

Summit Stake Conference.  
The quarterly conference of the Summit Stake at Zina was held Saturday and Sunday, Feb. 2nd and 3rd, 1895. The meeting opened at 10:30 a.m., with the stake president, members of High Council and bishops on the stand.

Bishop John Clark reported the figures which Bishop William Augustus Hodge had sent him, giving the amount received by Wardship and Bishop. John Pocock reported the Standard ward. Elder William Archibald also addressed the conference. Bishop G. C. Cannon and his Animal Cruiser, G. S. Lewis, came in and the former made a few remarks.

The afternoon services were opened with music by the choir and project by Elder Wm. Archibald.

Elder G. C. Cannon then addressed the meeting and expressed his gratification at the change in doctrine however, the leaders of the church that exists now, that of which the country may have new moral lines in favor.

He said this was given him to his extensive travels. Some day God could make a difference in the Church's progress if the saints did their duty.

He then spoke on the subject of prayer, when during those trying times of sickness and perplexity, when we are at our lowest ebb, we are most apt to turn to God for help.

At noon, when the church had adjourned for dinner, the speaker went to the meeting of the Brigham Young Stake.

On Sunday morning—Elder Hodge reported the Park City branch, 237 members under eight years of age was a total of 122, total 202 160 or families an estimated 160 to the Sunday school.

President Cliff then stated that the business of the administration of the Quorum of the twelve and stake wards should be turned over to any stake that is not one of the high councils.

Wright was unanimously appointed to the bishop of the high council. The conference sustained Brother Wright.

President George C. Cannon again spoke on the subject of prayer.

The history of the church north and south wards were then presented released. S. H. Wright expressed Mr. Williamson's acceptance of the position as bishop of the new ward, and he was confirmed by the conference.

At the afternoon session the sacrament was administered, and after this the general authorities of the church and the boundaries of the stakes were unanimously confirmed by President W. W. Hodge. President George C. Cannon reported the work of the Stake of Zion, and the organization of a branch of that ward at Fort Bridger, with a previous candidate, Bishop G. C. Price, of Park City ward, reported prospectively spiritual and temporal.

President W. W. Hodge addressed the conference and spent at length on the subject of dancing, he thought if it was properly conducted, it would be all right, but if it was not, then it was not, but if it was, then it was not.

In the evening Dr. T. M. L. A. and S. L. M. L. A. held services in the stake house. First after midnight the saint was an address by Alex Fender, followed by a solo by Miss Anna Wilder, address by Dr. J. C. Johnson, by Frank Evans and F. C. Price, instrumental music by Frank Olsen and Mrs. Mary Hopkins, singing by the choir conducted by W. H. Braden.

Choir present.

**LIVING A LA JAPONAISE.**

Simple and Delightful, and Very Cheap Is the Japanese Way.

I do not know of anything simpler and more delightful than living according to Japan—if you live in Japan, I might determine to live by it, and have done so, and I am very glad I did. I have never known any family, but my own, that has been so happy, nor have I ever heard of any family, but my own, that has been so successful. I have lived by it, and I have succeeded.

**Hood's Cures**

Patent of the Heart and

A General Break Down

The Good Effect of Hood's Was

Marked and Permanent.

It is now known that there are but

two ways to cure heart disease, and both are with our hearts, purifying the heart, and a good blood stream. And a good physician, but his knowledge, putting up bottles, Almond oil, and other such things, is not what we want.

It is now known that the effects of Hood's are marked and permanent.
