Another Idaho Sugar Factory.

fore Christmas, when a motion for a new trial was argued before Judge Cammillees Now at Work and Every Endeavor Will be Booth in the criminal court room. Clerk Armstrong thought that he had turned Made to Have it Completed in Time to Secure the the papers over to Judge Booth to take to Provo with him during the consider-ation of the motion. But when inquiry Bounty Offered by the State Legislature-Guarantees that they had disappeared completely To Have Factory Completed by Fall of 1904.

(Special to the "News.") st. Anthony, Ida., April 21 .- It is authoritatively announced here that a second sugar factory is to be installed in Idaho, and that every endeavor will made to have it finished in time to secure the bounty offered by the state legislature during 1904. While this bounty is only half a cent a pound the rejectors feel that it is worth striving Committees have been appointed. enting the strongest interests in the chain of towns in Fremont county, including St. Anthony, Rexburg, Egin, Teton, Parker, Wilford and other ices. These committees have secured a number of guarantees, which have been taid before Mr. Thomas R. Cutler and succlates, the foremost of which are pledged to plant at least 5,000 acres of beets for five years, and suitable water rights, right of way for the railroad acks and other essentials, which a sugar company would require. The committees now state that every guar-intee can be furnished, and that the factory may be relied on for the fall of I fall.

1904. The country on which it will draw is entirely separate and distinct from that in which the present Idaho Sugar company is located, and each factory will be amply supported by the farmers and enabled to work independently of the other.

A copy of the above dispatch was shown to Mr. Cutler this morning. He said it was generally correct, but added that the chance of securing the half-cent bounty next year cut a very small figure in his calculations. That item, in fact, was insignificant, and was hardly worth naming. If it had not been for his belief that the district was in every way suitable for the estab-lishment of a sugar plant, no steps would have been taken. The only question now unsettled was the putting o the guarantees into shape, and some as surance of encouragement from the railroad as to freight rates on machinery, etc., going into Fremont coun-ty, the hauling of beets, and the shipment of sugar to an outside market. This was, of course, a vital point. Assuming that everything would be sat-isfactorily adjusted, he thought there was no doubt that the new factory would be in operation a year from next

The attorneys and all parties connected with the case denied having any knowledge of the whereabouts of the papers, and it became necessary for the court to order copies substituted for the original files before he rendtred his deciden courseling the motion for a decision overruling the motion for a new trial.

The attorneys for the defense object-ed to the substitution of papers and moved the court to discharge the pris-oners for the reason that there was no information on file against them in the court. The motion was denied by the court, and preparations are now under way for a second appeal of the case to the supreme court. Now that the files have been recovered there is no proba-bility of the defense taking advantage of their absence in the supress and of their absence in the appeal, and there is certainly a great deal of satis-faction expressed around the clerk's office because of the discovery of the papers. Covernment Inspector Ash says the talk of L. H. Rome, April 21 .- Brig.-Gen. Leonard Wood was received in audience today by King Victor Emmanuel.

The general had a most gracious and cordial conversation with the king who took great interest in the Philippine is-

lands. Gen. Wood explained that he was going to the Philippines on strictly military duty, and said he had the greatest admiration for Gov. Taft. He felt that the results which the gover-nor had accomplished there were excellent.

The king said that should Gen. Wood go to Eritrea, the Italian African colo ny on the Red sea, he had given in structions to the authorities there to put themselves entirely at his disposal Gen. MOROCCOAN PRETENDER THREATENS TETUAN.

Madrid, April 21.--A dispatch from Ceuta, Morocco, reports the port of Te-tuan, Morocco, as being in a very critical position. The pretender is being urged to attack Tetuan, the capture of which is considered easy. The Euro-pean and Jewish residents of the place are unable to leave except by sea, and have requested that a steamer be sent to fetch them, as in consequence of the insufficient garrison, the town will soon be in the hands of the insurgents. The Spaniards have demanded the protec-tion of the Spanish government.

The recover however, was equally as rapid, price advancing from 75½ to 77 in about two minutes and the market steadled around 77%. July declined 1%, selling off to 71½, but rallied again to 72%.

Seven Persons Perished in Wreek

Salamanca, N. Y., April 21 .- It is now known with practical certainty that seven persons perished in the wreck on the Erie rallroad at Redhouse yester day. The rallroad officials have compiled a list of the names of the pas sengers who escaped uninjured and the name of one dead man, and by compar-ing this with the record of the conductor as to the total number of passenger on the train they find that six are miss ing or unaccounted for. They believe that the bodies of all those killed have been found and that the list of fatalities will not exceed seven. The unidentified bodies are so badly charted that recognition is impossible and they bore nothing which would give any clue to their identity. Agent Hicks of the Eric railroad at this place has received many telegrams containing inquiries a passengers on the train but thus fai all the names mentioned have been in either the list of the killed or injured Relatives of R. L. McCready of Meadville, the missing mail weigher, have claimed one of the bodies at the morgue here, believing it to be his.

Adams to not less than one year and not more than one year and nine months in Sing Sing prison, and to pay a fine of \$1,000 for having paraphernalia for playing policy in his possession. Counsel for Adams asked for a cer-tificate of reasonable doubt, a stay of execution and that bail be fixed to permit of an appeal. Pending a decision the court Adams was sent to the Tombs.

Minnesota Legislature Adjourns.

St. Paul, April 21 .- The Thirty-third Minnesota legislature adjourned sine die this noon after passing some 300 new laws. The measures to give more power in control of foreign corporations, which were intended to cover the con ditions made apparent by the Northern Secureties companies' expenses, failed to become a law, although a bill creasing the scope of the law against consolidation of competing and parallel railways was passed.

publications of that nature. But this Harrisburg, Pa., April 21 .- Every imbill would incorporate a new principle in the code. It would make any publication actionable in which there has been negligence, even where there is been negative, even when injurious nothing of a defamatory or injurious character. It does not require that the matter should be libelous. And so this bill practically makes every incorrect publication actionable, no matter what its character. What unlimited fields of litigation, what boundless sources of annoyance are opened in this extraordinary provision.

THE GREAT NEWSPAPER STAFF. arrived in the hall promptly at 10 "The great newspaper has 50 or more men on the staff. It has 500 correspondents. It has all the thousand agencies of the Associated Press. Its intelligence comes to it through all these multiplied sources. This vast machinery is the indispensable condition of modern journalism. Enforce the utmost vigilance and how is it possible, in hu-man nature, with all these agents to prevent mistakes? For mistakes which inflict actual injury, the newspaper is now liable and there is full redress, as there ought to be. But how shall this new danger of emotional or imaginary damages be met? How shall 'physical and mental suffering' be measured? It is intangible, imperceptible, incommen-surable. It lies locked up in the heart of the imagination of the complainant. He chooses to swear to it, and how can it be combatted or estimated? And in what cases may it not be claimed? ERRORS WILL CREEP IN.

"In the presentation of the news of "In the presentation of the news of the day errors will inevitably creep in. The errors need not under this bill be libelous; they need result only from negligence and the error may be re-garded as showing negligence at some point. Thus every error, every mig-print, every mistake in any single ele-ment of a statement may be made the hears of a suit for damages. What basis of a suit for damages. What shark will not leave the trail of the trolley in his hunt for prey to pursue the newspaper in this more prolific field?

IS SPECIAL LEGISLATION.

"The bill is special legislation in that it excludes weekly newspaper. It treads all around the weekly and carefully avoids stepping on it. This is no accident. The language is three times re-peated in the course of the bfll, and every time in the same peculiar terms, and with the same exception.

NO MONTHLY NEWSPAPERS.

"There are no monthly or bi-weekly newspapers. It is a contradiction of terms. There are only 40 semi-weekly papers in Pennsylvania. The weeklies
