MINING, BUSINESS AND STOCKS

LITTLE CHIEF IS STILL GAINING

Only One Sale of Nevada Stock As Result of Present Labor Conditions.

BUSINESS SMALLEST OF WEEK

Market on Whole Fairly Strong But Very Little Change in Quotations From Yesterday's Prices.

Business on the floor of the local exchange fell off to quite an extent this morning, the total sales of stock being the smallest of any day this week. The trading was practically all confined to Utah stocks, Nevada Hills at $3.02½ being the only Nevada security dealt in and only one sale was recorded in that. It was generally felt yesterday that the recent labor troubles in Nevada would have a considerable effect on Nevada stocks and the present state of affairs came as a surprise to no one. Little Chief was perhaps the feature of the morning session, the price raising several points in the course of the trading. The market opened with the stock at 14½ cents, at which price the first lot of 2,500 shares was sold. The tendency was steadily upward and the closing quotation was 17 cents. New York was active at 32 to 33 cents during the regular call and 33½ cents on the open board. May Day dropped from 13 to 12½ cents.

The total sales for the morning amounted to 42,642 shares at a valuation of $14,580, the business being about equally divided between the regular call and open board.

The quotations for the day closed as follows:

WORK IS BEING RUSHED.

Branch of Tonopah Railroad to Silver Peak Will be Ready by October.

That no time is being lost in the work of developing the property of the Pittsburg Silver Peak Gold Mining company at Silver Peak, Nev., is shown in the fact that the locomotive and work train for use on the branch line that is being constructed to connect the Tonopah Railroad with the mines arrived at Blair Siding this week, and from this time forward track-laying will be pushed as rapidly as possible. About one mile of track has been laid, and it is expected that the entire 17 miles will be completed by Oct. 1.

General Manager Effinger and Mine Manager Freeburn, who went to Pittsburg last week to consult with the officers of the company in regard to the plans for the 100-stamp mill, left that city for Tonopah last night, and on their arrival it is probable that work will at once be instituted on the foundations. In the meantime a force of 25 men is employed in the mine, performing dead work and blocking out the ore-bodies.

EXHIBIT RICH SAMPLES.

Fairview Claim on Round Mountain Comes Fully up to Expectations.

Reese Wempler and Larry McGahn, the men who purchased the Fairview claim at Round Mountain at a fabulous price when it was no more than a prospect hole on the hillside, have arrived in Tonopah from the camp, bringing with them a sample from the ledge in the incline shaft that is of wonderful richness. The rock was taken from a pocket in the ledge on which the incline is being put down, and although it appears to be of a rather unstable nature at the first glance, a closer inspection reveals the fact that it is full of coarse gold, from its weight appearing to be more than half composed of precious metals. The sample was taken at a depth of 80 feet in the incline, and the owners of the ground say that even if a small stringer of the same nature held up through the ledge it would be impossible to estimate the value of the ground.

NEW COMPANY ENTERS FIELD.

Battling Nelson Mining Co. Will Operate in Jumbo District, Nevada.

The Battling Nelson Mining company, with a capital stock of $1,000,000, was recently organized at Reno, Nev. The company take over an extension of the Selby claims in the Jumbo district, near Virginia City, which it will develop. Nelson was elected president of the company, and C. G. Degman secretary. Nelson holds 200,000 shares of stock and the same amount is held by C. G. Degman, J. S. Miller, Frank Campbell and J. T. Degman.

The Nelson group consists of four claims, called the Battler, Lucky Jack, Blanche and the Degman.

NEW LIGHT ON MABEL STRIKE.

F. O. McFall Says Rich Ore in Question is Well Within Mabel Lines.

That the controversy now on between the Mines Development Co. on the one hand and the Mabel people on the other regarding the ownership of the ground on which the recent discovery of phenomenally rich ore took place, is not to be allowed to rest where it is most mining men are agreed. Mr. F. O. McFall, a mining engineer of Denver, Colorado, returned from the Blackhorse district this morning and says that so far from being within the lines of the San Pedro property, the ore is in reality 40 feet inside the Mabel lines. Mr. McFall is thoroughly familiar with the entire district and with the Mabel and the San Pedro properties in particular, having at one time located a number of fractions near the San Pedro lines and later made a survey of the San Pedro itself.

He has just completed some survey work on the Mabel and says the ledge from which the richest ore was taken is now being worked right along.

TO HAVE NEW EQUIPMENT.

White Pine Gold Mining and Milling Co. Preparing for Development.

One of the properties of the Cherry Creek district of Nevada to which considerable attention has recently been attracted is the White Pine Gold Mining and Milling company. Superintendent Weiser of this company left Salt Lake last night for camp where he will install the mine's equipment and get everything into shape for active work. A five stamp mill will shortly be ready for business and the results of the development work done to date are said to be such as to lead to the belief that the property may some day occupy a high place among the Cherry Creek producers.

BEAVER COUNTY STRIKE.

Cedar Mining Co. Scene of Valuable Discovery on 225 Foot Level.

Secy. Herman Barnett and Dr. Theo. Meyer, a director, returned yesterday from a tour of inspection of the properties of the Cedar Mining company in Beaver county. The trip was made as the result of the news of a strike received here a few days ago and investigation goes to show that first reports were not exaggerated. The strike is on the 225 level of the incline shaft workings. After passing through the 8-inch streak of rich ore reported the other day the drift continued on through some waste ledge material and then broke into 18 inches of carbonate and chloride ore that looked good from the start. A test from a sample of 12 inches of this ore gave returns of 49 per cent lead, 57.20 ounces of silver, and 40 cents in gold to the ten. Alongside this ledge is five feet of quartz which has always been regarded as the limit of it. However samples of it were assayed, and the result showed 4.5 per cent lead, 5.6 ounces silver and a dollar in gold per ton.

The result of these assays is such as to strengthen the confidence of the management in the mine and to establish beyond doubt the fact that the mine can now be depended on to provide a fine grade of shipping ore, and that the several tons already on top will yield a good profit.

CLIFTON DISTRICT HAS GREAT FUTURE

Colonel Matt Daugherty Returns Enthusiastic After Three Weeks' Visit.

ORES ARE IN GREAT VARIETY.

Many Properties Owned by Salt Lakers Are Making Excellent Showings and Prospects for Future Are Bright.

According to Col. Matt Daugherty, who has just returned from the Clifton mining district, the latter section bids fair to eventually become one of the foremost producers of metals in the entire state. The colonel spent three weeks looking over the various mines of the camp and is enthusiastic over the outlook, there is not a district in the entire state that can show as great variety of high grade ores, and sufficient has been done to establish the absolute permanency of the camp. There are many mines which could begin the shipping of ores right away had they the facilities, as there is enough ore in sight at this time to guarantee shipments for some time to come.

The Gold Hill property which adjoins the Polar Star and which is owned almost exclusively by Salt Lakers, has more work than was ever done before in the entire district and have proved beyond doubt that their ore bodies are permanent at depth. There are many properties in the district owned by Salt Lake parties for the most part which are making excellent showings but comparatively unknown. Among these may be mentioned the Polar Star mine on which a shaft of 265 feet has been sunk, every foot of which is in ore. During his visit to this property the colonel let a contract for the sinking of a further 281 feet which will tap the ore bodies at a liberal depth.

Col. Daugherty brought with him on his return a handsome assortment of samples from the Polar Star, most of which will average 40 per cent copper and about $8 to $14 in gold. Quite a lot of this ore is on the dump awaiting shipment.

GIVES GOOD RETURNS.

Result of Assays of Ore From San Pedro Fully up to Expectations.

Mr. H. S. Woolley today received the assay returns from the samples brought back by him on his recent trip from the San Pedro mine in White Pine county. It was generally expected that these would be high, but it is quite likely that Mr. Woolley was hardly prepared for any such figure as the certificates show.

The average value in gold from 16 samples gathered daily at the rate of one each hour was $256.85 with an additional $11.62 from the tailings. The remaining values are comparatively small and no effort was made to save them.

NEVADA STOCKS.

CONCENTRATES.

The Pioneer ore sampler today released the following cars of ore: 2 Nevada, 3 Alta, 2 Tintic, 1 Bingham and 1 Idaho.

The Taylor & Brunton ore sampler released the following: 14 Tintic, 7 Bingham, 2 Colorado, 1 Idaho and 1 Little Cottonwood.

Chas. M. McNeill and D. C. Jackling of the Utah Copper company returned last evening from a tour of inspection of the company's properties at Bingham.

LOCAL MARKETS.

In today's local markets, the receipts include two cars of bananas, two cars of oranges, one car of lemons, two cars of sweet potatoes, and a car of Irish potatoes. There is a rise in eggs, butter is becoming stronger—in price, and there are no shad or crabs in the market. There is the usual run of vegetables, home products carrying off the palm, particularly in Bartlett pears which are very fine this year, and of grapes there is no end. The prices obtaining today are as follows:

RETAIL.

Timothy, per cwt	.85
Alfalfa	.75

RUSSIA TRYING TO REPAY MONEY TAKEN BY BANDITS.

St. Petersburg, Sept. 13.—Revolutionists who have escaped from Kamyshin, Saratov province, are committing many excesses in that vicinity. A band of them attacked the train at Janbov, but a patrol arrived and fired a volley, wounding several. Four members of the band were taken prisoners.

The re-payment of money robbed from the postal department in transition on trains is becoming a serious matter for the government. Formerly the amount thus stolen averaged $21,000 a year, but for the first eight months of 1906 a total of $315,500 has been taken. Yesterday the cabinet decided to reimburse this money in installments and established a first credit to this end, of $182,500. The sum of $7,500,000 also was voted as a loan to the zemstvos to replenish their coffers for hospital, school and soup kitchen purposes.

The Reich this morning publishes an attack by M. Kutler, former minister of agriculture on the government's agrarian program. It is declared to be unconstitutional, the writer says, it will be rejected b ythe new parliament.

After successful trials, 10 torpedo boats, built in Germany have been added to the navy. They are of 375 tons each and can make 28.5 knots. As a result of the lessons learned during the war with Japan, these new vessels will discharge larger torpedoes than other boats of their kind.

AGITATOR ARRESTED.

Was Trying to Excite Timid Depositors To Continue Run on Hibernia Bank.

San Francisco, Sept. 13.—John Carter was arrested this morning in front of the Hibernia bank, where he was exciting the timid depositors who are continuing the run on that bank, begun Tuesday morning. Carter was urging the elderly women in the throng to dispose of their bank books to him, declaring that the failure of the bank was imminent. The arrest was made by Joseph S. Tobin, attorney for the bank. The bank officials are certain that Carter was employed by enemies of the financial institution to spread false reports of the bank's instability. Carter denies this, saying that he did it "just for fun." He says that he is a recent arrival from Tennessee.

Earlier in the day Edward Tobin detected a man working among the waiting depositors, but the fellow ran off when Tobin appeared.

The police are aiding the bank officials in their efforts to detect the conspirators.

ADVANCES AND DEMANDS SMALL

Buying Confined to a Few Stocks, Chiefly N. Pac., U. S. Steel And Smelting.

BULLS WERE NOT AGGRESSIVE

Easier Money Failed to Encourage Them But Made the Bears More Cautious.

New York, Sept. 13.—There was a renewal of yesterday's late rise in stocks at the opening of business today, but the advances were of limited proportions and the demand was not so urgent. United States Rubber improved 1⅜, Distillers' Securities 1, and New York Central, Pennsylvania, Northern Pacific, Amalgamated Copper, Locomotive, Smelting and Republic Steel ½ to ¾. Small losses were shown by Baltimore & Ohio, Chesapeake & Ohio, D. & H., D. & R. G. and Louisville & Nashville.

The buying was centered in a few stocks, notably Northern Pacific, United States Steel and Smelting. While these stocks were being advanced persistent selling was going on at other points, particularly St. Paul, Atchison and Southern Pacific. Blocks of 4,000, 5,000 and 8,000 shares of United States Steel were encountered at 47, which were absorbed readily and the price touched was 47¼ before reacting. Union Pacific sold on a parity of its previous record price of 195⅞. Lackawanna jumped 15 points on two transactions and Brooklyn Union Gas 7 points on one. Great Northern preferred gained 3½, Northern Pacific 2¼, Pacific Mail 2, Smelting 1⅜ and Northwestern, Illinois Central and Atlantic Coast Line 1. Towards 11 o'clock the entire market weakened and St. Paul and Atchison were depressed a point.

When the pressure of stocks ceased, comparatively little had bene left of the earlier advances. Later, when the copper stocks were taken in hand, the market gathered strength. Amalgamated Copper hardened 1⅝ to 111⅞ and Anaconda 4¼. Aside from a moderate recovery there was little of interest to the rest of the market, and by noon the market was drooping again.

Bonds were steady.

The difficulties in arousing a following to support prices after they were put up, discouraged any extensive movement after 12 o'clock. The rise of 3½ on large dealings in United States Rubber attracted attention. St. Paul went off 1½ before steadying and Louisville & Nashville 1. Federal Mining sold at a decline of 10 points, and Chicago, St. Paul, Minneapolis and Omaha 3.

Easier money conditions offered no encouragement to the bulls to put up prices, though it compelled more cautious trading by the bear faction. Kansas & Texas and St. Louis Southwestern preferred were forced down a point each, but the Harriman Pacifics held at best.

LIVESTOCK.

OMAHA.

Omaha, Sept. 13.—Cattle—Receipts, 3,500; market steady to stronger. Native steers, 4.50@6.40; cows and heifers, 2.50@4.50; western steers, 3.00@5.25; Texas steers, 2.80@4.30; cows and heifers, 2.00@3.65; canners, 1.40@2.25; stockers and feeders, 2.50@4.50; calves, 3.00@5.75; bulls and stags, 1.75@3.85.

Hogs—Receipts, 6,500; market 5 to 10 cents higher. Heavy, 5.75@6.10; mixed, 5.90@6.00; lights, 6.00@6.25; pigs, 5.00@6.00; bulk, 5.85@6.10.

Sheep—Receipts, 15,000; market slow to 10 cents lower. Yearling, 5.50@6.15; wethers, 5.00@5.60; ewes, 4.50@5.15; lambs, 6.50@7.50.

KANSAS CITY.

Kansas City, Sept. 13.—Cattle—Receipts, 5,000; market strong. Native steers, 4.00@6.50; native cows and heifers, 1.75@5.00; stockers and feeders, 2.50@4.50; bulls, 2.00@3.15; calves, 3.00@6.00; western steers, 3.50@5.75; western cows, 2.00@3.75.

Hogs—Receipts, 6,000; market strong to 5 cents higher. Bulk of sales, 6.15@6.35; heavy, 6.00@6.15; packers, 6.10@6.35; pigs and lights, 6.20@6.40.

Sheep—Receipts, 5,000; market steady. Muttons, 4.75@5.60; lambs, 5.50@7.50; range wethers, 5.00@6.80; fed ewes, 4.60@5.40.
