GERMAN FORCE REDUCED.

Berlin, July 20.-A dispatch from Taku dated Friday, July 20. says the German force at Tien Tsin has been reduced to 200 men. LONDON GROWING HOPEFUL.

London, July 23 .- Though there are ome indications that the hardened pessimism is beginning to melt under the warm show of Chinese assurances, so that it is now admitted that perhaps not all the foreign ministers at Pekin have been murdered, still incredulity remains the dominant note of European comment. No one seems able to recon-cile the assurances of the imperial edict with Minister Conger's statement in his alleged message to Secretary Hay that he was in hourly expectation of that he was in hourly expectation of death by massacre, though both docu-ments purport to have been sent off from Pokin on the same date. It is con-fidently anticipated, however, that the mystery will soon be solved, as all the governments, following the lead of the United States secretary of state, Col. message. These show the attitude of foreign governments. Without excep-tion the official view taken by all for-eign officers is that the despatch is not genuine, and does not afford a basis for GOODNOW INCREDULOUS.

This incredulity is also shared by U. Consul General Goodnaw at Shang-al, who has communicated to the state ariment his diabelief in the authen-ty of the message. The text of these ral messages is not made public, as are inconclusive and not adding they are inconclusive and not adding anything in the way of definite news to the situation at Pekin, the entire tener being one of doubt and suspicion. The official doubts are based on various theories. One of them is that the de-ception was practiced by the Tsung Li Yamen itself. Still another is that it eroanated from a high Chinese official-a man holding a position like that of Sheng or Prince Tuan, the latter being at the head of the anti-foreign element and at last accounts connected with the and at last accounts connected with the Tsung Li Yamen.

HAY ASKS MOTIVE.

Notwithstanding this flood of doubt rom foreign official quarters, the state lepartment has not varied its position a to the authenticity of the message, as to the authenticity of the message, Secretary Hay's position being how, as it always has been, that there is a pos-sibility that a fraud may have been perpetrated. But as against this re-mote possibility, Mr. Hay feels that there is absolutely no motive for the perpetration of such a monstrous de-ception. The Washington government is unshaken, therefore, in its position on the message, while the rest of the world has made it known to this gov-ernment that this message is not ac-cepted as coming from Conger on the 18th inst.

THE CHINESE APPEAL Concerning the proposition of media-tion made to the United States by Chi-na, the state department was not pre-pared today to make any statement. It was surmised that Mr. Hay was en-gaged in considering the government's answer, which perchably would be deanswer, which probably would be de-livered to Minister Wu later, but no statement as to the course of procedure sould be obtained in any official quar-

As communication will be required between Washington and the President, it is hardly likely that the answer will be forthcoming at once. Both the state department and Chinese officials took occasion early in the day to deny a report that plans were on foot toward the delivery of Minister Conger by the Chinese authorities to Admiral Hemey as Then Tork at Tien Tsin U. Orders have been issued by the Washington authorities to withdraw the First infantry, now stationed at Guanajay and Pinar Del Rio, in Cuba, and early next month part of the Eleventh infantry will leave Cuba. A squadron of the Fifth cavalry has also been ordered from Cuba to Fort Meyer, Washington. These are all seasoned troops and it is expected that they will be able to give good account of themselves if it be-comes necessary for them to go to China. Army officers stationed around New York are inclined to the belief that most of the troops now under orders to go to San Francisco, will be landed on Chinese solt. Army officers say that the Chinese trouble and the prospects of U.S. troops seeing service in that country have given a great impetus to recruiting in this city. "The present conflict between China and the foreign powers had its origin in the long standing antagonism be-tween the people and Christian missions. The subsequent fail of the Taku forts precipitated the meeting of force with force. The imperial government, having due regard to the importance of internal intercourse, still refused to go so far as to interrupt the existing re-lations. We have already repeatedly issued decrees providing for the protection of the foreign legations and also commanded the provincial authorities to protect missionaries.

PROTECT FOREIGNERS.

"Inasmuch as there is still no ces-mation in the employment of force, foreign merchants and subjects residing in China, who form a numerous body in the country, should be protected with-out distinction. We hereby command all the Tartar generals, governor generals and governors of provinces to look after the foreign merchants and missionaries living in the open ports, prefectures, departments and districts under their respective jurisdiction, and to afford them due protection in accordance with treaty stipulations without fall

DEPRECATE MURDERS.

"Last month we heard with profound asionishment and regret of the killing of the chancellor of the Japanese lega-tion, Mr. Akira, and the same fate beall the German minister shortly afterward. The violent removal of the Ger-man minister, whose residence at the capital was necessary to the transaction of business between the two coun tries, affected us very deeply. It is the duty of the authorities concerned to cause stringent orders for the speedy arrest and nunishment of the murderers to be carried out.

ATTACK ON TIEN TSIN.

"Since the commencement of the at-tack on Tien Twin there are foreign subjects and missionaries who have, on account of local disturbances, suffered death or loss of property through no fault of their own. We hereby command the governor of Pekin and the viceroy of Chi Li to cause investigations to be made by their respective subordi-nates of all such claims except those arising directly from the said attack with a view to their ultimate settle Moreover, local outlaws and rement. sities of the case demand. We hereby command this, our general edict, to be China. made known for the information of all it may concern. Respect this." CHINESE WILL PAY CLAIMS. A significant statement in the above

edict is noted in that passage which directs an investigation of all claims, "ex-cept those arising directly from the said attack," (attack on Tien Tsin), with a view to their ultimate settlement. This appears to make plain not only

that the Chinese government will settle of sending the Hancock which sails from San Francisco, July 28, with four batteries of artillery and 500 marines. It seems to indi-attack on Tien Tsin. It seems to indidirect to Taku instead of to Nagasaki, , cate that the Chinese government holds

BRITISH UNBELIEF.

London, July 23 .- In the house of commons today the parliamentary sec-retary of the foreign office, Mr. Wm. St. John Broderick, made certain statements with regard to the safety of the legations at Pekin and said the Chinese

minister declared them to be unharmed. Mr. Broderick read the text of the several edicts of July 18, commenting on Minister Conger's dispatch to the department of state of the United States. Mr. Broderick said that though the dispatch was the same date as the lict of assurance of safety, the latter was not borne out by Mr. Conger. Consul Warren had telegraphed to the governor of Shan Tung to know how a message from Pekin reached him in two days and why there was no mes-sage from their foreign minister, Sir Claude MacDonald,

The governor had replied that the United States minister's message was sent by the Tsung Li Yamen by a messenger traveling 600 leagues, roughly 200 miles a day. "I assure you," the governor of Shan Tung had added, "there is no telegraphic communication. I cannot explain why MacDonald has not telegraphed but I beg you not to be anxious about the ministers for they and the others are all living and un-harmed. Of this I have already had several reliable messages." It might be "lis" instead of "leagues."

London Financial Market in a State of Blissful Uncertainty.

New York, July 23 .- The Times London financial cable says; The China war scare has driven the

Therefore, for reasons already explained, many expenditures and borrowed money by the government, floating bal-ances have been cheap, and they remain cheap. Eut the bank has lost \$2, 600,000 in gold since the end of May, when it lowered the rate from four to three and a half per cont, and the three and a half per cent, and the prospect is that a good deal will be lost between now and November. There is the rub, perhaps. By taking steps thus early it may be hoped that the strain put upon us in the end of last year will not be repeated.
