

STONE ATTACKS THE PRESIDENT

Says Resolution Regarding Purchase of Canal Supplies Only a Ruse.

BUT A DOOR FOR ESCAPE.

Declares the Executive's Courage When Put to the Test is Unequal to It.

Washington, June 1.—When today Senator Aldrich sought to secure the passage of his resolution giving the president authority to go outside the United States to buy supplies for the Panama canal in case bids in the United States are extortionate and unreasonable, Senator Stone took the floor in opposition to the resolution. He based his opposition on the ground that it was a ruse to pass it.

"No one can doubt," he said, "that the president will buy practically all canal materials in America, no matter what the difference in prices here and abroad may be. If we are to judge the future by the past there is no room for questioning what course the president will adopt. The men who constituted the stupendous scandal of the canal, almost of necessity have their primary devotion to the canal. The boundaries of those enormous corruption funds may sometimes wince and shrink from the task imposed upon them, and to hide the shame of it may now and then perform some spectacular stunt in the limelight and before the galleries, but in the end the forces which operate behind the curtain and hold the strings will have their way. But there has been so much of this bluster and show, and it has attracted so much attention, that something must be done to relieve the situation. Something must be provided for public credulity to feed upon. A door must be opened for escape, and a sort of place must be made for the president to fall, when the scheme for all this is wrapped up in this resolution."

Senator Stone said that about a year ago the president and the secretary of war had announced that they would not be held up in the purchase of materials for the canal by American manufacturers or American ship owners. This declaration, he said, was unexpected, but was nevertheless appreciated generally by the American people as in the interest of the general welfare. But he declared that the special interests affected, resisted and won.

"Promptly they organized their forces against and to discipline him. The canal battles came roaring in from every direction and a storm of protest was raised in every available quarter. The president's courage was put to the test, and it, as usual, proved unequal to the task. He was forced to retreat, and he did so in a great thunderclap. He was forced to declare that he would not be held up in the purchase of materials for the canal by American manufacturers or American ship owners. This declaration, he said, was unexpected, but was nevertheless appreciated generally by the American people as in the interest of the general welfare. But he declared that the special interests affected, resisted and won.

Heart Like a Clock

The pulsation of the heart marks the passage of the blood through the veins, just as the ticking of a clock indicates the flight of moments of time. Flutters, fluttering or irregular action reveals the fact that the heart is running down—and unless strengthened, is liable to stop at any time under some weakening influence, such as excitement, over-work, or intense mental or physical strain. To regulate the heart action, you should take Dr. Miles' Heart Cure when any symptoms of a weak heart is apparent. It has no equal.

"Sometime ago I had a very severe pain around my heart, and most of the time I had a heavy beating or throbbing of the heart. It would beat so that when I lay down at night I would sound like a small clock in bed. With every little exertion, or walking, I felt like my heart would give out. I would be so tired I would have to lie down and rest. I suffered quite a while in this way. Then I concluded to try Dr. Miles' Heart Cure. I had not taken it long until I began to feel better, and so continued, and the medicine entirely cured me. I am very grateful for the great good I received from Dr. Miles' Heart Cure."

JOSEPH BROADHEAD, Findlay, Illinois.
Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.
Miles Medical Co., Elkhart, Ind.

Foraker reading the testimony of Mr. Stone before the inter-oceanic canal committee showing that the two Ward line ships had been built at a time when material and labor were cheaper and that they had subsequently been so strengthened as to improve them materially and really make them a bargain at the price.

Carnegie suggested an amendment to the resolution providing the preference shall be given to articles of domestic manufacture when they can be secured as cheaply as others and spoke in support of the amendment.

The resolution was still under consideration when the senate went into executive session.

TRADERS' INSURANCE CO.

Committee Will Report That Stockholders Are Liable.

San Francisco, June 1.—At a conference today of the committee representing the San Francisco policyholders in the Traders' Insurance company of Chicago, now in the hands of a receiver, it was decided to report to the policyholders next Monday that under the law the stockholders in the insolvent company are responsible and can be reached through the federal courts.

The names of the directors and of the principal stockholders of the Traders' Insurance company have been ascertained since the meeting of Thursday. The directors are Eugene Buckingham, C. L. Hutchins, Clarence Buckingham, William Dickinson, Abram Poole, John J. Mitchell, T. J. Lefevre, Ernest Hamill and A. N. Young.

The combined wealth of the directors alone is estimated at \$50,000,000. Attorney Bates, who said he represented eight or ten of the stockholders and suggested a settlement of 60 cents on the dollar, a meeting of the stockholders yesterday, didn't appear before the committee today.

Chicago, June 2.—Stock in the First National bank being part of the assets of the Traders' Insurance company will be sold by Receiver Byron L. Smith, who yesterday obtained an order in Judge Heard's court to permit him to sell the stock. There are 175 shares, which, by the terms of the order, may not be disposed of at a lower price than \$275 a share. The court also allowed the receiver to dispose of 1,449 shares of Denver and Rio Grande Railroad company stock at an aggregate price of \$121,560.

John J. Mitchell, referring to the telegraphed report from San Francisco that Atty. Thomas Bates had made a proposition to settle with policyholders for 60 cents on the dollar, said:

"Mr. Bates was not authorized to make any proposal for the settlement. He went there to ascertain the real claims of the San Francisco creditors. I believe liabilities will be paid in full."

EATEN BY DOGS.

Five Persons Killed by Them on Labrador Coast Last Winter.

St. John's, N. F., June 1.—Reports from Labrador state that five persons were killed and eaten by savage dogs of that coast during the past winter. These dogs, which have been largely exterminated with wolves, have frequently killed people heretofore.

TENNESSEE DEMOCRATS.

After Four Days Stormy Time Name Patterson for Governor.

Nashville, Tenn., June 1.—Malcolm R. Patterson of Memphis, representative in Congress from the Tenth district, was tonight nominated for governor by the state Democratic convention, no other name being presented for consideration. The nomination came after four days of the stormiest state political gathering in the history of Tennessee and after a campaign made notable by the bitterness and personal nature of the contest between Mr. Patterson and John R. Cox, incumbent. Judge John R. Bond was also an aspirant, but was at no time prominently considered.

TOM NEILLIGAN DISCHARGED.

Tacoma, Wash., June 1.—Tom Neilligan, suspected of having murdered Elsie Millhoff at Renton, has been discharged by the coroner's jury.

HUMAN ARM FOUND.

San Francisco, June 2.—A human arm, evidently that of a woman, was found yesterday evening floating in a pond near the general hospital on the Presidio reservation. The discovery was made by Thomas Terry, a four-year-old boy. The pond was dragged and an apron covered with blood was brought to the surface near where the arm was discovered and on a trash dump nearby a skirt, a corset and a handkerchief were found. Should the medical officers of the military reservation who have the matter in charge find upon examination that the arm, which is badly decomposed, has but recently been severed from the body, the pond will be drained and the resolution made to find the body, which it is believed will be found there.

SCALDED TO DEATH.

San Francisco, June 2.—Word was received here yesterday of the death at Topolobampo on May 18 of Capt. Manuel Rivera, master of the brig Consuelo. Rivera was scalded to death. He undertook to blow out the boiler of the Consuelo's donkey engine. A steam pipe exploded, and Rivera was enveloped in the scalding vapor.

EVERY BERTH TAKEN.

New York, June 2.—The six transatlantic liners sailing from New York today go out with every berth on board taken. For more than a week there has not been a vacant berth to be had, and accommodations on some of the vessels had been sold out for weeks.

The departing ships are the St. Louis, for Southampton; Minnehaha, for London; the Cedric, for Liverpool; Calcutta, for Glasgow; Pennsylvania, for Hamburg; and Vaderland, for Antwerp. All of them carry well known persons.

Among the passengers on the St. Louis are Congressman Nicolas Longworth of Ohio and Mrs. Longworth, who arrived here yesterday. They will land at Southampton and go direct to London, to be the guests of the American ambassador and Mrs. Reid at Dorchester House.

The White Star liner Cedric, which sailed yesterday, was also booked to its capacity. On the Cedric was Commander Nakagawa of the Japanese naval construction bureau, who has been studying the iron and steel industry in this country. He said his government was to establish a great plant at Tokyo, to turn out material for building war vessels and steel rails for railroads in Manchuria and Korea.

SUIT OVER BUILDINGS

DAMAGED IN S. F. FIRE.

San Francisco, June 2.—A point of great importance to lessees of buildings damaged but not destroyed by the recent fire is involved in the injunction suit of Louis Fontanel against Ignatz Steinhart of the Anglo-California bank and the Yokohama Specie bank, which will come up in court on the 11th inst. Fontanel, two years before the fire,

leased from Steinhart for five years the building at 515 Montgomery street.

The fire left the walls and ceiling of the place standing. Three weeks ago Fontanel heard that the place had been repaired, and that the Yokohama bank was moving in. He went to Steinhart and made a protest. The banker said he had tried to find Fontanel, but could not do so. He said he would not cancel the lease to the Yokohama bank. He consulted an attorney, who told him that as long as the building had not been destroyed he had a right to possession under his lease. The fact that the bank could do business in it showed that it was not destroyed. He added that under the statute the building

could not be taken possession of by the owners until the lessee had given notice that he did not want it longer.

TO DISBAR ABE HUMMELL.

New York, June 2.—Proceedings have been begun before the Bar association for the disbarment of Attorney Abraham K. Hummel and two of his partners, Nathan Cohen and Abraham H. Kaffenburgh, on account of disclosures growing out of the Dodge-Morse case. Hummel has already been convicted of conspiracy. A certificate of reasonable doubt was granted, and his

trial for subornation of perjury has been postponed while the appeal to the appellate division from his conviction is pending.

All three lawyers have been served with the complaint in the action brought by Howard Taylor, a member of the grievance committee of the Bar association, who has been selected as prosecutor.

The complaint alleges malpractice, deceit and unprofessional conduct on the part of the three defendants, and an order to show cause why they should not be disbarred issued out of the appellate division. This is returnable on June 8, when a referee will be appointed to take testimony.

SORE MUSCLES.

Prominent athletes throughout the country find that the best treatment for sore muscles after severe exercise or hard work of any kind, is a hot bath at bed time, which opens the pores. This should immediately be followed with an application of Chamberlain's Pain Balm vigorously rubbed into the skin. This balm removes all stiffness and soreness and has become a favorite rub down as it acts promptly and keeps the muscles in excellent condition. For sale by all druggists.

Have you MOUNTS Pork and Beans on today's Grocery want list?
