DESERET EVENING NEWS | GETTING READY FOR CONVENTION

National Livestock Association to Meet Here.

MEETING FOR NEXT WEEK.

Railroad and Stockmen Will Get Together to Arrange for Entertains ment of 3,000 Strangers.

Now that the election is over the local railroad and stockmen are turning their attention toward the red letter week in the unnals of Salt Lake City, which will take place in the second week of January. During that period it | tiser and for the State at large. is estimated that in the neighborhood of 3,000 stockmen and railroad men will come from all over the United States here on the occasion of the annual convention of the National Livestock association, which has been scheduled to be held in Salt Lake,

In order to accompdate this large influx of visitors here it will be necessary to appoint various committees who will receive the guests and entertain them throughout the week. This work will be done in the near future, and a call will be issued for a general meeting of all those interested in the welfare of the occasion and the incidental ad-vertising of the State of Utah and her resources. The call will be issued with-in the next two or three days and the preliminary meeting will in all prob-ability be held here on the 17th inst.

The sessions of the convention will a held in the legislative hall at the city and county building, and the pro-ceedings will be wired all over the country by the numerous correspondents who will be in attendance on the ocasion. Taken all in all the convention s expected to be one of the best adrtising mediums for this State that it has had for many days past.

T. E. GIBBON IN TOWN

Expresses Himself as Being Very Hopeful in Regard to Outlook.

As noted in this column last evening, Vice-president T. E. Gibbon of the Los Angeles Terminal and one of the pro-ment workers in the interest of the proosed road through to Southern Caliornia, arrived in this city yesterday

When seen this morning Mr. Gibbon pressed himself as being very ased with the outlook for the happy expressed termination of the Pioneer square grant. He said:

"Our friends assure us that it will only be a question of a few days now before the matter will be decided by the City Council, and they give us every encouragement that the result will be in favor of commencing operations upon the road. Just as soon as the matter is disposed of it will not take us many hours to file the articles of incorporation. All the details have been completed and I see no reason why the company should not be inorporated on or about the 20th inst. went on to state that he

had returned after election as he had promised the people of Salt Lake be-fore leaving here, and that Senator Clark and the other gentlemen interested in the proposition, would be on hand just as soon as all the arrangements had come to a focus, When interrogated in regard to the

proposed line of route, the reported orfor ties and steel rails that are said to have been placed, Mr. Gibbon stated that for obvious reasons. ould not talk upon that subject, as, if he were to make the statement that they were in the market for material it would cost the company several hundred thousands of dollars extra to se-cure the contracts. In regard to the reported fruit business that the company will secure upon the completion of the line, Mr. Gibbon stated that he had assurances that the railroad would the entire export business in that line

from Southern California.

Mr. Gibbon this morning appeared to be in a very happy frame of mind and again repeated his assurances that the road would be built. He is accomroad would be built. He is accom-panied on the present trip by Mrs. Gib-bon and they are guests of Mr. and Mrs. David Keith. He will remain in this city until the business connected with the road has been cleaned up and every thing preliminary to starting out engineering and surveying parties from this end consummated.

NOW CHIEF CLERK.

Orvin Morris Appointed in Freight Dep't Oregon Short Line Today.

Orvin Morris, the well known employe in the Oregon Short Line freight de-partment, was this morning appointed chief clerk of the department. The apcointment does not come in the manner a surprise to the numerous friends f the young railroad man, for it has been generally understood since the appointment of Assistant General Freight Agent Reeve that Morris stood next on the rung of the ladder of promotion. Orvin Morris has been in the rallroad business ever since he was a boy fifteen years of age, when that also boy fifteen years of age, when that plo-neer road through its various vicissiudes under the subsequent regimes of the Union Pacific and the Oregon Short

THAT HARRIMAN DEAL.

Story of the Kansas City Southern Transfer-Future Developments.

New York, Nov. 8.—Since the changes in the board of directors of the Kansas City Southern railway were announced, vumerous reports have been current in Vall street of a large sale of the securitles of the road to a syndicate com-posed of E. H. Harriman, Kuhn, Loeb & Co., James Stillman and the Goulds. The changes previously announced in he composition of the voting trust were

complished without a transfer of seand were brought about brough the inability of the western in crests to make good their offer to buy out the Harriman and other Eastern holdings. When the change was made in the directorate which gave the Goulds two members in the board the sport that an actual transfer of holdings had taken place received general

While it is again denied that any such transfer has taken place the fact is ascertained that Mr. Harriman has made an offer to the smaller syndicate participants to purchase their interests upon the basis of 35 for the preferred stock, and enable the smaller syndicate participants to realize immediately is they see fit to do so. The entire amount of securities involved is said to be between \$2,000,000 and \$3,000,000.

A report has been current that a close traffic ulliance between that property and the Southern Pacific was likely to follow the acquisition of Kansas City southern securities by Mr. Harriman. CHRISTMAS "NEWS."

The Christmus edition of the "News" will this year be printed on December 5th, 1900. It will be the most elaborate compilation of the resources and attractions of Utah yet issued.

It will commemorate the proposed union of Salt Lake and Los Angeles by rail, and will contain many special IIlustrations and articles relating to the great capital of southern California as Well as the route proposed to be traversed by the new rallroad.

It will have the largest circulation of any paper ever printed in Utah, a great part of it bein distributed in and around the city of Los Augeles. Specially attractive articles will be

prepared by a corps of selected writers, and leading men of the community will contribute articles on topics of the day, The date on which the holiday num-

ber will appear (December 15th) renders. it of especial value to the local advertiser who wishes to reach the Christmas trade. Its wide girculation outside of the State and in lower Call. fornia especially, will make it an invaluable medium for the general adver-Dealers and agents of the "News" are

Want American Backing.

New York, Nov. 8 .- Information has New York, Nov. 8.—information has been received here that subscriptions will shortly be opened in New York for bonds of the Central Railroad, which are guaranteed, principal and interest by the Swiss government. The loan will be offered both in this country and in Europe

Full details as to the extent of the issue cannot as yet be definitely ascertained. When first reported it was said that the lean would be for 300,000,000 francs or about \$60,000,000 and that the bonds would bear four per cent interest. This amount is now said to be excessive, and it is believed that the total issue will fall far short of the figure

Increase in N. P. Dividends.

New York, Nov. 8.—President Mellen of the Northern Pacit railway, who has arrived in this city, is greatly pleased with the result of the election and expects a good increase in the business of his road as a result. In respect to rumors about the North-ern Pacific's desiring to acquire the Oregon lines of the Southern Pacific, Mellen said there was nothing in

"Mr. Hill, president of the Great Northern, and I," said Mr. Mellen, had a conference and we found that our a conference and we found that our ideas were much more similar than we had supposed. We went in the same car over the Northern Pacific from Seattle to Butte and from there on we rode over the Great Northern. I may say that we are as harmonlous as those of any two competing roads in the country. At the same time a break must come any day although the same three above. any day although the sky at present is

Mr. Mellen said he was in New York to consider some important matters and that he would stay in the city for a

few days.

It is said that an increase in the dividends of Northern Pacific common stock has been decided upon at a meeting of the executive committee of the Thia decision will be submitted the full board at a meeting to be held today.

Union Pacific Receivership. St. Paul, Minn., Nov. 7.-Walter H.

Sanborn, United States circuit judge. made an order today approving the final report of the successory receivers of the Union Pacific railway and finally discharging them. The receive which has been thus closed was, sidering its complications, extent and interests involved, the most important in the great list of American railway bankruptcies. When it was commenced Oct. 13, 1893, the Union Pacific system Included 8,185 miles of rall lines owned or leased and operated, representing a apitalization of stock and bonds \$470,009,000. After Judge Sanborn assumed control of this case early in 1894, the receivers handled without loss, under his orders, moneys amounting to \$106,000,000. The claim of the United States on the Union Pacific proper of \$58,000,000 principal and accrued interest was paid in full, and unsecured creditors creditors were paid from various sources about 40 per cent of their ciaims an amount largely in excess of their expectations. The administration of this receivership by the court has been unusually successful.

Swift Travel on U. P.

The Union Pacific time table just to hand shows some remarkable figures in regard to the time that is now being accomplished under the new schedule. When the cut-offs are completed and the track fully ballasted, the road will be hard to duplicate in the West. Un-der the new order of things two trains a day (Nos, 1 and 5) are doing the distance between Omaha and Salt Lake City in 43½ hours and are making even better time than the famous Overland Limited. Two trains also make the distance between here and Denver in 221 ours. Old-timers who look back to the Union Pacific of twenty years ago are holding up their hands in amazement, And the end is not yet.

This morning Traveling Passenger Agent Ruble came in from Denver on the second section of No. 5, which was practically a special train, with Frank Daniels and fifty members of his com-pany on board. Ruble says that they did the trip from Denver into town in 21 hours, and they didn't half try, rain consisted of two Pullmans, a chair car and two baggage cars.
