen pieces, printed from thirty-six full-size music plates, and you can get all this choice music for thirty cents. Vol. VIII, commenced with the July number, and the publisher offers to send the July, August and September numbers for 75 cents. Address J. L. Peters, 590 Broadway, New York.

SPECIAL NOTICES.

MA. T. U. WEN is taking orders in this city for Howe & Middleton's Oil Chromo Portraits of Washington, Mrs. Washington, Lincoln, Grant, Sherman, Douglas, Webster, Clay, Jackson, and Wesley, Queen Victoria, Prince Albert, and for two beautiful chromos entitled "Christ Blessing Little Children," and "Asking a Blessing," a scene at the breakfast table of an American farmer, from the original by F. O. C. Darley, designed and painted expressly for and published by Howe & Middleton of Cincinnati. The masterly works of this eminent artist, F. O. C. Darley, have won him a reputation alike at home and abroad unequalled by that of any other of our countrymen. It is moreover an American home scene—one which we all delight to see illustrated by art, and this, too, so vivid that instinctively the hearts of the pure and refined among our people cannot but go out in thankfulness to him who, by the charm of his genius, has created for them so much enjoyment.

The chromo of Washington and Mrs. Washington are from the original Gilbert Stewart's celebrated paintings now in the Boston Athenaeum, and are by every one acknowledged the best portraits of the Washingtons ever painted. The city of Boston has repeatedly been offered \$30,000 for the pair, but money cannot buy them. How faithful the copies are to the great originals is attested by the recommendations from the highest authorities in the country.

Grant, Lincoln, Sherman, or any other of the above named portraits, are the best ever made.

No one should fail to give their order for some of these chromos, as the price which they are sold at is very low, and it is a wonder to us how they can be offered at such a figure. They are all nicely framed. Taking all in all, we consider them the handsomest work of art ever brought to this city. ADV.

CARPENTERS WANTED. Enquire of WM. PAUL & SON, Commercial St.

NEW MAP OF SALT LAKE CITY.—Mr. John L. Barnes has got up a new Map of Salt Lake City, prepared from the latest survey, which is very accurate, and will be a valuable aid to business men. It marks every street, block and lot in the city, and includes that portion west of the city which embraces Brighton, eastward to the Wasatch range, northward to the Hot Springs, and southward including the five-acre lots. The execution is good, and the Map will be lithographed. Mr. Barnes is receiving subscriptions for it, and so far has met with encouraging success. Every man owning real estate in this City should subscribe for one of these Maps. Price only \$1. Adv.

FOR SALE.—A few Board and Saw Pigs, "Barnes's Ohio Improved" Chester White, ten weeks old. Apply to

H. G. PARK, Office J. A. Young.

E. L. JONES will confer a favor by communicating his address to this Office.

MUSEUM AND LIBRARY.—For a few days the celebrated Educated Hog will be on exhibition and perform his astonishing feats in calculation; will tell the time of day by any watch, fire or a clock; play a game of cards with any one of the company, etc., etc. All the usual sights at the usual prices.

JOS. L. BARFOOT, Manager.

FOUND!—Sight draft (second) on Wells, Fargo & Co., N. Y., for \$125. Owner can have it on demand. Apply to

JOHN G. PINDER.

NOTICE OF REMOVAL.—On August 21st I will have removed to Commercial St., West side, right opposite German Bakery and Coffee House, where I will be pleased to wait upon my many friends and patrons, until the new "Lions Den" on East Temple Street will be completed.

DANIEL GREINIG, Baker and Grocer.
