40 YEARS THE STANDARD.

Michigan School of Mines, has been looking over the district during the week and is well pleased with what he has seen.

Active work will begin upon a group of claims, owned by Judge P. K. and associates, lying north of the Ingar, a short time.

George Johnson, of Panguitch, and partners are pushing work upon the Thompson claim, adjoining the Utah, with a view of 3000 feet.

Superintendent B. F. Woodward, of the New Mining and Milling company, has returned from Spanish Fork, where he has been working.

Industrious point to another dividend from the Mammoth surplus at an early day. The ore bodies on the 1200 and 1400 levels are up to the surface and the output of the mine is only limited by the capacity of the hoist.

The new building for the company has been completed. The new building is now down half way up on all sides.

Geology has been going on the surface for the new building plant, and the work of striking the main shaft from the surface to the level of 300 feet has been completed.

At the Mammoth mine very important surface improvements are in progress. A new electric power house is being built.
