PRESS MEASURE PASSES HOUSE

Goes Through Almost Unanimous ly, But Two Members Voting Against It.

SHERIFFS BILL IS DEFEATED.

Members Attend Strictly to Business And Enact a Number, of Meritorious Laws

An important feature of this morning's session of the house was the pas sage of S. B. 110, an act to prevent unjust discrimination against publishers of newspapers. Despite the fact that the bill has encountered much "journalistic" opposition because of its supposed antagonism to the Associated Press news agency, it met with but little opposition when called up for final passage, and went through on a vote of 52 ayes and 2 nays. A little later Kuchler moved a reconsideration, because he be-Heved many, like bimself, had voted for it under a misapprehension. Joseph argued that it was not the fault of the house that the gentleman was not present when the bill was read, and he did not think the motion to reconsider should prevail. Neither did it, for the house killed the motion instanter. The vote by which the measure passed is as

follows: follows: Ayes-Allen, Anderson (A, V.), Car-rol, Christensen, Cromar, Curtin, Dalley, Dean, Edward, Fishburn, Hopes, John-son, Jones, Kinney, Kuchler, Luther, Lyman, Maughan, Marks, Pace, Pan-ter, Petars.n, Richards, Roberts, Sim-ons, Spencer, Stewart, Stookey, Thomp-son, Wilson, Wootton, Mr. Speaker-52, Nays-Gundry, Tolton-2, Absent and not voting-11.

DEBATE ON SHERIFF'S BILL.

H. B. 185, extending the terms o county assessors and sheriffs until the first Monday in January, 1909, precip-itated some debate. Tolton started the stated some debate. Tolton started the ball rolling by offering an amendment terminating the terms of present offi-cers Jan. 1, 1907. Hone, the author of the measure, opposed the amendment as, said he, it was desired that these officers run concurrently with those of the district attorneys and district judges. Fishburt, declaimed strongly against the measure, as he was opposed Judges. Fishburt, declaimed strongly against the measure, as he was opposed to logislating public officials into of-fice. He said he was not opposed to making the terms of the officers refer-red to, four-year terms, but he did not think it should apply to those at pres-ent holding offices, who had been elect-ed by the people for but two years, and many of whom were already serving a second term. second term.

INCONSISTENCY CHARGED.

Joseph charged Fishburn with incon-sistency, and cited the attitude of the gentieman from Boxelder on H. B. 111, extending the terms of city officers one year. Stookey opposed the amendment, while Edward favored it, as he thought the bill should not discriminate against some officers and in favore of others.

KEITH-O'BRIEN BALL.

Promoters of Excursion Sore and Manager Langford Explains.

Speaking of the Keith-O'BPien company and its excursion to Saltair last vening, Mr. C. V. Worthington, advertising manager of the institution, today said arrangements had been made for two trains to the beach, one to leave at 7:30 and the other at 8:20. The first train got off on schedule time, carrying nearly 300 persons; the second. for some reason, carrying about 1,000 people, did not pull out until 9:07, leav-ing behind five coaches of about 400 per-sons. Meanwhile a large number of these persons, he says, became disthese persons, he says, became dis-gusted and came up town, or returned home, but some others continued to remain until an engine came along and picked them up and took them out to the resort, where dancing was en-gaged in and a pleasant evening spent. However, those who waited so long and came up town without taking a trip as they expected to were greatly disas they expected to, were greatly dis-appointed, and to these particularly the employes desire to make the explanaemployes desire to make the explana-tion that they were in no wise responsi-ble for the complications and delay, and that whatever there was of fault in this direction, attaches to the rail-road company. All persons holding tickets that were not used, the gentle-man continued, will have their money refunded by presenting them at the office of the railroad company in the Nauvoo building. Manager J. E. Langford's side of the

Nauvoo building. Manager J. E. Langford's side of the story is that in order to transport the dancers in comfort to and from the beach he borrowed cars from the Ore-gon Short Line, so that none would run a risk of catching cold in the open cars used during the summer. It was necessary to return these cars to Salt Lake before the second contingent was

ing held mostly in reserve, or by hoard-ers, or for payment of customs. The medium of circulation is almost entire-iy by paper and silver. There is more gold in circulation in the west than in the east. It was stated today that if \$5,000 in \$20 goldpieces were offered in would be received by weight, and not on its face valuation. Idaho had the negative, thus favoring compulsory voting. Her debaters were Carroll H. Foster and Thomas R. Jones, and they took the view that a change was demanded, that stay-at-home voters were those who had no political axe to grand who, if they went to the polls, would have no reason to work for anything but good govern-ment. Mr. Parke and Mr. Alexander, for

to the rule. By a unanimous vote of three Mos-cow residents, who acted as judges a decision for Idaho was brought in. No consultation was necessary to arrive at the result, as the judges had their minds made up by the time the speeches were finished. The decision was received with great appliance by was received with great applause by the audience, and friends of the de-baters bore them off on their shoulders triumphant.

No Such Coin to be Encountered in Salt Lake Banks.

An attempt to get a gold dollar at one of the banks today elicited the information that there is probably not such a coin in Salt Lake, and that a gold dollar is valued here at \$3; such as are in existence in this part of the country being held by coin collectors. A teller stated that there is very little gold in circulation in the east, the supply be-

This caused further de-bate but lost, after which Fishburn took, occasion to reply to Joseph's charge of inconsistency by stating that the case cited and that under consid-eration were not parallel. He was op-pesed to putting two green men into office at the same time, as they would be worth practically nothing during half be worth practically nothing during half the term to which they were elected. He was opposed to the bill as he did not believe it to be a wise one.

made a rush for the cars, and that oc-casioned a delay before we could get the train backed up and cars coupled on. Then we had some trouble with the air brakes and finally we found the air brakes and finally we found the train was too heavy to pull out of that hole there, so we had to cut off some cars. I told the people that I would have another engine for them in 10 minutes, and we did. Taken all in all, when the tickets are redeemed. I do not think it will be found that 30 people left the train disgusted, or otherwise. The crowd was bigger than we anticipated, and under the circum-stances we did the best we could.
