Extraordinary Insanity.

No man or woman should be considered sane who makes light of a cough or a cold, for they are the seeds of death's heaviest harvest. And the insanity manifested in neglecting these heralds of consumption, is of the strongest type, since it renders its victims unconscious of the fact that at every drug store in the land, a positive cure for all complaints affecting the throat and lungs is procurable. When HALE'S HONEY OF HOREHOUND AND TAR, is within every one's reach, why suffer from ailments which it never fails to cure? Pike's Tooth-Ache Drops—Cure in one minute. d1425

SURE FOR is warranted to destroy bed bugs. By Rivers Bros. sole agents, one and two doors south of Walker House.

If any of our readers should happen to visit Philadelphia, either on business or pleasure, a sojourn at the "Colonial Hotel," at the corner of Fifteenth and Chestnut, will make him about as happy and contented as he possibly can be away from Baltimore. There is an amount of real comfort, as well as elegance, about all the appointments of this establishment rarely met with in an American hotel. Without attempting to particularize any of its special merits, it is enough to say that everything is in perfect order, that nothing is wanting to make one altogether comfortable, and that an unusual quantity of courtesy and good manners marks the conduct of all the attendants. Mr. J. C. Crump, who has entire charge of the house, has clearly demonstrated the fact that he knows exactly how to keep a hotel, and under his capable management, the Colonial will undoubtedly "live long and prosper."—Baltimore Gazette. d139

NOTICE.

The large Tabernacle will be opened for public worship on Sunday, May 19th, at 2 p. m.
ANGUS M. CANNON,
DAVID O. CALDER,
JOSEPH E. TAYLOR,
Presidents of the Stake.

Acknowledgments.—We acknowledge wedding compliments from Mr. and Mrs. Charles S. Burton.

Not Bad.—The concert recently given in the 15th Ward Hall, for the benefit of the Welsh emigration fund, netted the nice sum of nearly \$70.

Obsequies.—The funeral services of Mrs. Emily Jane Woodruff will be conducted at the 17th Ward Schoolhouse, to-morrow, Friday, at 10 o'clock a. m. Friends of the deceased and family are invited to attend.

Third Ward.—The Third Ward Sunday school will spend to-morrow at Lindsey's gardens.

The proprietor of these grounds has thrown them open, free of charge, to all the Sunday schools of the city.

District Court.—The case of Mary Admire vs. B. T. Burton was given to the jury, who retired to consider their verdict.
The case of John N. Whitney vs. Alladin G. & S. M. Co., was continued by consent.

Called.—This afternoon we received a call from P. A. Jordan, Esq., of the firm of MacKellar, Smiths & Jordan, type manufacturers of Philadelphia. He is accompanied by his wife, for the benefit of whose health they have been on a visit to Southern California.

Personal.—Dr. Matthew Hale Smith, the well known "Burling" of the Boston Journal and author of "Sunshine and Shadow in New York," is in this city taking observations. The Dr. is a talented lecturer and has obtained high eulogiums from the press wherever he has appeared before the public. We hope he will spend a pleasant time during his visit to "the City of the Saints."

Theatre.—The matinee yesterday drew a full house, and in the evening there was a most brilliant performance. The pantomime went off in lively style, and with a vim surpassing the performance of Tuesday evening when there was a larger attendance. The Humpty Dumpty troupe play in Ogden this evening. The next attraction will be "Evangeline," next Monday evening, by Rice's Opera Bouffe company, which has been drawing immensely on the Pacific Coast.

A Good Cause.—We received a pleasant call yesterday afternoon, from Mrs. G. R. Heulings, a sister of Mrs. Emeline B. Wells, but who resides in the East, and is traveling in the interests of the temperance movement. Mrs. Heulings has a agency in this region for "The Temperance reform and its Great Reformers." This interesting and valuable book contains 600 pages, nicely bound in cloth. It is divided into nine sections, and embraces the entire history of the temperance cause in this country. It is illustrated with fine portraits of the leading temperance agitators and reformers, male and female, and gives the liquor laws of various states, and biographies of great men and women who have successfully battled against the forces of the demon of drink. It is edited by Rev. W. H. Daniels, A. M., and has an introduction by the celebrated Dr. Theo. Z. Cuyler. The work is calculated to do a great deal of good in the world, and we therefore wish Mrs. Heulings much success in canvassing for its sale. The lady is laboring in a worthy cause.

The Old Folks.—There is a movement on foot to give the old folks of the city a treat. It will probably, as on previous occasions, take the form of an excursion. We are requested, by Brothers George Goddard and C. R. Savage, who are moving actively in the matter, to state that they are desirous of obtaining from the Bishop, the number of people in the several wards who are 70 years of age and over. The time mentioned for the giving in of this report is at the next Bishop's meeting, one week from to-morrow.

We are also requested to state that either of the two brethren named are prepared to receive donations from any citizens inclined to contribute towards giving the "old folks" a treat.

We understand it is probable the excursion will be to Ogden. In our opinion some point nearer home would be much more suitable.

We believe a trip of eighty miles in railroad cars is too fatiguing for most people who are over seventy years old. Railroad riding, to some, is positively fatiguing. There are places in the near vicinity of this city which but few of the old people have seen and that are equally as suitable for a gathering of the "old folks," and as interesting as "old folks" can be found anywhere in the Territory.

Besides a point nearer home, being, in our view, otherwise more suited, it is better in point of economy. It appears to us that there are many ways in which means can be better spent for the comfort and pleasure of "old folks" than in laying it out in travelling expenses.

Signs and Awnings.—The ordinance relating to signs and awnings, which passed the City Council last Tuesday, is its third reading, provides that all canvas awnings hereafter constructed shall be added to, and suspended from the buildings not to project more than ten feet over the sidewalk, and the lowest part not to be less than eight feet above the grade. All awnings built of wood or iron must be built across the entire width of the sidewalk, the outer posts to be uniformly eighteen feet from the line of the lot, not to be lower in any part than twelve feet from grade of the sidewalk, the roof or covering to be water tight, the whole to be built in a safe and substantial manner, to the acceptance of the inspector of buildings.

All awnings built of lumber, and all signposts or signboards, now standing on the sidewalks, or across the sidewalks of water ditches, or on the streets outside the water ditches, except awnings of a permanent character, in accordance with the provisions of this ordinance, are declared obstructions, and must be removed within six months from the 1st of June next.

The last section provides that any person violating or failing to comply with the ordinance may be fined not to exceed \$50, or be imprisoned not to exceed 30 days, or both, and any person failing to remove any of the signs or awnings declared to be obstructions shall be liable to be fined \$5 a day for every day such obstruction so remains.

Black Bass.—Mr. C. K. Green, son of the famous Seth Green, the pisciculturist, is in this city, accompanied by Mr. J. Mason, who has been associated with Mr. Green for many years in his labor of promoting and extending the culture of edible fish in the United States. These gentlemen are returning from San Francisco, where they have been in charge of a lot of black bass for the Sportsman's club of California. They started with 113 and succeeded in taking safely across the continent 100, about equal numbers of males and females. The bass weighed from half a pound to two pounds each and will be placed in a lake at Oakland.

Black bass is a splendid fish, and we think it could be introduced successfully into Utah in streams like the Jordan, which in some parts has not a violent current.

We wish Messrs. Green and Mason a pleasant journey home.

Ingenuity.—Farmer youths have frequently got into positions requiring tact and ingenuity. This was illustrated yesterday. A son of Brother John E. Pack was bringing four fat steers in from Rhodes Valley. One of the animals gave completely out and was left at a point eighteen miles from here, while the others were brought to town. The young man and a brother of his went back, taking a line of the road.

They found him where he was left, but still unable to walk, so they determined to take him to town in the wagon. To get him upon the vehicle they dug holes in the ground and let the bottom of the wagon box down level with the ground, and made him walk on to it. To get him to lie down they tied up a couple of his legs. Getting tired of standing on two he dropped to a recumbent posture. They got to the city about midnight last night. In unloading they backed the wagon against a manure pile, took off the hind wheels, drove forward a short distance, and the fat steer, weighing about 1,700 pounds, slid gently out, and is now in excellent condition.

We relate the foregoing as illustrating the tact frequently displayed by some of our boys, when cornered by circumstances.

Not Much Sleep.—A short time since, in a suit which was virtually between several hundred hard-working, industrious farmers of Tooele, and an adventurer named Lawrence A. Brown, Judge Schaeffer decided that one-third of the water running in a canal belonging to the said several hundred people was surplus, and awarded it, by decree, to the said Brown. This surplus was to be used by Brown upon a tract of land which he had taken up under the Desert Land Act. Now it turns out that the water supply is considerably deficient of being enough for the use of the older settlers, to say nothing about surplus. It is needless to say that Brown gets no water, notwithstanding the defined surplus of Judge Schaeffer.

Ball To Night.—This evening the ladies of the Relief Society in the seventeenth Ward will give a reception ball in the school-house, for the purpose of raising money for the necessary expenses for finishing H. L. White is expected to be exceptionally good as the ladies of that ward have spared no pains in their arrangements, and they always succeed in their entertainments. Olsen's quadrille band will supply the music. Currie will act as prompter and Mr. Z. Jacobs will act as M. C. Refreshments will be provided on the premises, and all who attend may be sure of enjoying a pleasant evening, if they so desire and have the disposition.

Large Audience.—There was an overflowing house at the 21st Ward entertainment last evening, quite a number of people being unable to gain admittance. The performance was well rendered throughout.

Next Wednesday evening another entertainment will be given, the proceeds of which will be applied to the purchase of scenery for the use of the 21st Ward Dramatic Association, recently organized.

Theatrical.—In addition to running the Salt Lake Theatre, we understand that Manager Harris purpose opening the Ogden Theatre about the first of next month, and providing for the people of that city a regular course of theatrical entertainments.

Spring Lake Pleasure Grounds.—Yesterday afternoon we visited Spring Lake Pleasure Grounds, otherwise, and more familiarly known as Calder's Farm. The grounds are beautifully situated, about four miles south of the city. As a delightful retreat in which to spend a few pleasant hours in the summer, they have no superior, that we are aware of, in Utah.

The facilities for pleasure seekers are more ample than in any similar place we know of, having the advantage of a fine sheet of fresh water, of ample dimensions for the exhilarating pastime of boating. The boats are substantially and neatly built, and afford plenty of room for a large party. There are three race boats, three larger ones with a capacity of 30 passengers each, and a number of sail-boats, in which the boys delight to float around.

The lake is dotted with picturesque little islands, where small parties can land and enjoy the novelty of being surrounded by water and protected from the sun's rays by the grateful shades cast by the foliage of outspreading trees. On one of these little patches of terra firma has been erected a neat little summer-house, conveniently seated and with a suitable centre table for picnics.

Immediately adjacent to the lake is a spring of clear, sparkling water, refreshingly cool in the hottest season.

The apparatus, such as swings, &c., are of the most improved and modern kinds, and the large new hall affords ample room for dancing.

In the dancing room Mr. George Cahler, the manager of the grounds, is preparing an institution that cannot fail to delight the young people. He is obtaining a number of mechanical figures, which are shown, in theatrical style, through an aperture in the side of a small compartment. These figures are manipulated by wires and springs, and dance, sing, make speeches and do all sorts of funny things to excite the hilarity of the boys and girls.

To prevent the accumulation of miasmatic vapors the lake is emptied, by means of a strongly built gate at the outlet, every few weeks. The manager is courteous and attentive to visitors, and altogether the grounds are an agreeable and desirable spot, within the distance of a pleasant drive from the city.

Chester White.—On Saturday, a granger from the north brought a coop full of Chester White pigs to town, and offered them for sale, on First South Street.

The gentleman, being of goodly physique, and well dressed, a considerable crowd of lookers on were attracted. One gentleman, addressing the owner of the animals, said, "Are these pigs of good stock?"

"Yes, gentlemen, they are, of most excellent stock, being of my own breed."

An audible smile rippled through the knot of bystanders.

DIED.

Of typhoid fever, at his residence in the 15th Ward, on Wednesday, May 8th, JOHN KAMAZO, late of the Sandwich Islands. Deceased was born January 25th, 1859, at Honolulu, Kona Hawaii, Sandwich Islands. He was baptized into the Church of Jesus Christ of Latter-day Saints. Came to this city with his wife and child, in company with Elder A. L. Smith, where he has resided up to the day of his death. The funeral services were held in the 15th Ward school-house, at 2 o'clock. Elder Joseph F. Smith preached the funeral sermon.

At Stapleton, Staten Island, N. Y., April 26, 1879, NANCY HART CROCHERON, aged 85 years, 8 months and 20 days.
