COUNSEL FOR PETERSON WILL ATTEMPT TO PROVE JUSTIFIABLE SELF-DEFENSE.

Nephi, Utah, March 23.—The prosecution closed in the Peterson murder case this morning and the defense commenced its side of the case in an opening statement by Attorney Samuel King, who described the premises known as Finn hall at Eureka, where the double killing occurred last Christmas morning. The theory of the defense was stated to be that the trouble had occurred early in the evening between Vick Carlson and Charley Peterson, caused by Carlson using bad language, and that afterwards, when John Backman came to the dance, Carlson's friends had told him of it and that over at Backman's house the matter came up again, and Backman was very angry about it and said: "Boys, we'll fight." Then he went over to the Finn hall and jumped Peterson. The latter jumped from the

TO INCREASE RESERVOIR.

Newton Company Transact Important Business—Divorce Case—Accident.

Special Correspondence.

Logan, March 21.—A meeting of the directors of the Newton Reservoir & Irrigation company was held last Thursday and steps taken to greatly improve the water supply and distribution of the waters of Clarkston creek and the reservoir into which it flows. This is said to be the oldest reservoir in the state, having been built about 35 years ago. It is the only source of supply for the thirty cities of Newton, a mile from Cache Junction, on the west central side of Cache valley. A few years ago Mr. T. R. Martineau, who has a valuable farm near Newton, being unable to get sufficient water for irrigation, conceived a plan for doubling the capacity of the reservoir. The stockholders agreed to the plan and nearly 200 acres of land was purchased. From Clarkston neighbors upon which to back the water raised three feet higher by elevating the dam. The best engineers were consulted and the project was completed much to the benefit of that entire precinct. It is now proposed to replace the old flumes with up to date pipe and valve, and to complete a rather expensive water ditch, began two years ago to carry off the flood waters, which sometimes endanger the great embankment. The present directors are L. R. Martineau, John Griffin, John Benford, Willard R. Ballard and John A. Jensen.

A WORTHY MAN HONORED.

A pleasant surprise was given our ex-Bishop Amasa Tucker on Monday evening, when from 40 to 50 of his old friends assembled to do him honor. They were provided with picnic as well as good will. The affair was arranged so as to prove a surprise to all concerned, the conspirators gaining entrance into the front door while the family was in the back rooms arranging tables, etc., and suddenly the silence was broken with the company singing "Do what is right, etc." The members rushed in and the right hand unfolded to the gaze of the honored gentleman, forced tears to his eyes, and while the singing was going on, the worthy Bishop went around shaking hands, and bidding all welcome. After three companies had sat down to a most enjoyable feast, the remainder of the evening was spent in chatting, singing, speeches and general expressions of good will.

Bishop Tucker has now passed his three score and ten, and is very feeble in health, and almost entirely helpless, as the most of his body is paralyzed, hence the friends gathered left him a nice little purse for his future comfort in addition to the warm place left in their hearts for their kindness.

Last Thursday the Relief society here held their annual celebration in honor of the founding of the first society in

Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs.
