The Spectroscope.

Prof. Tyndall says that the Spec troscope can so analyze the distant planets as to give us the elements of which they are composed. It reveals iron, antimony, platinum, silver and gold, but no starch, which is used exclusively by the inhabitants of the Earth. The best Satin Gloss and Corn Starch in the world is being made by the Duryeas' of Glen Cove.

Swallowing Peison.

Swallowing and inhaling the noxious impurities generated by Catarrh, poison not alone the nasal organs, but the stomach and lungs. No merely local remedy, like douches and insoluble snuffs, can possibly reach or eradicate the virulent sporules of Catarrh This fact explains the wonderful cures effected by Dr. Wei De Meyer's new inoculative treatment. The elements used by him are absorbed by the mucous membrane throughout the system, and form a constitutional as well as local antidote, as certain to cure Catarrh, as vaccine virus is to prevent Small-pox. Its unprecedented sale with unsolicited testimonials from many thousands who, at all stages of the disease, have been cured by this wonderful remedy, establish beyond contradiction, the fact that Wei De Meyer's Catarrh Cure is the most important medical discovery since vaccination.
