end guns of smaller caliber would be more effective than a 16-inch gun. It is not at all likely, in my opinion, that the government will ever build another one, although, of course, the gun now at Sandy Hook will probably be kept there.

The government had planned to build such guns as 18 to be placed at Sandy Hook, 10 at San Francisco, eight at Hampton Roads, and four at Hampton Roads. The great point made by the gun was that its projectile would make a battlefield if hit. Its range was about 21 miles. The projectile is 64 inches long, and weighs 2,550 pounds. In early experiments it was found that more than half a ton of powder, costing \$250, was required to move the projectile, which cost \$600. About 100 times as many men were required to handle the 16-inch gun as were needed to care for a 12-inch.

### MASTER KILLS SWITCHMAN.

Telephones Police to Remove  
Body and Then Surrenders.

Chicago, June 27.—Having shot and killed Jesse E. Thompson, a switchman recently discharged from the employ of the Chicago Terminal & Transfer Railway company, Yardmaster James E. Walsh of the company last night telephoned to the police to remove the body, and then gave himself up. Thompson had been charged by the police with alleged neglect of duty. He had announced his intention, it is said, of killing Walsh and loitered in the yards repeating the threat.

When Walsh left the yards Thompson followed him and after a month's absence, having a pistol and a knife, burst into the office, killing Walsh a second and third, killing his as

### GRAEME STEWART DEAD.

Was a Leader in the Commercial Political and Social Life Chicago.

Chicago, June 27.—Graeme Stewart, a leader in Chicago commercial, political and social life, two years ago a candidate for mayor on the Republican ticket and a member of the executive committee of the Republican national committee from 1900 to 1901, died at his residence here, early today, after a month's illness. Bleeding of blood vessels in the brain, a stroke of apoplexy, was the cause of his death.

On the evening of May 21, Mr. Stewart was seated at a table in the barbershop of the Auditorium hotel, one of the guests at an elaborate dinner given by the Bankers' Club. He had just completed the task of eating and the tobacco cigarette promised by the Bankers' and Commercial clubs to the United States government in order to bring the lake naval station to Lakeshore, Ill., and was receiving the congratulations of his friends, just as Paul Morton, secretary of the city, was leaving the Panama Canal party of President Roosevelt. Mr. Stewart gasped and sank inertly into his chair. He became unconscious at once, and was taken to a room, where restoratives were administered. The physicians announced that he had suffered from an attack of acute heart trouble, with a slight congestion of the brain, and within a few days he seemed to be well on the road toward complete recovery. But his strength was slow in returning, for the illness had really been a slight stroke of apoplexy. Another attack brought him down again, and since then Mr. Stewart's life had been slowly ebbing away. He was 55 years of age.

### INSULTED GERMAN ARMY.

Member of Reichstag Sent to  
Prison for Three Months for It.

Berlin, June 27.—Herr Kunert, a Socialist Democratic member of the Reichstag, was sentenced at Halle today to three months' imprisonment for insulting members of the German expedition sent to China in 1900 by saying in a campaign speech, "Our soldiers in that country have been treated like dogs."

A number of former soldiers of the expedition were examined, and gave corroborative testimony in detail.

### Geo. E. Lorenz Remanded.

Washington, June 27.—George E. Lorenz, of Toledo, Ohio, who was convicted in the local courts in 1903 of a year ago, and sentenced to defraud the government in connection with the sale of letter box fasteners, was today remanded to the custody of the warden of the district jail for removal to the state prison at Moundsville, W. Va.

August W. MacLean and the Griff brothers, who were arrested at the same time, began serving their sentences months ago. Lorenz's sentence is two years imprisonment and a fine of \$10,000.

### TRAGEDY AT A DANCE.

Woman Stricken With Apoplexy  
While Dancing and Expires.

New York, June 27.—Surrounded by groups of frightened men and women, with the echo of dance music still ringing in their ears, Mrs. James Kirkin has suddenly expired in the ballroom of an Elmer Park pavilion.

The woman was 55 years old, she was attacked by an apoplexy while in the middle of a dance at an amateur hall of a church in a church society. A man hastened to her side and administered the last rites of the church while the frightened dancers gathered about with wraps and shawls, tried to make the dying woman's last moments comfortable. The tragic scene quickly put an end to the festivities.

### GEN. WOOD ARRIVES FROM THE PHILIPPINES

San Francisco, June 27.—The Pacific Mail liner *Manchuria* arrived today from the Orient, via Honolulu, with a large load of passengers. The cargo, nearly 9,000 tons, left Yokohama on June 16, and Honolulu June 21, going two days on the run from Honolulu. Among the passengers on the *Manchuria* were Maj.-Gen. Leonard Wood and wife, who are on flying trip to the east. The Hamilton King, American minister to Japan, accompanied by his wife, Count Hirokichi Matsui, en route to London to resume his duties as secretary to the Japanese embassy; Ident. Commanders H. Hutchings and A. W. Dodd, and Lieut. J. J. Babby, who after three years' service in the Philippines, are returning back for short duty, and Capt. H. Dorsey, aide de camp to Gen. Wood.

Gen. Wood says that conditions in the Philippines are rapidly improving. The insubordinate natives are being subdued and the entire country soon will be quiet. He declared that Manila is much more healthful than is generally supposed and as evidence of his belief in this statement, said he had left his children behind. He will go direct to Boston tomorrow. Though he does not expect to visit Washington, he will call on Pres. Roosevelt at Custer Bay. The general declares positively that his trip is for purely personal purposes and has no political significance.

On the other hand, however, every discharge of the gun is tremendous waste in the amount of labor required and in the expense of the charge. The gun is a little more likely, perhaps, to hit the target than a smaller gun, and a mile is pretty costly. Taking it all in all it would seem as though ev-
