FRIDAY, SEPTEMBER 9, 1904. SALT LAKE CITY, UTAH.

FIFTY-FOURTH YEAR

## MUKDEN BEING NOW EVACUATED.

Railroad and Telegraph Lines Between That Point and Harbin Still Unmolested.

## FAILED TO CUT THE RETREAT.

Field Marshal Oyama Did Not Seriously Interfere With Movement Of Russians.

## THE BULLETINS TELL THE STORY

Thousands of Wounded Are Still Being Sent North in the Packed Trains.

Dispatches from various sources today establish only the fact that the Russian army is safely at Mukden, Kuroki's army having accomplished his retreat in good order in spite of the harassing Japanese, sudden roads and hampered by more than 12,000 wounded. Beyond this there is no direct news bearing on the military situation. Advice from Japanese sources are significant, but lacking and the exact whereabouts of the three Japanese armies are unknown. No word has been received to indicate the present location of Kuroki's army which was last reported on the Russian left flank and steadily pushed northward. But Viceroy Alexieff reports that railway and telegraph communication between Mukden and Harbin are uninterrupted. European military opinion is that another big battle will soon be fought.

St. Petersburg, Sept. 9 (1:30 p. m.).—The reassuring dispatch of the Associated Press from Mukden, dated shortly after midnight, is the latest word from the front. It disposes of the many sensational rumors and indicates that Field Marshal Oyama has failed to cut off or seriously interfere with the retreating Russian army, which has now safely arrived at Mukden.

Mukden, Sept. 9 (12:30 p. m.).—All anxiety regarding the Russian transport is over. The Japanese have crossed the Shakhe and are now resting. Only the Russian and Japanese outposts are in direct contact. Thousands of wounded are being sent north.

Berlin, Sept. 9.—A dispatch to the Lokal Anzeiger from Mukden dated 10:40 a. m. today, says the evacuation of Mukden is now in progress and adds that the Japanese have not yet crossed

the river Hun, which flows a few miles south of Mukden.

St. Petersburg, Sept. 9.—A dispatch has been received from Viceroy Alexieff announcing that the railroad and telegraph line between Harbin and Mukden are both uninterrupted.

Shanghai, Sept. 9 (night).—A special messenger of the Tartar general at Mukden, who escaped from that city through the cordon of Russian outposts, reports, according to advices received here, that the Russian army is utterly confused and demoralized, especially the remains of the two Russian army corps which recently joined Gen. Kuroki's forces.

12,300 WOUNDED.

That Number of Russians Treated by the Red Cross.

Mukden, Sept. 8.—Thursday, (delayed in transmission).—The Russian retreat here has been accomplished without losses and with the precision of a review at Krasnoye-Selo. The accumulation of wounded between Liao Yang and Mukden tested to the utmost the resources of the Red Cross. Most of the transport was carried in the rough, old kind of two-wheeled carts, but the arrangements for providing the troops with food along the line of retreat worked magnificently.

During the five days from Aug. 29 to Sept. 4, 12,300 wounded were treated in Red Cross ambulances. The Sisters of Mercy vying with the doctors in physical courage and resistance to fatigue. Much of the Japanese success is attributed to the millet fields, in which the Russians were not accustomed to maneuver.

## Bad Brush Fire.

Oakland, Cal., Sept. 9.—The worst forest and brush fire that ever visited Alameda and Contra Costa counties is now burning. Thousands of acres of pasture land, timber and brush have been destroyed, and many homes burned to the ground. The damage already done is estimated at between \$75,000 and \$100,000. The flames are now extending and scores of men are fighting them in an endeavor to save their homes.

## WORK COMPLETED.

Knights Templar Are Now Taking in the Sights.

San Francisco, Sept. 8.—The Knights Templar having completed the work of their national encampment, are devoting the remainder of the week to sight-seeing and social enjoyments. Today many of them crossed the bay to witness the celebration of Admission day at Oakland by the Native Sons of the Golden West. Several hundred knights and their ladies inspected the fortifications of the harbor, and a large number participated in other excursions. Receptions were held by nearly all the commanderies and all were largely attended. Before leaving for their homes many of the eastern people will visit other parts of the Pacific coast.

## ROMAIN WANTED.

Sheriff Bell Says He Has Been Under Suspicion.

Cripple Creek, Colo., Sept. 8.—Sheriff Edward Bell today said that Robert Romain, the prisoner at Topeka, Kan., who is said to have confessed to complicity in the Independent depot and Victorville mine explosions in this district by which 15 non-union miners were killed outright and others injured, had long been under suspicion in connection with these and other crimes. "We know positively," said Sheriff Bell, "that Romain worked in the district by which the strike was in progress, and was a spy employed by the Western Federation of Miners."

## STRIKE CALLED OFF EVERYWHERE

Butchers and Allied Trades Conclude to Give Up the Unequaled Struggle.

## BOARD VOTE WAS UNANIMOUS.

President Donnelly Telegraphed the Decision to All the Cities Involved in the Order.

Chicago, Sept. 8.—The 25 days' strike of Butchers and Allied Trades at the stockyards is off.

Vice President Smith of the Meat Cutters & Butchers' union, said the vote of the conference board of the Allied Trades council to bring the trouble to an end was unanimous.

President Donnelly has telegraphed the decision to all the cities where the workmen have been on strike.

The following statement was issued by James Tracy, secretary of the Allied Trades conference board:

"The strike was one of the most remarkable that has ever occurred in the United States. It was remarkable for the absence of disorder, although 50,000 men and women were involved. It proves that labor organizations are law-abiding bodies and their members are engaged in a peaceful effort to uplift the masses. It is remarkable for the fact which is attested by the police that our ranks were practically unbroken in spite of most adverse conditions. It is remarkable because it was a fight against some of the largest corporations in the world in behalf of unskilled workers. The self-sacrifice and heroism of the struggle has never been told, probably never will. Like all strikes it ended in a victory for the workers because rather than risk such a struggle the employers will be ready to treat with the unions in the future on an equitable basis. Every union will retain its solidarity and will come out of this struggle stronger than ever."

## DID NOT GET JOBS BACK.

More than 600 livestock handlers who went on strike, appeared at the office of Manager Skinner of the Union Stock Yards & Transit company to apply for their old positions. He had previously announced that he would employ all the old men needed.

None of the stock handlers were taken back, being informed that they would be sent for when needed. It is understood that before going to work they may be required to sign an agreement settling forth that they return as individuals and not as an organization.

Members of other unions were not so much in evidence when work was begun at the packing houses today. Most of the men did not know that the strike was off. President Donnelly had received a telegram from the last member of the international executive board of the Butchers, giving permission to call off the strike.

Business agent Golden of the Teamsters said that the teamsters will go back to work as an organization or not at all.

## Crushed by Monument.

New York, Sept. 9.—While kneeling beside a grave in Washington cemetery at Gravesend Yetta Bekowicz, 18 years old, has been crushed to death by the family monument, a heavy granite shaft which toppled over. Investigations led to the belief that the foundation of the monument might have been undermined by the digging of a grave nearby, and two of the grave diggers were arrested.

## Canadian Timber Revenues.

Vancouver, B. C., Sept. 9.—The revenue accruing to the provincial government from timber royalties, irrespective of timber business, during the months of July and August, has been larger than that of any four months in the history of British Columbia, exceeding \$100,000. The total revenue of the government from this source during the whole of last year was only \$250,000.

## JEFFERIES' APPOINTMENT.

Taken to Mean That Gould is Behind Western Pacific.

San Francisco, Sept. 9.—The announcement that Edward T. Jeffery, president of the Denver & Rio Grande Railroad, had been appointed director of the Western Pacific Railroad company is accepted as proof that the Goulds are quietly preparing to annex that project to the system of railroads which they control.

Having selected a route for the new line across the Sierra and entered the eastern market for material for the construction of this western extension of their roads, they have now injected into the directorate of the Western Pacific company one of their ablest representatives.

The Western Pacific Railway company was organized to build from Salt Lake to San Francisco and to construct certain branch lines in California. Its main line will be about 550 miles long and is about 1,250 miles of road will be laid. Up to the present time the Western Pacific has invested \$3,500,000 on its project. It has secured extensive terminals at the Harbor of San Francisco and has perfected its entrance to these terminals as well as having acquired terminals in other cities in California.

## Vessel May Be Confiscated.

Port Townsend, Wash., Sept. 9.—The barkentine Alta arrived here from South Africa via Honolulu yesterday without a register. For this dereliction the customs officials have fined her \$1,300. The Alta is owned in Manila and was originally a British bottom. Some Americans purchased her when the United States assumed charge of the islands. She traded there awhile and later came direct to Port Townsend where she was seized and fined. The navigation laws require that all vessels from foreign ports must have a register, but the Alta's owners contended that she was in the coasting trade between American possessions and exempt from the law. A fine of \$1,000 per ton was assessed and the owners appealed to United States District Judge Hartford who decided that the vessel was British and assessable only at the regular rate of 60 cents per ton. The customs officials this time are sure they have a clear case against the Alta and expect a decision confiscating the vessel.

## DID THIS MAN KILL VERMILION?

Close Friend of the Dead Druggist Arrested in Montana Charged With Murder.

## SUSPECT'S NAME IS STEVENS.

Only Clue is That He Left Town Immediately After the Mysterious Shooting.

It is believed that in the arrest at Warrick, Mont., of a man named Stevens, the officials have one who can throw some light on the death of W. A. S. Vermilion, who was killed in his drug store at west Second South street on the night of Aug. 22. Word was received here last night of the arrest of Stevens and it is thought by the friends of the dead man that Stevens killed Vermilion. Stevens was a close friend of the young druggist, and it is known that on the night of the killing he told a friend that he was going to the drug store to get some money.

He told this friend, it is said, that he would meet him up town after he had been to the drug store, but he failed to show up. The next day Stevens had some money which he told his friend that he needed to get out of town. He left that day for Ogden and since then he has worked in Pocatello, Blackfoot, Ida., and Montana points, drifting around from place to place without staying very long at any one point. He was arrested upon the charge of stealing a saddle and bridle and when arrested he denied that his name was Stevens. He has been followed by a detective from this city ever since he left.

Sheriff Emery said today that Stevens' actions after the killing were suspicious to say the least, and he is anxious to have the man brought back here and his movements on that night investigated. No steps have as yet been taken towards securing requisition papers to bring him back here, but it is said that he is willing to come without them. The officers at Butte, where Stevens is now, have been wired by Sheriff Emery, who expects to reply today containing some more definite information in regard to the man.

## RAID ON SLOT MACHINES.

Portland, Or., is Now a "Closed Town" for Gamblers.

Portland, Or., Sept. 9.—This city became to all intents and purposes a "closed town" tonight. Sheriff Thomas Word this afternoon issued orders to his deputies to arrest all persons operating nickel-in-the-slot machines about this evening. The news was noised about the city and by the hour mentioned in the order every slot machine was removed. During the last few weeks a series of orders has been issued to close various forms of gambling with the result that with the single exception of the agents of the so-called "big game" which is being being conducted in the city is so quiet today that the authorities are not aware of it. It is expected measures will be taken next to prevent the sale of lottery tickets.

## First Mate Is Particular.

Victoria, B. C., Sept. 9.—An extraordinary case has just been tried before Magistrate Hill at Chemainus, Vancouver Island.

J. Hays, first mate of the Glasgow ship, Olive Bank, now loading lumber at Chemainus for Captown, refused duty and was charged with the offense. In reply he asserted that he was not the first mate. Further investigation brought out the fact that Hays had been provided with his regular meal at the same time as the second mate. He refused, however, to sit down with that gentleman and insisted that he dine at the captain's table. The news was noised about the city and by the hour mentioned in the order every slot machine was removed. During the last few weeks a series of orders has been issued to close various forms of gambling with the result that with the single exception of the agents of the so-called "big game" which is being being conducted in the city is so quiet today that the authorities are not aware of it. It is expected measures will be taken next to prevent the sale of lottery tickets.

## Victory for Potters.

New York, Sept. 9.—A signal victory has been won by the domestic potters by the ruling of sub-board number 2 of the United States general appraisers, sustaining an advance of 10 per cent made by Appraiser Whitehead on crockery from Holland. In doing so he was not only sent to his cabin. The captain told him he could either eat with the second mate or he could eat alone. Hays refused to sit down with that gentleman and insisted that he dine at the captain's table. The news was noised about the city and by the hour mentioned in the order every slot machine was removed. During the last few weeks a series of orders has been issued to close various forms of gambling with the result that with the single exception of the agents of the so-called "big game" which is being being conducted in the city is so quiet today that the authorities are not aware of it. It is expected measures will be taken next to prevent the sale of lottery tickets.

The goods on which the advance is made are chiefly cups and saucers of the cheaper grades, made in the Maastricht district of Holland. Until a year ago the domestic market was controlled by the market on this class of goods. When they began to feel the competition of the imports, they started an investigation, which resulted in charges of undervaluation being presented to the treasury department. The importers presented evidence to that effect, which convinced him that their values were correct. This decision is now overruled.

Killed by Passenger Train.

New York, Sept. 9.—Erik Larsen, Dielrick Edholm, general manager for the Mark Cross Leather Goods company, of London, with branches in this country, has been killed at Larchmont by a passenger train.

Edholm was a native of Sweden but had lived here 20 years and was a member of many well known clubs.

## ALLEGED ASSASSIN.

Names of Men Accused of Cripple Creek Horror.

Topeka, Kan., Sept. 9.—Following are the names of miners who Romaine declared were confederated with him in the dynamiting of the Victorville mine and Independence, Colo., depot last June. This includes the entire list save two, the names of which the Topeka sheriff refuses to give out:

Jess Waters, — Foster, — McKinney, Louis Tossel, Jim Hicks, Carl Nelson, — Davis, Kennison, — Beck and — Campbell.

## JUDGE KING ON JUDGE PARKER.

Says the Democratic Nominee for President is a Lover of Law And the Constitution.

## TAKES AN OPTIMISTIC VIEW.

Admits, However, That President Roosevelt is More Popular in The West.

"Yes," said Judge W. H. King this morning, when asked to discuss his reported interview with Judge Parker. "I had the pleasure of meeting Judge Parker at his home, and of spending a portion of the afternoon with him. At his invitation, Mrs. King and I dined at Rosemont."

"What did we talk about? Local conditions in the west, mostly. I had the opportunity of talking over with Judge Parker the situation in the west very fully. I found him to be a friend of the west, and believe sincerely that if he is elected the people of Utah will have a man in the White House who will safeguard their interests. He is a broad-minded, forceful, courageous man. His prominent characteristic is his love for law and for the Constitution. As a president he will be governed strictly by the Constitution, and there will be no grounds for charging that the executive is infringing on the duties of other co-ordinate departments of the government."

"The political situation in the east, I had a good chance to observe during our tour, which extended through New York and Washington, and other eastern points. I regard the situation as favorable for the Democratic success. There is a very considerable feeling among conservative people and particularly among earnest and independent thinkers, that Mr. Roosevelt represents much the thing of the west and the war of the west. I think, however, that these independent voters of the nation will determine the election. At present it looks as though this class would give its support to Judge Parker. I feel confident that New York will be found in the Democratic column, and that the Democratic leaders feel sanguine that those states will support Judge Parker. And taking it all in all, I regard the chances of Judge Parker as being exceedingly bright."

"Among the masses I think that Mr. Roosevelt is far more popular in the west than in the east. I found in the east a reaction against Mr. Roosevelt by reason of his extravagance, and the artificial methods. There is not the general belief in his sincerity among the working classes now that there was a year ago. The feeling generally is one of doubt and uncertainty as to what position he will assume upon any important question. And this feeling of uncertainty leads to distrust of his policies. The working classes of the east have also begun to realize that Mr. Morgan and the trusts are backing Mr. Roosevelt."

"These and other reasons are contributing substantially to diminishing his prestige among the people."

While on the way home Mr. and Mrs. King spent a week at the St. Louis fair.

## WATER SUPPLY SHORT.

Pressure So Low That Sprinklers Have To Be Taken Off.

For the first time this season Salt Lake City is confronted with a shortage of water. This is due to the fact that the water users have been very wasteful of the water and then, too, we have not had the usual rains which have helped the water supply at this season of the year previously. The water is so low now in the system that it becomes necessary today to take off all of the street sprinklers in the city with the exception of four or five in the business district. Supt. of Waterworks Hines is of the opinion that the only way to keep the people from wasting water is to install meters in the residence districts and then if they waste it they will have to pay for it.

## BAD BOYS IN COURT.

Sentence Suspended in Case of Youthful Petit Larcenist.

Judge Diehl had a grisly of bad boys to deal with this morning. Edwin Woolsey and Herbert Larson, were found guilty of petit larceny. The former was ordered to be held to the district court to show cause why he should be sent to the State Industrial school. Larson was permitted to go to Mant with his father, and sentence was suspended.

Arthur Meyer and Lorenzo Thomas, charged with incorrigibility, were found not guilty and discharged.

Earl Evans and Fred Rasmussen, charged with the same offense, were ordered held to the district court. These youngsters were arrested for breaking into a bootblack stand on Commercial street and stealing a quantity of shoe blacking.

While on the witness stand, Attorney Hines asked young Evans if he knew what an oath meant. His reply was: "Yes, I know. It means stealing."

## SEATTLE ON THE BOOM.

It Now Boasts a Population of One Hundred and Forty Thousand.

Mr. T. R. Cutler returned last night from a 10 days' visit to Seattle and the northwest, where he and Mrs. Cutler had been to visit their daughter, Mrs. Carter of Seattle. Mrs. Cutler will remain there for some time longer.

Mr. Cutler, in speaking of his visit, said that Seattle particularly, and the northwest generally, were districts whose marvels could hardly be over-estimated. He had lived seven days on the water traveling around the sound, and visiting Victoria, Portland, etc., and he returned wonderfully impressed not only with the beauty of the scenery, but with the wonderful business

possibilities of that part of the country. Seattle now boasts 140,000 population, and property on Second avenue, the main business street, was valued at a front foot. Rents were high, but there was hardly an office or store building to be found in the city. The spectacle of the ships loading up with flour for the oriental trade was one of the busiest scenes he had ever noticed, and what the future developments would be as the oriental trade grew, it was hard to estimate. Victoria, he says, is a delightful place to visit. It is slow and sleepy, however, compared with its American neighbors. It is limited by the State of Utah, many of the wealthy and retired class living there. He encountered all sorts of weather, the hottest having been at Umanilla, where the thermometer stood at 113 for a week.

## THE TRIBUNE REPUDIATED.

It is no Longer Recognized by the Republican Party of Utah.

The following resolution was sent to each of the morning papers, it is stated, in ample time for insertion today, but did not appear in either. It has been forwarded to the "News" with the special request for its insertion this evening. It speaks for itself:

Whereas, the Salt Lake Tribune has repudiated the ticket regularly and fairly nominated by the Republican State Convention, held August 25th, 1904, and has refused to support those nominated by that Convention for State and National offices, and

Whereas, it has and is now advocating the formation of a new party in its nature an American one, and antagonistic to Republican principles, and is so doing for the sole purpose of advancing the political interests of its owners, therefore be it

Resolved, by the Republican Executive Committee of the State of Utah, that the Salt Lake Tribune be no longer recognized by the Republican Party as the exponent of its principles.

Dated at Salt Lake City, August 8th, 1904.

WILLIAM SPIVY,  
Chairman Republican State Committee.

ALLEN T. SANFORD,  
Secretary.

## OSBORNE WILL RESIGN.

Positively Stated That Wyoming's Democratic Nominee Will Not Run.

(Special to the "News.")

Cheyenne, Wyo., Sept. 9.—The startling statement was made today by a leading Democrat that Hon. John E. Osborne, who was yesterday nominated against his will for governor, will resign in a few days to the state chairman and request that another candidate be selected. Mr. Osborne has all along said that he did not wish to run and that if his friends insisted he would resign from the ticket.

Only recently, while on a visit to Cheyenne, Gov. Osborne stated to a friend: "The Democrats have not a ghost of a chance of winning this fall." He further stated that he would be a fool to spend his time and money in making a race that is already lost. It is not known what the Democrats will do, but in the event of Gov. Osborne pulling off of the ticket, Banker W. Dean Hays, of Montevideo, will probably be selected to make the race.

## FIGHT AT GREEN LIGHT.

Notorious Commercial Street Resort The Scene Of One More Disturbance.

Shortly after 5 o'clock this morning, Officer Bush arrested W. F. King—no the bicycle rider—and George Meals, for fighting at the Green Light saloon on Commercial street. Meals is held merely as a witness, but King is to be charged with assault with a deadly weapon, said weapon being a beer glass which he is said to have bounced with considerable violence off Meals' head.

## RECEIVER ASKED FOR.

Wholesale Grocers Want J. D. Mann Declared a Bankrupt.

A petition was filed with the clerk of the federal court this morning, by Kahn Bros., Symms Grocery company and F. W. Jones asking that J. D. Mann of 279 east Third South street be declared a bankrupt. Petitioners state that Mann is indebted to them in \$1,000, and that while insolvent, he recently transferred his entire stock of goods, wares and merchandise to another creditor, J. D. Sammelson, thereby intending to prefer him to other creditors. Petitioners ask also that Walter Wright be appointed receiver.

## SALT LAKE WIDE AWAKE.

Will Not Be Behind in Celebrating Completion of San Pedro.

"That Salt Lake will not be behind Los Angeles and San Pedro in arranging its big celebration over the completion of the Salt Lake road, is assured by the Commercial club officials who have been looking into the matter of plans for some time. "It is too early yet," said Secy. Fisher Harris this afternoon, "to predict just what the nature of the celebration will be, as the work will not be completed for five months at least. However, we are working upon plans, and are watching the situation very closely. Los Angeles will not be a day ahead of us in this affair."

"The demonstration over the completion of the road will probably become a thing of the past. It will be a triangular affair with vertices in Salt Lake, Los Angeles, and at the junction of the two branches. At this latter place the railroad officials will preside, and with their invited guests will drive the last spike, and declare the road officially finished. At Los Angeles the citizens will hold a demonstration, at which they will doubt entertain many guests from Salt Lake, and in this city on another date, will be held our celebration to which many citizens of Los Angeles will no doubt be invited. Just which city will hold its celebration first seems to depend on which makes its plans first, and this is why the local people are watching the situation so closely."

Atty. C. O. Whittemore, general counsel of the road, said this morning that on his recent trip to Los Angeles he found the interest in the opening of the San Pedro to be general all along the line. "The chamber of commerce of Los Angeles," he said, "is recruiting the plan of their celebration. It will include addresses by prominent citizens, and will be extensive and elaborate in its details. Just what Salt Lake is going to do they are waiting to learn."

## TRAIN CRASHED THROUGH TRESTLE

Bad Wreck on the Seaboard Air Line at Catawba Junction This Morning.

## FREIGHT WAS PILED IN ON TOP.

Extra Following the Passenger Went Through on the Wreckage Below.

## SEVEN KILLED; MANY INJURED

Believed That Some Person Loosened The Rail Connections at the Bridge With Awful Result.

Charlotte, N. C., Sept. 8.—Seven persons were killed and 25 injured in a wreck on the Seaboard Air line at Catawba Junction, S. C., early today. Five cars and a sleeper of passenger train No. 41 from Portsmouth to Atlanta went through a high trestle over a small stream. An extra freight train, following the passenger, piled in on top of the wreckage a few minutes later.

The dead, so far as known, are Engineer Barksdale and Trainman Ferguson, of the freight; E. Robertson, colored, fireman, and four unknown women who were in the passenger train. Owing to the fact that wires near the scene of the wreck are down, the officials of the road here have great difficulty in getting information. It is stated that about fifty feet of the trestle was carried away. The locomotive had crossed the place in the track where it was subsequently discovered, according to a report from an officer of the road, that some person had loosened the rail connections at the trestle. The train broke in two. The engine toppled over the embankment south of the trestle, while six cars went through the trestle.

## CUBA PICKING UP.

Distinct Revival in Business Generally Throughout the Island.

New York, Sept. 9.—Houses in this city actively engaged in trade with Cuba report a distinct revival in business throughout the island, according to the Journal of Commerce. Wednesday's steamer went out absolutely filled with cargo and tomorrow's steamer, one of the largest plying between here and Havana, has been completely filled with cargo and is now on the basis of 45-50 cents for 30 feet, duty paid, and the large crops of sugar and tobacco, together with the duties of the loan on which payments are now being made to the Cuban government, are said to be a sure sign of a revival in the improved business conditions.

## PECULIAR SUICIDE.

Woman Takes Poison and Falls Across Baby, Smothering It.

Chicago, Sept. 9.—A dispatch to the Inter-Ocean from Des Moines, Ia., says: "Because her husband went to a baseball game over her protest Mrs. Charles Evans of Montgomery has committed suicide by taking poison. Her body as it fell to the floor, accidentally struck her 18-month-old daughter, crushing it and smothering it to death. When Evans returned home both were dead."

## She Changed Her Mind.

New York, Sept. 8.—Mrs. Henrietta Davidson, a wealthy widow of this city, who disappeared last Monday from the home of friends whom she was visiting in Buffalo, has returned to her home. When she vanished in Buffalo a letter was found which led to the belief that she had jumped over Niagara Falls and search had been under way in the hope of recovering her body. The woman refused to explain her mysterious letter.

Patient Bit Her; She Is Insane.

New York, Sept. 9.—Apparent proof that insanity may be communicated like hypochondria is shown in a case attracting much attention from physicians at Bellevue hospital. The subject is Nellie Halpin, a trained nurse, who was bitten on the hand by an insane patient in the Kings county sanitarium nearly a year ago.

Since then the wound frequently has given Miss Halpin great pain and never completely healed. About two months ago she began to show signs of mental disturbance. These grew larger and finally her friends had the young woman removed from her home to the hospital. She now suffers severe convulsions resembling the manifestations of rabies while the mental delusions are almost continuous.

## Judge Hawes Dead.

Chicago, Sept. 9.—Judge Kirk Hawes has died suddenly at his summer home in Los Cheumau, Indiana.

For nearly 20 years Judge Hawes had been a prominent figure in the law machinery of Chicago and for 12 years he served on the superior court bench of Cook county.

Kirk Hawes was born in Brockfield, Mass., Jan. 3, 1829. He was a brother of Mrs. Mary J. Holmes, the author. In the presidential campaign of 1880 Mr. Hawes supported the third term movement in favor of Gen. Grant. He and Robert E. Ingersoll opposed the grant forces at the Springfield state convention, were successful and thereby had much to do with the result of the national convention.

Judge Hawes was one of the organizers of the Union League club, and a member of the Samuel Club, the Nineteenth Century Club, the Harcourt Club, and the Chicago Bar association. He was a student of Egyptology and spent a great deal of time and money collecting.

## Another Auto Accident.

Pittsburg, Sept. 9.—Three persons have been injured here in a collision between a large racing automobile and a park trap. All probably will die. The accident occurred at Lang and Penn avenues. Those injured were:

Miss Dora Munroe,  
Miss Carrie Murdoch, all of Pittsburg.

HON. SIMON BAMBERGER.
