Senator Thomas Kearns and family and Miss Francis Wilson of Park City, Mrs. Kearns' younger sister, will sail for Europe this week. They will remain abroad until the 1st of May.

Fish Commissioner Sharp shipped 40,000 young brook trout to Platte county this morning. He would ship some to Wayne county if it were not for the uncertainties of transportation.

Rev. Dean Harris visited St. Mark's academy yesterday afternoon, and delighted the children with amusing stories and interesting tales. He also recited in a dramatic manner many selections from the poets.

Company I, Twenty-third Infantry, now at Fort Douglas, has been ordered to Fort Wingate to garrison that post. The boys are now packing up preparations for leaving. Company L will remain.

State Superintendent of Public Instruction A. C. Nelson, left on this afternoon's Rio Grande train for Carbon county, to be absent the balance of the week, during which time he will visit and lecture to the schools of that county.

One hundred and eleven residents of the east beach have sent a petition to President Cameron of the Rapid Transit company, asking that the track on east Fourth South be extended to the military reservation. Sufficient patronage is pledged to warrant the extension, Mr. Cameron is thinking it over.

George L. Parker was yesterday sentenced to two months imprisonment by Justice Williams of West Jordan, for stealing an old coat, worth about \$75, from J. W. Goodridge. The sentence was first four months but by a word of expostulation from Acting Assistant County Attorney Smith, the sentence was cut down to two months.

A large crowd stood in front of the Lake House on East Temple street this morning to witness the removal of a broken plate glass window and the placing of a new one. The plate glass cut in measured 10x14 inches and cost \$75. The one taken out was broken some time ago by the falling of a large block of wood used on some trestle work in the window.

The marriage of Mr. Archibald Livingston and Miss May Read will take place at 16 Willard court tonight, Chief of Police Hilton will perform the ceremony. Lieut. G. W. Gibbs reported to the police last evening that someone had stolen his horse and cart. He said he left the rig in front of the Progress

building for some time and when he went to get it it was not there, and no trace of it could be found. A good description of the outfit was given to the police and they are doing all they can to locate it.

One of the most pathetic offices that the humane society has yet been called on to perform is the taking care of a sixteen-year-old girl who is a victim of the morphine habit. She comes from a morphia-eating stock, her grandmother and both of her parents died from its use, and the girl was taught to use it while a suckling babe, so it is affirmed. Dr. Beatty thinks that the girl can be cured.

At the Assembly Hall on Thursday evening, March 21st, will be given a very important lecture on "How Wrong Living Affects the Mind and Character." The speaker, Prof. Mutch, has given many years to the study of human science questions; especially those within the home. He is an authority on foods, hygiene, causes of crime and insanity, etc. The lecture begins at 7:30, all are invited. The lecture is free.

George Grantham, private of I company, Thirty-sixth Infantry, has returned to his home at American Fork after protracted service in the Philippines. He left Utah as a member of battery A, Utah light artillery, and when the boys left for home he was listed in the Thirty-sixth Infantry. He has many complaints to make over the treatment of the American soldiers by their officers. He says that the prisoners are all of Americans, whose sentences range all the way from "boot" to thirty years.

Parson, Leach & company have written City Treasurer Morris, stating they have in charge the \$250,000 water bonds issued last summer, and desire to know where the first installment of interest, due on April 1st, is payable. This incident brings to light the fact that Parson, Leach & Company were connected with the deal made for this issue of bonds by O'Meara brothers, who were supposed to have bought the securities for Shepard & Co. of New York, which will doubtless cause some surprise on the part of those who were called upon to pass upon the legality of the issue.

WARD ENTERTAINMENTS.

On Friday evening next an old time sociable will be given by the association of the Fourteenth ward.

The question of renovating and repairing the well known landmark suggested an old time assemblage with a program allowing for brief reminiscences in Medicine Lodge, the erection of the new ward assembly rooms. Begun in the fifties and in the early sixties it has been a meeting place for all general occasions, being as it is so centrally located. It, too, has been a favored building for within its walls have been heard the voices of church leaders, the Fourteenth ward having been the home of many of them, the late Presidents Taylor and Woodruff among that number.

For many years, too, it filled the place later taken by the Assembly Hall, and now by the Tabernacle, the Sunday afternoon services being the visiting place for tourists and strangers generally, who desired to talk over the past and the future. Among the distinguished visitors of the seventies was Dom Pedro, emperor of Brazil. Prominent speakers were appointed and the face and voice of Orson Pratt were often seen and heard these memories passing through the minds of the ward committee, a desire was expressed that a general invitation be extended to all old members and friends of the Fourteenth ward to meet and talk over the past and the future again a few pleasant moments in the old hall.

An interesting program has been prepared. Refreshments will be served by the young ladies, and a good time is assured. A cordial invitation is extended, all will be welcome. No charge will be made for admission, but an opportunity will be given to aid the committee in its work.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boesche, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an expectorant medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles have been annually. Boesche's German Syrup was introduced in the United States in 1785, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary case. Price, 25 cents. GARFIELD BEACH

TO BE RE-OPENED

Old-Time Resort to Again Enter the Amusement Field.

LINE STANDARD - GAUGED.

Read to be Put Into Shape to Permit a Mile-a-Minute Clip to the Lake.

Garfield Beach will cater to the public this summer. It is to be re-opened with improvements which will include a fast train service out to the resort. The work of standard-gauging the old track will be pushed to a finish just as soon as the material arrives, and when that work has been done, it will be possible for the trains to attain a mile-a-minute clip after leaving the city limits.

While no definite policy has been outlined for Saltair for the coming season and will not be done until President Snow issues a call for another directors' meeting, at the same time it has been stated by several of the directors of the beach company that there would be no intoxicating liquors sold at Saltair during the ensuing summer; consequently with a bar and liquor privileges at Garfield, fast train service and other attractions yet to be decided upon, the Oregon Short Line will be in a position to cut into the resort business this season.

When approached upon the subject this morning, W. H. Bancroft, vice president and general manager of the Oregon Short Line, said: "I suppose we will open Garfield Beach to the public this year, but at the present time I cannot say definitely one way or the other. I am looking for the material to arrive every day, and when we start to work on viaducting the gauge, we will push it through at once. The gauge is now in such shape that it will not take more than ten days to have it standard-gauged out to the lake."

Mr. Bancroft had nothing to say on the point of reduced fares to Garfield, but contented himself with the promise that the line would be fixed up in the near future and that he saw no reason why Garfield Beach should not be opened to the public this summer.

WILL BE ABANDONED.

Athol Hill Cut-off on the Union Pacific Will Not Be Built.

According to the Denver Post the Union Pacific is hurrying its civil engineers and its construction crews westward. All along the line in Wyoming, where nearly ten million dollars have been spent in mining new grades, straightening curves and laying new steel, the order has been given to the engineers in charge to move westward at once, and to turn their work over to the operating department of the road.

Resident Engineer Dunlap, who has been stationed at Laramie for more than two years, has been directed to proceed at once to Aspen, Wyo., where heavy work of improvement is still in progress. He will abandon the dozen office rooms he has used at Laramie and will take his entire force of clerks and engineers to the western part of the State. The work of finishing up the new line between Cheyenne and Rawlins will be turned over to the operating department, and the force of clerks in the office of Assistant Superintendent Whitney at Laramie has been increased by the addition of half a dozen men.

It has been definitely determined that the cutoff on the line between Denver and Cheyenne will not be built. It was to consist chiefly of a tunnel to do away with one of the most troublesome hills on the system. The principal reason for the abandonment of the plan at this time is the necessity for extensive improvements on the Central Pacific, lately acquired by the Union Pacific.

The line from Salt Lake to San Francisco has been much neglected by the Southern Pacific, and the track is in a bad condition, compared with that of the Union Pacific. The rails are all fifty-six pounds, while those on the Union Pacific from Omaha to Chicago now run seventy-two pounds to the foot. On the Union Pacific the speed of passenger trains is equal to that made on any line in the United States, but on the Central Pacific the track does not permit of fast time. This condition has been remedied at once, and instead of spending more money in Wyoming, the company will put several millions of dollars into the improvement of the Central Pacific. So the engineers are being sent out and the year will be a busy one in Utah, Nevada and California.

Until the deal was made by which the Union Pacific got control of the Central Pacific, it was almost certain that the "chief" hill cutoff would be built. The new combination and the greater needs of the Central Pacific have caused a sudden change in the plans.

GIGANTIC CORPORATION.

George Gould Will Combine All of His Roads Into One Company.

New York, March 19.—The World this morning says that George J. Gould has for several days been in conference at his Lakewood home with officers of western roads with a view to combining of the Gould railroads in the West and Southwest into one huge company with a capitalization of \$250,000,000, or \$300,000,000, and with a total of about 12,000 miles.

The chief roads concerned in the proposed deal are: Missouri Pacific, St. Louis, Iron Mountain and Southern Railway company, St. Louis Southwestern Railway company, Texas and Pacific Railway company, Wabash Railroad company. Practically all of the stock of the St. Louis Iron Mountain and Southern Railway companies already owned by the Missouri Pacific. When seen at his home, Mr. Gould refused to confirm or deny the report.

HILL DENIES.

States Emphatically That He Is Not Seeking Control of Burlington.

New York, March 19.—President Jas. J. Hill of the Great Northern railway who is at the Hotel Netherland in this city, denies positively that he is seeking the control of the Burlington system. "It is not true," Mr. Hill said, "that the Great Northern with the Northern Pacific has either purchased a controlling interest in the Chicago, Burlington & Quincy railroad or that we have negotiated a lease of that railroad. We have secured the interest in Burlington stock through Mr. Morgan or Mr. Harriman. We are attending to our own business in our own way, and find that railroad can keep us busy."

Will Not Confer With Men.

quarters here, are emphatic in their declaration that no attention will be paid to the demand of the mine workers of the beach company that there would be no use in holding a conference, as little good ever comes of them. His company, he said, is always ready to meet its own men, and to settle any differences between them and the company. President Walker, of the Lehigh Valley road, said the same thing, and added that notices of the increase of pay already posted in the company's mines were an earnest of the road's disposition.

Explanations Requested.

New York, March 18.—Richard Pineo, today began suit in the United States circuit court against the Erie Railroad company and J. Pierpont Morgan, claiming them to appear and explain why Mr. Morgan, as the controlling trustee of the Erie road, compelled the purchase of the Pennsylvania Coal company in which transaction the complainant alleges Mr. Morgan made a profit of \$9,400,000.

To Be a Leading Port.

New York, March 19.—The Times says: Stirred by the enterprise of the Southern Railway and Seaboard Air Line companies, the local representatives of the Brunswick Dock & Improvement company announce that comprehensive plans have been completed for the development of that property.

To accomplish this, the Brunswick and Birmingham railroad of 10 miles is now in course of construction and the improvements have been made whereby the improvement company will give the road one mile of water front and 100 acres of terminal land, thus enabling the Brunswick & Birmingham road to build its terminal along side the docks of the improvement company. Negotiations are said to be in progress for a junction of the St. Louis and San Francisco road with the Brunswick & Birmingham road.

SPIKE AND RAIL.

W. C. Evans of the Chicago Northwestern has returned from a two weeks' vacation in the East.

Civil Engineer Carl Stradley is in charge of a force of Union Pacific surveyors that is at work east of Evanston.

Agent Dean of Heber is in town today. Mr. Dean was at one time private secretary to Col. Dodge of the Rio Grande Western.

J. Ross Clark and C. O. Whittemore of the San Pedro, Los Angeles & Salt Lake are expected to arrive from San Francisco this afternoon.

S. Higgins, superintendent of motive power of the Lehigh Valley, has been appointed superintendent of motive power of the Union Pacific, vice J. H. McConnell.

The decision on the grade dispute in Nevada has not been given for some time yet to come. The land agent at Carson will file all the testimony taken last week with the authorities at Washington, and they will decide on the merits of the case in due season.

The Canadian Pacific railway has made a radical reduction in passenger charges. Commencing on April 1st, passenger rates on the Pacific division will be reduced 20 per cent, and local round-trip tickets will carry a further reduction.

General Agent Walker of the Chicago Northwestern is general receiver for the mail of Chicago Commercial club which is scheduled to be here on Sunday. He will soon have to get a packing case to accommodate the accumulation of papers and letters.

The Rio Grande Western has secured the contract of hauling the detachment of the Seventh Infantry from Fort Logan, Colo., through Utah on their way to the Presidio. The troops will probably pass through this city in their way west early on Thursday morning.

General Passenger Agent Heinz of the Rio Grande Western proposes to boom Parley's canyon and the Scenic Circle this summer upon lines not heretofore attempted by that road. There are some ideal spots for picnickers and fishermen both in Parley's and Provo canyons.

It is told in railroad circles that the train dispatcher's office will again be moved to this city in the near future, and that as soon as the Sherman hill tunnel is completed the same engine crew will haul passenger trains from Ogden to Rawlins—Rawlins Junction.

Traffic Manager Babcock, General Freight Agent Lenz, General Passenger Agent Heinz, Chief Engineer Yard and C. A. Quigley, manager for Studebaker Bros., left this morning on a trip over the Rio Grande Western system. The special bearing the party will travel every branch of the line are they return.

Today the last train was hauled over the old tracks on Eighth South. As soon as No. 42 pulled out this morning for Park City a gang of men started in to join the cut-off to the line at a point in the vicinity of the State prison. When No. 42 pulls into town this evening it will come in over the Twelfth South line.

PECULIAR BONE FRACTURE.

Bone Has Been Split for Years—An Interesting Case.

To have a fractured arm and not know it was the unique experience of Victor Cook, an 8-year-old boy whose arm is believed to have been in that condition for years. There is no telling when it would have been discovered had not the boy met with an accident that brought on an investigation. The boy lives at Granger and yesterday fell and hurt his arm. The pain was so great that his sister began rubbing the arm and felt a bone that was protruding. She thought that the arm was broken. The father brought him to the city hurriedly and took him to Dr. Benedict. The doctor on feeling the protruding bone concurred in the belief that the arm was broken. The boy was placed under chloroform and an attempt was made to move the arm, but the bone could not be moved. Dr. Benedict was called in to assist, and by a thorough examination it was discovered that the bone near the shoulder had been split, a piece of the bone had been

driven up into the split portion about a half an inch and had grown there, forcing a portion of the bone to protrude about an inch.

The doctors have become very much interested in the case, and propose to exhibit the boy before the medical society next Monday evening.

BUILDERS HOLD MEETING.

Secret Session is Held to Devise Means for Protection.

The contractors and builders of Salt Lake held a secret session last night in the Whittingham block. Though the minutes of the meeting would not be divulged it is naturally supposed that the builders met for the express purpose of getting together on some action that would protect them against the alleged exorbitant demands of the trades union, and other things that tend to jeopardize their business.

Nervousness and Nerve

The more nervous a man is, the less nerve he has. That sounds paradoxical, but it isn't; for nerve is stamina. Hood's Sarsaparilla gives nerve. It tones the whole system, perfects digestion and assimilation, and is therefore the best medicine a nervous person can take.

If you get tired easily, mentally or physically, take it—it will do you good.
