A St. Louis dispatch this afternoon cars the police who had spent Sunday resting were in good condition to begin work today. Squads were detailed, as last week, to guard the cars.

At Il o'clock the usual number of cars were being run over the Suburban system and a number of cars on the following lines of the Transit Company Laclede, Hellefontaine, Compton, Park, Delmar, Page and Spaulding. The advertisement by Chief Campbell for 2,000 men to serve as emergency policemen is not meeting with a hearty response. At II o'clock less than 200 men were waiting to be swarn in. The executive boards of the central

The executive boards of the central trades and labor council, the street ratiway employes union and the building trades council were called about mon to meet at Waihalia halt this evening. This meeting is to be in place of one called for Wednesday night when the advisability of ordering a general sympathy strike of all union labor in St. Louis was to have been considered. "I called for the men because I thought they were needed and without consulting Mr. Mahon about it. I talked

with the police board, the captains and other heads of the police department and decided that the situation required this action, so I took it. I think these who live in St. Louis know the conditions here better than does Mr. Mahon, who does not live here. There-fore, I did not consult Mr. Mahon, nor

do I intend to do so."

H. W. Steynbiss, national secretary of the building trades council of America, makes the statement that tonight's meeting was called because of the acadditional police force.

At Kansas City.

A Kansna City, Mo., dispatch to the today says the street rallway strikers met this morning under the call of National Organizer Bryan, to consider measures to compel their com-rades to join them in their fight against the Metropolitan Street Railway pany, and were still in session at noon. What decisive plans, if any, they formulated is not known. It was learned, however, that they had decided to harass the company as much as possi-ble, and to this end will this afternoon surpose of badgering the trainmen and

SITUATION.

Hopes and Fears of Democrats and Republicans.

Latest Claims of Chairman Jones-Cause of the thange - Strikes Always Affect Party in Power.

Washington, May 7 .- It is quite apparent that the Democrats of national prominence have begun to have more hope of national success than they have had any time in months. A few weeks ago it was impossible to get any lead- cast ing Democrat to even make claims of States which they hoped to carry to make the election of a Democratic resident assured. Now the chairman of the national committee, Senator Jones, claims 196 votes sure, giving the
States, from which they come, and

Places New York, Ohlo, Indiana and
Pork, 169 acres, sections 26 and 35, town-Minnesota in the doubtful column. It is not until lately that any such claim would be made by any leading Democrat, or that Democrats expressed any teal hope of success in the national campaign, although many claimed that the House would be carried for that party. With increase of hope on the part of the Domecrats there has been a corresponding increase of alarm among Republicans, and even Chairman Hanna, though confident, acknowledges that the fight will be a bard on and that the Republicans must work as they did in 1896. This rising and falling of the political barometer consticongressional life as Congress is making and unmaking public men and policies.

CAUSES OF THE CHANGE. There are various reasons assigned There are various reasons assigned for the changes which have occurred in the political situation. The Democrats are fighting entirely on the defensive. The Republicans being in power in the White House and in both houses of Congerss are directly responsible for every public act. They must shoulder the responsibility and defend what they do, and, as well, what they do not do. No legislative act, no administrative act or the failure to act but carries with it some opposition and some criticism. The party in power, some criticism. The party in power, standing for all this, and also subject to the criticism of the dissatisfied elements everywhere, has more to lose than gain. Realizing that they can make an offensive campaign and devote themselves wholly to criticism of what the Republicans have done or what the Republicans have done or failed to do the Democrats feel that their fighting strength has visibly increased. The Republicans know that they will be on the defensive to the extent of defending what has been done, but they also say that most of the legislation will be a subject of com-mendation instead of defense.

THE STRIKES AN ISSUE. The many strikes throughout the country are giving the Republicans a great deal of concern. They rememer too well the effect of the Homestead strike in 1892 upon the presi-dential election. Whether or not the dential election. Whether or not the srikes can be traced to the result of ational legislation, is is known that rikers as a rule are against the party In power. President Harrison said after the campaign in 1892 that he could trace the result directly to the strike at Homestead. That great labor found an echo in the assembly oom of every labor organization in the United States. Organized laborbe against the Republicans that it will stockers. Part were sold this morning at 5c per pound, freight paid to the tary control of that mills of the river, bringing over \$27 per had to the vas against the party in power. It is tary control of that mining district will have their effect, even though the testiony shows that everything done there was under the control and at the request of a governor opposed to the Republicans. The failure to pass an

eight hour law such as demanded by the labor organizations will also have its effect and be used among laboring organizations. CONGRESSIONAL NOTES.
