

PANAMA CANAL APPROPRIATION.

House Compromises on \$11,000,000 Instead of the \$16,500,000 Asked For

CAUSES A SHARP DEBATE.

Clark of Missouri Thought Supplies Should be Bought by Other Agents As Well as Those at New York.

Washington, Dec. 7.—An appropriation of \$11,000,000 was voted today toward the construction of the Panama canal. The amount was a compromise between the \$16,500,000 carried in the bill under consideration and an estimate of something over \$8,000,000 recommended by Mr. Williams, the Democratic leader, to carry on the work until the middle of January. Mr. Hepburn, in charge of the bill, suggested that something over \$11,000,000 would carry on the work until March.

There was no intention manifest to delay the work, the only argument for cutting down the original estimate being that closer scrutiny might be had of the estimate. The bill was amended in accordance with suggestions of Mr. Mann of Illinois, directing the president to require annual reports from canal officers covering all details of the work, requiring such information as may be desired and restricting all expenditures appropriated by Congress and to that required by the operation of the property of the Panama railroad.

Otherwise the bill was not amended, and it contains besides the appropriation, a provision removing a tax distributed against the proposed bonds to be issued for the construction of the canal, thus placing the bonds on a footing with other government bonds, as available for security for national bank circulation and to reimburse the treasury for the money appropriated in the bill.

The bond provision in the bill was a point of attack today. Mr. Williams offered several unsuccessful amendments, all seeking to abandon the policy of issuing bonds for the canal work, on the ground that there is sufficient available funds in the treasury to meet all needed demands for the canal work. Mr. Overstreet did not succeed in amending the bill so that the \$10,000,000 already expended in canal construction might be refunded to the treasury from the sale of the canal bonds.

CONTRIBUTIONS TO CAMPAIGN FUNDS.

Those by Life Insurance Companies Occupy Time of The Senate.

TILLMAN ATTACKS McCURDY.

Congratulates Senator Platt on His Straightforward Testimony—Regrets Cleveland Ever Was Elected.

Washington, Dec. 7.—The subject of campaign contributions by insurance companies occupied the major portion of the time of the senate today. It came up in connection with Mr. Tillman's resolution calling for an investigation of national banks' aid in politics, and was exploited by the South Carolina senator in a speech of some length.

The address dealt with the president's recommendations for the punishment of bribery in elections, with Senator Platt's testimony before the New York investigation committee and various pertinent matters. It was couched in characteristic language and attracted much attention.

The resolution directing the secretary of the treasury to report whether the reports of national bank examiners show that the banks have made campaign contributions in recent years was adopted at the close of Mr. Tillman's remarks.

A large number of bills were introduced, among them being the Joint stock bill.

At the beginning of today's session of the senate the president designated Messrs. Lodge and Bacon to serve on the board of regents of the Smithsonian institute.

Mr. Tillman called up his resolution calling upon the secretary of the treasury for information as to whether the reports of bank examiners show the payment of campaign contributions by national banks, and addressed the senate. Outlining his reason for the inquiry, he called attention to the recommendation of the president in his annual messages of 1904 and 1905 for the enactment of a law for protection against bribery and corruption in connection with elections.

He suggested that with any amount which Congress may think due him be added to the contemplated appropriation for ornamenting the crypt of the chapel at Annapolis, which has been made the permanent resting place of Admiral Jones' body.

A TERRIBLE EXPERIENCE.

Vancouver, B. C., Dec. 7.—A special from Dawson says: George Kneib, chief engineer of steamer Seattle No. 2, is the first man to arrive over the ice from Fairbanks. He was 26 days making the trip. He had a terrible trip, having escaped death so often that the mere plunge in the river far from a habitation became almost a daily occurrence. He says that for 30 miles above Chitina the ice is piled from 10 to 30 feet high.

He reports but little grub in the Canadian country and none whatever in the Delta country. In the latter district many who did not have outfits for the winter had to go to Fairbanks.

BULLOCK VISITS ROOSEVELT.

Washington, Dec. 7.—Capt. Seth Bullock, superintendent of the Black Hills forest reserve, who has been nominated by the president as United States marshal of South Dakota, called on the president today. Capt. Bullock is in Washington to attend a conference of the superintendents of the various government forest reserves. New regulations have been drafted and will be put into effect soon.

WORK OF VANDALS.

Florence, Italy, Dec. 7.—Thieves today entered the church of St. Lawrence, in the village of Cassella Torri, and tried with the aid of chisels to remove from a wall a beautiful mosaic representing the twelve apostles, the work of Michael Angelo. The effort was not successful, but the work has been badly defaced.

WE DON'T MIND THE MONEY—THE MONEYBACK MONEY—there isn't much of it.

ATTEMPT AT MURDER.

Napa, Cal., 7.—E. Igoardo, who is employed on the farm of J. Pacheteau, near Calistoga, made a desperate attempt to kill Mr. Pacheteau this morning and then inflicted fatal injuries on himself.

Igoardo made an entrance into Pacheteau's house while he and his wife were lying asleep in adjoining rooms. Igoardo made an attack on the niece, but her outcries frightened him from her. He then drew a long knife and savagely attacked Mrs. Pacheteau. He stabbed the latter severely on the right side of the breast, and his loosening hold of the knife was all that prevented him from killing Mr. Pacheteau. He then left the house and ran to the right side of the breast, and his loosening hold of the knife was all that prevented him from killing Mr. Pacheteau. He then left the house and ran to the right side of the breast, and his loosening hold of the knife was all that prevented him from killing Mr. Pacheteau.

seized a razor and cut his throat in a terrible manner. He severed his wind pipe in three places. He also made several deep and long gashes on his abdomen.

Igoardo was brought to Napa this afternoon and is not expected to survive his injuries. Mr. Pacheteau is in a serious condition tonight.

PAUL JONES' REMAINS.

Gen. Porter Does Not Wish to be Reimbursed for His Outlay.

New York, Dec. 7.—Gen. Horace Porter, former American ambassador to France, has written a letter to Congressmen Henry T. Rainey requesting that the congressmen abandon his proposed intention to move an appropriation by Congress to reimburse Gen. Porter for the sums expended in the work of recovering the body of John Paul Jones.

Gen. Porter says that he regarded the work as purely personal undertaking, performed without any intention of looking to the government for reimbursement. He suggested that with any amount which Congress may think due him be added to the contemplated appropriation for ornamenting the crypt of the chapel at Annapolis, which has been made the permanent resting place of Admiral Jones' body.
