

## STATE OF IDAHO'S NEW RAILROADS

Projects Galore Are Being Floated  
For the Development of the  
Gem State.

### NORTHWESTERN SURVEYORS.

Corps of Engineers Take the Field at  
Casper, Wyo., and Are Working  
West.

Idaho bids fair to be the battle ground of the railroad projects in the near future. A few months ago an air of ponderous passivity hung over the Gem state as far as railroad propositions were concerned. Today there are all kinds of projects for through railroads in the air. No sooner was it announced that James J. Hill was contemplating an invasion of the rich virgin territory heretofore considered sterile Oregon than the state was assailed by squatters' rights, than several other mysterious things happened. On top of the announcement that the Colorado, Wyoming and Idaho railroad, and the Butte, Boise and Grand Rapids were going to build without fail at an early date, came another to the effect that the Chicago & Northwestern has a corps of surveyors working west from Casper, Wyo., on to the Pacific coast.

In this connection the Evening Capital News says:  
The intelligence which was received here yesterday came direct from Kearney, Neb., where the division headquarters of the company is located. The letter which the gentleman in Boise received was from a man in the confidence of the company, and stated that all he knew was that the Northwestern people were running in train loads of supplies and piling them up in Casper and the engineering department was at work surveying for an extension of the road west from Casper.  
The gentleman who received the letter said he had no doubt but that the company intended to extend its line from Casper, its present western terminus, on to the coast. Whether it will pass through Boise it is not known, but as this is the center of the commercial interests of the territory between the two trunk lines now passing from the east to the west, it is a fair presumption that the line will come through Boise and that within a few weeks something more definite will be known regarding the projected road.

### COPPER BELT DEAL.

General Manager of the Denver & Rio Grande in Salt Lake.

Charles H. Schlacks, general manager of the Denver & Rio Grande and vice president of the Utah Copper company, is in Salt Lake today in his private car looking over the situation. It is believed that his presence here is due to connection with the proposed Copper Belt road, as both he and President Dayly were in conference for several hours this morning.  
Mr. Dayly when seen stated that he did not think any official announcement in the matter would be forthcoming today.

### UNION DEPOT.

Committee of Provo Citizens Assured That Structure Will be Built.

Provo, Jan. 9.—It now seems settled that Provo is to have a union depot. The committee from the city council read the Commercial club, Mayor Lorraine, Thomas N. Taylor, O. Tuff, W. K. Shafford, W. W. Roberts, J. C. E. Decker and A. L. Booth, who went to Salt Lake Saturday to see General Manager Wells of the Salt Lake road, and General Supt. Welby of the Rio Grande Western, bring back word that the two companies have decided to build a union depot in this city to cost from \$15,000 to \$20,000, and that work on the building will begin as soon as the weather permits. The depot will be located at the foot of Third West street, three blocks west of the present depot, which is at the foot of Academy avenue. There is considerable opposition expressed by owners of property on Academy avenue to the selection of this site, but the railroad companies claim they can get it cheaper on Third West street, and that they have already negotiated for the land. They have also a petition from some 1,200 voters of Provo (about 40 per cent of the voters in the city) asking that the railroad companies build a union depot somewhere, leaving the choice of sites to be decided by the railroad companies. The petition was presented about a month ago, and in the face of that it will probably be a hard matter to effect a change in the plans of the railroad officials. It is thought, however, that an effort will be made to get the ear of Senator Clark, president of the Salt Lake road, and if possible, obtain his influence in favor of a change of plans, which will result in building the new depot at the foot of Academy avenue. It is not probable that any less powerful influences than Senator Clark can now effect a change. Senator Smoot, who is a director in the Salt Lake road, filed his preference for Academy avenue with the railroad officials, before he went to Washington, but that failed to produce the desired result.  
There is another, probable way out of the difficulty. That is for the Academy avenue people to purchase the land needed for depot purposes at the foot of Academy avenue. That would be expensive. It is claimed by the railroad people that there is a difference in price of \$10,000 in favor of Third West street. The Academy avenue site supporters claim that this site is closer to the main sources of travel, and from the city, the B. Y. university, the court-house, the Tabernacle, the State Mental hospital and business center of the city, and also that eminent sidewalks have been laid to the depot on Academy avenue, which makes that the best street for travel to and from the depot. The people further west have presented objections to Third West street, and the majority of the citizens, no doubt, feel as they expressed themselves in the petition, that a depot at any convenient place will be a great improvement on the present depot service for the city.

### DOUGLAS WHITE HERE.

Well Known Author Preparing a Book-let for Salt Lake Route.

Douglas White, the well known author, accompanied by a photographer, is expected to arrive from San Francisco today in the interests of the Salt Lake route with whom he has a contract to furnish material for a handsome souvenir of the opening of the San Pedro road. General Freight and Passenger Agent Gillingham stated that "The Story of a Trail, by the Salt Lake Route," from the pen of Mr. White, was progressing, and would shortly be ready for distribution in time for the opening of the road occurred. The edition will consist of 10,000 copies, 400 of which would be edition de luxe handsomely bound and generally splendid examples of the printer's art.  
Mr. White, who has made Los Angeles his headquarters for some months past, is the owner of one of the neatest yachts afloat on the Pacific.

## AMUSEMENTS

At the Tabernacle tonight, the concert by the Ernest Gamble Recital company, under the auspices of the Mutual Improvement association, will be given. The event is limited to one night only, and the high character of the organization, and the fact that so many season tickets have been sold in advance, guarantees a good house. Holders of season tickets are again reminded that they are entitled to the best seats in the house, the center rows down stairs.

At the Theater tonight Miss Florence Gale opens in Shakespeare's beautiful comedy, "As You Like It."

Frank James will present "Fighting for a Million" for three nights and a matinee, beginning this evening at the Grand.  
Held's band gave one of its best concerts last evening in the Grand theater, to a very appreciative audience; the hits of the evening were the violin solo by C. H. Schuler, Mrs. Emily Larsen's soprano solo and the operatic selections by the band. Mr. Zimmerman conducted as well as ever, in fact the ability he has shown as a leader evinces a high quality of training and experience.

### LATE LOCALS.

William Wheeler, aged 21, residing at 146 Third West street, is reported as having smothered.

Today's local bank clearings amounted to \$87,000.73, as against \$70,364.44 for the same day last year.

The city board of health held its regular monthly meeting this morning at 11:30 o'clock and transacted routine business.

A special meeting of the city council has been called for this afternoon at 4 o'clock, at which time the canvass of the returns of the recent special bond election will be commenced.

The state board of medical examiners is in session today at the city and county building examining applicants for certificates to practice medicine and obstetrics. There are nine applicants taking the medical examination and five taking the examination in ophthalmology.

### RAID ON GREEK SAVINGS.

Some of his creditors here can afford to lose the money and put it down to "experience."

Some of his creditors here can afford to lose the money and put it down to "experience." They are in not such good shape to stand a raid on their savings. They gave Attias \$5 each in order to secure a job, and they want their job or their money back, the latter for preference.

This is the story told to the "News" by George Johnson of Ogden, a Greek who speaks fairly good English:  
"Yes, the Greeks want to see Attias. You know that last week the men were paid off on the Ogden-Latin call-off and most of them came to Ogden looking for fresh jobs. Attias had heard of the move, and came up from Salt Lake to see them and promised to get them a job. After considerable talk thirty of the Greeks paid him \$5 each. He told them to wait until he returned from the Salt Lake, where he had to go to get their union buttons and the necessary transportation. That was Friday. The boys are still waiting."

### BIG CANAL JOB.

When asked what was the nature of the job offered, Johnson said that it was on a big canal up in Montana, and also that Attias had promised some of the men work on the Rio Grande. He stated that it was the general belief that Attias had gone to California. "We all know what he is," he affirmed, with a smile. "The Greek papers have been full of exposure of his dealings throughout the country, and my countrymen have been warned to beware of him. I am glad to say he is no Greek, however, although he poses as one. He is a Syrian and a faker."

### WEATHER REPORT.

Record at the local office of the weather bureau for the 24 hours ending at 8 a. m. today:

Barometer reading at 8 a. m., 29.62 inches. Temperature at 8 a. m., 27; maximum, 35; minimum, 24; mean, 30. Wind, S. by E. 4 degrees above normal.

Precipitation since the first of the month, 1.26 inch, which is .26 inch below the normal.

Deficiency in precipitation since Jan. 1, .26 inch.

### FORECASTS TILL 6 P. M. TUESDAY.

Local forecast for Salt Lake City and vicinity:

Partly cloudy and unsettled tonight and Tuesday with possibly rain or snow Tuesday.

Utah (forecast at Denver, Colo.): Partly cloudy tonight and Tuesday with rain or snow; colder Tuesday.

Fair tonight and Tuesday; warmer Tuesday.

### Hood's Sarsaparilla

It purifies and enriches the blood, cures pimples, eczema and all eruptions, tired, languid feelings, loss of appetite and general debility.

"I have taken Hood's Sarsaparilla and found it reliable and giving perfect satisfaction. It takes away that tired feeling, gives energy and puts the blood in good condition." Miss E. E. Conner, 1335 10th Street, N. W., Washington, D. C.

Hood's Sarsaparilla promises to cure and keeps the promise.

## "DR." P. G. P. ATTIAS HAS VANISHED

Delegation of Greeks Anxiously  
Desire to be Informed as to  
His Address.

### THEIR EXPERIENCE IN OGDEN.

They Accuse the Genial Young Man of  
Collecting Money Under False Pre-  
tenses Last Week.

A bunch of Greeks came down from Ogden today on the still hunt for "Dr." P. G. P. Attias, physician, labor agent, author, traveler, company promoter, etc., etc. The Greeks claimed that the alleged doctor has some of their good money, and it is now winter—the winter of their discontent, in fact.

Dr. Attias cannot be located, according to the story told, and is believed now to be in California. He was last heard of in Ogden on Friday. Since that day he has dropped out of sight. The "News" attempted to reach him at his residence, 264 west Second South, but was unsuccessful. In the words of the boy on the street, it begins to look as though he has skipped with the dough. According to a prominent Greek here (not Mr. Sklaris), the great and only Attias has left creditors in Salt Lake. He has the money of about \$500. It is interesting to note that a Greek saloon is said to be about \$5 in the hole on account of the debonair Syrian.

### RAID ON GREEK SAVINGS.

Some of his creditors here can afford to lose the money and put it down to "experience." They are in not such good shape to stand a raid on their savings. They gave Attias \$5 each in order to secure a job, and they want their job or their money back, the latter for preference.

This is the story told to the "News" by George Johnson of Ogden, a Greek who speaks fairly good English:  
"Yes, the Greeks want to see Attias. You know that last week the men were paid off on the Ogden-Latin call-off and most of them came to Ogden looking for fresh jobs. Attias had heard of the move, and came up from Salt Lake to see them and promised to get them a job. After considerable talk thirty of the Greeks paid him \$5 each. He told them to wait until he returned from the Salt Lake, where he had to go to get their union buttons and the necessary transportation. That was Friday. The boys are still waiting."

## FOREST RESERVE ON RESERVATION.

Senator Smoot and Rep. Howell  
Take the Matter Up With the  
Interior Department.

### OPENING MAY BE MADE IN MAY

Mr. Howell is Working to That End  
As it Would be to Advantage  
Of Intending Settlers.

(Special to the "News.")

Washington, D. C., Jan. 9.—Senator Smoot and Congressman Howell will take up with the interior department today the question growing out of the forest reserve to be created on the Utah reservation. It will be their aim to secure the establishment of land offices in the land district that will be thrown open to the present year. There are a number of complications incident to the opening of the Utah reservation and therefore Senator Smoot and Mr. Howell will endeavor to have them disposed of. Among the important questions which require settlement are secured water rights to citizens living in Wasatch county; the preservation of rights of citizens to minerals on the proposed forest reserve and preservation of highways. In addition to these highly important problems that enter into the opening of the Utah reserve, Congressman Howell will endeavor to have the reserve opened at a time when the people can go on the reserve without experiencing physical difficulties, it being the congressman's desire that the president's proclamation open the reservation about the middle of May, the scheme at present being to throw it open March 10. May would give settlers ample time to go on the land, make their selections and then get to the land office in ample time to make entry. There are upwards of a million acres in the proposed reserve and there are so many vital questions surrounding the opening that it will possibly be some time before the questions raised by Senator Smoot are disposed of. Senator Smoot today introduced a

bill increasing the pension of Samuel Lewis of Bonanza, McKinley county, New Mexico, to \$30 per month. Lewis is a Mexican war veteran, having enlisted in company C, "Mormon" battalion, Iowa volunteer infantry.
