

DEMOCRATIC PLEA FOR DUTY ON SUGAR

Senators Foster and McEnery of Louisiana Advocate High Tariff on All Grades.

DISLIKE WORD "PROTECTION."

McEnery Hoped Country's Condition Would Dictate to Democrats Abandonment of Absurd Theories.

Washington, May 25.—The senate today began the formal consideration of the sugar schedule, but did not approach a vote upon it. Instead, the time was entirely given over to speechmaking and, strange to say, the two speeches on the subject, while made by Democrats, advocated a high tariff on sugar of all grades.

The speeches were by Senators Foster and McEnery of Louisiana. Mr. Foster laughingly deprecated the application of the word "protection" to his attitude, but Mr. McEnery boldly espoused the protective theory and openly advised his Democratic friends to follow his example. He declared protection to be in the line of Democratic policy.

Mr. McEnery was given careful attention by the leading Republican senators, but his remarks received scant attention from his Democratic colleagues.

FOR CANE SUGAR.

Representing the great cane sugar producing state of Louisiana, Senator Foster asked that the same consideration be accorded sugar in the tariff bill as is given other industries, and spoke at length in favor of sustaining the duties on raw and refined sugar as passed by the house and recommended by the committee on finance.

A duty, he pointed out, had been imposed upon sugar by every political party since the foundation of the government and, except in the Walker act, a differential duty had been imposed upon the different grades of sugar. The products of the field and forest, Mr. Foster declared, had risen in price 25 or 50 per cent, when the price of sugar had remained stationary.

OFFENSIVE WORD "PROTECTION."

Mr. Tillman interrupted to say that sugar ought to yield a revenue, whereupon Mr. Foster laughingly said he did not wish that offensive word "protection" to be used in connection with the revenue.

Under the Dingley act the sugar production had increased in value from \$1,072,000 to \$43,480,000 in 10 years, he said. In reply to a question by Mr. Tillman, the Louisiana senator declared his belief that if the duty could be taken off sugar the domestic industry would be destroyed.

"Then we farmers will have to pay to keep this industry going," suggested Mr. Tillman.

"The cotton growers and the corn growers," responded Mr. Foster, "will have to help support this government, and I see no reason why they should object to do it through a tax of this kind."

Partial Paralysis

May Be Entirely of a Functional Character.

It Is Not Necessary to Accept It as Hopeless Since There Are Many Well Authenticated Cures.

There is absolutely no way of reaching the nerves with medicine except through the blood. The nerves receive all of their nourishment and support from the blood which, under healthful conditions, carries the elements needed to rebuild wasted nerve tissue. Let the blood become deranged and deficient in these elements and the nerves will be badly nourished and headachic, neuralgic, sciatic, functional paralysis and a host of other nervous troubles may result.

In severe nervous disorders Dr. Williams' Pink Pills have accomplished many seemingly impossible cures. Such an instance was the cure of Mrs. Elizabeth Stratton of no. 1123 Dewey Ave., Beloit, Wis. Mrs. Stratton has lived at her present address for the past six years and there is no room for doubt regarding her statement she says, "I had been ailing for some time, through overwork and worry, when my right side suddenly became partially paralyzed. I could not move for some weeks without taking hold of a chair. My right leg and arm were affected so that I could not use them. My nerves were in a terrible state. I shook all over and was excited by the least little thing. For weeks I could not sleep. My appetite was poor and I was a nervous wreck."

"I doctored with local physicians at Quincy, Ill., who said I had partial paralysis caused by a nervous shock. I did get a little relief from them but it was only temporary. Through a friend I was induced to try Dr. Williams' Pink Pills. This was after I had been sick for over a year. I was then up and around but could not walk. The pills soon helped me and finally entirely cured me. My daughter also used the pills for a run-down condition of the blood and they helped her at once."

While so promptly effective, Dr. Williams' Pink Pills contain no harmful stimulants or opiates. They are perfectly safe and create no drug habit. Our booklet, "Nervous Disorders," will be mailed free on request to any address. Send for copy today.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams Medicine Company, Science-lady, N. Y.

Citing the growth of expenses of the government, Mr. Foster predicted that if the duty on sugar were tampered with, it would not be possible to make up the loss by duties on other articles which are now taxed, he said, to the limit.

Interrupting, Mr. Tillman insisted that he wanted to buy brown sugar of the kind, "he used to steal from the sugar barrel" when he was a boy without paying the trust 2 cents a pound duty on it.

"Brown sugar," interposed Mr. Smeot, "can be brought from Porto Rico now free of duty if any sale could be found for it. The trouble is there is no demand for it."

NO TRUST IN LOUISIANA.

Mr. Foster declared that the independent sugar refineries were not in collision with the trust, and that the trust had nothing to do with the sugar production of Louisiana.

Denouncing the trust as having outraged every principle of honesty in trade he still appealed to the senate not

POPULAR YOUNG CAVALRY OFFICER AND SOCIETY GIRL HE IS TO WED.

Miss Rebecca McLean, daughter of Mr. and Mrs. Donald McLean of New York city, will be married to Lieutenant John de R. W. Gardiner on June 12. The wedding will be an important event to society people in New York and Washington. Miss McLean often visits Washington, and both she and Lieutenant Gardiner, who is attached to the Eleventh cavalry are socially prominent there. Mrs. Donald McLean probably has the widest acquaintance of any woman in America. Her long association with the Daughters of the American Revolution has brought her in contact with nearly all the public men in Washington. Lieutenant Gardiner and his bride will spend their honeymoon in Europe.

TO STRIKE A BLOW AT THE SUGAR INDUSTRY

in order to punish the trust. "They should be punished," he said, "like criminals. Put stripes on them, but do not strike down a domestic industry."

Mr. McEnery spoke in support of the same principles. Although a Democrat, Mr. McEnery made no effort to conceal his protective predilections. "A tariff for revenue only," he said, "was never contemplated by the builders of our Constitution. Free trade or tariff for revenue only has no place in our system of government. No tariff can be levied without carrying protection in some degree."

DEMOCRATIC VIEWS CHANGE.

"It is gratifying that at this session of Congress," he said, "we notice a great change of opinion among Democrats who are voting for a duty on raw material, although at one time free raw material was considered a cardinal principle of the Democracy. I hope the conditions of the country may dictate to the Democrats the abandonment of all the absurd theories of free trade and cause them to come in with the great body of people and vote a liberal protection for all manufacturing interests."

CRESCUS, CHAMPION TROTTER, IN GOOD HUMOR

Springfield, O., May 25.—Cresceus, the champion trotting stallion, now in Russia, is once more in good humor, having consented to be led from his stall and George Ketchum of Toledo, former owner, will sail from Liverpool for home on June 3, according to information received here by Harry Ketchum. Ketchum had no trouble in getting the famous stallion to come out and enjoy the fresh air. The horse recognized the voice of his former owner instantly and before he presented himself Cresceus began kicking on the door a moment after Ketchum and the party arrived. When it was opened and Ketchum spoke to Cresceus, the trotter began prancing about and holding out his head to the owner to be petted.

LITTLE GIRL HOMELESS WANDERER IN NEW YORK

New York, May 25.—A 13-year-old girl who said she was Florence Dodd, sometimes known as "Hope," was picked up in the streets by the police late last night and told a remarkable story of having been a wanderer without a home for more than a month. She ran away from the house of her aunt in April, she said, and ever since then she had been living out of doors, sleeping in doorways of tenement houses and stores in the downtown district and searching the refuse cans on the streets for food. She had not had her clothes off for a month. She was sent to the Children's society.

HELENA HARRIS' SAD STORY.

New York, May 25.—A young woman who was arrested in a Sixth avenue dry goods store here yesterday charged with taking a handbag from a jewelry counter, said she was Helen P. Harris, and that she lived at the Occidental hotel in Philadelphia. In her purse was found a pathetic letter addressed to a Mr. Turner in which she begged for funds with which to return to Philadelphia fearing that she would "come to grief" if she remained here. She was well dressed and of apparent refinement.

BEAT CARPETS AND DIED.

New York, May 25.—Alma Woodsum, 75 years old, died in her rooming house last night from exhaustion, following the beating of carpets incident to the annual house-cleaning. Miss Woodsum formerly had been a private tutor and among her students were pupils from well known families. Her friends told the coroner that she had been the tutor of the children of Jay Gould. In her room was found a faded letter in a childish hand, signed "Frank Gould," and telling of a European trip.

JAPANESE BAMBOO TO BE GROWN IN AMERICA.

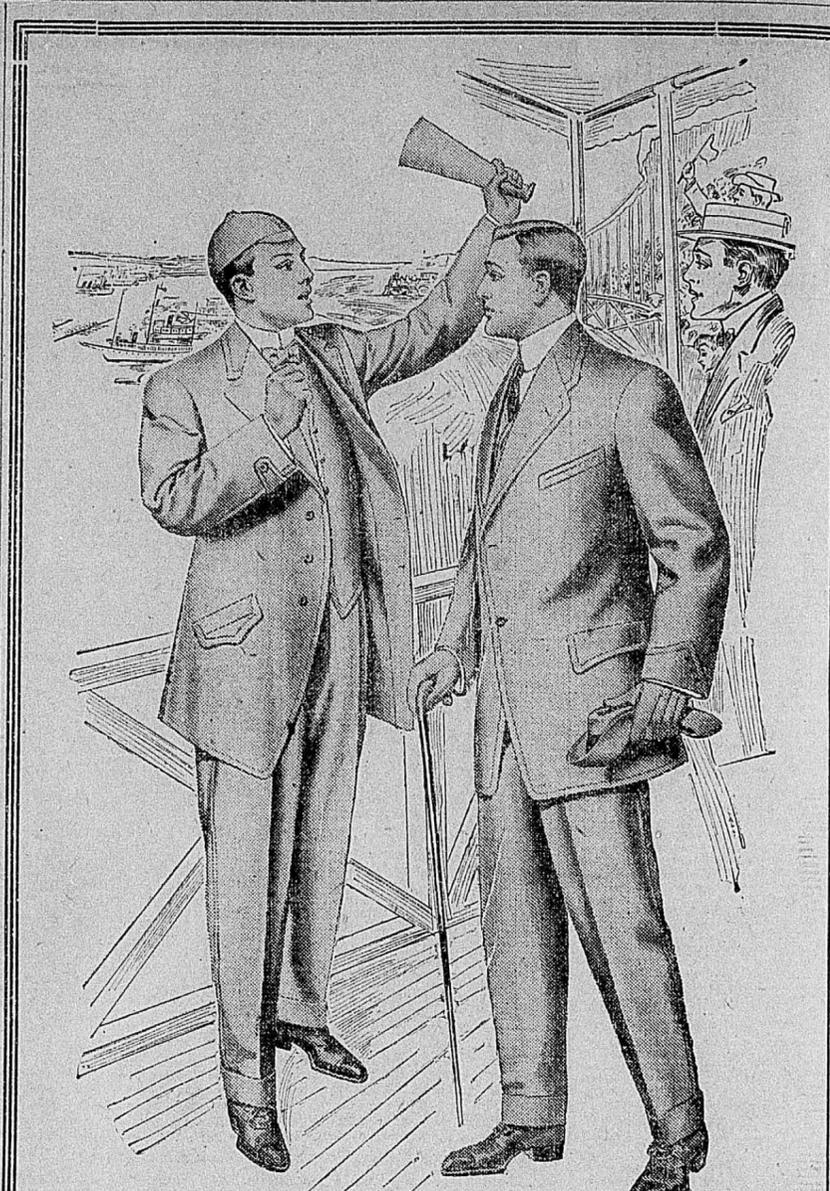

Chicago, May 25.—Japanese bamboo is to be grown in America. William B. Hills, a government expert, who has been in Japan for the past 18 months, believes that this can be accomplished successfully. He has shipped 50 tons of the bamboo trees which he raised in Japan, to the government experimental farm near Yuma, Ariz. The trees will be set out immediately.

Should the cultivation of this new and valuable product prove profitable, it will mean a great deal to the arid regions of the great southwest. Its use is constantly increasing in this country, and with the advent of its utilization in aeroplanes and flying machines, its value will be greatly enhanced.

TO TEST AIRSHIPS.

Chicago's Experimental Station to be Opened June 5.

Chicago, May 25.—Under the auspices of the Chicago Aeronautic association an experimental station for the building and testing of flying-machines will be opened June 5 at the old Harlem race track. Experiments will be con-

Wear New York Made Clothes on DECORATION DAY

Memorial Day—the first holiday of Summer. Everything will be fresh and new then—so do not let nature get ahead of you. Put on your Summer clothes, too. Ours is the only shop in this city where you can get clothes

MADE IN NEW YORK

By the greatest manufacturing tailors of the Fashion Center—Alfred Benjamin & Co.

We are very proud indeed of these Summer Suits of ours—so proud that we could use pages of this newspaper to tell you about them and not do them full justice.

The picture shows only two styles—their true name is Legion—All of them just as attractive as they can be—materials of the best in every color and pattern that New York men are wearing this season.

Old men and young, your Summer Clothes are here—Why delay?—Get them now—this very day.

The prices will fit your pocketbook every bit as well as the clothes will fit your back. In other words—Perfectly. Come in today.

Benjamin Suits \$18 to \$40

Ensign \$3.00 Hats. Poulton Madison Owen & Co. 111-113 Main St.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapefulness. All of this can be avoided by the use of Mother's Friend before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

MOTHER'S FRIEND

Sold by druggists at \$1.00 per bottle. Book mailed free to all who request it from THE BRADFIELD REGULATOR CO., Atlanta, Ga.

RACE HORSE MONEY.

There will be lots of good horse races in Salt Lake during the next forty days, and if you turn in your claims, you may see some money and checks were mailed them last week:

Mrs. Ellen Switzel, 47 South Main, City.

McClell & Sons' Bottling Co., City.

T. R. Jones, Murray, Utah.

The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Fletcher*

Clothes are almost human!

Their lives can be shortened by abuse the same as ours.

With ordinary soap, the constant rubbing of clothes over a rigid washboard wears and tears the life out of them.

With the aid of Gold Dust most of the work is done without your help, and little or no rubbing is required.

Gold Dust is soap "with its working clothes on"—good, honest, vegetable oil soap, ground fine and blended with other purifying materials. It cleanses vigorously and thoroughly without taxing your strength, and with no injury to garments.
