Fairly Tumbling Over Each Other to Get Under Roberts' Proclamation.

JEGOTIATIONS IN PROGRESS

retoria and London in Correspondence that May Bring Peace-Proceedings in the Field.

[Early Dispatches.] London, March 22, 10 a. m .- Lord Rob. ets telegraphs from Bloemfontein uner dats of March 21, as follows: So many burghers have expressed a

jesire to surrender under the terms of the last proclamation that I have sent small columns in various directions to register their names. "A cavalry brigade has gone to the

restward to Thahanchu and a detachpest from Springfontein has occupied smithfield, where some Transvaalers and a wagon with arms and ammunition were captured. The Scots guards are at Edenburg and Reddersburg. Gen. Clement's brigade is marching hither by way of Philipopolis and

Fauresmith. NEGOTIATIONS IN PROGRESS.

412 a. m .- Several telegrams have passed between President Kruger and the British government, in addition to the Salisbury-Kruger correspondence stready published. The foreign office receited a dispatch from Pretoria yes. unday. The contents of these comnunications cannot yet be obtained. The Capetown correspondent of the Daily Mail, telegraphing Tuesday, March 20th, says: "I have just arrived from Biocmfontein, where I learned that no further movement is probable or three weeks as negotiations are proreding. I failed to ascertain the nause of the negotiations or whether Sir Alfred Milner's departure from Capetown is connected with them, but should not be surprised if the war dapsed quickly."

MILITARY OPERATIONS.

So far as the military situation is conerned, there is practically no change. Lord Roberts is quietly making prepar. ations for the next move. As necessary to a beginning, Gens. Gatacre and Brabrant are swiftly moving from point a point in the southern districts of he Free State, dispersing or accepting he surrender of any remaining Boers, hus insuring the safety of Lord Robmunications before starting

sward Pretoria. Acorrespondent of the Dally News Springfontein, describing these mements, says: "Gen, Gatacre is meeping through the country like a geome with flying columns in all di-

our communications with Poplar Grove Lord Roberts, confident in the ability of his transport to meet all the immediate needs of the army, delberately left the enemy at Abraham's Kraal to do what they liked. The result fully justified him. The enemy to the south were paralyzed by the boldness and rapidity of the stroke, and Gens, Clements and Galacre were enabled to cross the Orange river almost without opposition." OPINION IN BERLIN.

Berlin, March 21 .-- The Kreuz Zeitung in a remarkable article dealing with the South African war, says: "The war has demensirated the unarimity of feeling among the English. They are all stand-ing together, through good and evil re-port, and are compelling the admiration of the world. It has also shown in a most amazing way the strength of the inaperialistic idea, having done much in welding the colonies into a veritable

empire. The article, however, disapproves the plan of Lord Roberts to treat the Boers as rebels, and it censures Rudyard Kipling for encouraging the British to deal with them still more harshly, despite the fact that England never fought a more sailant foe. It concludes with the declaration that Cecil Rhodes, after his arrival in London, will decide the fate

of the Boers. DAMAGE TO GERMANY.

"The question of damages for detain-The question of damages for defain-ing and searching German vessels in South African waters is still pending between England and Germany. The precise amounts to be awarded to each vessel have not yet been settled, ex-cepting in the case of the 'Hans Wag-ner,' whose owners will require the amounts

whose owners will receive 150,000 marks, but the negotiations are being carried on in the best spirit and will soon come to a satisfactory end. "Dr. Krummacher and Dr. Schmidt,

military surgeons, who have just re-turned from the British camps in South Africa, speak in commendation of the sanitary arrangements there. They deny that dumdum or other torturing bullets are used by the British, and as-sert that they did not witness a single irstance of actual breach of the rules of the Red Cross society. They will make a report to the German war office.

From the coming summer Germany will increase the number of her war vessels stationed abroad from sixteen to twenty-one, China getting nine instead of six, and the American coast getting three instead of one. The new arrange. ments will also involve sending three warships to South Africa."

V. V. Ashford Dead,

Oakland, Cal., March 22 .-- Volney V. Ashford, formerly a prominent Ha-walian political agitator and revolu-tionist, is dead at his residence in this city. He had been ill for some time. He was legal adviser to the Hawaiian crown for many years. After the de-thronement of Queen Liliuokalani, he became prominently identified with the movement to restore the monarchy with Kalulani on the throne. He was arrested and sentenced to one year's imprisonment but was released before the expiration of his term on condi-tion that he would leave the islands.

This Company Making Money.

New York, March 22 .- The board of directors of the National Enameling and Stamping Company have declared a dividend of 1% per cent upon the pre-ferred stock of the company, payable March 31 to stockholders of reco ord on March 20. Transfer books reopen April 2

April 2. The first annual report of the com-pany will be issued shortly. The re-port will cover the eleven months from February 1 to December 31, 1899, the company having been organized on the former date. At the annual meeting some weeks ago it was estimated that would be about \$1,200,000 or \$1,300,00 a great steel and iron corporation has It is learned that the official report, which will be duly audited, will show been formed that will be far-reaching in its influence and have a capital of over net profits in excess of the latter figure. The liquid assets of the company, it is \$?(0,000,000.

Stomach troubles are so common and in most cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical. permanent cure for dyspepsia and in-digestion. Many such pride themselves on their acuteness in never be-ing humbugged, especially in medi-

This fear of being humbugged can be carried too far, so far, in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dys-pepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important re-spect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural di

gestive ferments, pure aseptic pepsir the digestive acids, Golden Seal, bis muth, hydrastis and nux. They are not cathartic, neither do they act pow-erfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischlef. This is the only

secret of their success, Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble

is really in the stomach. Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is polson as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

They are sold by druggists everywhere at 50 cents per package.

Independence Appears Too Hazardous -Scheme to Have Real Monarchial Government in North America.

[Early Dispatches.] New York, March 22 .- A special to the Herald from Ottawa says:

"That the volunteer participation of Canada and other colonies of the empire in the war in South Africa has brought the question of imperial federation within the domain of practical politics is not now denied even by those who a year ago were disposed to treat imperial federation as an ultraloyalist fad. To such an extent is this the case that Canadian statesmen do not hesitate publicly to avow their sympathy with the objects of the British empire league.

"Among its most ardent members to-

day are the Hon, J. P. Tarte, minister of public works, who, more than any other man in parliament, represents French Canadian sentiment in Quebec Sir Louis Davies, minister of marine who is today elaborating a scheme for the formation of a Canadian naval readmiralty, and the Hon. Dr. Border, minister of militia, who is fitting out a regiment to take the place of the imperial regulars that are to be withdrawn from garrison duty at Quebec for service abroad,

"Any seriously minded Canadian politician will tell you today that of the three future possibilities for Cana da-namely, annexation to the United States, independence or federation with the empire-the first is a dead issue and the second too hazardous a proposl tion to be contemplated with our present small population and vast territory in these days of universal greed for new possessions,

"Just so soon as some one comes forward with a practical proposal securing to the self-governing colonies a representation in the imperial councils com-mensurate with their responsibilities the question will be taken up and deal with by the colonial parliament. One scheme of representation has, indeed discarded as inadequate. It proposed that the chief justices of each of the colonies should have seats in the house of lords

"If you want us to help you, call us to your council," said Sir Wilfrid Laurier, referring to the proposal that Canada should participate in all future wars of Great Britain. The name of Bishop Scan-nell of Omaha will be recommended to the Holy Ses for the new archbishop.

Methodists and Boers.

Kansas City, March 21 .- Two Methodist Episcopal conferences are in session in Kansas City, the Kansas conference meeting on the Kansas side and the Missouri conference meeting on the Missouri side.

The feature of the Kansas gathering was a speech by John W. Hamilton of Cincinnati, corresponding secretary of Cincinnati, corresponding secretary of the Freedman's Ald society, in denun-ciation of the Boers and deploring the sympathy in their behalf being man-ifested in this country. He insisted that the Boers were not true Christians for, he said, they denied their Christianity to the black men. cutcome of a personal conference between Mr. Frick and Mr. Carnegie, which continued for two days and which finally culminated in the signing of an agreement both for themselves and their friends and those allied in business with them. The agreeme covers not only all the points at issue between the two leaders, but also taking into the combination of all the allied companies in which they were individually interested.

BOTH MEN FRIENDLY.

The conference between the two great manufacturers took place at the Hotel Brighton, Atlantic City, and lasted for two days. All the points at issue were discussed with frankness on each side. Mr. Carnegie was able to convince his former partner that he had no unfriendly spirit, and that there were most cogent reasons why they should both work together in harmony. That the conference resulted in the most friend. ly relations between the two men may be inferred from the fact that they came to New York together and that all traces of bitterness had disappeared. The practical agreement was reached

on Monday night, and an agreement reached for a meeting on Tuesday which the contract was to be executed. That meeting took place and there were present Henry Phipps, Francis T. F. Lovejoy, Lawrence C. Phipps, Andrew Carnegie, Chas. M. Schwab, Andrew M Moreland, James Gayley, Thomas Mor-rison and Daniel M. Clemson.

The meeting was a long and interest-ing one, and it was not until late Tuesday afternoon that an agreement was reached on all the details of the gigantic corporation. When at last this agreement was reached it was formally drawn up and signed by all persons present, not only for themselves, but also for all the stockholders in the concerns that they represented. There were two main points in the agreement:

First-That all old differences should be settled and all litigation stopped at

Second-That those present, acting not only for the firms which were in litigation, but also for all their individ-ual holdings in outside companies, agreed that all those allied companies of whatever kind and nature, should be combined in one common concern and put under the management of one immense corporation, incorporated under the laws of New Jersey, with a capital of \$100,000,000.

TAKES IN GREAT FIELD.

How far reaching these agreements are is shown by the fact that they cover not only the Carnegie Steel company, with its \$50,000,000 of paid in capital, but also the coal mines, the fleet of boats on the Great Lakes, the iron mines, the railroads, the transportation lines, the immense coal fields and the the coke interests in subsidiary com-panies, which have their existence and draw their support from these primary

All these are merged into one colossal corporation. The details of the cor-poration were agreed on, and the vari-ous amounts of the stock in the new corporation that should be taken by each of the allied companies in ex-change for their holdings were settled. Mr. Carnegie, it is said, met the men who have been opposing him in a most friendly spirit; that all differences be-tween them were settled and that the utmost cordiality new exists between the hitherto sturdy opponents. The charter of the new corporation

is to be drawn within a few days, and as soon as the necessary papers can be prepared the incorporation will be com-pleted.

Sayannah, Ga., March 21 .- Fifty thousand persons on the street here this afternoon gave Admiral Dewey an enthusiastic welcome to Savannah. The admiral had recovered from his indisposition of yesterday sufficiently to take part in the military parade, and rode through the streets with Mrs. Dewey at his side, ringing cheers rent the air. Military companies present from many Southern cities, and nearly 4,000 men were in line.

The climax of the occasion occurred at the banquit at the Destoto hotel tonight, where the admiral was presented a beautiful vase on behalf of the city of Savannah.

Miles sat at the admiral's right. While the main function was in progress a committee of fifty ladies entertained Mrs. Dewey at a banquet in an annex adjoining the banquet hall.

Lexington, Ky., March 21 .-- Judge Robert Field of Perry county came here from Beattyville today. On the train he made a statement that he was in Beattyville, the home of "Tallow" Dick Combs. He went to the barber shop where Combs works, and heard Combs say that he was not in hiding or in any way trying to avoid arrest that he was at work every day, and would make no attempt to escape if officers wanted him.

He said he could prove where he was every hour of the day Goelel was killed. and that he was not afraid of the consequences.
