

## BRANSFORD MAKES PLEA FOR REFORM

Annual Message of City's Executive  
Suggests Civic Service  
For Inspectors.

### BETTER FIRE PROTECTION.

Mayor Would Have Department In-  
spect Buildings and Order Dan-  
gerous Features Improved.

The annual message of Mayor John  
Bransford, presented to the city  
council last night, contains many re-  
commendations which show the writer  
to be progressive, in his ideas of what  
constitutes municipal government, and  
that the council is of the same belief  
is shown by the fact that fifty copies  
were ordered printed.

The recommendation made that all  
public buildings should be protected  
against fire, through abuse or care-  
lessness, by fire department inspection,  
is one that will commend itself to the  
council, and the proposition to in-  
crease fire department into the  
conduct of municipal affairs to the  
extent that inspectors of the board of  
public works should pass an examina-  
tion as to fitness, will be commended  
by the public spirited.

Another feature of the message which  
will be appreciated by many prop-  
rietors and owners of buildings is the  
proposal for the paving of streets with  
imported bitumen, will appreciate the re-  
commendation which calls for a  
thorough and careful test of the Utah  
product.

There are many other recommenda-  
tions made by the city's chief execu-  
tive, all of which appear in the message  
which follows in full.

To the Honorable President and Mem-  
bers of the City Council:  
Gentlemen—At this, the beginning of  
a new year, I greet you. The revolution  
of the wheel of time has closed the year  
1908, and brought to us the beginning  
of another and one that is very prom-  
ising for the people of this city.

You will, perhaps, recall the fact that  
in my former message I took occasion  
to refer to the financial and commercial  
conditions prevailing at that time, con-  
sequent upon the widespread industrial  
depression with which our country  
was afflicted; at the same time express-  
ing the hope that this unfortunate con-  
dition would be but temporary, and  
that a year of growth and activity  
awaited our city, such as has not been  
witnessed heretofore in its history. This  
hope has been fully realized; the com-  
mercial and industrial conditions seem to  
have disappeared before the dawn of  
the new year, and the city is again  
witnessing the strength of character and  
the unconquerable energy of all classes  
of our citizens, and as a result we  
are again progressing in the progress of a  
city.

It is unnecessary that I should pass  
in review all that has been accomplished  
by the various departments of the city  
during the past year, for the progress of the work  
committed to their care, from time to  
time and of the expansion of the busi-  
ness and commercial interests of our  
city.

Therefore, I feel justified, in view  
of these achievements, in saying that  
a feeling of pride fills the heart of  
every man and of every woman in our  
city who has its interests and its well-  
fare at heart.

In no line of improvement, possibly,  
have our people shown a more marked  
tendency to progress than in that of  
the many special improvements for which  
applications have been made; and while  
a great number of these have been favor-  
ably acted upon by your honorable  
body, it has been unavoidably necessary  
to reject, or at least defer, action upon  
others. And this for reasons that are  
known to but a few of the persons who  
make such applications.

THE STATE LAW—IMPROVEMENTS  
And the reason is the enormous im-  
pression which many people entertain  
in regard to the manner in which the  
city is progressing, and in that of the  
many special improvements for which  
applications have been made; and while  
a great number of these have been favor-  
ably acted upon by your honorable  
body, it has been unavoidably necessary  
to reject, or at least defer, action upon  
others. And this for reasons that are  
known to but a few of the persons who  
make such applications.

## Dyspeptics

Sugar-coated, tablet, quickly relieve  
Stomach, Heartburn, Nausea, Wind  
in the Stomach, Headache, Sleeplessness  
arising from Indigestion or Dyspepsia.  
They are composed of the  
best digestives, carminatives  
and correctives, and  
are agreeable and economi-  
cal. Put up in three sizes,  
10c, 25c and \$1. Sold by  
all druggists, and sent promptly by mail  
on receipt of price by  
C. I. Hood Co., Mfg. Chemists, Lowell, Mass.

ered as of any value to a remote por-  
tion of the city. Again to grant an ap-  
plication for an improvement in one in-  
stance, and to deny an application for a  
similar improvement in another in-  
stance, irrespective of the fact that in  
both cases the need is an urgent one,  
seems too much like discrimination in  
favor of one as against another part of  
the city. And yet this condition will  
always prevail as long as the city is  
compelled to pay a portion of the ne-  
cessary expense in making such im-  
provements, the reason that funds col-  
lected by taxation and the general re-  
venues of the city will not permit of  
the city doing any more than the funds  
collected will stand.

This is a governing factor, and the  
council should be aware that the property  
owner would directly assume the duty  
of defraying the cost of such improve-  
ments, and I respectfully recommend  
that the action of the legislature be  
called to this matter.

### FIRE DEPARTMENT.

Next in importance to the erection  
of buildings in an expanding city, is  
the duty of maintaining and improv-  
ing them. In this important work, no  
function of our city government de-  
mands more effective administration,  
nor indeed is there a municipal func-  
tion upon which depends so much  
the safety of our homes, and of our  
places of work and business, and the  
lives of our citizens, as upon the per-  
formance of the duty of the fire depart-  
ment. The need of the fire depart-  
ment is a subject of the highest im-  
portance to the city, and the fire depart-  
ment is the organ of the city body  
regarded, that the discipline of the  
city will permit of the fire depart-  
ment being as efficient as that of the  
army. Not only should the efficiency of  
this department be directed to the work  
of properly handling a fire, but it should  
also be directed to the prevention of  
fires, and the fire department should  
be so organized that it will be able to  
prevent the occurrence of one.

I am of the opinion after a thorough  
consideration of the matter, that the  
fire department should be an examination  
of all public buildings to see that they  
are erected and maintained in such a  
manner as to comply with the ordin-  
ances and rules of the fire depart-  
ment. That this might be thoroughly  
attended to, an employee of the de-  
partment should be appointed to do  
this work of inspecting the various  
public buildings, school houses, etc.,  
who should regularly report to the  
chief of the fire department his find-  
ings along these lines, and the chief  
of the department should in his re-  
port to your honorable body the con-  
dition of the buildings at least monthly  
in order that you may be advised  
wherein any failure to comply with  
the ordinances and rules of the fire  
department are found to exist. It  
is a matter of congratulation that the  
personnel of this department is of  
high degree of excellence, and I  
am sure that its efficiency will yet  
reach a higher standard. But it must  
ever be held in view that the city is  
rapidly expanding, the circles of ac-  
tivity and enterprise, the reaching out  
to ever-advancing limits, and that to  
meet these conditions we are required  
to provide for the needs occasioned  
by the growth of the city. It is with  
these conditions in mind that I would  
urge the erection of an additional fire  
station in the southwest portion of our  
city as soon as the financial condition  
of the city will permit. The need of a  
fire station at this point is very evi-  
dent by reason of the increase in  
wholesale places, storage houses, etc.,  
and this matter should receive your  
very earliest consideration.

FINANCIAL  
The board of estimates and appor-  
tionment, created at the beginning of  
the year 1908, made the appropriation  
budget for the year 1909, including the  
city's portion of all proposed im-  
provements, and set aside a specified amount  
to be expended by each department.  
This board also made a statement of  
the contemplated revenues from the  
various sources and the revenues have  
reached the expectation of the com-  
mittee, and in many instances have  
exceeded that of the board of esti-  
mate and apportionment.

The amount expended by the various  
departments, it will be noted in re-  
sponse to every one of the departments,  
has been less than the amount set aside,  
and in some of the departments a great  
saving has been made.

UTAH ASPHALTUM  
Many of our citizens are particularly  
anxious to have our streets paved with  
Utah asphaltum, in place of the Cali-  
fornia product, claiming greater superi-  
ority for the Utah material.

I have given this matter consider-  
able investigation and I am unable to  
determine the question as to which  
material is the best. In order that all  
classes of citizens may be satisfied, I  
would recommend that one block at  
least of the Utah asphaltum be placed  
during the coming year, for the pur-  
pose of testing its qualities. If it be  
found that the Utah product is equally  
good as that of the other, and the  
price proper, then I would recommend  
the use of Utah in place of other ma-  
terial, if the supply can be furnished  
to meet the needs of the city. Your  
honorable body should give this your  
best and most earnest consideration.

### CITY COURTS.

In the report of the city recorder for  
the year 1908 I find that a large num-  
ber of state cases have been filed in the  
criminal division of the city court.  
During the year there were 10 state  
cases filed in this court, of which num-  
ber three were disposed of by fine or  
imprisonment, 98 were bound over to  
the district court, 17 were discharged,  
and 37 were dismissed. For the hand-  
ling of this business by the city court,  
the sum of \$25 was received. It  
appears that under the law the city is  
entitled to receive one-half of all fines  
collected from state cases tried in the  
city courts, and that no other com-  
pensation is allowed the city for the  
taking care of such matters. The city  
is compelled to furnish clerk hire and  
all other necessities for the cases of all  
state cases filed in the city court, and  
the only compensation is the one-half  
of the fines collected. In my judgment  
there should be a change in this pro-

### STREET DEPARTMENT.

The condition of our streets demands  
at all times of the year, but more es-  
pecially in the present season, very  
careful and prompt attention.  
The appearance of our thoroughfares  
leaves a very favorable, or unfavor-  
able impression upon the minds of  
those who visit the city, either with a  
view to locating here, or to making our  
city a meeting place for large and im-  
portant gatherings. By reason of the  
storms which have recently overtaken  
us, the street department has been  
called upon to put forth vigorous ef-  
forts to maintain the streets in a good,  
passable state, and I desire to express  
my appreciation of the efforts alike of  
the business man and of the citizens  
generally to clear the sidewalks down-  
town and in the residence district.

### BOARD OF HEALTH.

Upon this department lies in a large  
degree the responsibility of caring for

the health of the people, so far as this  
can be done by vigorous supervision of  
all sanitary appliances and successful  
attention bestowed upon the sanitary  
surroundings where culpable neglect or  
carelessness would develop a condition  
injurious to the health of the public.  
The present time the city is in a very  
fair condition, the actual death rate  
for last month being but 1.04 per 1,000.  
A glance at the statement of this de-  
partment contained in "vital statistics  
for November," shows that this is a  
very important function of the board of  
health. The work of inspection in this  
department cannot be too vigorously  
enforced. The report in the latest docu-  
ment would seem to indicate that milk  
is a prominent factor in the production  
of certain diseases. I need not insist  
upon what is well known to you, and the  
necessity of a supply of pure milk,  
and in this the food inspector and the  
board of health should use every effort  
to insure that nothing but the purest  
milk be sold within the city limits.  
I would recommend that every ef-  
fort be used to the end that all places  
be connected with sewer wherever the  
sewerage is not complete, and the water  
supply should be encouraged to avail  
themselves of this improvement.  
Every possible assistance should be  
rendered this department in the inter-  
est of good health for all our residents.

### BOARD OF PUBLIC WORKS.

The magnificent showing which this  
department has made during the year  
each member of your honorable body  
is familiar with. The water works, the  
street paving, the sewerage system, the  
walkways, which have been completed, the  
sewer construction and other works of a public  
nature which have been under-  
taken and others which have been un-  
der the supervision of this board all  
testify to its contribution of labor to-  
ward improving the physical aspect of  
the city, as well as in conducting to  
the physical welfare of the people.  
Toward supplying the city with a  
bountiful supply of pure water, and in  
providing the city with sewer con-  
struction, and in absolutely necessary  
things in the modern city, a tremen-  
dous work has been accomplished. Very  
recently the city engineer, through the  
medium of the press, furnished  
correct data, relative to the amount  
of work completed during the year.  
From this report it can be readily seen  
that our city is progressing along all  
lines.

At this juncture I would remind you  
that in the matter of inspection of the  
various lines of work which come un-  
der the direct control of the depart-  
ment of public works, some care  
should in the future be exercised. The  
efforts of all the departments toward  
building up a greater Salt Lake City  
which our city is commanding  
from every financial center in the  
country, as well as from every organ-  
ization devoted to the well being of  
every citizen in the United States, pur-  
sue us in being proud of Salt Lake  
City as a place to live in.

### CITY STABLES—SUPPLY HOUSE.

The present system of caring for  
the horses and equipment of the  
departments of the city, in my judg-  
ment, should be changed. The street  
department has its horses and equip-  
ment in one portion of the city, the  
water works department in another  
portion of the city and several of the  
departments are compelled to keep  
their horses in private stables, for  
which the city is required to pay a  
monthly amount for the feed and care  
of such. This method is not con-  
ducive to good administration. There  
should be a city stable and supply  
house centrally located and so situat-  
ed as to meet the requirements of all  
the departments of the city govern-  
ment.

The city should purchase land, or  
exchange some of the lands now  
owned by it for sufficient land upon  
which to erect city stables and supply  
houses. This should be operated un-  
der one head with a view to economy  
and convenience. I submit this recom-  
mendation to your honorable body,  
and hope that you will give the mat-  
ter your earliest consideration.

FINANCIAL  
The board of estimates and appor-  
tionment, created at the beginning of  
the year 1908, made the appropriation  
budget for the year 1909, including the  
city's portion of all proposed im-  
provements, and set aside a specified amount  
to be expended by each department.  
This board also made a statement of  
the contemplated revenues from the  
various sources and the revenues have  
reached the expectation of the com-  
mittee, and in many instances have  
exceeded that of the board of esti-  
mate and apportionment.

The amount expended by the various  
departments, it will be noted in re-  
sponse to every one of the departments,  
has been less than the amount set aside,  
and in some of the departments a great  
saving has been made.

### UTAH ASPHALTUM.

Many of our citizens are particularly  
anxious to have our streets paved with  
Utah asphaltum, in place of the Cali-  
fornia product, claiming greater superi-  
ority for the Utah material.

I have given this matter consider-  
able investigation and I am unable to  
determine the question as to which  
material is the best. In order that all  
classes of citizens may be satisfied, I  
would recommend that one block at  
least of the Utah asphaltum be placed  
during the coming year, for the pur-  
pose of testing its qualities. If it be  
found that the Utah product is equally  
good as that of the other, and the  
price proper, then I would recommend  
the use of Utah in place of other ma-  
terial, if the supply can be furnished  
to meet the needs of the city. Your  
honorable body should give this your  
best and most earnest consideration.

### CITY COURTS.

In the report of the city recorder for  
the year 1908 I find that a large num-  
ber of state cases have been filed in the  
criminal division of the city court.  
During the year there were 10 state  
cases filed in this court, of which num-  
ber three were disposed of by fine or  
imprisonment, 98 were bound over to  
the district court, 17 were discharged,  
and 37 were dismissed. For the hand-  
ling of this business by the city court,  
the sum of \$25 was received. It  
appears that under the law the city is  
entitled to receive one-half of all fines  
collected from state cases tried in the  
city courts, and that no other com-  
pensation is allowed the city for the  
taking care of such matters. The city  
is compelled to furnish clerk hire and  
all other necessities for the cases of all  
state cases filed in the city court, and  
the only compensation is the one-half  
of the fines collected. In my judgment

### STREET DEPARTMENT.

The condition of our streets demands  
at all times of the year, but more es-  
pecially in the present season, very  
careful and prompt attention.

### BOARD OF HEALTH.

Upon this department lies in a large  
degree the responsibility of caring for

## Fifty Cents a Month

A small bottle of Scott's  
Emulsion costing fifty cents will  
last a baby a month—a few drops  
in its bottle each time it is fed.  
That's a small outlay for so large  
a return of health and comfort.  
Babies that are given

## Scott's Emulsion

quickly respond to its helpful  
action. It seems to contain just  
the elements of nourishment a  
baby needs most.  
Ordinary food frequently lacks this  
nourishment; Scott's  
Emulsion always supplies it.

Send this advertisement, together with name of  
paper in which it appears, your address and we will send you a  
copy of our "Complete Handy Atlas of the World" FREE.  
SCOTT & BOWNE, 400 Pearl Street, New York

ceding, so that proper allowance will  
be given the city, and I suggest that  
the matter may be referred to the pro-  
prietors and presented to the  
legislature, with a view to making prop-  
er provision for the expense of caring  
for all state cases filed in the  
city court.

### BONDS.

During the month of July, 1908, a  
special election was held for the pur-  
pose of authorizing the issuance of an  
additional \$500,000 in bonds for the im-  
provement of the water works and  
sewer systems of the city. The elec-  
tion resulted favorably and the bonds  
were authorized. The legality of the  
issue was called in question, and the mat-  
ter was taken into court to determine the  
right of the city in this matter and  
the supreme court very recently  
held that the bonds were legal. I hope  
that every citizen will be directed to a  
speedy compliance and that the pro-  
posed improvements will be rushed to  
completion.

### CONCLUSION.

It is very evident that the year just  
closed has been one of distinct ad-  
vancement. Improvements have been  
effected along all lines. Educational  
facilities have been enlarged, the con-  
ditions resulting from the aggregate  
efforts of all the departments toward  
building up a greater Salt Lake City  
which our city is commanding  
from every financial center in the  
country, as well as from every organ-  
ization devoted to the well being of  
every citizen in the United States, pur-  
sue us in being proud of Salt Lake  
City as a place to live in.

I desire to express to you gentlemen  
my appreciation of the work you have  
accomplished and the results you have  
been enabled to achieve. I trust that  
the relations of harmony and confi-  
dence will be maintained between all  
departments of the city government  
and that a united effort for the making  
of greater Salt Lake City will be the  
slogan for the year 1909.

Commending the various recom-  
mendations and suggestions you have  
been enabled to achieve, I am, very respectfully,  
J. S. BRANSFORD,  
Mayor.

## BUT ONE WOMAN SURVIVOR REMAINS

Death of Mrs. Phoebe Lodema Thomp-  
son, who Accompanied the Mormon  
Battalion on Historic March.

Mrs. Phoebe Lodema Thompson, who  
for some years had been one of the two  
women survivors of the Mormon Bat-  
talion, died yesterday at Parker, Idaho,  
after having been in the hospital for  
several months. She was a daughter of  
Samuel and Phoebe Merrill, and was

born at Elba, N. Y., Aug. 5, 1832. While  
she was yet a child the family became  
members of the Church, and were in the  
exodus from Nauvoo.  
When the Mormon Battalion was  
formed in July, 1846, Phoebe Lodema  
Merrill volunteered to go as a nurse, al-  
though she was only in her fifteenth year.  
Her brother, William C. Merrill,  
was adjutant of the battalion, and his  
sister, Phoebe, was the wife of Thos.  
S. Williams, another officer.

The hardships and privations of the  
men of the battalion were almost with-  
out a parallel in history, and what  
the women passed through during the  
campaign was equally severe. The bat-  
talion was sent to fight the Battle of  
Palo Alto, New Mexico, Col. St. George  
Cook determined to retain the battle  
advisors who were sick, with women and  
children, and these he sent under com-  
mand of Capt. James H. Brown to Pueblo,  
Col., where they were to remain until the  
city of Pueblo, Colo., was secured. There  
the little band passed the winter of 1846-47,  
surrounded on all sides by Indians and  
by the more dangerous Mexicans, as a  
result of which many of the women  
died. The handful of men drilled daily to  
make a show of force, and the women  
all but carried off. Richness and ad-  
miration was the lot among men,  
women and children, and many deaths  
occurred of old and young. Phoebe  
Lodema Merrill performed heroic labors  
for the sick and suffering, and was  
Joseph Williams, a brother of the late  
Franklin D. Williams, who died in her  
arms as the young nurse tried to raise  
him.

In the spring of 1847 the detachment  
left Pueblo, and the wife of President  
Brigham Young and his band of pioneers,  
and all but overtook them, arriving in  
the valley but few days late.

Mrs. Thompson is survived by the fol-  
lowing children: Mrs. Dora Clegg, and  
Miss Helen Clegg, of El Paso; Mrs.  
Luella Raymond of McCammon, Samuel  
Clegg of Wilford, Idaho, and a son,  
John Clegg, of this city, and Marion, Clegg  
of Butte, Mont. Her sister, Mrs. Albina  
Williams, is still living, aged 82 years,  
and the only woman survivor of the  
battalion. Mrs. Thompson will be buried  
at Parker Wednesday.

Piles Cured in 6 to 14 Days.  
PAZO OINTMENT is guaranteed to  
cure any case of Piles, Blood-  
ing or Itching, in 6 to 14 days,  
refunded if not cured.

### INFORMATION WANTED.

Bishop Charles W. Nibley is in receipt  
of a letter from Elder K. U. Wingo,  
who is laboring in Nome City, Alaska.

Inquiring as to the possible whereabouts  
of a brother of Mrs. or Mrs. Edith Ous-  
man, or Ougman, who was found there  
kneeling by her bedside dead under sus-  
picious circumstances. The latter states  
that Miss Ougman was interviewed at one  
time in the management of the "Blondie"  
story in this city, and that about her  
death the body has been lying in a  
vault at the above place. Any informa-  
tion relative to the matter will be glad-  
ly received by Bishop Nibley.

## MERCHANTS PAY MORE WHEN SALOONS CLOSE

Sheriff Sharp's Report Shows Decrease  
in Liquor Licenses and Increase  
in Legitimate Business.

According to the annual report of  
Sheriff Sharp, submitted to the county  
commissioners yesterday afternoon, the  
revenue to the county from the sale of  
liquor licenses, has decreased to  
\$1,399.27 since the previous year, and  
the revenue derived from the license  
fee paid by merchants, butchers and  
others, is greater by \$971.27.

The report shows that during the  
year there were 875 prisoners received  
at the county jail, of whom 76 were  
sent to the penitentiary, out of the  
345 convictions.  
The fees received in the civil de-  
partment and jail, amount to \$7,468.42.

DON'T RELY  
ON NATURE ALONE  
to restore your stomach to a normal  
condition, to keep the bowels free  
from constipation and to make your  
nerves steady. It is a far better and  
quicker plan to add the assistance that  
can only be obtained by taking a  
short course of

## HOTSETTER'S STOMACH BITTERS
