

FRAGMENTS.
 Home missionaries in the various wards to-morrow evening.
 Lead quotations: per 100 lbs., \$5.00.
 The electric light is to be introduced into Provo.
 Louis Miller, Esq., will go to Kansas City to-morrow.
 McCracken & Co. to-day received one car Hanaer ore, value, \$2,400.
 Wells, Fargo & Co. to-day received one car Christy bullion, value, \$1,000.
 The Woman's Exponent for April 10 comes to hand, full of interesting matter, as usual.
 Sunday schools will be held in the various wards of this Stake of Zion to-morrow.
 Geo. Goss, Esq., and Mr. N. H. Bacon leave for the East via the D. & R. G. to-morrow.
 Silver quotations, corrected daily by Wells, Fargo & Co.: New York, 107 1/2; London, 48 1/2-1/4.
 Jas. Call, of this city, left for Omaha, and G. W. Morgan and wife, for Louisville, via the narrow-gauge to-day.
 The Fourth Council of Elders will meet in the Fifth Ward meeting house on Monday evening, at 7:30 o'clock.
 The Palace Hotel has closed. It has been running only a few months, and is considerably behind in finances.
 W. L. Gifford, representing the firm of Tucker & Wallace, of Clear Creek, will start for Buffalo to-morrow morning.
 The Raymond excursion company, numbering thirty persons, came down over the D. & R. G. from Ogden, to-day.
 There are fourteen miles of water mains in our city, and they distribute about three million gallons of water daily in warm weather.
 The grand jury held a session this morning and adjourned until Monday morning. They presented four indictments to-day, all under United States.
 The rapidity with which the mud on Main Street is converted into dust, after heavy rains is surprising. Several sprinkling wagons are busily engaged to-day.
 One hundred and ten years ago to-day the British expedition left Boston for Lexington, and on the following day was fought the first battle of the American Revolution.
 Peter Stolanski, a crazy man who created a disturbance on the Tenth Ward bench yesterday afternoon, by throwing stones and rubbish, and otherwise making himself disagreeable, was taken charge of by the police.
 Yesterday afternoon, Bishop James Watson, of the Nineteenth Ward, was served with a subpoena, commanding him to appear as a witness before the grand jury, and the Ward recorder was also summoned, and directed to take the Ward record along with him, that it might be inspected by the critical eyes of the grand inquirers.
 The funeral service over the remains of Sister Clara J. Young, who died yesterday, will be held to-morrow in the Tenth Ward meeting house, commencing at 11 a.m. The hour of 2 p.m. was announced as the time for the holding of the service, but the change has been made to 12 to avoid interfering with the attendance at the regular Tabernacle service, and by request of the President of the Stake.
LOCAL NEWS.
 "Patience"—A meeting of the "Patience" opera company was held in Calder's hall last evening, and statements of the company's accounts submitted. The report of the committee who transacted the business was received and unanimously approved.
 On His Way Home—From the *Millennial Star* of March 30th, we learn that Elder Joseph Lapham, who has been for some time past laboring in the London Conference, has been released from his labors in that land and is now on his way home, having started with the company that sailed on the 11th.
 Arrested—Last evening, Emil O. Olsen was arrested by Deputy Marshal Sprague, on an indictment found by the grand jury, charging him with unlawful cohabitation. He was brought before Commissioner McKay, who fixed his bonds at \$1,000, James Thompson and C. M. Bergstrom being his sureties.
 The Liquor Cases.—The case of Jas. W. Pitts, for selling liquor without a license, will be heard before Justice Pyper, on Tuesday, at 11 a.m., and that of James Spillet, same charge, is set for Thursday at 2 p.m. Both defendants pleaded not guilty.
 Wm. Morgan, also charged with the same offense, pleaded guilty and was fined \$10, which he paid.
 Police Court.—In the Police Court to-day Geo. Lawrence was arraigned, charged with using insulting language to, and disturbing the peace of Wm. Dummer, and, being found guilty, was fined \$20.
 The same individual answered to the charge of disturbing the peace of John Hocking, for which he was assessed \$2.50.
 Wm. McKane was fined \$5 for being drunk.
 E. A. Meyers was arrested on a charge of battery.
 District Court Proceedings.—In the case of Rebecca Slater, administratrix, vs. Jerome B. Paxton, the motion to set aside and vacate the order requiring the Justice of the Peace at Stockton, Tooele County, to transmit the papers in this case, was denied and an execution taken.
 The demurrer in the case of Wm. Fewel vs. William G. Green, which was heretofore argued and submitted, was sustained.
 In the case of the Charter Oak Life Insurance Company vs. Wm. A. Stevens et al., the demurrer to the cross complaint was argued, and was also a motion to strike out a part of the answer.
 Mining Company.—Secretary A. L. Thomas to-day issued a certificate of incorporation to the Boston Tintic Mining Company. This company has been organized under the laws of this Territory, with its principal office in this city, for the purpose of carrying on a general mining business. The capital stock is placed at \$750,000, divided into one hundred and fifty thousand shares of \$5 each, and is fully subscribed for by the following incorporators, who are also the directors: Eleazar Goulding, Franklin Mason, George E. Cutler, of Framingham, Mass.; Wm. F. James and Wm. G. Van Horn, of Salt Lake City. The company's mines are situated in the West Tintic Mining District, Just County, Utah.
 The Utah Eastern.—RECEIVER H. G. McMillan, yesterday filed in the Tintic District Court, a report of his findings as Receiver for the Utah Eastern Railroad Company. It is a report of the property of the company, but as there was considerable snow in places on the road, he thinks it probable that all the property of the company was not seen by him, and asks permission to make an additional inventory of any property hereafter discovered. The principal items property are:
 A constructed line of railway from Coalville to Park City, consisting of roadbed, ties and track, narrow gauge, twenty-three miles, more or less.
 A constructed line of railway from the terminus of the main line at Coalville to the coal mines of the House Coal Company, four miles, more or less.
 Side tracks and switches, 10,717 feet, and switch stands.
 A right of way, graded and improved, from Kimball's station to Salt Lake City.
 Rolling stock, on the road, consisting of two engines, twenty-two coal cars, way cars, engine houses, blacksmith shops, tools, etc.
 The total cost of the road is placed at \$502,912.15, of which sum \$291,236.34 was expended in construction.
 In addition to this property, the Utah & Northern is operating, under lease, one engine, two way cars, and twenty-five coal cars, belonging to the Utah Eastern, the original cost of which was \$35,110. The engine is rented for the sum of \$5 per day, and the cars for three-fourths of a cent per mile for each mile hauled over the Utah & Northern, which has had possession of this rolling stock since August 2, 1884.
 A voucher for \$1,132 was also furnished by the Utah Pacific, being the value of certain tools, fixtures, etc., taken by that company from the Utah Eastern in December, 1883.
 The receiver states that the road has been kept in but indifferent repair since it was closed, in December, 1883, but the level stretch from Coalville to Wanship, could be placed in good condition by a small outlay; the bridge over the Weber River, near Wanship, would require a considerable amount to repair it, as it is in a dilapidated state. After leaving Wanship the road enters Silver Creek Cañon, about seven miles in length, where the grade is much greater and the road is in a bad state of repair. The road crosses the creek in this cañon in many places, and four or five bridges are needed. At one point the creek has carried away about 100 feet of the road, and the bridge is in a bad state of repair. Outside of the washout and bridges, the repairs required over this portion of the road are slight. The route beyond that is through a comparatively unlevel valley. This part of the line is in good condition, and but few repairs are needed. The cars on the road, with those taken by the Utah Pacific, will be sufficient to carry on traffic for some time to come.
 The branch line from Coalville to the coal mines has been operated almost constantly since its construction. In fact, the iron wheels are worn and repairs are needed. One of the engines at Coalville is in good condition and will run, but the other is unsafe without undergoing a thorough refitting.
 From an examination of the books, the gross earnings and income of the road during its operation were, \$79,286, and the running expenses \$14,287, leaving the net earnings \$65,000. The receiver is of the opinion that the same amount of business and traffic during the period of its operation could have been done at an operating expense of at least twenty per cent. less. The greater amount of business and traffic was for hauling coal and freight from Coalville to Park City for the Ontario Silver Mining Company, under a contract. This coal and freight for the Ontario Silver Mining Company was now hauled by the Echo Park City Railroad, a part of the Utah Pacific system, and the same management. The Utah Pacific Railroad company has also been operating the coal mine branch of the Utah Eastern since November, 1883, and the amount of coal hauled during that time was estimated at 250,000 tons. The net freight up and down said branch, and so far as the receiver is informed, no accident has been made with the Utah Eastern or any rental or pro rata paid by the Echo & Park City Railroad for the use of said branch, and the engine and cars.
 The Utah Eastern, as constructed, has no connection with any system of coal roads, and the only coal it can haul, except a small local traffic, is the hauling of coal mined at or near Coalville, to the market at Park City.
 Mr. McMillan has been unable to find what became of the receipts of the road from November 1, to December 31, 1883. A portion of them had been paid to C. E. Wurtelle, one of the directors, and another portion to the Echo and Park City Railroad, and should be accounted for to the Utah Eastern.
 The present value of the road equipment is estimated as follows: Iron, \$84,068.19; rolling stock, \$44,263.25; buildings, fixtures, etc., \$2,291.12; total, \$130,622.56. The cost of putting the road into operating condition at the present time is estimated at \$2,250. The bonded indebtedness of the road, represented by first, second and third mortgage bonds, is \$470,000; on this there became due on April 1, 1885, interest, \$67,600, making the total indebtedness on the first of the present month, \$537,600.
 Relief Society.—Yesterday the Relief Society of Davis Stake was held at Farmington, Counselor Mary Clark presiding. Sisters Phoebe Woodruff and Emmeline B. Wells, of this city, and Sister Jane S. Richards, of Ogden, were present at both morning and afternoon meetings. Reports from the various branches of the Stake were received, and the congregations were addressed by Sisters Woodruff, Richards, Wells, Clark and Hortensia Leonard, and Pres. John Hess and Patriarch Tibbitts, of Davis Stake. There was a good attendance at the meetings, and the best of feelings prevailed. The Society is in a flourishing condition and is engaged in a noble work.
 After the close of the Conference the Primary Association of Farmington, numbering about 130 children, in charge of Sister Aurelia Rogers, met in the hall, when a very interesting programme was carried out, the little ones acquitting themselves in a most creditable manner.
 Home-Made Incubators.—We have received a letter from Jens N. Christensen, of Hyde Park, Cache Co., in which he informs us that he is the maker of the incubator now being operated in Logan, and which a correspondent recently writing to the News from there described as a "big hen's nest." He says he began to make an incubator two years ago and succeeded in hatching 200 eggs, which he sold for \$1.00 each, and is now operating as many as 170, and never less than three-fourths of the eggs; indeed, he says, if the eggs be good and the directions for attending to the incubator be strictly followed they will all hatch. He says, too, that there is no mystery about attending to the incubator, that it is a work which is well adapted for ladies, being both easy and elegant, and withal that it is very profitable. In view of all these facts we see no reason why this method of hatching chickens should not be more generally adopted.
 The Nail Remedy.—A communication appeared in the News a few days since, giving the result of one man's experiment in driving nails into the trunks of trees to prevent the ravages of worms. Upon the same subject Thomas Tew, Sen., writing from Springfield, April 15, 1885, says:
 "Some man told me four or five years ago to drive nails into one trunk of my apple tree and they would prevent the worms from getting into the apples. I drove four nails into the tree, one on each side of the trunk. There has been no worms in the fruit of that tree since, but I never thought of it from that day to this until I saw it in the News."
 Love all, trust a few, do wrong to none.
 TERRITORIAL ITEMS.
 COILED FROM LATEST EXCHANGES.
 Wm. Tompkins was accidentally shot and killed at the International Hotel, in Bellevue, Idaho, on Thursday night last.
 It is reported that a squaw killed a white man recently at Elk River, Idaho. The Indian agent is investigating the matter.
 A one-legged man named Quinn, a rancher from the Yellowstone region, Wednesday morning while laboring under an attack of nightmare jumped from a second-story window of a Butte lodging house, and fractured the remaining member so badly that amputation was necessary.
 Messrs. Carroll and Johnson performed the operation successfully, and although having now no legs at all, he is doing as well as his circumstances will allow.
 About one hundred feet of the new levee which was built last year by Hon. Geo. F. Fox, of Salt Lake, and which flourishes fine, has recently been washed away by the high water of Ogden river. A landslide filled the mill race last year and necessitated the construction of this levee at a large cost to furnish water for the mills. This piece of work was considered capable of withstanding all the natural forces that could be brought against it, and the breach which has now been made is in what was apparently the strongest place, the water mark being about two feet from the top of the bank. Through this misfortune it is probable the flouring mill will be idle for some time, and this, added to the cost of making good the damage, will result in a great loss to the owner.
 A correspondent of the *Butte Miner* states that a most diabolical, as well as successful attempt upon human life, was made in the town of Anaconda, Montana, early last Tuesday morning. A building occupied by eight Chinamen was completely blown up by giant powder, and four of the inmates killed almost instantly, while several others were seriously injured. Two sticks of giant powder had been placed under the building—one near the front and the other at the rear—by some wretch at present unknown. The fuse to each was cut at different lengths, the one near the rear of the building being the shorter. At this end of the building a Chinaman was over the tub washing clothes. At the first explosion the unfortunate heathen was blown out and struck the ground, dead. The others were sleeping in the front room of the building. One of them immediately arose and struck a match. He had just lighted a lamp when the second explosion occurred, killing him and wounding the others. Physicians were soon on the ground attending the wounded, one of whom died while his injuries were being dressed, and another one soon after. Two others will probably die in a few days.
 A Pleasant Journey.—Elder Joshua Greenwood, who left this city on the 14th inst., writes from Pueblo, Colorado, saying that he had a very pleasant journey, thus far, his only inconvenience being some land slides while in Black Cañon. He has been the recipient of many favors from the railroad men, and refers to the scenery along the route as simply indescribable.
 An Accident.—This morning an aged man staggered into the store of Thomas Simmons, in the Eleventh Ward, in a horrible condition. His face was besmeared with blood, which was oozing from an ugly laceration over the right eye. The wound was about three inches long, by one-half inches wide, laying bare the skull, and had evidently been made by a severe blow, probably from a carriage wheel. The injured man refused to disclose his name and was altogether non-communicative. It was finally elicited, however, last evening he had started down the State road in a buggy, to visit a friend, when his horses became unmanageable, and ran away, throwing him out and completely wrecking the vehicle. He at first claimed to be a stranger here, but a job wagon driver who recognized him says that he is known as Billy West, and resides in this city.
 Saints in Burmah.—Elder William Willes, of this city, has just received a letter from a family of Saints in Ringoon, Burmah, by the name of Cooper, whom he baptized while on his recent mission to India. The family consists of a widow, her four sons and four young grandchildren. They are now rejoicing in the Gospel, and are exceedingly anxious to emigrate to Utah, but are unable, from want of means, to do so. The lady has a pension of thirty rupees per month from the government, but is unable to save much, if any, of it. She is a first class midwife, and would be a valuable acquisition to any ward or settlement in our country at present in want of such a person. If any individual or ward could afford to advance the means necessary for her emigration, or, better still, that of the entire family, Brother Willes feels sure that the amount would be honestly repaid. Any parties willing to lend a helping hand in this direction might communicate with Elder Willes, 425 Fourth North Street, Salt Lake City.
 Insect Added to Injury.—We have had occasion to notice many instances during the past few months in which private telegrams or other items of news have been copied from our columns into those of our neighbor, the Salt Lake Herald, and palmed off as original, without the source from which they were gleaned being acknowledged.
 In the least, we express our feelings in the least flattering manner, and have been at this ever since we have had of common courtesy, we have held our peace and refrained from expressing them, but when we find insult added to injury as it was in this morning's issue of that paper, we think it time to reply. Under the head of "Suicide in Parowan," the Herald publishes a telegram clipped from our columns, which cost us \$1.00, and insouciantly adds as a preamble to it:
 "The following dispatch came over the wires yesterday; the fact that it came to the 'press of Salt Lake,' was not sufficient to deter the eviler papers from heading it as a 'special telegram.'"
 Inquiry at the telegraph office elicits the information that the Herald did not purchase that dispatch at all, and what worse, that it is not in the habit of purchasing special telegrams which it can copy from the evening papers immediately after being published.
 In this instance the dispatch was from the Parowan telegraph operator and the telegraph office in this city was therefore entitled to set it, as a special to any paper. Only one other paper besides the News, and that an evening issue, purchased it. In a number of instances heretofore private telegrams from special correspondents to the News, which no other paper could get legitimately, have been similarly copied by the Herald and published as original.
 FOR SALE, CHEAP.

 If you are losing your grip on life, try "Wells' Health Renewer." Goes direct to weak spots.
 BUSINESS NOTICES.
 Dr. E. B. Foote, of New York
 Author of Medical Common Sense, Plain Home Talk, embracing Medical Common Sense, Science in Story, and Editor of Dr. Foote's Health Monthly, is at present in Salt Lake City, on an important business, and while he remains may be consulted by his present and former patients in this region, and by the sick generally, or may be socially interviewed by his readers, who are numerous in Utah.
 Dr. Foote seldom finds it possible to leave New York, where he has a large practice, and his visits to this country are occasional. Those, therefore, who wish to see him should avail themselves of this unique opportunity, such as one may never occur again. His rooms are at the Waldorf House, where he has been from 15 till this date, for a few days only.
 Dr. Foote receives many enquiries from patients in this country, and Dr. Foote, Jr., is in the West. To these enquiries, the Dr. answers, No. Dr. E. B. Foote, Jr., is associated with his father in practice in New York, and Dr. E. B. Foote and his two sons, Dr. E. B. Jr. and Dr. Robert T. Foote, all reside at 120 Lexington Avenue, in the City of New York, are the only physicians by the name of Foote who have been in practice there during the past 25 or 30 years.
 Ayer's Cathartic Pills are suited to every age. Being sugar-coated they are easy to take, and though powerful in effect, they are gentle and searching in effect. Their efficacy in all disorders connected with the bowels is testified to by eminent physicians, prominent clergymen, and many of our best citizens.
 PREPARED BY DR. J. C. AYER & CO., Lowell, Mass.
