# THREE MISMATED COUPLES RELEASED

Judge Morse Frees One Deserted Husband and Two III-Treated Wives.

DUNCANS WERE NOT HAPPY.

After Four Years Action is Taken on Complaint Filed by Mrs.

Judge C. W. Morse of the district court was only on the bench but a short time this morning, but managed to grant interlocutory decrees of divorce to one deserted husband and two wives A. B. Johnson, the husband, told the court that he was married to his wife Lydia V. Johnson, at Tullahume, Tenmessee, April 5, 1886, and that over a year ago she deserted him. There are no children. This was corroborated by Mrs. W. H. Gibson, and the divorce

was granted. Mrs. L. J. Duncan was married to J. K. L. Duncan at Des Moines, Iowa, Nov. 4, 1879, and in 1880 they removed to Dewitt. Nebraska, from which place they came to Salt Lake in July, 1904. they came to Salt Lake in July, 1904. AVhile living at Dewitt in August, 1892, he struck her on the head and threatened to kill her, and since has been guilty of minor acts of cruelty. He had not for some time provided for her. The testimony regarding the non-support was corroborated by Mrs. Ida Groesbeck, and the divorce granted with the custody of the one child aged ten years.

AN OLD COMPLAINT.

Mattie H. Kelly secured action on her divorce complaint which she had filed on June 1, 1905. She testified that she had married Joseph S. Kelly at Provo Aug. 25, 1902, and that they lived to-Aug. 25, 1902, and that they lived to-gether until Oct. 18, 1903, when he de-serted her and has not since made any provision for her. These facts were known to Mary E. Doward, whose testi-mony was heard and the divorce car-ried with it the right to resume her maiden name of Mattle Glazier.

#### CHARGES CRUELTY.

# STEEL MOTOR CAR | MAXWELL'S SLAYER FOR SHORT LINE

out Trip by Railroad Officials.

SPIN TO SALTAIR AND BACK

Utility of New Car Demonstrated Beyond Doubt-Will Go in Service On Malad Branch.

The tryout trip of the first gasoline motor car ever placed in service on the Oregon Short Line railroad was made Tuesday evening, when Supt. A. B. Stevenson, of the Utah division of the road and J. V. Tedford of the Short Line passenger department accompanied a party of newspaper men on the new car out to Saltair and return. The trial demonstrated the entire practicability of the motor car to handle the business for which it is designed, and it is highly probable that other cars of the highly probable that other cars of the same character will be ordered for service on different branches of the road.

The new motor car left for Ogden this morning, and will be placed on the run between that city and Malad, Idabo. The initial trip over the Malad branch will be made today, and on Monday next the car will go into regular service on the branch.

The car was made by the McKeen Mo-

vice on the branch.

The car was made by the McKeen Motor Car company in Omaha and came directly from the shops under its own power last week, in charge of George H. Updegraff, the company's demonstrator. In the regular service over the branch of the Oregon Short Line the car will be operated by William Vance, with F. B. McCune as conductor.

DETAILS OF CONSTRUCTION.

DETAILS OF CONSTRUCTION.

The exterior lines of the design of the car are similar to an inverted boat, the car having a wedge shaped front end and a semi-circular rear, with a semi-elliptic roof and round windows, which resemble port holes. The new car is 72 feet long, having three compartments for the engineer, mail service, baggage room, and passengers, with a seating capacity for 55 passengers. Built principally of steel, the exterior is finished in maroon, with trucks of dark olive. This car is of special design with regard to interior arrangement, weighing gard to interior arrangement, weighing close to 35,000 pounds, and the engine is of 200-horsepower. The wedge shaped

close to \$5,000 pounds, and the engine is of 200-horsepower. The wedge shaped front end is a special feature with these cars, experiments having shown that in addition to riding steadier, the car of this shape will consume 40 per cent less fuel than a square car. On the trip taken yesterday it took one galion of gasoline for each two miles traveled, although the lighter cars travel 3.03 miles on one galion of, fuel on level track. Only 12 feet of space is necessary for the engine room, which is provided with an auxiliary gasoline air compressor for the brakes, and instead of "cranking" the engine, there is an arrangement whereby the compressed air can be used for the first few revolution, until the spark catches.

The interior finish of the car is finished in mahogany, and the cushioned seats are wide enough to hold three persons. The large round windows with which the car is equipped swing inward and present a striking appearance when fastened to the celling. When closed the windows are air, dust and waterproof. The entrances to the car are at the sides with steps enclosed and not projecting as with other passenger coaches.

The trip to the lake was made in short order, the car following the regular train to the beach. On the return trip the car was given the right of way, and the run in was made in 27 minutes.

minutes.

When the party arrived at the lake they were taken in charge by General Manager J. B. Langford and treated to a dip in the lake. The invitation to make the trip was extended by D. E. Burley, general passenger agent of the Oregon Short Line, and it is stated that another car like the one received has been ordered for the Malad branch, which will alternate with the present one in handling the service on that line.

A DISCUSSION.

"Blood Atonement and the Origin of Plural Marriage. A pamphlet containing corr a hun-A pamphiet containing corr a hundred pages, has just been issued. This brochure contains a discussion in the questions quoted, between Elibr Joseph F. Smith, Jr., and Mr. tichard C. Evans, the latter gentleman begin second counselor to the present of the "Reorganites." The questions are entered into exhaustively by both sides, and a great deal of valuable information is given. Elder Joseph F. Smith, Jr., shows by historical data and incontrovertible deductions that the position of his opponent is untenable.

sition of his opponent is untenable.
