WATER TAX SUIT ENTERED.

Special Correspondence. Provo March 26—The Republicans will hold primaries in the several wards Wednesday evening next, at 8 o'clock to elect delegates to the county convention to be held here on the 2nd. The primaries will be held in the

following places: First Ward-Maeser schoolhouse. Second Ward—Courthouse.
Third Ward—Franklin schoolhouse.
Fourth Ward—Parker schoolhouse.
Fifth Ward—Parker schoolhouse.

SUIT FOR WATER TAX.

The pleadings in the cases of Pleasant Grove City vs Artemus Holman have been certified to the Fourth district court by Justice Harvey. The suit is brought by the city to collect a balance of \$72, which plaintiff alleges is due from the defendant as his proportion of maintaining the irrigation system from which defendant obtains water for his land, which is situated outside of the city limits of Pleasant Grove. Defendant in his answer sets out that the amount which he admits he has refused to pay, is a tax, and that the corporation has no power to tax him.

BACKMAN THE AGGRESSOR.

Witnesses Prove That Peterson Was Clearly on the Defensive.

Special Correspondence, March 25.-The Peterson Nephi. murder case was resumed this morning with Ed. Gustaveson still on the stand. He was cross examined by Atty. Greenwood. He said in part, that after John Backman fol-lowed Herman Backman and Charlle Peterson out of the swinging doors the two shots went off that killed John Witness went out of the door and as he was crawling through the wire fence he heard another shot, in all he said he heard five shots. Wit-ness went into detail about the chair and said he was with Vick Nilund when he swept out the hall after the dance They didn't see any round of the chair at that time, but next day he found a broken round in the ante-room and Vick Nilund brought a chair into the hall and fitted the round into the chair, when asked why this was done, he answered just for fun. Witness boarded at Matt Siemells and had heard the

and he testified that he saw the souffle on the stage between John Backman and Charlie Peterson and saw John Backman throw a bottle from the stage, after Peterson had gone to the door. He saw John Backman come down off the stage and look at Annie Cronlove. who was struck by the bottle and ask if he had done that. He saw Charlie Peterson come back with the shot-gun and the struggle that ensued for possession of the weapon and as they went out of the swinging doors saw John Backman come from the east side with a chair, which he held with both hands above his head and struck the swinging doors, shortly after this th two shots were fired which killed John Eastman. The next shot the witness heard came through the end of the hall and was the last shot the witness heard

Sam Erickson was the next witness and he was being examined when court adjourned.

Apparently the case will not be ended before next Tuesday or Wednesday. Peter, Sutton an old time resident of this city, passed to the great beyond last Sunday morning, whose funeral took place yesterday at the Tabernacle in the presence of a large concourse of Saints and friends. Short but interesting sermons were delivered by Elder John Adams. Samuel Cazier, Thomas Vickers, E. D. Sorenson, I. H. Grace,

John S. Cowan and Bishop Pettegrew. The deceased was born at Parr St. Helens, Eng., July 12, 1839, baptized Jan 12, 1851. Emigrated to Utah Oct. 10, 1852, and came to Nephi in 1857. Married to Miss Mary Park Feb. 10, 1866, and has performed a great work in building up this state, having crossed the plains five times as well as holding a prominent position during the Black Hawk war that of major in the Utah militia. John Simpson Thrown from a Horse-School Election.

DEATH ON THE RANGE.

Grouse Creek, March 24 .- On March 14 while riding on the range after horses, John Simpson, was violently from his horse and sustained injuries that ended in death a few hours later. Fortunately it occurred near Mr. Thomas's sheep camp and assistance was given immediately, but it was of no avail.

The deceased was 23 years of age, and was honest and upright in all his dealings; respected by all who knew him. He leaves a wife and three calldren to mourn his loss besides many friends and relatives. The funeral took place from the Grouse Creek meetinghouse

on the 17th. An election was held here on the 19th to determine whether or not the people world vote a tax to build an addition to the schoolhouse, but the majority of the people wanted two schoolhous instead, consequently the tax was voted

We have had nothing but snow and rain for several days past and the ground is soaked to a depth greater than for many years past. The farmers all feel hopeful at the prospects. It is learned later the building occu pled by Ellertson & Sons in which the fire occurred Tuesday morning was in-sured, the owner being Briant Young of Provo. The extent of the loss has not yet been given out, but is supposed to be more than stated in the first report. Grazing permits were received by Mr. D. S. Pack, forest reserve inspector for the Payson reserve, yesterday for cattle owners who will be allowed to graze their stock on the Payson forest re-serve this season. They allow cattle to go on May 20 and stay until Oct. 10, to the number of 5,500 head, including Payson, Santaquin, Mona, Nephi, Clinton, Indianola, Salem, Lake Shore, Ben-jamin and Goshen.

Too Much "Weather" to Suit Even the Farmers-Stockmen Worrying. Special Correspondence,

Peterson, March 25.-We are having all kinds of weather—thunder, light-ning, high winds, rain, hall and snow. Twelve inches of snow fell last night. Bottom lands are a lake of water, and the roads are almost impassable because of mud and slush. Hay is very scarce and cattle will suffer if this kind of weather lasts much longer. Farming at present is out of the question.

The health of the people is good. No

stage, and with energy characteristic of our district court officials, immediately began work on the unusually large calendar that confronted them. Up to this time only divorce cases and probate mutters have been considered, but the session promises to be exceptionally long, the Yarneli murder case having been set for Friday, the 25th, It is supposed that it will be very difficult to get a jury in this case, if, indeed, one can be secured in the county, Yarneli having been so conspicuously and so often before the various justice's courts of this city and county that it will be difficult to find the required number of unprejudiced citizens to serve as jurors. YARNELL'S BAD PLACE

now is gone more prospecting work vill be done.

Yarnell is the proprietor of the "Little Chicago" saloon, better known as "Yarnell's, and has so conducted himself and this dive, that his name is synonomous with visiation of law and order. For many years this man has figured prominently in the courts of this county for drunkenness, fighting, gunplays, etc., until his career culminated some time last fall in the shooting of a Mexican sheepherder, who lingered for several weeks and died from the effects of his wounds. The present murder trial is the result, and although Yarnell claims that he simply acted in self-defense, it is hoped by the law-abiding citizens of the community, that the trial will result at least in Yarnell being put where he will not, at least for a time, be a menace to the peace and safety of everyone coming near him. The city time, be a menace to the peace and safety of overyone coming near him. The city
council revoked the license of the "Little Chicago" several weeks ago, and so
far all attempts for renewal made by
Yarnell, by promises to abide by law, or
through leases to other parties, have
proves unavailing. It is noped that our
city rathers will continue firm in their
determination to keep the place closed.

A RIOTOUS CROWD.

A RIOTOUS CROWD.

Another character that is becoming quite conspicuous in our local court records is Ed. McKee, a younger brother in a whole family of law-breakers. Yesterday he legan a row in the Antier saloon, the proprietor of which called in the city marshal to quell the disturbance. McKee resisted, others became involved in the fight, which transferred itself to the street, and for a time it looked as though serious results would follows. No shots were fired although guns were much in evidence, being freely used for clubbing, but the principal figures were finally landed the county jail, and the disturbance quelled. Today City Justice Hillman fined McKee 186, Levi Bodily 186, and others in smaller sum. It seems that the only way to reach these fellows is to hit them hard in their pocketbooks, and the action of the justince in thus fining them heavily is to be commended and will no doubt result in good.

While the central and northern parts of While the central and northern parts of our state have been very highly favored with rain and snow during the past winter, we of the east have been sadly neglected, and our farmers have become discouraged almost to the point where they have thought it useless to plant the usual crops. The entire winter has been dry and sunny and land is now so dry that plowing is almost an impossibility. However, the past few days there has been some snowfall in the mountains, the prospects for more are favorable, and hope is pects for more are favorable, and hope is springing up anew

MUCH DISAPPOINTMENT FELT.

MUCH DISAPPOINTMENT FELT.

The proposal to postpone the opening of the Unitah reservation for another year is a great disappointment to the people of our community, realizing as they do that much valuable land and water are laying idle there, and awaiting only the magic touch of the husbandman to transform into productive homes. We think that some delay may possibly be necessary, but surely not for a year, and our people have enlisted the efforts of Gov. Wells, and the entire Utah delegation in Congress in opposition to the delay in the opening; and the encouraging telegrams and letters thus far received indicate that the preliminary work will now be rushed and that if there shall be delay at all, it will be only for a short time.

### OAKLEY, IDAHO.

An Interesting Budget of News Items From Our Northern Neighboring Town.

Oakley, Ida., March 22 .- The weather is cold with constant showers of rain Farmers of this valley are of the opin-ion that sufficient rain has failen for one season and that more may injure the crop prospects this year rather than benefit it.

Among the business changes that have taken place in this vicinity are the following: Albert S. Erickson, who has been business manager of the People's Union Merc. Co. for two and a half years, has resigned that position, and Wm. T. Jack, well known in Utah business circles, has been elected to succeed Mr. Erickson, who will de-vote his time to buying wool.

Elder Marcus O. Funk, for many years a resident of Sanford, Colorado, and clerk of the San Luis stake, has been visiting in Oakley for a week, and has decided to locate here.

Flockmasters will begin shearing their sheep early in April. Local wool buyers are giving from 13c to 14c per pound for this year's clip. The busi-ness outlook for the coming season is encouraging. The Cassia Stake academy will close

after a splendid season's work on the 31st of the present month. From present indications a goodly number of Oakley's population will go to Salt Lake to attend conference.

A New Town Ecoming-Openings for Intending Settlers Railroad Needs.

have been abandoned and we have had to take to wheels again.

Already the spring building boom has begun, particularly at this place, one new inodern and up to date store, a big warehouse for the Consolidated Wagon & Machine company, a meat market, a tithing office and stake house, several residences, and a new stake tabernacie is being erected that is rock ernacle is being erected, that is rock and other material is being placed on the ground ready for erection this sea-son, at a cost of about \$25,000; and the people have resolved to complete it this year. Active preparations are also being made at Victor for public build-ings and other improvements. One of our most needs has now been supplied in the installation of a creamery here. She steamed up the other day and for the first time the people were startled by the sound of a steam whistle.

The next thing we need most is a flour mill, as we yet have to haul that staff of life 40 miles. The people would stan of life 49 lines. The people would give liberal inducements to have one started. Will some capitalist avail himself of the opportunity? We have every natural facility of becoming a great country, such as land, water, timber and coal, also the finest kind of building rock, brick clay, lime, etc. The are some thee or four coal mines opened up, and one of them is now owned by outside capitalists who are putting on a force of men and opening it up in good shape. The people of the

valley are supplied with coal from these mines, that is, those who prefer coal to wood, and get it at the mines from one to two dollars per ton, and have it to haul for the most part from five to ten miles. Oil is being driven for and and a large vein of coal encountered in the driving. Some coal has also been supplied from here to the Snake River valley, but the haul by team is rather too long. No doubt an electric or steam railroad will enter the valley as these mining and agricultural in dustries develop. Some good gold and copper bearing ore has been discovered in the mountains east of us and south near Victor, and no doubt when the

With the new sugar industry, it would almost be a necessity for railroad fa-cilities, as this is a good beet growing country, everything of that nature giv-ing best of results. There are practi-cally no great obstacles in the way of a railroad route, and could run directly east from Sugar City a distance of about 40 miles

We are looking for quite an emigraion here this spring, according to the inquiries of intending settlers, but as we have thousands of acres of untilled have room for quite an invasion and will welcome all good people into our
