EXCITING RUNAWAY.

There was a rather exciting runaway on First South street yesterday that came near resulting seriously. While a man and a boy, employes of the Bell Telephone company. Telephone company, were out with a horse and buggy delivering the last fisse of the directory to subscribers in the lower part of town, the boy, was holding the horse when it became frightened and ran away, he managed to keep the animal in the road, but could not sheek its speed in the least. In the vicinity of the Brigham Young college several boys were sled-riding and one of them Owen Smith, fell off in the track of the runaway animal and was run over, receiving rather serious wounds on his head and legs. At the termination of First South street at the Danielson plow factory the horse ran into a lot of barrels near the building and overturned the rig, throwing the boy out: it taen turned north and came in contact with a fence near J. A. McAllister's residence where the buggy was pretty hadly demolis ed. Fertunately the boy escaped without serious injury. serious injury.

Some skin diseases are active in Summer, while others wait until cold weather to manifest themselves. Winter Eczema sleeps in the system through the long hot months, and gives no sign of its presence; but at the coming of Winter the trouble asserts itself and it becomes one of the most painful and distressing of all skin diseases. The blood is filled with poisonous acids which seem to be excited by the cold; and as these are thrown off through the pores and glands, the skin cracks and bleeds, the flesh becomes hot and feverely and as the seem to be comes hot and feverely and the skin cracks and bleeds, the flesh becomes hot and feverish and the itching intense. The natural oils which keep the skin soft and pliant are dried up by the cold, bleak winds, causing it to become hard and dry, giving it that shiny, leathery appearance, characteristic of the disease. The head, face, hands and feet are the usual points of attack, though other barts of the termine is the trouble parts of the body may be affected. So painful and distressing is the trouble that the sufferer constantly "doctors" and treats it trying to get relief. MENDON.

ANOTHER PIONEER SUMMONED. Mrs. Elizabeth Willie Passes Away. Without Warning at 88.

Special Correspondence.

Mendon, Cache Co., Jan. 31.-Another pioneer of '47 has answered the last summons. Mrs. Elizabeth Pettitt Wil-lie, wife of the late James G. Willie, died on Wednesday, Jan. 24. She was well as usual apparently when she re-tired the night before. Her grand-daughter was sleeping with her, and as usual arose and made a fire, then went to awake her grandmother, but found her cold in death, having passed way peacefully in the early hours of

the morning.

Mrs. Willie was born Dec. 3, 1818, at
New Rochelle, Westechester Co., New
York; baptized into the Church. June
27, 1841, and came with her husband 27, 1841, and came with her husband to Utah in 1847; remained in Salt Lake City until the spring of 1859, when she came to Mendon, being among the pioneer founders of this place, sharing in all the vicissitudes of a pioneer life. She was a devoted wife, a loving mother and a friend to humanity, beloved by all who knew her for her kind and genial disposition. She was the first president of the Relief society here, and filled that position for many years. She leaves four children, as follows: William and John S. Willie of Mendon, Mary Richards of Arizona, and Emma Mary Richards of Arizona, and Emma Hughes of Mendon. The funeral was held Monday, and was largely attend-

Special Correspondence.

Mesa, Maricopa Co., Ariz., Jan. 24.—
William A. Kiniballs son of General Wm.
H. Kimball of Salt Lake City, and grandson of the late President Heber C. Kimball, died at Mesa from heart failure superinduced by pneumonia from which he
had been suffering for some three weeks,
on Saturday, Jan. 29. His death was unexpected as it was thought he was on the
high road to recovery. William A. Kimball
was born in Salt Lake City on April 13.
1853. Mr. Kimball came to Mesa some 28
years ago and became identified with the
development of the Salt River valley. He
established for Mesa its first hotel, a
beautiful two-story structure that became
famous as a hostelry. It was destroyed
by fire and he was unable to build again.
He has always been identified with everything that tended to develop the country.
He leaves a wife and two children. His
funeral was conducted by the Knights of
Pythias. of which order he was a member, who were assisted by the Masons,
Odd Fellows and Woodmen.

Mr. Kimball was spoken of as a worthy
citizen and who has left a tender place
in the hearts of his friends.

Beautiful sunshiny weather prevails
here. The weather has been colder than
usual here this winter.

Business is lively and everything looks
hopeful for the future of Mesa. The blocks
that were burned recently are being rebuilt and everywhere is an air of prosperity.

President Lesueur and associates are

built and everywhere is an air of pros-perity.

President Lesueur and associates are having improvements made in the stake tabernacie and are having the grounds fenced and parked, an improvement that will be appreciated. During the past year a great many improvements are apparent. In every direction can be seen new roofs nicely painted; in fact, Mesa never look-ed more inviting.

DON'T LIKE JOINT STATEHOOD.

ed more inviting.

DON'T LIKE JOINT STATEHOOD.

The proposition of joint statehood with New Mexico is very distasteful to all classes of people whom the writer has met in Arizona irrespective of dvery shade of faith and phase of politics. The people feel that they should not be forced to accept statehood under such conditions. One only need to look into the school conditions and educational laws and facilities of the two territories to see the great cause of Arizona's fears.

The people of this part of Arizona are pushing for improvement in every way and hope with the improved conditions to see a great influx of desirable citizens. A class who with industry and intelligence will ald in developing the latent, resources of the country, such a class will be welcomed with a glad hand, and will find ample opportunities to improve their financial status, as this region is truly on the eve of a great awakening. No better openings can be found for the wise investment of capital.

No place can offer a more equable climate, a climate where oranges reach perfection, where olives thrive, where the more tender and lusclous varieties of grapes reach perfection, and ripen in June, two weeks before California—a region well supplied with railroads. Notwithstanding these advantages land and water are reasonably cheap. Such is Mesa and the region surrounding. True, the weather gets hot here is June, July and August, but the rest of the year the climate is almost perfect. To people living in Utah and Idaho, who have to go to lower altitudes and warmer climes, this is an ideal place. People as a rule think of Arizona as one of the uninviting spots, yet the fertile beauty of this vast valley of the Sait river is unsurpassed, a valley as rich as the famous Nile, only awaiting intelligent industry and a reasonable investment to bring wealth to the investor. There is yet room here for hundreds of happy and prosperous homes to be made. Those weary of the coid of the north and want a milder climate, where they can climb to independence,

STILL "KNOCKING" FOOTBALL. President Eliot of Harvard Says the Game is Brutalizing.

Cambridge, Mass., Feb. 2—The American game of football as now played is wholy unit for colleges and schools, according to an opinion expressed by President Charles W. Eliot of Harvard university in his annual report to the board of overseers of the university which was made public today.

He declares that as a spectacle for persons who know the game. football is more brutalizing than prize fighting, cockinghting or buildighting. And for the contestants he believes the rules governing football to be far less humane than the rules which govern the prize ring.

He adds that it is childish to suppose that the athletic authorities who have permitted football to become a brutal cheating, demorshizing game, can be trusted to reform it. The report declares that the game has reached the point where it sets up a wrong kind of hero; that there is no such thing as generosity between combatants, any more than in war; and that all the evils of football have descended into the secondary schools, where they are working great moral mischief.

"Regarded as a combat between highly trained men," says the report. "The prize ring has great advantages over the football field; for the rules of the prize ring has great advantages over the football field; for the rules of the prize ring has great advantages over the football field; for the rules of the prize ring has great advantages over the rotall field. For the rules of the prize ring has great advantages over the rotall field; for the rules of the prize ring has great advantages over the rotall field. For the rules of the prize ring has great advantages over the rotall field; for the rules of the prize ring between two men facing such other is perfectly visible, so that there are no secret abominations as in football. Yet prizefighing is likegal."

Continuing the report declares that football causes an unreasonable number of serious injuries and deaths, that the public has been kept ignorant concerning the number of gravity of these injuries; that many of the serious injuries are of

constantly committed, partly as a result of the passions naturally groused in fighting, but often on well grounded calculations of profit toward victory.

"It is clearly the duty of the colleges which permitted these menstrous evils to

You know them; they are numerous, and make their presence felt everywhere. The names of the family are Headache, Toothache, Earache, Backache, Stomach ache, Neuralgia, etc. They are sentinels that warn you of any derangement of your system. When the brain nerves become exhausted or irritated, Headache makes you miserable; if the stomach nerves are weak, indigestion results, and you double up with pain, and if the more prominent nerves are affected, Neuralgia simply makes life unendurable. The way to stop pain is to soothe and strengthen the nerves. Dr. Miles' Anti-Pain Pills do this. The whole Pain family yield to their influence. Harmless if taken as directed.

"I find Dr. Miles' Anti-Pain Pills an excellent remedy for overcoming head-ache, neuralgia, and distressing pains of all sorts. I have used them for the past seven years in this capacity with the beat of results."

Mr. MacDonaid will in-terview the athletic officials of the Uni-versity of California and Stanford and en-deavor to arrange matches with teams from those institutions.

GLEASON CHOSEN MANAGER. San Francisco, Feb. 3.—John J. Gleason, athletic leader at the Olympic club, has finally been appointed manager of the San Francisco baseball team for the coming season. Gleason has purchased the interest held in the club by Henry Harris, former manager of the team.

ON THE RACE TRACK.

Large Fields and Victory for Four Favorites Feature at Ascot.

Favorites Feature at Ascot.

Los Angeles, Feb. 2.—Large fields were the rule at Ascot today, and four favorites rewarded their backers. Alonga and lady King, both at 10 to 1, won the other two races. The best race of the day was the third, in which Sad Sam, Tim Hurst and Golden Buck finished heads apart in the order named. A bad start marred the fourth race, Blissful being left, and Embarrassment practically left. Weather, fine; track, fast, Results: First race, four furiongs—Alonga, 97 (Preston) 10 to 1, won; Wapnagootis, 105 (Aubuchen) 12 to 1, second; Gamebird, 97 (Scoville) 8 to 1, third. Time—49. Dr. Crook, Captain Jarrell, Nerska, Mrs. Mathews, Royal Ascot and The Yellow Top also ran.

FIGHT FOR \$708 A MINUTE. This is What Terry McGovern and Battling Nelson Will Get.

Battling Nelson Will Get.

"Yes, sir." said Joe Humphreys, Terry Medovern's manager in New York the other day. "Terry and Battling Nelson are to fight for the largest sum of money ever paid by the public to see two men box anywhere in this country, or the world, for that matter."

Joe smiled in his usual broad manner when he made the statement, and it was easy to see that he liked to talk about it. He has been working for this match for a long time, and while, time and again, disappointment seemed to be staring him and Terry in the face, he never let go, and the consequence was that he backed Billy Notan into a corner of the Metropole on a Sanday afternoon not so very long ago and got the foxy Californian's signature.

"The boys will get 15 per come of the agreement, continued Joe, "Naison to get 45, as he's the champion, and Terry 20 per cent. I had to agree to that division, although I think McGovern at any stage of the game would draw as well, if

not better in the east, than the Dane. Anyhow that is the way the money will go. Now the house will surely be crowded, and that means that over \$17,000 will be taken in or this the boys will get \$12,00, or \$1,500 to Neison and \$5,000 to Terry.

be taken in of this the boys will get \$12,500, or \$1,500 to Neison and \$5,100 to Terry,

"A funny feature of this figured out by some Finadeiphia guy the other day lies in the fact that the numers will get \$108,35 for every minute they fight, provided the sky-round boul goes its limit, which takes in eighteen minutes."

Biny Noian the Dame's manager would not believe the National Atmetic club, where the fight will be held in Philadelphia, Muren it, would hold a \$15,00 house, but he was taken over the building and innally convinced. The prices to be charged are from \$1 to \$10 a seat.

In order to increase the seating capacity of the clubdouse opera chairs are to be put in and some alterations made to the side gaicries, which will now seat 28 persons and which are considered choice locations from which are considered choice scatters for himself and the scales of prices made from \$1,000 dian't altogether satisfy Mr. Noiau, its wanted the scales of prices made from \$1,000 dian't altogether satisfy Mr. Noiau, from the lower rates. Mr. Noiau, rather than see the bout go by the boards, magnanimously decided that he would permit Hantling to box for an estimated sum of \$1,500 for six rounds or less.

TROUBLE AHEAD FOR FITZ.

Meddling Preacher Would Keep Bob From Going Into Business.

From Going Into Business.

Dunclien, N. J., Feb. 2.—It was learned today that if the local church folk have their way Bob Fitzsdimmons, cratwille heavyweight champion puglist, will not establish sile proposed physical culture retreat in this village. Rev. Frank Fletcher, known throughout central New Jersey as the "fighting parson," fired his first gun in the contest to keep the puglist out of the town.

Parson Fletcher declared: "We are going to be disarraced further by Fltzsimmons, prizefighter, coming into our midst to open up a sanitarium for the cure of physical wiecks from other places. I hope the Christian people will rise up in their might and keep this prizefighter where he belongs, and not allow him to come here."

TURNER BEAT MULLEN. Has An Easy Time of It-Barney Out

For 15 Minutes. Stockton, Cal., Feb. 2.—Rufe Turner of Stockton knocked out Barney Muilin of Seattle in the first half of the opening round of their twenty-round contest to-night. With a short right swing he stood Muilin on his head and it was a quar-ter of an hour afterward before he knew what had happened. Muilin may be se-riously injured.

FIGHT TRUST THE LATEST. Goldberg Tells All About it and Hopes For the Best.

R. L. Goldberg of San Francisco, writes

R. I. Goldberg of San Francisco, writes as follows;
Brethren, we have been "renched."
After casting a pitying glance eastward over the regions devastated by the ravages of the all-grabbing monopoles and congratulating ourselves upon being so far distant from the center of these shifty trust manipulators, ker-plank!—in our very midst a trust is brought into being that bias fair to make the Standard Oil look like a bankrupt peanut stand and drive all the big trust magnates suicidal despondency.

The new monopoly will not, like the other common money powers, stoop to deal in oil or beef or tripe or any of the other common money powers, stoop to deal in oil or beef or tripe or any of the other common money powers, stoop to deal in oil or beef or tripe or any of the other common money powers, stoop to deal in oil or beef or tripe or any of the other commodities. The stock will consist principanly of human beings and leather. It goes under the name of the San Francisco Boxing Union, Inc., and has cornered all the fight permits for 1906. The controlling interests are held by Coffroth, Levy, W. Britt and Graney, four of the choicest products of our fair city's boxing profession. Two of them used to be fighters themselves, but circumstances have thrown them into the promoting field—circumstances in which we surmise Col. Mazuma had an important speaking part.

we surmise Col. Mazuma had an important speaking part.

You ringsade sailors who are wont to pull away on the big rope and recline with graceful ease in a \$10 seat while the banging affair is going on have cause to tremble. What will you do if the trust raises the price of seats to \$102 per? Suppose they charge \$9 for a gallery seat. You must go to the fight. What can be done? One alternative will be to stop eating. Save all your grub What can be done? One alternative will be to stop eating. Save all your grub money for light tickets. This can be done, provided you have enough strength left to look at the right. If you can fast the year out you win. Another way would be to carry a pair of brass knuckles, a "filmmy," a can of dynamits and a bowl of chloroform. When you go to the pavilion hand them to the doorkeeper. That is, hand them all at once in such a way that he will momentarily loose sight of you beating it tarough the gate.

Another great evil of the new fight trust is power to give the fighters whatever it chooses. If a bruiser wants to "show" in S. F. he must fight for the trust and he satisfied with his end, if it only be an order for a bag of dill This is not saying that the trust will do all these things—only a few fears en-tertained by us common people who would just as leave miss a fight as lose

Make it easy for us, Mr. Trust. COMMON COLDS ARE THE CAUSE

OF MANY SERIOUS DISEASES.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching could could be avoided a long list of dangerous allments would never be heard of.
