LAST NIGHT'S DISPATCHES

EASTERN.

NEW YORK, 17.—There is a decided improvement in the general tone of financial affairs, in consequence of a decline in the rate for money; but one more failure has occurred, and the general belief is that the worst is over.

The Senate amendments to the New York charter were concurred in by the House yesterday.

Horencio Ribos, Venezuelan consul at this port for the past four years, died yesterday.

WASHINGTON, 17.—The Secretary of War, on the recommendation of Senators Mitchell and Kelly, has ordered five hundred stand of breach-loading rifles from the arsenal at Vancouver, to be delivered to the authorities of Oregon for the use of citizens on the frontier.

Vice-President Wilson said, yesterday, in conversation, that peace with the Modocs was now out of the question, and they should be exterminated at any cost. Still the peace policy should not be abandoned in dealing with other Indian tribes.

WASHINGTON, 15.—The President has appointed Thomas R. Fuller collector of internal revenue for Montana.

WASHINGTON, 16.—The Post Office Department announces that it will commence issuing postal cards May 11th.

NEW YORK, 17.—General Canby having been a member of the Methodist Church, and the Rev. Dr. Thomas its book agent at San Francisco, the preachers' association will commemorate their lives and deaths by a suitable resolution and services.

Arrangements are making by the French residents in this neighborhood for a national celebration on the approaching evacuation of France by the German troops.

NEW YORK, 16.—The steamer *Russia*, to-day, took $327,000 in silver bars.

INDIANAPOLIS, 16.—A detachment of militia arrived at Knightsville this a.m., where the riot between the negro laborers and the white employes of the Western Iron Works, occurred yesterday; quiet is now restored. Several of the ringleaders have been arrested.

WASHINGTON, 16.—The Supreme Court has affirmed the decree of the circuit court of Texas, that the Texas and Elpaso Railroad is entitled to the exclusive right to locate land in said State, and to obtain patents therefor. The result releases Fremont from all obligations.

NEW YORK, 15.—Charles Boulch implicated in the voucher robbery at the comptroller's office, died last night.

The government sold a million and a half in gold to-day, 17 26-100 to 17 51-100.

NEW YORK, 16.—The *Herald*, this morning, has a long letter from O'Kelly, dated March 4th. He states that General Garcia, commander of the eastern department, says that reconciliation with Spain is impossible except on the basis of independence. The only term the Cubans have to offer are that the Spaniards shall go away and leave Cuba to take care of her own future. They have no faith in the permanent establishment of the Spanish republic. Cespedes expresses similar views. He also asserts that the Cuban forces are in better condition now than ever before, and that the force now consists of from 10,000 to 12,000 armed men. This force, however, is subject to great fluctuations, decreasing after defeat and increasing largely after victory. They lately received large accessions from the Spanish forces, mostly Cuban volunteers, and Cespedes thinks that nearly all these will eventually desert to the cause of Spain, when the triumph of the Cubans will be insured.

NEW ORLEANS 16.—The troubles in Grant parish arose out of the distribution of the parish offices. The Lynch returning board ignored all the officers elected by the people of the parish, and Governor Kellogg filled the places with his own appointees. These failed to qualify, and the Governor then ordered the parties originally elected to assume the offices. A large force of negroes, instigated, it is said, by several white men, members of the Kellogg legislature, armed themselves and took possession of the court-house at Colfax, and erected barricades from which they issued, plundering plantations, stopping steamboats for a supply of food, etc. In the meantime the whites of the parish began to gather at Colfax, to consider what to do. They were joined by the whites of the surrounding parishes, and by Saturday there were 150 whites encamped around the court house at Colfax, in which were several hundred negroes, most of them armed with Enfield rifles. The white leaders of the negroes slipped on board a passing steamer on Friday evening, and went to New Orleans, to be out of the reach of danger. The first fight occurred on Saturday, in which the whites, under the command of Hadnot, a member of the fusionist legislature, were defeated, but there was no loss of life. On Sunday noon the final battle took place. The barricades were stormed and the negroes driven into the court house, and the assailants being unable to force the doors set fire to the court house, and as the negroes ran out to escape the flames they shot them down one by one to the number of one hundred. Many others were wounded. The rest escaped, but were pursued. The whites lost only two killed, including Hadnot, their leader, and several wounded. At last advices not a negro was to be seen in the vicinity of Colfax.

SPRINGFIELD, MASS., 15.—In the Chicopee mills, which were burned last night, there were about nine hundred looms, containing 2500 cuts of cloth and 21,000 pounds of filling; 10,000 pounds of coarse yarn were also burned. The loss is now estimated at half a million, covered by insurance. Eight hundred are thrown out of employment, three-fourths of them girls.

NEW YORK, 15.—London papers received to-day say that on the receipt of the first dispatch, announcing the loss of the *Atlantic*, its owners attributed the disaster to the watch on deck mistaking Sanburn light for Devil's light.

It appears that Miss Rawdon, reported as among the cabin passengers, disembarked at Queenstown.

INDIANOPOLIS, 15.—A serious riot is in progress at Knightsville, between the striking coal miners and the negro miners lately imported from Virginia. The whole town, apparently, is engaged in the melee. At midnight Governor Hendricks was called on for troops.

WESTERN.

VIRGINIA, Nev, 17.—O. A. Sanbourn, an old and well known stock operator, died very suddenly this a. m. He complained of feeling unwell yesterday, and retired between 9 and 10 o'clock. Shortly afterwards he was taken with severe cramps, and at his request his wife gave him some morphine to quiet the pains. Some time afterwards his wife, noticing he breathed heavily, attempted to awake him, and sent for a doctor, but all efforts to bring him to consciousness proved unsuccessful. No blame is attached to his wife.

About noon to-day, a German named Henry Liens committed suicide, by shooting himself through the head on account of financial difficulties.

SCHELLBURN, Nev., 17.—John Ludwig, *alias* "Dutchy," was shot and instantly killed by E. Needham, this evening. "Dutchy" had been drinking and had insulted and abused several citizens of the town, threatening to kill some parties. He was very abusive in his language to Needham, and threatened to carve him up. Needham went after his shot-gun and, meeting him in Duren's store, shot him, the charge taking effect in the right side and penetrating the lungs, killing him instantly.

SAN FRANCISCO, 17.—Gen. Schofield has sent forward several hundred troops, including two batteries of artillery to reinforce Col. Gillem in the lava bed. They left this p. m. from the Presidio.

Hon. Amasa Walker delivered an address before the Chamber of Commerce this p. m. He speaks against the introduction of paper money into this State, saying that it would be profitable to only a few speculators, and that the rates of interest would advance largely. He spoke in praise of the advantages of California as an agricultural, mining and manufacturing State. His address was listened to with marked attention.

R. W. Franklin has been sentenced to the county jail for two years, for swindling various parties in this city.

LAVA BED, 16.—During the night our troops held the same position that they occupied at sunset yesterday evening. A hot fight took place with Col. Green's left this a. m. The Indians endeavored to get to the lake for water, but our troops succeeded in keeping them away. A dispatch was received from Mason's camp at seven a. m., saying that some of the Modocs had passed out on his left, and were on his flank and rear. During the night the mortars under command of Maj. Thomas had kept them very much annoyed. The Indians could be heard yelling and shouting at an awful rate. At two o'clock this a. m., the troops under Colonel Green were ordered to move forward from the position they held during the night. The whole line started with a cheer, and before 10 a. m. had reached the top of the ridge next to Jack's camp, which was so hotly contested yesterday, but which has been nearly deserted to-day. When our men had gained this position cheers could be heard along the whole line. Orders were then given to swoop the lava bed, and a dispatch was sent by signal to Captain Burnard, ordering him, in case the Modocs had got out on Colonel Mason's left, to pursue them immediately with cavalry, and give them no rest. At 10 o'clock our troops had gained considerable ground and firing was becoming more frequent. The general impression is that the Lava bed is ours. Orders have been given for Colonel Mason to move his right forward as rapidly as possible and join Colonel Green's left. This will cut them off from water. From 10 to 12 o'clock there was considerable firing from the south of the lake. Only part of the Modocs could have got out on Mason's left, as Indians can be heard in the vicinity of Jack's cave. The mortars, which have ceased since daylight, have been ordered to a new position within 800 yards of the cave, and near the water of the lake. At about 12 o'clock Colonel Green and Colonel Mason's commands effected a junction which entirely cuts the Modocs off from water. After this movement was effected, occasional firing was heard at different parts of the line, and it was decided not to push our men on the Indian stronghold, as we might lose many without killing an Indian, and if we could keep them from water they would have to leave their position, and we could not find them in a stronger one. Our losses in the two days' fight have been five killed and ten wounded. The only officer yet wounded is Lieutenant Egan, who has received a flesh wound in the left leg. He is doing well. The junction has been formed between Green's right and Mason's left. Five Indians are reported killed. We have some scalps. None of our killed or wounded have fallen into the Indians' hands. It is evident that, if our men can hold the position of the lake shore, Mr. Modoc will have to leave or surrender. A heavy fire of musketry is now going on near the lake shore. The Indians are evidently fighting for water. Every one who has seen our troops in action speaks of them with the highest praise.

EUROPEAN.

LONDON, 17.—There is a rumor from Alexandria, that Sir Samuel Baker and wife, who took the Egyptian expedition up the Nile, have been murdered by the natives in the interior of Africa.

There was a severe thunderstorm in Wales yesterday; the crops were injured and several persons killed by lightning.

LONDON, 15.—There was a riot at Chatham yesterday, between the engineers and marines attached to the arsenal, in which many were wounded. Troops were called out and restored order after arresting many of the rioters.
